PART II.

Advertisements.

N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 20th October 1885, corresponding with 3rd Kartic 1293 Fusli.

The purchasers will be subject to the following conditions of sale—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

Port Commissioners' office, the 1st October 1885. (639—3) By order of the Commissioners, R. A. DONNITHORNE, Secretary.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c ft
Under 12 and over 7, at ,, 2-4 ,,
Under 7 feet at ,, 2 ,,

The above prices are for ordinary building purposes. For *Planking, Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1883.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Aughrahyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

Notice.

GYA MICA MINES.

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

Calcutta Steam Navigation Company, Limited.

NOTICE OF CALL.

IN accordance with Resolution 3 passed at the Seventh Ordinary General Meeting of Shareholders held on 18th August 1885, notice is hereby given that a call of Rs. 15 (fifteen) per share will be payable at the registered office of the Company, 38, Strand, Calcutta, on 2nd November 1885.

HOARE, MILLER & Co., Managing Agents.

Calcutta, the 18th September 1885. (602—3)

East India Tea Company, Limited.

NOTICE is hereby given that the Forty-sixth Half-yearly Ordinary General Meeting of Shareholders of the above Company will be held at the registered office, No. 4, Mangoe Lane, Calcutta, on Saturday, the 31st current, at 12 o'clock noon, for the purpose of receiving the Directors' report, passing the accounts for the half-year ended 30th June last, and transacting such other business as may be brought before the meeting.

By order of the Board,

WILLIAMSON, MAGOR & Co., Secretaries.

Calcutta, the 6th October 1885. (657—3)

E. HUTTON, Presy Postmaster.

General Post Office, the 7th October 1885.

Money Order exchange between India and Hawaii.

ON and after the 1st October 1885, money orders may be issued at any Post Office in India for payment in Hawaii (Sandwich Islands).

2. The rates of commission and general conditions for such orders will be the same as those prescribed for orders on countries which are served through the United Kingdom (*vide* clauses 265 and 267 of the *Indian Postal Guide* of April 1885), viz.—

			Rs.	A.
On sums not exceeding	... £ 2	... ...	0	4
„ exceeding	„ £ 2	and not exceeding ... £ 5	0	8
„ „	... £ 5	„ „ ... £ 7	0	12
„ „	... £ 7	„ „ ... £10	1	0
„ „	... £10	„ „ ... £12	1	4
„ „	... £12	„ „ ... £15	1	8
„ „	... £15	„ „ ... £17	1	12
„ „	... £17	„ „ ... £20	2	0

NOTE.—A deduction will be made by the London Post Office from the amounts payable to the payees at the following rates—

For sums not exceeding	... £ 2	...	3*d*.
„ exceeding	... £ 2 but not exceeding	... £ 5	... 6*d*.
„ „	... £ 5 „ „	... £ 7	... 9*d*.
„ „	... £ 7 „ „	... £10	... 1*s*.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 28th September 1885.

Exchange of Parcels with Gibraltar.

FROM the 1st of October 1885, parcels will be received at any Indian Post Office for transmission to *Gibraltar*.

2. The limit of weight for such parcels will be 7 pounds.

3. The rate of postage, and the conditions as to size, contents, value, customs declarations, and manner of posting generally will be the same as those prescribed for parcels addressed to the United Kingdom and intended for delivery through the British Post Office.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 1st October 1885.

Parcel Post with the West Indies.

ON and after the 1st October 1885, parcels will be received at any Post Office in India for transmission to the following places in the West Indies—

Jamaica. | St. Lucia.
Grenada. | Tobago.
Trinidad.

2. The rate of postage for parcels addressed to these places will be one rupee for every pound or fraction of a pound weight.

3. The limit of weight for such parcels will be 7lb, and the conditions as to size, contents, limits of value, &c., will be the same as those for parcels addressed to the United Kingdom for delivery through the British Post Office, except that parcels intended for Jamaica may not exceed 2 feet in length and 4 feet in girth.

4. Each parcel must be accompanied by a customs declaration in the prescribed form, as in the case of parcels intended for the United Kingdom.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 28th September 1885.

Extension of Value-Payable system to Unregistered Book-packets.

FROM and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the *prescribed form* containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certificate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable *parcels* and value-payable *registered* articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 19th September 1885.

Parcels to be presented with receipts ready filled up.

UNDER the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120, dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the *prescribed form*. This will be signed and returned to the messenger. Forms will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

5. An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 19th September 1885.

Despatch of samples of wool to Portugal prohibited.

INTIMATION has been received from the Post Office of Portugal that the admission into that country *via* Spain of samples of woollen fabrics or of raw wool of any kind has been temporarily prohibited on account of sanitary measures adopted by the Portugese Government against the spread of cholera.

2. Until further notice therefore no samples of wool in any form can be forwarded by post from India to Portugal.

H. F. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 14th September 1885.

P. B. ROBERTS, C.E., *Executive Engineer, Nuddea Rivers Division.*

Berhampore, the 5th October 1885.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st.*—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd.*—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd.*—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

RESOLUTION OF THE GOVERNMENT OF BENGAL IN THE REVENUE DEPARTMENT ON THE RECENT FLOODS IN BENGAL.

Dated "Rhotas," the 3rd October 1885.

IN the Resolution of the 29th September 1885, published in the *Calcutta Gazette* of the 30th idem, the Lieutenant-Governor noticed briefly the approximate area affected by floods in different districts of Bengal, and proceeded to review in fuller detail the prospects of the crops and the condition of the people in those parts of the country which had come under his personal observation during his tour through the districts of Hooghly, Burdwan, and the western parts of Nuddea. In paragraph 7 of that Resolution, it was observed that in the district of Nuddea the effects of the inundation had been especially severe throughout a central zone comprising thanas Tehatta, Chapra, Hanskhali, and parts of Kissengunge and Aranghatta. This tract of the country is traversed by the river Jellinghi, and the Lieutenant-Governor passed through the centre of it in his journey from Kishnaghur to Berhampore. All along the course of the Jellinghi, from its junction with the Bhagiratti at old Nuddea to the mouth of the Bhoirab near Madhupur, large areas of lowlying land were then under water, although the river had sunk three feet nine inches from its highest flood level. Here, as in the Hooghly, the spill of the flood waters had oscillated from bank to bank according to the levels of the country, and tracts of high land alternated with long stretches of flooded low lands. Thus in the north-east corner of thana Nekasipara, where the Kulmah khal joins the Jellinghi,

the floods extended to the west as far as the eye could reach, and the water appeared to have only lately receded from the village sites. A few miles higher up in the villages of Chanderghat, Koostea, and Hanspookooria, where the Lieutenant-Governor landed, he ascertained from the villagers that *kalai* had been sown on all the higher lands, and in some places the new crop was already visible above ground. In thana Tehatta, to which these villages belong, the *aus* is stated to form 11 annas and the *aman* 5 annas of the rice crop of the year. Of the *aus* about 6 annas have been saved, as the crop was fairly forward, while all of the *aman* except about 2 or 3 annas will probably be lost. To compensate them for this disaster, the ryots have the promise of an unusually abundant cold weather crop, and the fertilizing effect of the inundation will guarantee a plentiful yield of both rice and *rabi* for several years to come. So high indeed is the value set by the cultivators upon the layer of silt which the floods leave behind, that in both Nuddea and Moorshedabad the Lieutenant-Governor was informed by non-official gentlemen of wide local experience that cultivators had admitted in conversation that if they had to choose between a flood as extensive as the present one and no flood at all, they would prefer the former alternative, even with the loss it had caused.

2. In the Moorshedabad district the total area affected by the floods is roughly estimated at 1,250 square miles. Along the northern border of the district the Ganges floods, commencing early in August, inundated nearly the whole of the Jungipore sub-division and a tract of country extending from Bhugwangola to the junction of the Ganges with the Jellinghi. On the 23rd August the embankment on the right bank of the Bhagiratti, which is prolonged to Akrigunge, and thus in some measure protects the central portion of the district from the Ganges flood, burst at Lalitakuri, about 20 miles north of Moorshedabad. The flood water from this breach passed off to the south and south-east along the lines of the Gobra nadi and the Bhoirab river, inundating the entire tract of country between the Bhagiratti and the Sialmari nadi, down to the southern border of the district, whence the floods spread into Nuddea. Besides these main inundations, the spill from the western bank of the Bhagiratti extended to a portion of the Kandi sub-division on both banks of the Dwarka or Babla nadi, and a smaller area further west was flooded by the rising of the river Mor.

3. At a conference held at Berhampore on the 1st October, the Collector, who had been very active in his enquiries, and had visited nearly every part of the flooded area, explained to the Lieutenant-Governor the effect of the inundations on the different tracts of country comprised in Moorshedabad district. It appears that in the high undulating lands to the west of the Bhagiratti known locally as the Rarh, *aus* rice is not grown at all, and that the only cold weather crop is *surgujia* and similar oil-seeds planted in small quantities on high ridges. The staple food crop of this part of the district is a very fine variety of transplanted *aman* rice, which yields after husking the high proportion of 30 seers of rice to a maund of paddy. During the last two years the rainfall in the Rarh has been comparatively scanty, and the *aman* rice—a crop peculiarly dependent upon a plentiful supply of rain—has suffered greatly. The heavy rain of the present year, though flooding some low lands in Kandi and parts of the Rarh country in Jungipore, have on the whole done great good to the *aman* rice, of which an unusually large quantity is said to have been planted. Great benefits are also anticipated by the cultivators from the destruction of the caterpillars and other insects which did great damage to last year's *chaitali* crop. In the Bagri, or lowlying lands to the east of the Bhagiratti, the *aus* rice forms three-fourths and the *aman* barely one-fourth of the rice crop of the year. *Rabi* or *chaitali* crops are largely grown, and 12 annas of the total food supply of this part of the country is said to be derived from *kalai mung*, wheat, barley, and similar staples. Here, as in Hooghly and Nuddea, the proportion of the *aus* rice that has been lost varies greatly according to the elevation of the country and the comparative forwardness of the crop. Highlying villages, where the *aus* happened to be forward, may, it is said, have saved as much as 10 or 12 annas, while in other places where the plants were overtopped in an unripe state there has been a total loss.

4. In his journey up the Bhoirab to Islampore, and again in travelling across country from the latter place to Berhampore, the Lieutenant-Governor passed through the centre of the area flooded by the breach of the Lalitakuri embankment; and his impressions fully bear out the views expressed to him by the local officers. These may be summed up by saying that the disaster which has befallen the people of the affected districts, though causing much hardship and discomfort for the time being, has done little or no permanent harm to the cultivating classes, and in fact has ensured to them for the next few years crops far more abundant than those which they have lost. Landless day-labourers, however, and those cultivators who have been brought into a reduced state by the short crops of previous years, necessarily suffer more acutely, and it is on behalf of these classes that the Lieutenant-Governor has decided to undertake certain measures of State relief, and to appeal to private charity for the alleviation of those forms of distress with which the Government is unable to deal. Here it may be remarked that, owing either to the character of the soil from which the walls are made, or to more substantial modes of construction, the number of houses destroyed in Moorshedabad seems to have been considerably less than in Nuddea and Hooghly. On the other hand, there has been much loss of personal property, and it was represented to the Lieutenant-Governor by a deputation of the Moorshedabad Association that the State should undertake to distribute clothes on a large scale to persons in need of them. While altogether declining to admit any such obligation on behalf of Government, the Lieutenant-Governor wishes to draw attention to this matter as a very proper subject for private charity, and to take the present opportunity of acknowledging the liberal donation which Bissen Chand Dudhuria and Budh Singh Dudhuria, merchants of Azimgunge, have placed at the disposal of the Collector of Moorshedabad for expenditure on this purpose. It is also understood that the local Committee about to be formed at Berhampore to work in concert with the Calcutta Committee, appointed by the Resolution of the 29th September, will pay special attention to this form of distress.

5. The scheme of relief operations drawn up during the Lieutenant-Governor's visit does not differ materially from that sanctioned in Nuddea. From the beginning of the floods the Collector and sub-divisional officers have been distributing charitable relief in all cases where it was required, and their efforts in this direction appear to have prevented those isolated cases of death by starvation which might otherwise have occurred. The Government grant under this head has not yet been exhausted, and the Collector has some private subscriptions still in hand. He has been directed to watch the condition of the people carefully, and to ask for a further allotment directly he has reason to believe that it is likely to be required. Mr. Anderson's arrangements for this purpose appear to be well considered and sufficient. For instance, thana Raghunathgunge, in the Jungypore sub-division, where the people were reduced by the loss of previous crops, has been divided into six circles, each under the charge of a relief officer, working in concert with the village *punchayets* and the delegates of the Moorshedabad Association. It is difficult to see how an organization of this kind, dealing with so limited an area, can fail to detect all cases of real distress; and, in fact, though it has been alleged that persons have died of starvation, the Lieutenant-Governor satisfied himself during his visit to Berhampore that none of these allegations were borne out by the facts. Similar arrangements have been made in other thanas where distress is apprehended. In order to enable the system to be fully organized, and to set free for their proper duties the police officers now engaged on relief work, the Lieutenant-Governor authorizes the Collector to appoint for a period of two months, from the present time, as many canungoes and other ministerial officers as may be necessary for the administration of relief. The pay of the canungoes should not exceed Rs. 50 a month, and that of the subordinate officers should be graduated on a corresponding scale. Their salaries will be charged to relief, and will be adjusted hereafter against the total expenditure incurred on the district, from whatever sources it may have been derived.

6. The requirements of the landless labourers throughout the district will be met for the present by the provision of work on the district roads. Everywhere roads have been breached by the floods, thus enabling the demand for immediate labour to be readily met in all parts of the district,

and the Road Cess Committee have for the time ample funds at their disposal. In the event of road work or the funds available for its execution falling short, the construction of the embankment of the Ranaghat-Bhugwangola line of railway from Krishnaghur through Nuddea and Moorshedabad would furnish labour for the population of the tracts which have suffered most severely from the floods; but the resumption of this work must depend in the first instance upon the ability of the provincial revenues to find the necessary funds, and in the last resort upon the willingness of the Government of India to make a special grant for the purpose.

7. During the Lieutenant-Governor's visit a large number of applications for advances under the Agriculturists Loans Act were presented by cultivators of the neighbourhood. In connection with these the working of the Act and the rules under it was discussed in conference with the Commissioner and Collector, and in order to expedite the granting of advances the latter officer was directed to accept the joint and several personal security of bodies of villagers in the manner laid down in Rule 7. This procedure, to which effect has already been given in Nuddea, dispenses with the lengthy enquiries necessary when immoveable property is pledged, and will, it is hoped, enable advances to be distributed rapidly enough to be of real assistance to the ryots in saving the later cold-weather crops. In most places which the Lieutenant-Governor has seen the cultivators' own resources have enabled them to sow *kalai*, for which they appeared to have seed already in hand; but in the case of crops like wheat and barley, for which the land requires more careful preparation, the judicious and early distribution of advances will probably be necessary. The grant to the Collector of Moorshedabad for advances under the Agriculturists Loans Act has been increased from Rs. 10,000 to Rs. 25,000.

8. In travelling from Daulat Bazar on the Bhairab to Akrigunge on the Ganges, the Lieutenant-Governor passed through a portion of the country affected by the Ganges flood. No signs of distress were apparent, and Mr. Pope, Commandant of the Central Bengal Light Horse, who lives at Akrigunge, assured Sir Rivers Thompson that there were no grounds for anxiety as to the condition of the people. At Rampore Beauleah it was ascertained from Mr. Ruddock, the Collector of Rajshahye, and from many other gentlemen with local knowledge, that the prospects of the *aman* crop were excellent; and from this and other evidence it is clear that the districts north of the Ganges have gained infinitely by the abundant rainfall, while their loss by floods has been confined to individual villages, and even there has been of trifling extent. The Collector of Pubna, Mr. Tute, met the Lieutenant-Governor at Sara, and explained that no material damage had been caused by floods in that district, and that the harvest would be a full one.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION BY THE GOVERNMENT OF BENGAL ON THE REPORT OF THE CALCUTTA INTERNATIONAL EXHIBITION, 1883-84.

REVENUE DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 4th October 1885.

RESOLUTION.

READ—

Letter No. 263A, dated 31st July 1885. from the Secretary to the Executive Committee of the Calcutta International Exhibition of 1883-84, forwarding with remarks copies of the report of the Exhibition compiled under the orders of the Executive Committee.

Report of the Calcutta International Exhibition of 1883-84 compiled under the orders of the Executive Committee.

Letter No. 264A, dated 2nd August 1885, from the Secretary to the Executive Committee of the Calcutta International Exhibition of 1883-84, forwarding copies of the minutes of the Proceedings of the Executive Committee.

Minutes of the Proceedings of the Executive Committee.

The Executive Committee of the Calcutta International Exhibition of 1883-84 have submitted their report 16 months after the closing of the Exhibition.

In his speech, made on the 10th March 1884, at the closing of the Exhibition, Sir Rivers Thompson stated that it was the intention of the Bengal Government that a full report on the Exhibition should be published. The Report now submitted, redeeming this promise, gives an exhaustive account of the circumstances under which the Exhibition was held, and describes with much detail the exhibits which were brought together. It is a matter for regret that it was not found possible to publish the Report while the memory of the Exhibition was still fresh in the minds of the public, but the Lieutenant-Governor believes that delay was unavoidable by reason of the laborious nature of the work, and the little leisure which was available to the members of the Executive Committee for the compilation of the report.

2. The Committee remark that the Calcutta Exhibition of 1883-84 was the first attempt made in India to hold an Exhibition of an international character. "Exhibitions on a smaller scale had been held in various parts of India, but these were generally of a local character; and, where their scope was not purely provincial, no attempt was made to include in them specimens of other than Indian arts and manufactures. For the improvement of Indian art these Exhibitions were not without considerable value, but they necessarily did not embrace the other important objects of an Exhibition—the bringing of distant countries into closer commercial union with India, and the development of new branches of industry." The idea of having an Exhibition in Calcutta for the exposition of the arts and industries of India was under the consideration of the Lieutenant-Governor when, in October 1882, M. Jules Joubert, who had before successfully promoted similar Exhibitions in Australia, arrived in this country; and it was at his instance that what had been originally proposed as an Exhibition of the products of the Indian Empire took the form of an International Exhibition. Having obtained the assent of the Government of India to this wider and more ambitious project, together with a promise that other Local Governments would be invited to assist in securing the adequate representation at the Exhibition of the natural products and manufactures of all parts of India, Sir Rivers Thompson gave his sanction and support to the undertaking in a Resolution published on the 16th January 1883, and the work of preparation at once began.

A General Committee was formed consisting of the chief officers of the Supreme Government and of all Local Governments and Administrations, the great feudatory chiefs and nobles of India, and the leading officials and private individuals, both European and Native, of the various provinces; while in every province of India local committees were formed in aid of the Exhibition. The Governments of three of the Australian Colonies, viz. Victoria, New South Wales, and South Australia, appointed Commissions to promote the objects

of the Exhibition, and official representatives were sent to the Exhibition by five other British Colonies, viz. Ceylon, the Straits Settlements, Tasmania, Demerara, and Mauritius From foreign countries delegates were sent by the Government of Austro-Hungary; by the French Colonies of Cochin China and Tonquin, and by the Dutch Colony of Batavia. The following nations were represented by exhibitors, but took no official action with respect to the Exhibition :—Great Britain, France, Germany, Italy, Belgium, Turkey, Japan, and the United States of America. The Executive Committee remark that the character of the Exhibition, which was in some measure promoted by private enterprise, no doubt prevented it from securing the participation of foreign countries in the same manner as would have been the case if it had been from the first declared to be an undertaking of Government.

The Lieutenant-Governor takes this opportunity of tendering his thanks to the Government of India and to all Local Governments and Independent States in India, and to the Colonial and Foreign Governments who were represented at the Exhibition, for the cordial assistance rendered. To the district officers in all parts of India, and to other members of local committees who gave their time and labour in the cause of the Exhibition, the Lieutenant-Governor is deeply indebted.

3. To help to meet the cost of collecting samples of the products and manufactures of India, the Bengal Government provided a sum of Rs. 50,000, which was distributed by the Government of India among the different Local Governments, and in all cases the allotments made were supplemented by grants made by the Local Governments from the funds of their own provinces. For the collection of exhibits in these provinces a sum of Rs. 10,000 was placed in the hands of the Executive Committee by the Government of Bengal. Many articles were also lent by Native and European gentlemen in India for exhibition, and for these contributions the Lieutenant-Governor desires to express his thanks. In particular the local committee of the Presidency district took special measures for the representation of Calcutta. Subscriptions were raised, and a separate Court, furnished and equipped entirely at the expense of the Calcutta community, was the result of their liberality and public spirit. This Court was one of the largest in the Exhibition, and was most artistically arranged.

4. The management of the Exhibition was in the hands of the Executive Committee who worked in concert with M Joubert. After having obtained the sanction of Government for the Exhibition, M. Joubert left Calcutta at the end of December 1882 for the Australian Colonies in order to secure their adequate representation, and he at the same time appointed an agent in London to make known the circumstances of the Exhibition and to obtain the co-operation of mercantile and manufacturing firms in England and on the Continent.

While arrangements had thus been made for the collection of exhibits, the Exhibition buildings were being built by the Public Works Department of this Government. It had originally been M. Joubert's intention to erect temporary buildings for the Exhibition at his own expense, but he subsequently found that the scheme was likely to assume much larger proportions than he had ever imagined, and on his request Government obtained for him from the Trustees of the Indian Museum the use of the Museum building, and finally undertook the construction of the necessary annexes. Practically the entire administration of the undertaking had now devolved upon the Executive Committee, M. Joubert continuing from the date of his return to India in June 1883 to control, subject to the supervision of the Executive Committee, all sections except the Indian section of the Exhibition.

5. A description of the Exhibition buildings and of their internal arrangements is given in Chapter II of the Report. By the end of June it had become evident, from the number of applications received for space, that the accommodation must be greatly increased, and it was decided to enclose a large space upon the maidan opposite to the Museum to contain the Indian Court, the Machinery Court, and other Courts, and ultimately the total space enclosed for the Exhibition amounted to nearly 22 acres, including covered space of about 300,000 square feet or nearly seven acres, of which about 200,000 square feet represented buildings newly built by the Executive Committee for the occasion, the remainder being provided

in the Museum building or having been built at the charge of the exhibitors themselves. The buildings comprised, besides a portion of the Indian Museum, a new permanent building specially erected to form a portion of the future home of the Bengal Art collection, six annexes contiguous to the Museum, a large Indian Court and a still larger Machinery Court on the maidan, besides several minor buildings.

Even this space was, however, insufficient for the proper display of the exhibits which, in some Courts, were overcrowded, and in his report read at the opening of the Exhibition, Colonel Trevor, the Vice-President of the Executive Committee, expressed the regret of the Committee that it had been necessary to refuse numerous applications for space which had arrived since the last day fixed for their reception. Colonel Trevor observed that the number of these applications made it absolutely certain that, had it been possible to devote two years instead of one to the preparation for the Exhibition, the number of articles exhibited would easily have filled more than double the space which was provided on this occasion. Unfortunately the Executive Committee were hampered in this particular matter by the exigencies of M Joubert's position, but the experience gained in Calcutta as to the necessity of the fullest time for preparation will not be lost in future Exhibitions of the kind which may be undertaken in India.

The temporary buildings were constructed of materials taken from dismantled Government buildings, of which a large quantity happened to be available at the time. The building operations were carried out by officers of the Public Works Department under the immediate supervision of Colonel Trevor. To these gentlemen, who are named in Chapter II of the Report, the Executive Committee express their obligations for the untiring efforts by which, under many difficulties, the rapid completion of the buildings was accomplished.

6. The Exhibition was opened by His Excellency the Viceroy on the 4th December 1883, just one year after the proposal for holding it was first laid before Government. It remained open till the 10th March 1884, and was then closed by the Viceroy. It was a matter for regret that it could not be kept open longer, as the daily numbers of persons admitted continued to increase before the closing, and there is no doubt that, if circumstances had permitted an extension of the open period to the time ordinarily devoted to such Exhibitions in Europe, the results would in many ways have been beneficial. Exhibitors, however, had come prepared to stay for three months only, and were unwilling to endure the heat of an Indian summer, when the season during which business was likely to be done was over. The buildings, moreover, were of a temporary nature, and were not intended to resist the storms which accompany the approach of the hot weather.

7. No adequate notice of the exhibits gathered together in the different Courts can be attempted in this Resolution. A description of each Court, and a catalogue of its exhibits, have been given in the Report. The descriptions of the Courts, written for the most part by the officers in charge, and especially the description of the Economic Court written by Dr. George Watt, besides giving very full notices of the collections displayed, contain much useful information with regard to the resources and industries of the countries which were represented. The catalogues of the Indian exhibits form a useful record of the products and industries of this country to which reference will often be made.

The relative proportion of the numbers of exhibits from each country represented may be gauged from the fact that the catalogue of the exhibits from the Indian Empire takes up the whole of the last volume of the Report consisting of 722 pages; the catalogue of the exhibits from Great Britain occupies 35 pages; that of exhibits from British Colonies 154 pages (of which 123 pages are monopolised by the Australian Colonies, and that of exhibits from foreign countries 55 pages. The beautiful collections of art work in the Indian Courts have perhaps furnished the most vivid recollections of the Exhibition in the minds of most visitors; but the solid merits of the collections of raw products and rough industries in the Indian Economic Court afforded especial ground for satisfaction to all persons interested in the welfare of the Empire. The exhibits in the Economic Court included the entire collection of the Bengal Economic Museum, collections made by the Revenue and Agriculture Department of the Government of India, collections

contributed by private individuals, trade samples supplied by the various Indian Chambers of Commerce and by merchants, and ethnological specimens purchased or obtained on loan. The arrangement of the exhibits in this Court was supervised by Dr George Watt, Mr. F. B. Manson, and Baboo Trailokya Nath Mukerji, to all of whom much praise is due for their labours. The large part taken in the Exhibition by the Australian Colonies was especially pleasing, and the Lieutenant-Governor expresses his hope in the words used by Lord Ripon at the closing of the Exhibition, that the display of the large and varied resources of these young countries, and of the energy of their people, together with the friendly intercourse which was brought about by the Exhibition, may do much to promote trade between this country and those Colonies. The Lieutenant-Governor has recently received from the Exhibition Commission appointed by the New South Wales Government an interesting report of the part taken by that Colony in the Exhibition. With regard to the European exhibits, the following remarks made by His Excellency the Viceroy, with which the Lieutenant-Governor may be allowed to express his entire concurrence, deserve attention. Lord Ripon remarked :—

"In one respect I must say that the European exhibits in this Exhibition have not altogether fulfilled some of the hopes which I at least entertained. The requirements of the wealthy have been thoroughly considered, articles of luxury and splendour are to be found in these Courts in plenty, but little has been done to show what might be accomplished to supply the wants of the masses of the people; and especially the wants of the cultivators of the soil. Now I have no doubt that that has arisen mainly from the ignorance of the needs of these persons in that respect. Nothing can be more natural; but nevertheless I can assure the capitalists and inventors of Europe and America that there is ample room for the exercise of skill and ingenuity to supply the wants of the agricultural classes of this country, and to provide them with implements calculated to supersede the rude and primitive instruments which they now use. No doubt to do this may be beset with various difficulties, for we all know how attached the rural natives are to the practices and habits of their forefathers, but nevertheless I believe that those who have skill and the capital to devise improved agricultural implements would find a fair field, as time goes on, for the sale of articles of that description in this country. I mention this now in the hope that before another Exhibition is held here, those who are likely to become exhibitors hereafter will turn their attention to this subject."

8. The total number of exhibitors in all the Courts of the Exhibition amounted to 2,500, and the articles exhibited exceeded 100,000 in number. The exhibits were divided into 149 classes, and for the purpose of judging them a separate jury was appointed for each class. The duty of nominating the juries fell almost entirely upon the Executive Committee with some assistance from exhibitors who were allowed to propose names of persons to be appointed jurors. The report comments on the difficulty which was experienced in obtaining qualified jurors in Calcutta (where technical knowledge of any kind commands a high price), with reference to the provisions of the Jury Regulations that no person should be a juror who was himself an exhibitor or in any way connected with an exhibition. It was ultimately, however, found possible to appoint qualified juries in all classes, and the Lieutenant-Governor joins the Executive Committee in thanking the gentlemen who, at a large sacrifice of time and labour, gave their gratuitous services. The fact that not less than three jurors were appointed in each of the 149 classes, and that the total number of jurors who served was only 176 suffices to show how great was the task which some among these gentlemen undertook. A list of the jurors is appended to this Resolution.

The valuable services rendered by Lieutenant-Colonel J. F. Fitzgerald Cologan, in his capacity as Superintendent of Juries, deserve especial mention. It was due to this officer's tact and judgment that the difficulties of a somewhat thankless office were so successfully surmounted.

The labours of the juries began on the 19th January 1884, and the last award was declared on the day of the closing of the Exhibition. Three thousand five hundred and ninety awards in all were made, which were classed as follows:—

Certificate of merit of the first class with gold medal							...	723
Ditto	ditto			with silver medal			...	1,175
Ditto	ditto	second class with bronze medal					...	1,031
Ditto	ditto	third	„	...	...		...	497
Ditto	ditto	fourth	„	...	...		...	117
Ditto	ditto	fifth	„	...	...		...	47

9. The total number of persons admitted into the Exhibition exceeded a million, including 817,153 persons paying for admission at the turn-stiles and about 200,000 season ticket-holders. The price of admission was fixed at four annas daily, except on one day of the week, which was reserved for visitors wishing to see the Exhibition with more comfort, when one rupee was charged. The daily average attendance for the 90 days, during which the Exhibition was open, amounted to 6,277 persons, and the largest numbers admitted on any one day were 16,183 on the 10th December 1883. As above noticed, the number of visitors to the Exhibition continued to increase before the day of closing, and as its fame extended only gradually to distant places in the interior, it would certainly have attracted visitors for a much longer time could it have been permitted to remain open. A noticeable feature of the Exhibition was the large number of native females of all ranks who, in opposition to the restraints of caste and custom, were constant visitors to its Courts. Special arrangements had occasionally to be made for the visits of native ladies of high rank. The duties of guarding the Exhibition were well performed by the Calcutta Police, but in spite of all precautions some thefts were committed, the most important of which was effected by wrenching off a piece of the gold throne exhibited by the Maharajah of Burdwan. The loss was made good to the Maharajah by Government.

10. The financial arrangements and results of the Exhibition are described in the fourth chapter of the Committee's report. It has been stated above that the management of the Exhibition from being at first a private enterprise was unavoidably converted into a Government undertaking. As a guarantee for the repayment of the expenditure incurred by Government upon the Exhibition buildings, M. Joubert entered into an engagement to make over to the Executive Committee all the receipts of the Exhibition from space money, gate money, and all other sources, and also to permit his accounts to be audited. The gross expenditure on the Exhibition buildings, on wages of attendants, advertisements, lighting, M. Joubert's drawings (Rs. 43,113-6-5 for his personal expenses, the salaries of his Secretary and foreman, &c.), and under all other heads, but exclusive of the sum of Rs. 60,000 spent on the collections of exhibits made in India, amounted to Rs. 5,04,248-12. Of this sum more than Rs. 3,83,000 were expended on plant and buildings, and over Rs. 32,000 have been spent* on medals and certificates of award. This amount also does not include the sum of Rs. 13,659, which was the cost of the police employed in the Exhibition. The gross receipts of the Exhibition amounted to Rs. 5,02,858-2, of which Rs. 1,78,044 were obtained by gate money, Rs. 30,201 from season tickets, Rs. 91,418 from space money, Rs. 16,787 from deposits of exhibitors for duplicate certificates and gold medals, and Rs. 1,63,743 represented the value of buildings and building material taken over and sold by Government and by M. Joubert on account of Government; the balance of receipts was made up by payments for licenses to sell in the Exhibition, tenders for refreshment bars, and sundries. Any balance shown by the account when it is finally closed will be written off against the Bengal Government.

* Certificates and medals are still being issued as fast as they can be procured from the Mint, and the account under this head is not yet finally closed.

11. In return for the advances, amounting to Rs. 50,000, made by the Government of Bengal to other local Governments in India for the purchase of exhibits, the Government of Bengal was permitted to select articles from the collections sent from the various provinces to the value of its advances. The selection made, together with the collection of exhibits purchased in these provinces from the sum of Rs. 10,000 placed in the hands of the Executive Committee, forms the nucleus of the Art Gallery and Economic Museum of Bengal, established in the new building which adjoins the Imperial Museum, and which extended and enlarged, as the Lieutenant-Governor hopes, as funds become available, will be a permanent memorial of the Calcutta Exhibition of 1883-84.

12. In conclusion, the Lieutenant-Governor desires to express his thanks to the Executive Committee, and especially to their Vice-President, Colonel Trevor, for the valuable work done by them. A prominent part was taken by the Public Works Department in all branches of the Exhibition work. The arrangements with M. Joubert were carried out by

Colonel Trevor as the Head of the Department, the buildings were erected by members of the Department under Colonel Trevor's directions, and the same officers gave much assistance in the decorative arrangements of the Courts. It is right to place on record a fact which public opinion has already recognized, that to Colonel Trevor, more than to any other person, are due the satisfactory results of this first effort to hold a Great International Exhibition in India. His hearty interest in the undertaking from its inception, and his personal zeal in its cause until its close, inspired all those who were associated with him in his labours to make it a success; without him, they would have failed. The executive and administrative officers of the Executive Committee were Colonel Trevor, Mr. C. S. Bayley, and Mr. M. H. Jackson. As officer in charge of the Bengal Court, Mr. Bayley worked with energy and judgment, and he has also given valuable assistance in editing the report. Mr. Jackson, the Secretary to the Committee, deserves the commendation which is due to the unfailing activity with which he performed his multifarious duties.

The Lieutenant-Governor regrets that M. Joubert, the promoter of the Exhibition, did not obtain the full profits which he had anticipated and which his enterprise merited. This result was perhaps due to the fact that in his calculations, based upon Exhibitions held in other countries, M. Joubert did not sufficiently recognise the special difficulties attending an undertaking of this kind in India. By virtue, however, of his wide experience, he was able to give to the Executive Committee advice which was of the highest value, and especially in the arrangements which secured the active co-operation of the great Australian Colonies in the Exhibition.

ORDER.—Ordered that copies of this Resolution, with copies of the Report, be submitted to the Government of India, in the Revenue and Agricultural Department, for information.

Ordered also that this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secretary to the Govt. of Bengal.

APPENDIX

RESOLUTION OF THE GOVERNMENT OF BENGAL, REVENUE DEPARTMENT

ON THE

REPORT OF THE CALCUTTA INTERNATIONAL EXHIBITION OF 1883-84.

MANAGEMENT OF THE MUGHYA DOME SETTLEMENTS IN CHUMPARUN.

No. 1903J—D, dated Darjeeling, the 25th September 1885.

From—F. B. Peacock, Esq., Chief Secretary to the Government of Bengal,
To—The Commissioner of the Patna Division.

I am directed to acknowledge the receipt of your letter No. 571G, dated the 14th August 1885, submitting a copy of the third annual report by the Magistrate of Chumparun on the management of the Mughya Dome settlements in that district.

2. In reply, I am to say that the report is a satisfactory one, showing, as it does, that this most troublesome clan are gradually taking to peaceful and honest pursuits. Much of the success of the experiment of forming colonies of the Mughya Domes in Chumparun is due to the great personal interest which Mr. Henry has taken in it.

3. As remarked by Mr. Henry, one of the most encouraging features in the scheme is that the domes have begun to take lands on their own account from the zemindars, thus clearly indicating their desire to settle down and live honestly. It is encouraging, too, to find that the zemindars are willing to have these people as tenants. It is observed that Mr. Henry reports that the two settlements at Bargaon and Futtehpore will probably be self-supporting in future, and that, at all events, no grant-in-aid will be required from Government during the current year.

4. I am to request that you will be so good as to convey to Mr. Henry the thanks of Government for the continued interest he has taken in the Dome settlements in his district, and to say that the Lieutenant-Governor will watch with great interest the further development of what promises to be a measure of great practical utility.

5. I am to add that the services rendered by Head Constables Ramdhani Singh and Ambica Pershad, in charge, respectively, of the Bargaon and Futtehpore settlements, and by Inspector Mokhey Lal Missir, have been noticed with satisfaction, and that the Inspector-General of Police will be asked to give the two former officers the promotion which they appear to have well deserved.

No. 571G, dated Bankipur, the 14th August 1885.

From—F. M. Halliday, Esq., Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Judicial Department.

I have the honour to forward herewith copy of a report from Mr. Henry, Magistrate of Chumparun, on the management of the Mughya Dome settlement in his district.

2. The report is as usual full and interesting, and gives a very favourable and hopeful account of the ultimate success of the experiment; but for this we shall be indebted entirely to the extreme interest taken in the undertaking by Mr. Henry and the police officers employed under him. I have much pleasure in supporting the Magistrate's recommendation for some substantial acknowledgment being made by Government to the subordinate police officers he mentions.

No. 1193, dated Motihari, the 30th July 1885.

From—E. R. Henry, Esq., Offg. Magistrate of Chumparun,
To—The Commissioner of the Patna Division.

I have the honour to submit the third annual report on the administration of the Mughya Dome settlements in this district.

Bargaon Settlement.

This settlement consists of 112 adults and 51 boys and girls. During the year six males were admitted upon release from jail. One male, five females and three children absconded, and are said to be in Goruckpur. Three males, who had during the preceding year absconded and had reverted to criminal practices, were, with the aid of the settlement domes, arrested and brought to trial. One was sentenced to seven years, one to five years and one to six months' imprisonment. These prosecutions have had an excellent effect in convincing the domes that the supervision which the police are now able to exercise is strict and effectual, and that any attempt on their part to return to their old practices will inevitably lead to detection and conviction.

Seven domes were employed throughout the year as village chowkidars, and four as chowkidars under the Road Cess Department. Their conduct has been satisfactory. A bansphor dome was employed to teach the children bamboo work, and some of them have learnt sufficient to be able to earn money by making moras and baskets.

Cultivation.—The land attached to this settlement under cultivation was 48 local bighas and the outturn of the crops harvested was—

	Maunds.
Aughani dhan	270
Bhadoi dhan	496
Indian-corn	105
Rabi grain	148
Total	1,019

(pucca weight) from 48 bighas, the local bigha being about 1⅓ acres.

This outturn may be considered satisfactory, regard being had to the effect that the domes are only learning agriculture, and that the season was not particularly favourable. Better results are expected next year, as all the lands have been sown and the seed has germinated well; but much depends upon seasonable rain in August and the two following months. Arrangements are being made to extend the cultivated land attached to this settlement, the result of which will be reported next year. All the land has been divided amongst the settlers, who now are beginning to realize that they will reap the full benefit of their own labour.

One of the most encouraging facts in connection with the year's working is, that the domes have commenced to take lands direct from the zemindars on their own account. They pay the rent and provide all the necessary expenses for cultivation out of their own funds, and no interference, direct or indirect, is exercised by us in the matter of these lands. I have not the figures by me showing to what extent land has been taken up by them in this way, but their operations promise to be on a larger scale next year.

With a view to stimulating a spirit of enterprise amongst them, I caused it to be known that if any dome succeeded in purchasing for himself a plough-bullock, the pair to it would be given to him from the Government stock. No less than 14 bullocks have been purchased by the domes out of their savings, and they now own 14 pairs of plough-bullocks which they use for the cultivation of their lands. I am in hopes that before the end of next year a dozen more plough-bullocks will be purchased by them, and then the whole stock of Government bullocks will be absorbed, and the settlement will have 26 pairs of plough-bullocks belonging to private owners.

The rearing of poultry has proved profitable, as there is a brisk demand for this stock in the neighbourhood.

House accommodation.—There are 40 well-built houses at this settlement, of which 26 are tiled and 14 thatched. The roofs are supported on wooden props, as the material of which the walls are composed, being somewhat friable, was not adapted to bearing a heavy strain. All the tiles have been re-set, and the other roofs have been entirely re-thatched this year. The work has been so well carried out, that on the occasion of my last visit to the settlement a few days ago, I found that not a single house had leaked, although nearly 20 inches of rain had fallen during the month. During the present year we hope to get the remaining houses tiled, as thatched roofs require extensive yearly repairs, whereas tiled roofs properly laid last for five or six years without entailing much expense.

The masonry well is in good order, and the water-supply is said to be of satisfactory quality and sufficient in amount.

Several of the bamboo and sisoo trees planted on the bank of the homestead enclosure, died out during the year. They have now been replaced. The soil unfortunately appears ill-adapted to growing bamboos, but special precautions have been taken in preparing the ground this year; better results are expected than have hitherto been obtained.

The weekly *hát* established upon the settlement land is gradually becoming more frequented by buyers and sellers.

Futtehpur Settlement.

There are 61 adults and 39 boys and girls, in all 100 persons, at this settlement. During the year two males were admitted upon release from jail: one male and one female were convicted of theft and sentenced to two years' rigorous imprisonment. Five domes were employed as village chowkidars.

Cultivation land.—The area under cultivation attached to this settlement was 13½ local bighas (the local bigha being a little over an acre); the outturn of the crops was—

	Maunds.
Aughani dhan	123
Bhadoi dhan	6
Makai	63
Sadhi dhan	3
Total ...	195

There was besides a yield from the rabi crops upon the land twice cropped, the details of which I have not by me to refer to.

Having regard to the area of the land under cultivation, the yield secured was, I consider, decidedly good. Some of the domes have rented land on their own account direct from the landholders, and inducements are held out to them to take up as much land in this way as they can work.

Within this month I have at last succeeded in securing 10 bighas of good land for this settlement; this will bring the area under cultivation up to 23½ bighas, which at present is about as much as we can hope to cultivate successfully. There is great difficulty in obtaining good land in this neighbourhood, and it does not pay to break up fallow. If we can gradually extend the cultivation land to 40 bighas, this will prove quite sufficient for the requirements of this settlement. Obviously it is better to secure crop outturns at the rate of 16 or 18 maunds an acre from a limited area as we are now doing, than to double the cultivation area by taking in land of bad quality, the crops grown on which would barely pay for the cost of seed and cultivation generally. The settlers here are not so entirely dependent upon their fields as the Bargaon men, for the labour market is always brisk, and a day-labourer can earn sufficient wages to maintain himself all the year round by field work if so disposed. The orders of Government regarding the extension of the cultivation area, however, are not being lost sight of, and, as occasion offers, fresh lands will be taken up. It is necessary, however, to proceed with discretion, as the settlement would become extremely unpopular if any pressure were brought to bear upon the villagers of the neighbourhood to induce them to surrender their lands even upon payment of liberal compensation.

Of the ten bullocks belonging to this settlement, one died of snake-bite. None of the domes here have as yet been able to purchase bullocks on their own account, but some of them have expressed the intention of doing so during the ensuing year, when for every bullock they purchase, they will receive the pair from the Government stock.

House accommodation—There are 20 houses all in good repair. Of these, ten have been tiled, the thatched roofs of the remaining ten are in good order. Thatching-grass and bamboos are more easily procurable here than in the neighbourhood of Bargaon, so I attach less importance to the roofs being tiled.

There is a good well, and the water-supply is said to be wholesome.

Several of the domins here earn money by bamboo work and by rearing poultry.

I may sum up the result of the year's working by saying that both settlements are prospering beyond our anticipations, for it appears to be assured now that they will be able to maintain themselves as agricultural colonies without any further aid from Government. That the experiment of establishing them upon this basis was considered somewhat hazardous will be seen from the published correspondence of the North-West Province officers, to whom a reference upon the subject was made by that Government. The area of the land under cultivation is as yet small, regard being had to the actual numbers of the colonists, but the harvest yields show that it was thoroughly well cultivated. The more thrifty amongst the domes who have succeeded in saving a little have commenced to take up land on their own account from the zemindars, and as their resources increase, they will, no doubt, extend their operations No better proof could be given of the change that is gradually coming over them than these instances of their dealing directly with the zemindars. It shows that they are beginning to realize that in future they will have to shift for themselves, and it also shows that landholders are not unwilling to accept them as tenants. To any person acquainted with the status allotted to domes by general consent a few years ago, these facts will be strong evidence that a marked reformation in their habits and modes of life must have been effected.

It would be premature to think that this reformation has been so radical that they might now be allowed to settle in other villages, where they would not be under efficient supervision, and where temptations to commit theft would be frequent. That many of them, if placed in this situation, would find temptation irresistible and fall away, I have no doubt; for it will take years to effect any real change in their opinions as regards the rights of property. But under the system in force here they are not exposed to much temptation; they are collected together in colonies, where one or two policemen or even intelligent chowkidars can keep an effective watch over them, while at the same time they have an opportunity of so improving their condition as to be placed above the necessity of reverting to criminal practices. So far we have succeeded in bringing to justice, with few exceptions, the domes who have receded and have re-commenced thieving, and the lesson has not been wasted upon those remaining at the settlements.

In conclusion, I am glad to be able to report that no grant-in-aid will be required rom Government this year. I was able a few days ago to go over the cultivation of both settlements, and prospects are so good that I have no doubt whatever that the domes will be able to maintain themselves during 1885-86 without aid from Government.

I desire to bring to your notice the excellent work done by head constable Ramdhani Singh, who has been in charge of the Bargaon settlement. This officer can read and write but little, and consequently can only be promoted to a Sub-Inspector under special orders. He has, however, done such good work, and has borne such an excellent character throughout his service, that I should be glad if he could, as a special case, be promoted from head constable to 5th grade Sub-Inspector. In previous reports I brought his name to your notice. Head constable Ambica Pershad, in charge of the Fattehpur settlement, has also worked to my entire satisfaction. Inspector Mokhey Lal Missir, whose services have already been recognized by Government, has continued to supervise both settlements efficiently.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 3rd October 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, Oct. 3 '85	0·71	Weather—seasonable. *Aus* being harvested. Prospects of *amun* good. Price of rice 12 to 16 seers per rupee.
	Culna ...	0·48	
	Cutwa ...	0·58	
	Raneegunge ...	2·00	
2	Bankoora, „ 3 „	1·00	Weather—clear, cloudy and sunny alternately. Late rice generally a very promising crop, but it has suffered from the late heavy rain over a limited tract; other crops doing well. Public health good.
	Bishenpore ...	0·70	
3	Beerbhoom. „ 3 „	0·87	Weather—seasonable. Prospects of rice crop good Prices of food-grains lower. Cholera still in the district; general health otherwise satisfactory.
	Rampore Haut ...	3·23	
4	Midnapore. „ 3 „	0·77	Weather—seasonable. Outside the flooded area prospects on the whole good; but in at least one-fifth of the district more than half an average crop cannot be expected. Public health normal.
5	Hooghly, „ 3 „	1·84	Weather—fine, with one or two storms only at Sudder. Prospects on the whole favourable in the Serampore and Sudder sub-divisions, and in Goghat thana of the Jehanabad sub-division. In Khanacul and Jehanabad loss of crop from floods very considerable.
	Serampore ...	0·42	
	Howrah. „ 5 „	1·34	Weather—hot with puffs of north wind; mornings and evenings cooler. Most of the paddy (about three-fourths of the whole district crop) is destroyed. *Boro* seedlings being reared. Health good.
	Oolooberiah ...	1·96	
	Central Districts.		
PRESIDENCY DIVN. 6	24-Perghs Oct. 5 '85	1·17	Weather—seasonable; rather hot. Prospects of *amun* paddy, except on low inundated lands, are good. Harvesting of *aus* continues with an estimated outturn varying from 10 to 12 annas. Public health good.
7	Nuddea. „ 3 „	1·28	Weather—seasonable. Heavy rain on the 1st instant. Rivers falling day by day, and prospects improving. *Kalai* being sown everywhere.
	Kushtia ...	6·37	
	Meherpur ...	2·28	
	Chuadanga ...	4·24	
8	Khoolna, „ 3 „	1·44	Weather—very hot with occasional rain. Except in inundated parts north of Satkhira prospects of *amun* paddy are very good. At Satkhira rice selling at Rs. 3-2 per maund. Public health generally good.
9	Jessore, „ 3 „	1·68	Weather—seasonable with occasional rain. Harvesting of *aus* paddy finished almost everywhere. It has yielded a fair outturn on the average. Prospects of *amun* fair except in the Bongong sub-division, where this crop over a large area has been almost wholly destroyed by the inundation. The flood-waters are fast subsiding. Fever continues.
	Jhenida ...	2·89	
	Narail ...	0·35	
	Bongong ...	1·25	
10	Moorshedabad, „ 3 „	0·18	Weather—seasonable. Prospects of *amun* rice in the Rarh excellent. *Kalai* being extensively sown and doing well. Prospects generally much brighter. Common rice selling at from 13 to 15 seers per rupee. Public health good.
	Lalbagh ..	1·14	
	Kandi ...	3·20	
	Jungipore ...	0·52	
11	Dinagepore, Oct. 2 „	0·72	Moderate rain this week. Weather fair and seasonable. Harvesting of jute and *aus* finished. Transplanting of *amun* also finished; state and prospects of this crop good. Rice selling at from 13 to 20 seers per rupee.
RAJSHAHYE DIVN. 12	Rajshahye. „ 3· „	2·79	Weather—mornings rather cloudy and cool, days hot. Harvesting of *aus* still continues. Prospects of standing crops fair on the whole. Transplanting of *ganja* seedlings going on in Nowgong Fever prevails.
	Nattore ...	3·26	
	Nowgong ...	2·17	
13	Rungpore „ 3 „	0·09	Weather—hot with rain to the east and south-east. Transplanting of *amun* over. Other crops doing well Price of rice at Rungpore has risen considerably in spite of the good harvest of *aus* and the promising state of the *amun* plants which are thriving very well. Price of salt has risen 50 per cent owing to the break in the Eastern Bengal Railway. Fever and bowel-complaints prevalent.
	Gaibanda ...	5·41	
	Kurigram ...	6·70	
	Nilphamari ...	1·43	
14	Bogra, „ 3 „	3·10	Rain daily; weather pleasant; another slight shock of earthquake on 28th ultimo. Prospects of winter crops good. Public health fair.
15	Pubna, „ 3 „	3·16	Weather—rainy, but fair in the latter part of the week. Rivers falling rapidly Crops in low lands have suffered to some extent, but general prospects good Fever still prevalent about Serajgunge.
	Serajgunge ..	2·94	
16	Darjeeling, „ 3 „	...	Weather—bright and fine. Potato harvest has disappointed expectation owing to excessive wet. All other prospects excellent.
17	Julpigoree, „ 3 „	5·73	Weather—seasonable, nights generally cool. *Amun* paddy doing well in all parts of the district. Recent rain has done much good. Public health generally good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—*concld.*			
	Eastern Districts.		
Dacca Division.			
18	Dacca, Oct. 3 '85	1·81	Weather—seasonable. Harvesting of jute and *aus* paddy nearly completed. Sowing of *roachia* paddy finished. Early *amun* blossoming. Prospects of crops good Public health good.
	Manickgunge ...	0·21	
	Munshigunge ...	0·46	
	Naraingunge ...	1·82	
19	Furreedpore, „ 3 „	3·02	Weather—seasonable. Prospects good. Jute and sugarcane have suffered somewhat from excess of water, but are on the whole good.
20	Backergunge, „ 1 „	0·58	Weather—seasonable. Harvesting of *aus* paddy finished. Transplanting of *amun* completed. General health bad.
21	Mymensingh, „ 2 „	3·84	Heavy rain on the 30th, 2·61 inches registered at Sudder station, and 3·95 inches at Netrokona. Rivers still high. Weather cool. Much damage to crops on low lands by floods. General prospects good.
	Jamalpur ...	4·91	
	Kishoregunge ..	1·50	
	Attia ...	0·91

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the are wanting, the corresponding spaces in the total rainfall columns are left blank.

Calcutta, *the 6th October* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 2ND OF OCTOBER 1885.

DURING the week under review the meteorological conditions have been nearly normal. As is usually the case at the end of September and beginning of October, the monsoon current blowing over Bengal has commenced to slacken rapidly, rainfall has largely diminished in quantity, while the area over which the rain has fallen has also considerably decreased. With the increase of pressure which took place after the disappearance of the cyclonic storm of the previous week, pressure became rather largely above the normal, and the pressure over the province was very uniform. Light and rather unsteady winds therefore prevailed over the province for the first four or five days of the week, and except in North Bengal, the only rainfall which took place consisted generally of light local showers. In North Bengal and some parts of Chutia Nagpur during this period rainfall was a little more general, and particularly in the latter instance on the 26th some rather heavy falls of rain were recorded, but in other districts such as South Behar and the greater part of North Behar practically no rain was recorded. On the 1st of October, however, pressure had fallen for two days in succession, and there were indications of the formation of a very feeble area of low pressure over part of South Bengal, and these indications were rather more pronounced on the following day. Winds also showed a tendency to circulate round the area of low pressure, and as the result of these slightly disturbed conditions, rain became decidedly more general in the southern districts. Thus on either one or both of the last two days of the week, though in most instances it was light, Orissa, South-West Bengal, East Bengal and the greater part of Behar reported good showers. The slight depression, however, was of such feeble character that it was evident it would only affect the weather of the province to a slight degree and for a brief period, and thus at the close of the week all the conditions which were present were those of the transition period which generally marks the gradual closing of the rainy season. Light winds, generally of rather variable nature and direction, have therefore been characteristic of the week under review; barometric pressure has been high, temperature has also exceeded the normal, while in most districts rain fall has been decidedly light and local and rather below the normal fall for the week.

The average pressure for the previous week had been dependent on the passage of the small cyclone, and while it had been below the normal, particularly in Orissa and in the western districts generally, in the eastern districts pressure had been very distinctly above the normal. The tendency of the changes during the present week has been to decidedly increase the excess pressure over the whole province, and to make the distribution more regular. The increase of pressure is seen by the fact that the average pressure for the week over the whole province has been equal to a little more than a tenth of an inch, and that the distribution of pressure has also become much more regular is shown by the fact that the variations of pressure in the different meteorological divisions only range from an excess of 0·114″ in Orissa to an excess of 0·094″ in North Behar, while the smallest excess recorded is at Gya, where it equals 0·081″.

The temperature changes during the week have been generally small, and with the small amount of rainfall and the comparative absence of cloud, the day or maximum temperatures have continued comparatively high. On the other hand the night temperatures or minimum temperatures are now beginning to decrease, and some night temperatures which are fairly low for the season have been recorded. At the plains stations many of the observatories during the week have reported minimum temperatures of about 73° on one or two nights of the week, and this is distinctly low for the end of September or commencement of October. Nevertheless the average mean temperature for the week has been in all districts, except North Behar and Chutia Nagpur, very slightly above the normal, but the mean temperature of the whole province only differs from the normal by an excess of three-tenths of a degree.

As has before been stated, the rainfall has been generally light throughout the week, and the heaviest and most general rain was reported on the 1st and 2nd of October. The district which has received the largest average amount of rain is East Bengal, which records 2·31 inches. The normal fall in this district for the week is 2·30 inches, so that the actual amount received is practically normal. The stations in North Bengal have received an average fall of 2·27 inches for the week, while the normal fall for the same period is 2·23 inches, the actual fall has thus been about two per cent. in excess of the normal. The stations in South-West Bengal report the average amount of 1·46 inches against the normal fall of 1·23 inches. In this district the rainfall has therefore been distinctly in excess of the normal, and the percentage of excess has been about 18. Chutia Nagpur reports an average fall of 1·10 inches, the normal fall for the period being 1·42 inches, and therefore shows a defect of about 12 per cent. The average fall in South Behar has been 0·58 inch, while the normal amount is 1·25 inches, the fall is therefore less than half the normal quantity, while in Orissa the actual fall for the week has only been 0·31 inch against the normal amount of 1·40 inches, and this district has therefore received a fall little more than a fifth of the normal. For the whole province therefore the fall is distinctly below the normal, the general defect from the normal over the whole province being 28 per cent. The number of rainy days, too, over the province has also been distinctly below the normal in all districts except North Bengal, and thus, while the normal number of rainy days over the whole province for the week is 2·5, the actual average number of rainy days has been two only.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 2nd of October 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of September.		Since 16th May 1885.

The lowest temperature in the month	73·2	10th	
The range of temperature during the month	16·8		
The mean daily range of temperature	9·4		
The greatest range of temperature in one day	15·5	10th	
	Per cent.		
The mean humidity of the month	87		
The average humidity of September from 24 years' registers	85		
	Inches.		
The mean vapour tension of the month	0·956		
The average vapour tension of September from 9 years' registers	0·987		
The mean cloud proportion of the month	7·37		
The average cloud proportion of September from 8 years' registers	7·23		
	Inches.		
The total rainfall of the month	5 51		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	4·90		
The average fall of September from 48 years' registers ...	10·18		
The greatest fall in 24 hours	1·10	22nd	
	Days.		
The number of rainy days in the month	17		
The average number of rainy days in September from 24 years' registers	21		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	143·9		
The mean difference of sun and air temperatures ...	56·6		
The greatest sun temperature	155·0	10th	
The greatest excess of sun over air temperature	66·3	10th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	74·8		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	3·1		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	5·5	28th	
	Miles		
The mean movement of the wind per day	115·3		
The greatest movement of the wind in one day	282·0	23rd	
The greatest movement of the wind in one hour	20·0	22nd	4 to 5 P.M.

The number of hours with winds from each of the 8 points—

N. 7, NE. 18, E. 42, SE. 84, S. 198, SW. 228, W. 80, NW. 36, Calm 27.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of former years (at the Park-street Observatory). The barometer is about 8 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6 higher; and, finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

ALEXANDER PEDLER,
For Meteorological Reporter to the Govt. of India.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 84 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, t thunder, p passing temporary showers, lr lightning reflection, < lightning, K thunder-storm, ⌓ dew.

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 5th October 1885.

ALEXANDER PEDLER,
For Meteorological Reporter to the Govt. of India.

MEMORANDA.

THE principal results to be gathered from the mortuary statistics of the districts in Bengal for the month of August 1885, as exhibited in the appended statement, are the following :—

1. That the deaths of 136,383 persons were registered among a population of 66,163,884, or at the rate of 24·72 per 1.000 per annum, against 18·72 per 1,000 in the preceding month, and 19·56 per 1,000 in the corresponding month of 1884, indicating, as compared with both the past periods, a considerable advance in the number of deaths recorded.

2. That the undermentioned districts returned the highest proportions of deaths :—

Districts.	Ratio per *mille.*	*Districts.*	Ratio per *mille.*
Monghyr	51·36	Hazaribagh	35·88
Patna	45·48	Mozufferpore	34·80
Bhagulpore	40·56	Sarun	33·84
Gya	39·96	Shahabad	29·04
Chumparun	38·52	Nuddea	27·00
Sonthal Pergunnahs	38·16	Puri	24·96
Birbhum	38·04		

3. That the mortality from the following specific heads of disease stands as follows :—

	Ratio per *mille* during—	
	August 1885.	August 1884.
Cholera	4·08	1·20
Small-pox	·06	·12
Fever	15·60	13·92
Bowel-complaints	1·08	·84
Injury	·72	·60
Other causes	2·88	2·52

The noticeable points indicated by the above figures are that, excepting small-pox, the mortality from all the death-causes, notably from cholera and fever, was greater in August 1885 than during the corresponding month of the preceding year.

4. That the highest death-rates from cholera, fever, and the maladies classed under the head of "Other causes" were returned from the following districts, the rest of the diseases not proving noticeably fatal anywhere :—

Cholera.	Ratio per *mille.*	*Fever.*	Ratio per *mille.*	*Other causes.*	Ratio per *mille.*
Sonthal Pergunnahs	16·20	Monghyr	33·72	Sarun ...	10·80
Mozufferpore	16·08	Gya	28·44	Puri ...	10·56
Birbhum	15·12	Patna	26·16		
Chumparun	14·88	Bhagulpore	24·96		
Monghyr	12·36	Nuddea	23·16		
Hazaribagh	10·56	Hazaribagh	20·88		
Bhagulpore	10·20	Julpaiguri	20·40		
Puri	8·52				
Sarun	8·16				
Cuttack	5·88				
Gya	5·64				
Shahabad	4·92				
Patna	4·20				
Durbhanga	3·96				
Murshedabad	3·24				

5. That with regard to mortality referable to *Sex*, *Class* and *Age*, the rates stand as follows :—

According to Sex.	Ratio per *mille.*	*According to Class.*	Ratio per *mille.*	*According to Age.*	Ratio per *mille.*
Males	27·00	Christians	14·40	Under 1 year ...	131·76
Females	22·32	Hindus	27·36	1 and under 5 years ...	29·88
Ratio of males deaths to every 100 female deaths	118	Mahomedans	19·68	5 „ 10 „ ...	15·00
		Budhists	16·44	10 „ 15 „ ...	13·56
		Other classes	21·84	15 „ 20 „ ...	17·16
				20 „ 30 „ ...	17·40
				30 „ 40 „ ...	19·20
				40 „ 50 „ ...	24·00
				50 „ 60 „ ...	33·48
				60 years and upwards ...	52·08

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*

The 5th October 1885. *Sanitary Commissioner for Bengal.*

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,
The 5th October 1885.

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

MEMORANDA.

THE annexed table exhibits the vital statistics of the principal Municipalities in Bengal for the week ending 19th September 1885. The figures exhibited in it indicate :—

1. That the birth and death-rates in the Municipalities in question amounted, respectively, to 26·4 and 37·4 per 1,000 of population, as opposed to the birth and death-rates of 25·3 and 41·9 per 1,000, respectively, during the preceding week ending 12th September, showing a small improvement in the registration of births with a large decline in that of deaths.

2. That the following Municipalities returned the highest proportions of births and deaths :—

Births.

	Ratio per mille.
Bhagulpore	53·4
Gya	42·3
Patna	34·7
Durbhanga	34·6
Purneah	34·6
Serampore	31·4
Chittagong	30·5

Deaths.

	Ratio per mille.
Bhagulpore	101·4
Gya	56·1
Patna	51·2
Chittagong	49·3
Burdwan	41·2
Chupra	41·0
Suburbs of Calcutta	38·5
Utterpara	37·8
Mozufferpore	37·7
Monghyr	37·1
Serampore	33·4
Arrah	31·2

3. That the mortality from the chief death-causes stood as follows :—

	Ratio per mille during the weeks ending—	
	19th September 1885.	12th September 1885.
Cholera	2·0	4·0
Small-pox	·2	·03
Fever	17·9	17·5
Bowel-complaints	6·8	7·8
Injury	·4	·8
Other causes	10·1	11·7

indicating that, in comparison with the preceding week, there was a sensible abatement in the death-rates from cholera, bowel-complaints and the maladies recorded under the head of "Other causes," and that the casualties from the rest of the diseases exhibited only fractional differences.

4. That while the mortality from small-pox and injury was nowhere noticeably high, the Municipalities named below were reported to have returned the highest death-rates from the rest of the diseases :—

Cholera.

	Ratio per mille.
Arrah ...	12·0
Chupra ...	6·8
Gya ...	5·5
Bhagulpore ...	5·4

Fever.

	Ratio per mille.
Bhagulpore ...	56·1
Utterpara ...	37·8
Burdwan ...	32·0
Chittagong ...	25·8
Mozufferpore ...	25·5
Monghyr ...	24·4
Gya ...	23·9
Patna ...	23·3

Bowel-complaints.

	Ratio per mille.
Bhagulpore ...	17·2
Patna ...	12·3

Other causes.

	Ratio per mille.
Bhagulpore ...	19·9
Gya ...	17·7
Puri ...	14·7
Chupra ...	12·7
Suburbs of Calcutta	12·6
Patna ...	12·6
Serampore ...	11·8
Dacca ...	11·7

5. That the mortality according to *Sex*, *Class* and *Age* stands as follows :—

According to Sex.

	Ratio per mille.
Males	38·0
Females	36·6
Ratio of male deaths to every 100 female deaths ...	117

According to Class.

	Ratio per mille.
Christians	34·8
Hindus	42·0
Mahomedans ...	31·2

According to Age.

	Ratio per mille.
Under 1 year ...	348·1
1 and under 5 years ...	69·2
5 „ 10 „ ...	22·6
10 „ 15 „ ...	20·8
15 „ 20 „ ...	16·7
20 „ 30 „ ...	18·8
30 „ 40 „ ...	20·3
40 „ 50 „ ...	21·4
50 „ 60 „ ...	43·7
60 years and upwards ...	85·9

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

The 5th October 1885

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending 19th September 1885.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3273A.

GENERAL.—*The 2nd September* 1885.—Baboo Madan Gopal Singh, Temporary Sub-Deputy Collector, Sonthal Pergunnahs, is transferred temporarily to Maldah, with effect from the date on which he joined his appointment.

Moulvie Zakir Hossein, Deputy Magistrate and Deputy Collector, Monghyr, is transferred to the sudder station of the district of Maldah, with effect from the date on which he joined his appointment.

The 1st October 1885.—Baboo Chandi Charan Bose, Deputy Magistrate and Deputy Collector, Brahmunberiah, Tipperah, is allowed leave for two months and seven days, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

This cancels the order of the 28th July last, transferring Baboo Chandi Charan Bose to Jehanabad in the district of Hooghly.

Baboo Peary Mohan Banerjee, Deputy Magistrate and Deputy Collector, Magoorah, Jessore, on leave, is transferred to Hooghly, and is appointed to have charge of the Jehanabad sub-division of that district.

Baboo Deno Nath Chuckerbutty, Temporary Sub-Deputy Collector, Alipore, Julpigoree, is allowed leave for four months, under section 128, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 28th April last.

The 5th October 1885.—Mr. J. P. Grant, District and Sessions Judge, Hooghly, is allowed leave for three months, under the note to rule 2, section 73, chapter V of the Civil Leave Code, with effect from the 12th September 1885.

Baboo Atal Behari Moitra, Temporary Deputy Magistrate and Deputy Collector, Pooree, is allowed leave for three months, under rule 2, section 138, chapter X of the Civil Leave Code, with effect from the 13th instant.

The 6th October 1885.—Mr. C. B. Garrett, Officiating District and Sessions Judge, Mozufferpore, is appointed to be District and Sessions Judge, 24-Pergunnahs.

Mr. H. Beveridge, District and Sessions Judge, Furreedpore, is appointed to be Additional District and Sessions Judge, 24-Pergunnahs and Hooghly.

Baboo Ananta Lal Chatterjee, Temporary Sub-Deputy Collector, Atia, Mymensingh, is transferred to Backergunge, and is posted to the sudder station of that district, with effect from the date on which he joined his appointment.

Lieutenant-Colonel W. L. Samuells, Officiating Deputy Commissioner, Lohardugga, is allowed leave for one month, under section 72, chapter V of the Civil Leave Code, with effect from such date as he availed himself of it.

The 12th October 1885.—Mr. F. W. R. Cowley, District and Sessions Judge, Patna, on furlough, is appointed to be a District and Sessions Judge of the first grade, *vice* Mr. J. F. Browne, deceased.

Mr. J. F. Bradbury, Officiating District and Sessions Judge, Backergunge, is appointed to be a District and Sessions Judge of the second grade, *vice* Mr. F. W. R. Cowley.

Mr. F. F. Handley is appointed to be a Joint-Magistrate and Deputy Collector of the first grade, *vice* Mr. J. F. Bradbury, but will continue to hold his present appointment as First Inspector of Registration Offices until further orders.

Mr. F. W. Badcock, Joint-Magistrate and Deputy Collector, Moorshedabad, is posted to the sudder station of the district of the 24-Pergunnahs on being relieved of his present appointment as Officiating District and Sessions Judge, Bhagulpore.

The services of the undermentioned Sub-Deputy Collectors are placed at the disposal of the Financial Department of this Government for employment on excise work in the districts mentioned against their names :—

Moulvie Golam Lillahi	...	... Bhagulpore.
„ Anwar Ahmed...	...	... Sarun.
Baboo Nibaran Chunder Ghattuck	...	... Bettiah, Chumparun.
Mr. R. G. Blyth ...	...	... Durbhunga.
Baboo Madhub Lal ...	...	... Gya.

POLICE.—*The 1st October* 1885.—Mr. H. W. J. Bamber, District Superintendent of Police, Rajshahye, is allowed furlough for thirteen months, under section 50, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

The 5th October 1885.—Major A. R. Wilkinson, Officiating Deputy Inspector-General of Police, is allowed leave for twenty-one days, under section 72, chapter V of the Civil Leave Code, with effect from the 8th instant.

The 12th October 1885.—The following acting promotions are made in the grades of District Superintendents of Police :—

To act in the First Grade.

Mr. W. W. Daly, District Superintendent of Police, Assam, from the 28th July 1885.

Mr. W. D. Pratt, District Superintendent of Police, Moorshedabad, from the 2nd August 1885, *vice* Mr. H. M. Reily, on leave.

To act in the Second Grade.

Mr. G. J. Cawley, District Superintendent of Police, Manbhoom, from the 2nd August 1885, *vice* Mr. W. D. Pratt.

To act in the Third Grade.

Mr. W. B. Rattray, District Superintendent of Police, Pubna, from the 28th July 1885.

Mr. T. G. Charles, District Superintendent of Police, Lohardugga, from the 2nd August 1885, *vice* Mr. G. J. Cawley.

Mr. C. P. Crouch, District Superintendent of Police, Assam, from the 12th August 1885, *vice* Mr. W. B. Maxwell, on leave.

To act in the Fourth Grade.

Mr. W. B. Savi, District Superintendent of Police, Assam, from the 28th July 1885.

Mr. W. F. Smith, District Superintendent of Police, Midnapore, from the 2nd August 1885, *vice* Mr. T. G. Charles.

Baboo Mohendro Nath Hazra, Officiating District Superintendent of Police, Khoolna, from the 10th August 1885.

Mr. C. E. Fabre-Tonnerre, District Superintendent of Police, Sonthal Pergunnahs, from the 12th August 1885, *vice* Mr. C. P. Crouch.

Mr. C. Raban, District Superintendent of Police, Bankoora, from the 28th August 1885, *vice* Mr. H. V. H. Roberts, on leave.

To act in the Fifth Grade.

Mr. H. E. C. Paget, Personal Assistant to the Inspector-General of Police from the 28th July 1885

ECCLESIASTICAL.—*The 5th October* 1885.—The Rev. S. B. Taylor, Chaplain of St. Thomas' Church, Calcutta, is allowed leave for thirty-seven days, under section 122, chapter IX of the Civil Leave Code, with effect from the 7th instant.

The services of the Rev. G. T. Carruthers, Chaplain of Cuttack, are placed at the disposal of the Government of the North-Western Provinces and Oudh, with effect from the 25th September last.

REGISTRATION.—*The 5th October* 1885.—Baboo Hurri Chaitanya Ghose, Deputy Magistrate and Deputy Collector, Burdwan, is appointed to act as Second Inspector of Registration Offices, during the absence, on leave, of Mr. J. F. Harrison, or until further orders.

The following notification is republished from the *Assam Gazette*:—

No. 331.—*The 1st October* 1885.—Mr. A. J. Primrose, C.S., Assistant Commissioner, second grade, reported his return from furlough at Calcutta on the 2nd October 1885, and is posted to Mangaldai, in the district of Darrang.

F. B. PEACOCK,
Chief Secy. to the Govt. of Bengal.

REVENUE (FOREST) DEPARTMENT.

The 12th October 1885.—The services of Mr. F. B. Manson, Deputy Conservator of Forests, are placed at the disposal of the Government of India in the Home Department for one month, with effect from the 20th November 1885.

During the absence, on deputation, of Mr. F. B. Manson, Mr. C. A. G. Lillingston, Assistant Conservator of Forests, Palamow sub-division, will hold charge of the Chota Nagpore Forests Division and of the Hazaribagh sub-division of that division in addition to his other duties.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 10th October 1885.—Under the powers conferred upon him by section 75 (*d*) of Act VII of 1878, the Lieutenant-Governor is pleased to make the following rules to regulate grazing in the reserved forests of Darjeeling.

Rules.

1. Grazing in the reserved forests of the Darjeeling Forest Sub-Division other than those north of the Little Rungit river is prohibited, except under the following rules and conditions.

2. Permits for grazing will be issued by the Forest Officers in charge of ranges, hereinafter referred to as range officers, for the calendar month, on payment of such fees as may from time to time be fixed by the Conservator of Forests, with the sanction of Government. The permits will fix the block or locality in which the privilege of grazing may be exercised: such blocks or localities shall be selected by the Divisional Forest Officer with regard to the protection of the forest, the convenience of the permit-holder, and the existing orders of Government on the subject, or orders which may in future be issued by Government.

3. He shall not be obliged to allow grazing in any given block to more than one head of cattle to every 10 acres of area, but on the other hand may locate any number of cattle in a block, provided the area available for grazing in that block be five acres per head.

4. Grazing will be reserved for milk cattle required for the supply of milk and butter to the public in Darjeeling, Jellapahar, and Jore Bungalow, and for a number of draught cattle not exceeding 150 head.

The Divisional Forest Officer will not be bound to provide grazing for any cattle other than the above, but may, with the sanction of the Conservator, allow temporarily a larger number if he considers it can be done with due regard to the interest of the forest.

5. The construction of grazing camps, enclosures, or bathans is prohibited, except on the sites pointed out by the Divisional Forest Officer. Sites for two bathans shall be allowed to each grazier whose permit allows him to graze more than five head of cattle. Should more be required, or a change of site applied for, the question to be decided in case of dispute by the Divisional Forest Officer and Deputy Commissioner.

6. In the cases in which the two bathans allotted to a permit-holder lie in two different blocks, he shall not leave one for the other without previous notice to the range officer, and without having the permission of this officer endorsed on the permit.

7. For the construction of, and repairs to, these bathans, permit-holders may utilize such dry fallen wood as may be found in the vicinity, and, with the permission of the range officer, canes and bamboos. Should sufficient dry wood not be available, the Divisional Forest Officer, or his subordinate under his orders, may mark and allow to be cut for this purpose trees of the less valuable kinds of smaller girth than 18 inches on pre-payment of annas 4 per tree. No charge will be made for canes, bamboos, or dry wood.

8. The Divisional Forest Officer may prohibit the construction of bathans for draught cattle.

9. The cutting and lopping of trees is prohibited. This rule does not apply to bamboos, creepers, and the trees known as *Dung-Dung* (Brassiopsis hamla) and *Dudhia* (Ficus gemella).

10. Payment for permits for grazing will be made in advance on the first day of the month, and in case of payment not being made by the 10th, double fees may be charged; if not made by the 20th, the cattle may be driven out of the forest, or the defaulters prosecuted under section 25 (*d*) of the Indian Forest Act, and the issue of a permit refused, subject to appeal to the Conservator. Should the Conservator consider it desirable, payments may be made quarterly, but subject to the above provisions as to payment.

11. Buffaloes, goats, and sheep will not be allowed grazing in the forests forming the circles to be worked for the supply of fuel and timber to Darjeeling, Jellapahar, and tea plantations.

12. All permits will be kept at the bathans, and will be produced for inspection whenever called for by any Forest or Police Officer. On the expiry of the term for which a permit is issued, it shall be returned to the office of issue, and a fresh permit may be refused, unless the applicant produces his expiring or expired permit.

13. The range officer shall, after issue of a notice to any holder of a grazing permit, copy of which shall be sent for record to the Divisional Officer, require that on a day fixed, not less than seven days from the date of the notice, he shall have all his cattle within his bathan to allow of their number being checked with his permit. Such inspections shall not be made oftener than four times in the year: they shall ordinarily be held between the hours of 7 and 10 A.M., so as not to cause unnecessary inconvenience to the permit-holder, who may, however, by giving at least two days' notice to the range officer, fix any other hour between 8 A.M. and 6 P.M. of the day appointed by the notice that may be more convenient to himself. Should the permit-holder refuse or neglect to comply with the terms of the notice referred to above, or otherwise hinder the thorough inspection of his cattle, the issue to him of a fresh permit may be refused until he has complied with the requirements of this rule.

The Conservator may exempt by name, class, or locality any person or persons from the requirements of the preceding clause.

Nothing in this rule shall be held to debar any Forest or Police Officer from visiting and inspecting a bathan or cattle shed or pen within the reserved forests, or the cattle grazing in the forest.

14. Any Forest Officer attached to the Darjeeling Forest Division, to whom the range officer is subordinate, may exercise any of the powers conferred on a range officer by these rules.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th October 1885.—Whereas it appears that land is required for the use of the Darjeeling-Himalayan Railway Company at different places along the Darjeeling Hill Cart Road, the Lieutenant-Governor, Bengal, is hereby pleased to declare, under section 26 of the Indian Forest Act (VII of 1878), with the previous sanction of the Governor-General in Council, that the undermentioned pieces of land, which, in a notification of 23rd January 1879, under section 34 of the above Act, were declared to be reserved forests, shall from the 1st November next cease to be reserved forests.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Darjeeling ...	Hill territory	Sukna-Teesta, Sukna range, Sukna block.	*North, East, and South.*—A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 665 feet from the old 8th mile-post from Siligori (measured along the axis of the Cart Road), and meeting the Road Location boundary further north at a point about 1,782 feet from the same mile-post, and separating the area from the remainder of the Sukna reserved forest. *West.*—Hill Cart Road Location. These boundaries include an area of about 3 acres 2 roods 28·86 poles.
Ditto ...	Ditto ...	Sukna block ...	*North and East.*—Hill Cart Road Location. *South and West.*—A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 1,718 feet from the old 8th mile-post from Siligori (measured along the axis of the road), and meeting the Road Location boundary further up at a point about 3,393 feet from the same mile-post, and separating the area from the remainder of the reserved forest. These boundaries include an area of about 3 acres 3 roods 39·59 poles.
Ditto ...	Ditto ...	Sukna block ...	*South, West, and North.*—A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 3,932 feet from the old 8th mile-post from Siligori (measured along the axis of the Cart Road), and again meeting the Road Location boundary further up at a point about 4,570 feet from the same mile-post, and separating the area from the remainder of the reserved forest. *East.*—The Road Location. These boundaries include an area of about 2 roods 18·75 poles.
Ditto ...	Ditto ...	Sukna block ...	*North, East, and South.*—A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 4,464 feet from the 8th mile-post, from Siligori (measured along the axis of the Cart Road), and again meeting the Road Location boundary further up at a point about 4,950 feet from the same mile-post, and separating the area from the remainder of the reserved forest. *West.*—The Cart Road Location. These boundaries include an area of about 1 acre 1 rood 7·01 poles.
Ditto ...	Ditto ...	Kuklong block.	*North and North-east.*—Cart Road Location boundary. *South-east, South, and West.*—A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 2,660 feet from the 9th mile-post from Siligori (measured along the axis of the Cart Road), and meeting the Road Location boundary further up at a point about 2,850 feet from the same mile-post, and separating this area from the remainder of the reserved forest. These boundaries include an area of about 17·49 poles.
Ditto ...	Ditto ...	Kuklong block.	*North.*—The Hill Cart Road Location. *East, South and West.*—A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 160 feet below the new 10th mile-post and semaphore (measured along the axis of the Cart Road), and meeting the Road Location boundary again at a point about 160 feet above the same mile-post, and separating this area from the remainder of the reserved forest. These boundaries include an area of about 1 rood 6·46 poles.
Ditto ...	Ditto ...	Kuklong block.	*East and North-east.*—The Hill Cart Road Location, then the land taken up from the Sepoydhura Tea Estate by the Railway Company.

District.	Pergunnah or other sub-division.	Name of forest.	BOUNDARIES.
Darjeeling ...	Hill territory	Kuklong block.	*West and South.*—A line, demarcated with pillars, starting from a point at the south-west boundary of that piece of land, and running along a little below the Road Location boundary, and meeting that boundary at a point about 1,100 feet further down the road. The whole lying between the old 10th and 11th mile-posts (from Siligori), and including an area of about 1 acre 6·48 poles.
Ditto ...	Ditto ...	Kuklong block.	*North and North-west.*—The Sepoydhura Tea Estate, the Hill Cart Road Location, and the Selim Tea Estate. *South and South-east.*—A line, demarcated with pillars, starting from a point on the boundary between the Kuklong Reserved Forest and the Sepoydhura Tea Estate (about 85 feet from the Road Location), and passing in a south-west, south, and west direction, meeting the point where the north-western boundary of the forest joins the boundary of the Selim Hill Tea Estate at a distance of about 160 feet from the Road Location. The whole lying on the 14th mile (from Siligori), and includes an area of about 2 acres 14 poles.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th October 1885.—Under the provisions of Rule III of the Rules of the 28th July 1879, made under section 25 (*i*) of the Indian Forest Act (VII of 1878), the Lieutenant-Governor is pleased to sanction the closing of the reserved forests of the Darjeeling Terai and Lower Hills (Kurseong and Teesta sub-divisions of the Darjeeling Forest Division), as well as those of the district of Julpigoree (Julpigoree and Buxa Forests Divisions) against hunting, shooting, and fishing from the 1st December 1885 to 1st June 1886.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th October 1885.—With the sanction of His Excellency the Governor-General in Council, and in substitution for Rule 22 of the Rules dated the 16th February 1871, the Lieutenant-Governor proposes to issue the following rules under the provisions of section 41 (*i*) of the Indian Forest Act, VII of 1878, for the registration of property-marks used by persons transporting timber through the Sundarbans Forests. The proposed rules are hereby published for general information.

I.—All persons transporting timber through any portion of the reserved or protected forests of the Sundarbans shall annually register their property-marks in the office of the Divisional Forest Officer. Such mark shall consist of a device to be approved by the Divisional Forest Officer, and a certificate of registration, showing the device registered, shall be given to each person who registers his property-mark. Copies of the certificates shall be forwarded to the officers in charge of the several revenue stations, as well as to the Conservator of Forests.

II.—The registration fee payable for each property-mark shall be Rs. 2 for a first registration and annas 8 for each subsequent annual renewal; provided—

(1) That the lower rate (annas 8) only will be payable under this rule by persons who hold certificates of registration under the Rules of the 16th February 1871, passed under Act VII of 1865, and who renew them within twelve months of the date of their last renewal;

(2) That should more than twelve months elapse in any case from the date of first registration under these rules, or from the date of any renewal, the full fee payable on first registration (Rs. 2) shall be levied for the subsequent registration of each property-mark; and

(3) That the Divisional Forest Officer may refuse to register more than one property-mark for any one person, should he consider it desirable to do so.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th October 1885.—The following additions to Rule II of the River Rules for the Chittagong Hill Tracts, framed under section 41 of the Indian Forest Act, which were published by a notification, dated the 17th October 1881, in the *Calcutta Gazette* of the 19th idem, having been approved by His Excellency the Governor-General in Council, are published for general information :—

(*a*) All timber and forest produce shall be liable to stoppage by any officer, especially authorized in this behalf by the Conservator of Forests for examination below the revenue stations established under these rules ; and if the forest produce be found to be in excess of, or different in kind from, that specified in the pass granted by the Forest Officer in charge of the revenue station, the examining officer shall seize the same and report the case at once to the divisional forest officer.

(*b*) The holder of a pass shall be bound to produce it at any point on the river *below* the authorized revenue stations, when called upon to do so by any Forest Officer specially authorized in this behalf by the Conservator of Forests, failing which the forest produce will be detained, pending the production of the pass.

NOTIFICATION.

The 9th October 1885.—It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 1st December 1885, in Ward No. III of the Madaripore Municipality, in the district of Furreedpore, for the purpose of filling the vacancy caused by the transfer of Baboo Saroda Kanta Sen, one of the elected Commissioners, from the sub-division.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 10th October 1885.—In supersession of the notification, dated the 4th September 1885, published at page 17, Part IB of the *Calcutta Gazette* of the 16th idem, it is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 28th November next, in Ward No. IV of the Baduria Municipality, in the district of the 24-Pergunnahs, for filling up the vacancy caused by Baboo Trailako Nath Nag Chowdhury ceasing to be a Commissioner.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th October 1885.—The following draft of rules, which the Lieutenant-Governor proposes to make under clause (*a*) of section 138 of the Bengal Local Self-Government Act, 1885, is published for general information under section 143 of the said Act, and notice is hereby given that they will be taken into consideration on or after the 1st December 1885, when any objections or suggestions which may be made by any person and received before that date will also be considered.

PART I.

ELECTION OF MEMBERS OF UNION COMMITTEES.

Preliminary.

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority.

Of the qualification of Voters.

3. Every male person of the full age of twenty-one years, resident within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid any road cess, license tax or chowkidari tax, or who is a member of a joint undivided family, which has during such period paid any such cess or taxes, shall be entitled to vote at such election.

Of the qualification of Candidates.

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

Of the manner of holding elections.

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union, in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand: any costs incurred in issuing notices under this rule shall be defrayed from the District Fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9 The Magistrate of the district, or such other gazetted officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the presiding officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question, the presiding officer shall proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

13. If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot, in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected.

17. Except as provided by rule 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

PART II.

ELECTION OF MEMBERS OF LOCAL BOARDS.

Preliminary.

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner shall decide the number of members who shall be elected for each thana within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thanas in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than three months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

Of the Qualification of Electors.

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within such area;

(2) Has, during the year immediately preceding such election,—

(*a*) paid a sum of not less than one rupee on account of road cess in respect of land situated either wholly or in part within such area;

(*b*) paid license tax in respect of a trade, dealing, or industry carried on within such area; or

(*c*) been possessed of a clear annual income from any source of not less than two hundred and forty rupees.

(3) Being a member of a joint undivided family, one of the members of which is qualified for election as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be entitled to vote at an election of members of such Local Board.

Of the Registration of Electors.

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the Magistrate of the district shall cause to be prepared for each thana within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall from time to time be corrected and added to as the Magistrate of the district may direct.

23. At least one month before the date fixed for the election for any thana, a copy of the register showing the persons qualified to vote for such thana shall be published at suitable places within that thana. Copies of all the thana registers shall also be pub-

lished at the sub-divisional office. Provided that all such registers made and published before these rules come into operation shall be held to have been duly made under Rule 4 and duly published under Rule 5.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus made shall be published at the thana at least three weeks before the date fixed for the election; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thana list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thana list shall be permitted to vote.

Of the qualification and the nomination of Candidates.

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within the area under the authority of the Local Board;

(2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board; and

(*a*) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board;

(*b*) paid a license tax of not less than twenty rupees in respect of a trade, dealing, or industry carried on within the area under the authority of the Local Board; or

(*c*) been possessed of a clear annual income from any source of not less than one thousand rupees.

(3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (*a*) or (*b*) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thana under the authority of such Local Board.

28. Any elector may, for the thana in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thana election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thana. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period. Provided that all such notices or nominations which may have been issued or made before these rules come into operation shall be held to have been issued or made under these rules.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office: his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thana at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

Of the manner of holding Elections.

32. The election for each thana shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thana shall be held at the head-quarters of the thana.

34. The date fixed for the thana election shall be duly notified at the thana, and at such other places as may appear suitable, at least one month beforehand.

Provided that any notice to this effect issued previous to these rules coming into force shall be held to be valid under these rules. A vernacular notice in the following form shall also, at least one week before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register:—

"You are hereby informed that you are registered as a voter for the thana, and that you will be entitled to vote at the election of members of the Local Board to be held at on the 18 ."

35. An elector duly qualified under Rule 4 shall be entitled to vote for the thana in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thana, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thana.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thana are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 8.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thana have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thana are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number of members for the Local Board fixed for such thana.

45. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thanas, such person shall be at liberty to choose which thana he will represent, and in every other thana for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him.

48. After all the thana elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

Miscellaneous.

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

PART III.

ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

Election of Members of District Boards.

53. A Local Board shall not elect members for the District Board until (*a*) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (*b*) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (*a*) of the preceding rule, or if later, the notification referred to in clause (*b*) of the same, the Local Board shall at a meeting elect the requisite number of members for the District

Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected for two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

59. The only persons qualified for election as members of the District Board shall be members of the Local Boards in the district.

60. The names of the elected members of the District Board shall, together with the names or official designation of the appointed members, if any, be published in the *Calcutta Gazette*.

Term of Office.

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member

62. The term of three years mentioned in the preceding rule shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding rule.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation, or removal, or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

B. District Boards.—As soon as possible after expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy amongst elected members under rule 63, the Magistrate of the district shall send a notice to the Local Board which has the right to elect a member to fill the vacancy, and such Board shall, within one month of the receipt of such notice, elect a member in accordance with rules 54 to 59.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 6th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz for widening ditch No. 12, in Ward No. 6, it is hereby declared that for the above purpose pieces of land No. 16, Peary Das' Lane and Nos. 5 and 6, Manicktolla Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah 10 chittacks and 22½ square feet only are required.

The boundaries of the plots are as follows :—

Portion marked A on plan.—On the north and east by public filled-up drain; on the south by Nos. 15 and 16, Peary Das' Lane; and on the west partly by Peary Das' Lane and partly by No. 16, Peary Das' Lane.

Portion marked B on plan.—On the north partly by No. 4, Manicktolla Street and partly by Nos. 5 and 6, Manicktolla Street; on the south by Nundo Lal Mullick's Lane; on the east partly by No. 4, Manicktolla Street, partly by Nos. 5 and 6, Manicktolla Street, and partly by Nundo Lal Mullick's Lane; and on the west by public filled-up drain.

A plan and specification of the plots of land to be acquired are filed in the office of the Municipal Commissioners for the town of Calcutta.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 6th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a flushing well near ditch No. 11 in Ward No. 6, it is hereby declared that for the above purpose a piece of land No. 139, Mooktaram Baboo's Street, in the town of Calcutta district 24-Pergunnahs, measuring, more or less, 3 chittacks and 25 square feet only are required.

The boundaries of the land are as follows:—On the north by the public filled-up drain, and on the south, east and west by No. 139, Mooktaram Baboo's Street.

A plan and specification of the land to be acquired are filed in the office of the Municipal Commissioners for the town of Calcutta.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 9th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for constructing a bathing platform in Machooa Bazar Bustee, it is hereby declared that for the above purpose a piece of land No. 113, Machooa Bazar Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only, is required. The boundaries of the land are as follow:—On the north, south, and west by premises No. 113, Machooa Bazar Street, and on the east by a bustee passage.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 9th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform at No. 29, Giree Baboo's Lane, it is hereby declared that for the above purpose a piece of land No. 29, Giree Baboo's Lane, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah 12 chittacks only is required. The boundaries of the land are as follow:—On the north and west by premises No. 28, Giree Baboo's Lane, and on the south and east by Giree Baboo's Lane.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 9th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for constructing a bathing platform at No. 71, Champatola 2nd Lane, it is hereby declared that for the above purpose a piece of land No. 71, Champatola 2nd Lane, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only is required. The boundaries of the land are as follow:—On the north and west by premises No. 71, Champatola 2nd Lane; on the south by premises No. 70, Champatola 2nd Lane; and on the east by Champatola 2nd Lane.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 9th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform in Ooriyapara Bustee, it is hereby declared that for the above purpose a piece of land No. 61, Champatola Lane, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only is required. The

boundaries of the land are as follow:—On the north and west by premises No. 61, Champatola Lane; on the south by Champatola Lane, and on the east by a passage.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 12th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform at No. 114, Grey Street, it is hereby declared that for the above purpose a piece of land No. 114, Grey Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only is required. The boundaries of the land are as follows:—On the north and west by premises No. 114, Grey Street; on the east by a bustee road; and on the south by Grey Street.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 12th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform at No. 55, Sukeas Street, it is hereby declared that for the above purpose a piece of land No. 55, Sukeas Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only, is required.

The boundaries of the land are as follows:—On the north and east by premises No. 55, Sukeas Street; on the west by premises No. 56, Sukeas Street; and on the south by Sukeas Street.

A plan and specification of the land to be acquired are filed in the office of the Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 12th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for widening sewered ditches for improving Kerance Bagan Bustee Roads, marked VI and VIII on plan, it is hereby declared that for the above purpose pieces of land No. 106, Serpentine Lane, Nos. 128 and 129, Bow Bazar Street, and No. 8, St. James' Square Road, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 7 cottahs and 12 chittacks only are required.

The boundaries of the lands are as follows:—

Road marked VI on plan.—On the north by the sewered ditch; on the east by No. 106, Serpentine Lane, and No. 128, Bow Bazar Street; on the west by No. 8, St. James' Square Road and sewered ditch; and on the south by St. James' Square South Road.

Road marked VIII on plan.—On the north by Bow Bazar Street; on the east by sewered ditch; on the west by Nos. 128 and 129, Bow Bazar Street, and No. 106, Serpentine Lane.

A plan and specifications of the land to be acquired are filed in the office of the Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, OCTOBER 14, 1885.

PART II.

Advertisements.

N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 20th October 1885, corresponding with 3rd Kartic 1293 Fusli.

The purchasers will be subject to the following conditions of sale—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

Number in statement of Government estates.	Number on the district roll, or towji number.	Name of estate and pergunnah.	Share which will be put to sale.	Approximate area in local bighs.	Government revenue or sudder jumma of the entire estate.	Jama kham of the share which will be put up to sale.	Deduct Government revenue of the share which will be put up to sale.	Net income.	Upset price.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 3-10 per cubic foot.
22 " " 3-12 "
23 " " 3-14 "
24 " " 3 "

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c ft.
Under 12 and over 7, at " 2-4 "
Under 7 feet at " " "

The above prices are for ordinary building purposes.

For *Planking, Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion

Second and Third Class Timber will be sold and price fixed by agreement

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division

Bahramghat, the 1st April 1883.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Aughrahyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

Notice.

GYA MICA MINES.

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

Notification.

IT is hereby notified that under section 5 of the Indian Treasure Trove Act (IV, 1878) that on the 30th August 1885 article, as detailed below, worth Rs. 24, was discovered under ground while the earth was being dug for sowing crops in village Duba, pergunnah Chowhar, police station Darowli, Sewan sub-division.

All persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of Sarun at his office within (5) five months of this date in order to the matter being enquired into and determined in accordance with the provisions of the Act—

Detail.

Old silver coins 24

H. E. M. JAMES,
Offg. Director-General of the Post Office of India.
Simla, the 28th September 1885.

Despatch of samples of wool to Portugal prohibited.

INTIMATION has been received from the Post Office of Portugal that the admission into that country *vid* Spain of samples of woollen fabrics or of raw wool of any kind has been temporarily prohibited on account of sanitary measures adopted by the Portugese Government against the spread of cholera.

2. Until further notice therefore no samples of wool in any form can be forwarded by post from India to Portugal.

H. E. M. JAMES,
Offg. Director-General of the Post Office of India.
Simla, the 14th September 1885.

Exchange of Parcels with Gibraltar.

FROM the 1st of October 1885, parcels will be received at any Indian Post Office for transmission to *Gibraltar*.

2. The limit of weight for such parcels will be 7 pounds.

3. The rate of postage, and the conditions as to size, contents, value, customs declarations, and manner of posting generally will be the same as those prescribed for parcels addressed to the United Kingdom and intended for delivery through the British Post Office.

H. E. M. JAMES,
Offg. Director-General of the Post Office of India.
Simla, the 1st October 1885.

Parcel Post with the West Indies.

ON and after the 1st October 1885, parcels will be received at any Post Office in India for transmission to the following places in the West Indies—

Jamaica. | St. Lucia.
Grenada. | Tobago.
Trinidad.

2. The rate of postage for parcels addressed to these places will be one rupee for every pound or fraction of a pound weight.

3. The limit of weight for such parcels will be 7lb, and the conditions as to size, contents, limits of value, &c., will be the same as those for parcels addressed to the United Kingdom for delivery through the British Post Office, except that parcels intended for Jamaica may not exceed 2 feet in length and 4 feet in girth.

4. Each parcel must be accompanied by a customs declaration in the prescribed form, as in the case of parcels intended for the United Kingdom.

H. E. M. JAMES,
Offg. Director-General of the Post Office of India.
Simla, the 28th September 1885.

Extension of Value-Payable system to Unregistered Book-packets.

FROM and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the *prescribed form* containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certficate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable *parcels* and value-payable *registered* articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,
Offg. Director-General of the Post Office of India.
Simla, the 19th September 1885.

Parcels to be presented with receipts ready filled up.

UNDER the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120, dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the *prescribed form*. This will be signed and returned to the messenger. Forms will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

5. An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,
Offg. Director-General of the Post Office of India.
Simla, the 19th September 1885.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	„ 2 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...	.....	„ 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
„ Thacker & Co., Bombay.
„ Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 *should be at once remitted.*

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st.*—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd.*—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd.*—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

PART V.

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 2nd October, 1885, and is hereby promulgated for general information :—

ACT No. XV OF 1885.

An Act to amend the Local Authorities Loan Act, 1879.

WHEREAS it is expedient to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows :— XI of 1879.

Addition to section 8, Act XI of 1879.

1. After clause (*b*) of the proviso to section 8 of the said Act the following shall be added :—

"or

"(*c*) to affect the power conferred on any local authority by any such enactment to charge its funds by guaranteeing the payment of interest on money to be applied to any purpose to which the funds of the local authority can legally be applied."

D. FITZPATRICK,
Secy. to the Govt. of India.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the Local Authorities Loan Act, 1879, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 23rd September, 1885 :—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the Local Authorities Loan Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Secretary to Chief Commissioner, British Burma, No. 803—24L., dated 13th June, 1885 [Paper No. 1].
From Secretary to Chief Commissioner, Assam, No. 972, dated 18th June, 1885 [Paper No. 2].
From Chief Commissioner, Ajmer-Merwára, No. 722, dated 3rd July, 1885 [Paper No. 3].
From Secretary to Government, North-Western Provinces and Oudh, No. 3051—X-518, dated 10th July, 1885 [Paper No. 4].
From Officiating Secretary to Government, Punjab, No. 7318., dated 17th July, 1885, and enclosures [Papers No. 5].
From Secretary for Berar to Resident, Hyderabad, No. 274G., dated 13th July, 1885 [Paper No. 6].
From Secretary to Chief Commissioner, Coorg, No. 688—89, dated 14th July, 1885 [Paper No. 7].
From Chief Secretary to Government, Madras, No. 1800, dated 10th July, 1885, and enclosures [Papers No. 8].
From Under Secretary to Government, Bombay, No. 2054, dated 18th July, 1885, and enclosures [Papers No. 9].
From Officiating Secretary to Government, Bengal, No. 1370, dated 20th July, 1885, and enclosures [Papers No. 10].
From Assistant Secretary to Chief Commissioner, Central Provinces, No. 3052—117, dated 11th August, 1885 [Paper No. 11].

2. It has been suggested that the term "raised" should be altered so as to include money devoted to any particular purpose by a person who may not have occasion to raise it, and we have accordingly substituted the words "applied to" for "raised for".

3. The only other alteration we have made in the Bill is a purely verbal one.

4. The publication ordered by the Council has been made as follows :—

In English.

Gazette.	*Date.*
Gazette of India	16th, 23rd and 30th May, 1885.

	36	Maldah „ 10 „	Nil	Weather—seasonable; mornings and evenings cool. *Kalai* has been fully sown. State and prospects of winter rice very good. A few cases of cholera reported from Khurba. Common rice selling at 14 seers, and new rice at 17 seers per rupee at Englishbazar.
	37	Sonthal Pergha. „ 10 „	0·65	Fine clear weather till yesterday, the 9th, when there was a good fall of rain. Prospects of crops splendid everywhere. A bumper rice harvest expected. Rain of 9th will be of immense value to the *rubbee* sowings. General health good.
		Deoghur ...	0·09	
		Godda ...	0·32	
		Pakour ...	0·13	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Divn. 38	Cuttack Oct. 9 '85	0·52	Weather—clear and hot. *Beali* rice has yielded a fair outturn everywhere except in tracts damaged by sea-wave. *Sarad* growing well, but requires rain. Common rice selling at 11¼ seers per rupee in town. Public health generally good. Arrangements being made for relief of distressed people on the coast.
39	Pooree, „ 8 „	0·2	Weather—hot with occasional clouds. Second weeding of late *sarad* paddy going on. Early *sarad* ripening. Miscellaneous crops doing well. Relief works have begun in the tracts bordering the Chilka owing to the failure of the crops in those tracts from drought. Rain urgently required in some parts of the district. Common rice selling at an average of Calcutta seers 17 seers 15 chittacks per rupee in the Sudder sub-division, and 17 seers 11 chittacks in the Khoorda sub-division. Public health fair.
	Khoorda ...	0·11	
40	Balasore, „ 9 „	Nil	Weather—clear and warm. *Beali* ripening and is being cut in places. Prospects of *sarad* favourable except in parts of Basudebpur and Chandbally where the crop, which met with the sea-waves of the 22nd ultimo, will be partially destroyed. Public health generally good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh. Oct. 9 '85	Nil	Weather—seasonable; cloudy since 8th. *Bhadoi* crops being still harvested in certain places. Prospects of rice continue good. A shower of rain will be greatly beneficial to the crops, most of which are in ears. Cholera still lingering in certain thanas. General health good.
42	Lohardugga, „ 10 „	0·12	Weather—cloudy without rain. Slight rain wanted. Prospects of winter rice very favourable. Prices steady. Public health generally good.
43	Singbhoom, „ 9 „	0·01	Weather—seasonable. A thunder-storm accompanied by heavy rain passed over Chyebassa last night (8th). Prospects of crops continue excellent. Prices easy. Two fatal cases of cholera occurred in the dispensary on the 2nd, no other cases have since been reported. General health good. A few cases of cattle-disease reported from the interior.
44	Manbhoom, „ 10 „	0·64	Weather—fine with a few showers. Prospects of winter crops continue good, and weather during the week has been favourable to them. A bumper *aman* crop expected. Price of common rice fallen to 20 seers. Public health good.

Published for general information.

CALCUTTA, REVENUE DEPT.,
The 13th October 1885.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

Results of the Meteorological Observations taken at the Alipore Observatory from 4th to 10th October 1885.

The total fall from 1st January to 10th October 1885		62·11
The average fall of the corresponding period for 24 years, S. G.'s Office		61·36

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 0h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

D dew.

N.B.—In the weekly report from 27th September to 3rd October 1885, in the column of mean pressure read 29·872 inches as the mean pressure of the 30th September instead of 29·72 inches.

ALEXANDER PEDLER,
Offg. Meteorological Reporter to the Govt. of Bengal.

METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF SEPTEMBER 1885.

THE normal meteorological conditions in Bengal during the earlier parts of September resemble those of July and August to a very great extent. The month is, as a rule, one of steady monsoon rains, brought certainly during the earlier parts of the month by both branches of the monsoon current; but towards its close, as the Bombay current very rapidly falls off in strength, the rainfall is then to a great extent, if not almost, entirely brought up by the Bay of Bengal current. This latter current also falls off in strength during almost the whole of September, and towards its close the diminution of the wind velocity becomes very marked. The rainfall for the month is therefore very decidedly lighter and rather more irregular than in the two preceding months, and though during the prevalence of the Bombay branch of the current the distribution of the rainfall will be very similar to that in July and August, with the cessation of the Bombay current the distribution of the rainfall alters somewhat, the rainfall being then due to the action of the Bengal current alone, and at this time usually the increased precipitation in the western districts, due to the interaction of the currents to a great extent, ceases. The normal distribution of the rainfall during September is therefore a little more complex than in July and August, as will be seen subsequently.

With the diminution in the velocity of the monsoon current, breaks in the rains during September are much more frequent than in July and August, and their duration is also longer. It is during these breaks or intervals that small cyclonic storms are formed, and it will be seen that the period during which they are being formed being longer, they will have a better opportunity of intensifying, and thus the cyclonic storms formed over the Bay during September may be far more intense than those usually formed during the earlier monsoon months. As these cyclonic storms bring large amounts of rain to the districts which come within their influence, and as the line of country through which they may pass may vary very considerably, they are prominent causes in modifying the rainfall of particular years.

Normal distribution of rainfall.—The actual amount of rainfall in September in Bengal will, however, depend mainly on the strength and the depth or volume of the Bay of Bengal current, and thus in the normal distribution of the rainfall, the areas of heaviest rainfall are the districts in the neighbourhood of the hills of North and East Bengal, and the coast districts of Bengal and Orissa. The average rainfall exceeds 20 inches at the base of the Himalayas in North Bengal. To the north of a line running east and west through Bagdogra the average rainfall exceeds 15 inches, while there is another small area in East Bengal, including Fenny and Noakholly, with an average fall rather more than 15 inches. Between these areas and a curved line including the Northern and Central districts of South-West Bengal, the whole of Behar, except the most northern portions, the Sonthal Pergunnahs, Chutia Nagpur and the southern and western districts of Orissa, and defined by the stations of Bettiah, Durbhanga, Bhagulpore, Godda, Berhampore, Goalundo, Manickgunge, Bagirhat, Diamond Harbour, Balasore, Kendrapara, and Pooree, the average rainfall varies from 15 to 10 inches, diminishing towards the interior of the country. The greater part of South-West Bengal and Chutia Nagpur fall inside this line and receive amounts varying from 10 to 8 inches, and finally the northern parts of Chutia Nagpur and the greater part of South Behar receive amounts less than 8 inches. The minimum rainfall for the month over the whole Province is to be found in certain parts of South Behar and Chutia Nagpur, and in an area in South-West Bengal including such stations as Magoorah, Bongong, Ranaghat, Kishnaghur and Culna, where at the last-named station the fall is actually smallest, and only amounts to a little more than 6 inches. The explanation of this second curious patch of deficient rainfall appears to be that it is this district which is least under the influence of the normal monsoon current, and that it is not influenced by any of the well-known causes which induce increased precipitation or rainfall.

Meteorology of the month.—At the close of the month of August a small and feeble barometric depression which had formed over South Bengal had moved in a northerly direction into South Behar, and though the depression had become very feeble, there was still a distinct tendency to cyclonic circulation of winds round the central parts of the Province. On the 2nd of September there was a rather rapid fall of pressure in South-West and East Bengal and Orissa, and this having continued on the following day, a distinct area of low pressure was formed over South Bengal. The falling pressure having continued, the two areas of low pressure or feeble barometric depressions became more clearly marked, one having its centre to the east of Calcutta, and the second to the south-west of Bhagulpore, and on the 4th and 5th the southern depression advanced in a northerly direction, and it became absorbed in the low pressure area which existed near Bhagulpore. There was also on the 5th a distinct and rather broad band of low pressure stretching in a north-westerly direction across the Province, the southern limit of the band being at Burrisal, while the northern limit included the station of Purneah. Pressure on this day was largely below the normal, particularly in the districts affected by the low pressure, and at Bhagulpore the defect from the normal was 0·15″. The wind system of the Province was of course materially influenced by these conditions, and round the area of low pressure winds circulated cyclonically, the wind directions at almost all the stations in the Province being

affected in this way. Wind velocities were generally light, though with the advance of the depression on the 4th and 5th rather strong winds set in at the southern and western stations. These conditions of course brought moderate to heavy rain to almostall parts of the Province. The area of low pressure which thus occupied almost the whole of North Bengal and surrounding districts continued practically unaltered for the next four days, on some days slightly intensifying, and on others slightly decreasing in intensity, and with its continued existence the wind circulation was unaltered, and thus conditions remained favourable for the production of heavy rainfall over the central, eastern and northern parts of the Province, while at the western stations, and particularly in Orissa and Chutia Nagpur, the rainfall gradually commenced to decrease and became light and local. On the 10th and on the 11th pressure commenced to rise rapidly over the whole Province, the rise being particularly rapid at the northern and eastern stations, and thus the area of low pressure in North Bengal was filled up, and the lowest pressure in the Province was transferred to the western and northern parts of Behar. With the disappearance of the depression the cyclonic circulation of winds also ceased, and the monsoon winds became light and feeble, and were to a certain extent driven back by a westerly current which brought with it fine weather to almost all districts. The weather conditions at this period showed every indication that a well-defined break in the rains had set in over the greater part of the Province, and on the 12th and 13th these conditions remained practically unaltered. On the 14th, however, the wind directions, which had previously become somewhat irregular, showed at the coast stations in the north-west angle of the Bay decided indraught towards the sea area, and these conditions developed on the following day into a distinct, but very feeble, cyclonic storm at the head of the Bay, the centre being probably only a short distance to the south-east of Saugor Island. Around the small depression winds circulated cyclonically as usual, but wind velocities were very light. On the morning of the 16th the storm had moved in a north-westerly direction, and its centre was between Calcutta and Burdwan, and on the 17th it had passed away in a westerly direction and was apparently in Chutia Nagpur, though it had become extremely feeble and could scarcely be detected. During the whole period of its existence the wind circulation accompanying it was feeble, but with its inland advance rather stronger monsoon winds set in over the eastern and southern districts of the Province, bringing up light though fairly general rainfall.

It was at this period that the principal feature in the meteorology of the month occurred, which was the formation of a small but decidedly very severe cyclonic storm in the Bay, and its subsequent passage inland through Orissa and Chutia Nagpur into North Behar and into the south-east portion of the North-East Provinces. The following is the description of the formation of the storm so far as can at present be given from the information which has been received. The description is to a great extent the same as that given in the weekly meteorological report for the 25th instant.

The period from the 11th to the 18th instant had been characterised by comparatively light rainfall over the greater part of the Province, and very light and somewhat irregular winds were blowing during that time over the land area. At the same time, however, strong monsoon winds were blowing in the south of the Bay, the average wind velocity at Galle having been for some days 10 miles an hour and upwards, which indicated a fairly strong monsoon current advancing up the Bay. In the centre of the Bay also at the close of the week winds were comparativly light and of fairly normal direction, except at the Arakan stations, where winds were irregular and in some cases easterly; but on Saturday, the 19th, winds at Akyab and Diamond Island became north-easterly, and wind velocity at the latter station commenced to increase, and at 10 A.M. on this morning a velocity of 22 miles an hour was reported. Pressure also commenced to fall rather rapidly at Diamond Island and Negapatam, and it is probable that on this day the cyclone had commenced to form, the centre, so far as can at present be judged, being probably to the west of the Andaman Islands. On the 20th the indications that stormy weather or a small cyclone had formed in the Bay were more marked, pressure fell moderately at Madras and along the Arakan coast, while wind became south-easterly at Diamond Island and strengthened considerably, the hourly wind velocity for the 24 hours becoming 25 miles, with a velocity at 10 A.M. of 28 miles Winds also commenced to strengthen at Galle. On this day probably the storm had distinctly formed, and its centre was to the west or perhaps south-west of Diamond Island and towards the centre of the Bay. On the morning of the 21st the indications showed that the storm was advancing in a north-westerly direction, for pressure was rising rapidly at Diamond Island and wind velocity was moderating, while at Akyab wind had become south-easterly. Wind directions along the west coast also altered on this day, and from the light south-easterly winds which were previously blowing, they became north-westerly and northerly at all stations from Dacca down to Coconada. Pressure fell rather rapidly at Masulipatam and less rapidly at False Point, and the indications at this time were by no means clear as to which part of the coast the storm would reach. The 4 P.M. observations of the stations at the head of the Bay and along the west coast, which were called for, and some of which were not received until midnight, shewed clearly that the storm was approaching the west coast to the south of False Point, and orders were issued shortly after midnight to hoist the storm signals at the stations in the river, warning the shipping that a cyclonic storm would cross the coast to the south of a line joining Chittagong and False Point. The exact position of the centre of the storm at 10 A.M. of the 21st is a little doubtful, but it was probably in about latitude 17° or 18°N and longitude 87° or 88°E, and it must have been advancing with very

great rapidity in a north-westerly direction; for on the morning of the 22nd, so far as can be judged from the observations which have been received at present, its centre passed immediately over False Point, at about 7-30 A.M., after which it moved in a north-westerly direction, the centre passing to the east of Cuttack and thence through Chutia Nagpur, and on the morning of the 23rd the centre of the storm was apparently not very far from Dehree in South Behar, and probably a little to the south of that station. This represents a movement of about 350 miles in the 24 hours from 10 A.M. on the 22nd to 10 A.M. on the 23rd. On the morning of the 24th the storm had again moved in a northerly direction, and it was probably to the west or south-west of Motihari in North Behar. It was on this day, however, comparatively feeble, and though winds were still cyclonic in direction, the barometric depression had to a great extent filled up. With the advance of the storm to the north of False Point, a second signal was hoisted at the stations in the river, showing that the storm was passing to the north of False Point; and on the morning of the 23rd, as the storm had advanced well inland, the storm signals were lowered.

The barometric depression accompanying the advance of the small cyclone was excessive and most unusual in character. The pressure which has since been reported by the observer at the False Point Observatory was only 27·23 inches at the time when the centre of the storm was over that station, and it would appear that even this pressure has still to be corrected for temperature which will bring it to about 27·1 inches. Such a pressure as this has never hitherto been recorded in one of the cyclonic storms which occur during the rains, and indeed even in the record of such large cyclones as the Backergunge cyclone of 1876, no such low pressure as this has been registered. The cyclone was also accompanied by a storm-wave which caused much destruction to life and property near False Point, and the storm itself has of course caused much damage in some parts of Orissa.

The winds accompanying the small cyclone were undoubtedly very fierce, and the last telegram received from False Point at 10 P.M. on the 21st shewed that the wind velocity was 38 miles per hour. The observations, too, which were taken at Saugor Island on the 22nd, shewed that at 4 P.M. on that day wind velocity was 68 miles per hour, and at 10 P.M. the velocity was 58 miles per hour, while the velocity for the 24 hours from the 21st to the 22nd averaged 30 miles per hour. Saugor Island, too, it will be seen, was at a very considerable distance from the centre of the storm, in all probability the centre of the storm never being nearer than from 120 to 150 miles from that station.

The rainfall which accompanied the small cyclone near its centre, though undoubtedly very heavy, does not appear to have been quite as heavy as is usually the case with such a violent storm. The heaviest rainfalls in the actual path of the storm, of which reports have been received, are on the 22nd instant in the Cuttack district—Dharmsalla 9·20 inches, Jagatsingpore 6·11 inches, Kendrapara 5·50 inches, Jajpore 5 inches (about), and Cuttack 4·67 inches; and in the Balasore district—Bhuddruck 5·40 inches and Balasore 4·15 inches, but of course with the advance of the storm a strong inrush of moist southerly winds set in over the whole Province, bringing rather heavy rainfall to all stations, and from the 22nd or 23rd up to the 25th or 26th, moderate to heavy rain fell in all districts, and in North Bengal and North Behar in particular the rainfall became exceedingly heavy.

After the disappearance of the cyclonic storm pressure increased rapidly, and it became rather largely above the normal. Pressure over the Province also became very uniform, and light and unsteady winds therefore prevailed in all districts, and except in North Bengal, the only rainfall which took place during the last four or five days of the month consisted generally of light local showers.

The main meteorological features then of September have been the formation of three very feeble barometric depressions during the first 18 days of the month, all of which brought up general rain to the greater part of the Province, and particularly to the northern and central districts. These were followed by a few days of comparatively light winds and light rainfall, and then by the sudden rush of the extremely violent cyclonic storm through the western districts as previously described. This was followed by powerful southerly moist winds, and these by a gradual increase of pressure and falling off of wind velocity, which caused a very rapid diminution in the area and amount of rainfall.

The variations of pressure from the normal during the month have of course been large, and in particular with the advance of the small and fierce cyclone the variations became excessive. During the earlier part of the month pressure was almost uniformly below the normal, but at the latter end of the month, and particularly after the disappearance of the storm, pressure became somewhat largely above the normal, so that the average pressure for the month over the whole Province has been an excess above the normal of 0·033". The excess pressure has also been fairly evenly distributed.

Temperature has on the whole been distinctly lower than usual, this being due probably to the heavy rain which has fallen over the whole Province, and also to the fact that cloud proportion has generally been somewhat higher than usual. The variations of the average temperatures of the various meteorological districts from the normal are not as a rule very large, but all districts, except Orissa, show a temperature below the normal. The largest variation from the normal is in North Behar, where temperature was in defect by 1·6°, while in Orissa the excess was 0·8°. The mean variation from normal temperature over the whole Province is a defect of about 0·6°.

The causes which have led to the heavy rainfall over the whole of the Province have already been discussed in the meteorological summary. The time distribution during the month has also been briefly described, and it will be seen that, except during the

last four or five days of the month, and for the period of two or three days previous to the occurrence of the small cyclone which passed into Orissa, there have been no general or decided breaks in the rains, and thus all districts have received general and rather heavy rainfall for the greater part of the month. The distribution has, however, been somewhat irregular, and, speaking generally, the northern and eastern districts show the largest excess, while the western and southern districts have received falls not so largely in excess. The distribution is too irregular to describe the actual fall over the Province in detail, but it may be said that the usual areas of maximum rainfall in the neighbourhood of the hills and along the coast line are clearly perceptible, and that, starting from the districts at the foot of the hills where the rainfall has been from 20 to 30 inches, the rainfall gradually decreases towards the west and south of the Province till over the south-western parts of South-West Bengal, and over a large part of Orissa and Chutia Nagpur, the average rainfall has only been between 5 and 10 inches. Compared with the normal fall, about four-fifths of the Province shows a fall very decidedly in excess, and it is practically only the south-western districts of the Province which are included in the defective area. Thus the only part in which the rainfall has been in defect in North Bengal, is a part of the Cooch Behar district; and in South-West Bengal, practically the whole of the 24-Pergunnahs and the Hooghly districts, and parts of the Howrah and Burdwan districts, show a defective fall. The southern part of Chutia Nagpur, and particularly the Singbhoom and Manbhoom districts, and the greater part of Orissa, has received a fall also decidedly in defect. Only three stations have reported defects of more than 5 inches, and these are Contai, Cox's Bazar and Dinhatta; the following stations report defects between 4 and 5 inches:—Baraset and Noakholly; and the following defects between 3 and 4 inches:—Pooree, Diamond Harbour, Calcutta, Bussirhat, Howrah, Serampore, and Cooch Behar. On the other hand about half the Province has received a fall of more than five inches in excess, and this area is included to the north of a line starting from Chumparun, and running in a south-westerly direction to the south of the Sonthal Pergunnahs, where it rises into Rajshahye, and then stretches in a south-westerly direction to Chittagong. Certain districts in the Province have even received falls more than 10 inches in excess of the normal. There is one such district in North Behar represented by the stations Durbhunga, Tajpore and Sitamarhi; another in East Bengal, represented by Kishengunge and Netrokona; while there are also isolated stations with a similar excess, such as Bhagulpore, Darjeeling, Panchbibi, and Bishenpore. The largest excess rainfall at any station is 17·04 inches at Sitamarhi.

Taking up the meteorological divisions, South Behar has received the largest excess rainfall, and the excess here equals 76 per cent. of the normal, next to this stands North Behar, which has received an excess of 72 per cent., North Bengal has received an excess fall of 35 per cent. and East Bengal an excess of 25 per cent. The excess in South-West Bengal generally has been equal to 21 per cent. of the normal, and in Chutia Nagpur it has been 7 per cent., while in Orissa there has been a defective fall averaging 8 per cent. Taking these meteorological divisions as being of equivalent value, the excess over the whole Province has been equal to about 38 per cent. of the normal.

The number of rainy days has also been as a rule decidedly in excess of the normal, and all districts, except Chutia Nagpur and Orissa, show this excess. In North Bengal and North Behar the number of rainy days has been from 3 to 4 in excess of the normal, while on the other hand, in Orissa, the number has been 3 days in defect. Over the whole Province the average number of rainy days has been about fifteen instead of the normal number of fourteen, or about one in excess.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of September in all districts of the Province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third column in a slightly different form. It states as a percentage how much the district rainfall of the month varied in excess or defect from the normal rainfall, and is hence the difference between the numbers in the third column and 100.

Division.	District.	Normal district rainfall, September.	Actual district rainfall, September 1885.	Percentage of actual to normal rainfall.	Percentage excess (+) or defect (—).

od for the past ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater
10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observ-
al stations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall returns received
one on which at least hundredth of an inch fell.

Statement of Rainfall in Bengal for the week ending Friday (6 p.m.), the 9th October 1885.

Meteorological division.	District.	Station.	Rainfall. Saturday, 3rd October.	Sunday, 4th October.	Monday, 5th October.	Tuesday, 6th October.	Wednesday, 7th October.	Thursday, 8th October.	Friday, 9th October.	Total. Number of rainy days.	Rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 15th May.	Average rainfall from 15th May to date.

CALCUTTA, *the 12th October* 1885.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 9TH OF OCTOBER 1885.

In the report for the week ending the 2nd of October, it was noticed that at the end of that week all the meteorological conditions which were present were those of the transition period which generally marks the gradual closing of the south-west monsoon or rainy season, and which is preliminary to the commencement of the north-east monsoon. This transition period may be generally said to occupy some three weeks or a month, and during this time winds are light and rather variable in direction, pressure gradually increases, the day temperatures also remain rather high, while the night temperatures fall, and rainfall rapidly diminishes in quantity, and also in the area over which it falls, and only light and local showers are generally reported. The conditions during the present week have fully borne out the suggestion made in last week's report, and the week has been typical of the transition period above alluded to. Winds over the whole Provinces for the week have been particularly light, and for the earlier part of the week, except in North Bengal, the province was practically rainless. For a considerable part of the week the winds were also decidedly irregular in direction, though there has been a tendency of the winds to become more strongly westerly, and in some cases north-westerly at the western stations. At the eastern and some of the northern stations, however, winds continued southerly, easterly, and in some cases south-easterly, and towards the close of the week these wind systems set up a faint tendency to a cyclonic circulation, and this slightly disturbed atmospheric condition caused rain showers to be a little more numerous at the close of the week than at the commencement Throughout the week, however, winds have been exceedingly feeble in force, and on the whole winds have been more westerly and northerly than during the previous week.

Pressure during the previous week was above the normal by an average of about a tenth of an inch, and the distribution of the excess was very fairly regular. During the present week the changes of pressure have on the whole been decidedly regular and of the usual oscillatory character, and though of course there have been a few local irregularities, it may be said that the pressure over the Province generally decreased on the Saturday, increased on the Sunday, and again decreased on the Monday. There was then a rise of pressure lasting for two days, which was followed by an almost corresponding fall for the same period. The actual average pressure for the week has therefore not varied much from the pressure during the previous week, but as the normal movement of the barometer at this time of the year is to increase, the effect of the movements of the barometer this week has been to decrease the abnormal excess pressure which was noticed in the last report, and thus the excess pressure has been reduced to 0 075". The distribution of the excess pressure is not so regular as in the previous week, and while at Durbhanga the excess has been 0·099", at Gya it has only been 0·05".

Temperature, with the almost complete absence of rainfall, and with the lightly clouded skies which have mainly obtained during the present week, has been uniformly high and is in all districts, except East Bengal, decidedly above the normal. Thus in Orissa temperature has on the average been about 2 5° above the normal; in Chutia Nagpur and South Behar it has been about 2° above the normal, while in South West Bengal and North Behar it has been about 1° above the normal. In East Bengal, on the other hand, temperature has been about 1° below the normal. The day temperatures during the week have ranged decidedly high, and at Cuttack a maximum temperature of 100° was reported on the 4th, but this may perhaps be an inaccurate reading, as it is extremely high for October. At Patna on the 4th also a maximum temperature of 95·5° was recorded, and in all districts except Chutia Nagpur, temperatures above 90° have been recorded on several days in the week at several stations. Minimum or night temperatures are, however, decreasing, and some fairly low temperatures have been recorded; thus at Ranchee on the 16th a temperature of 66 4° was registered, at Nya Doomka and Julpigoree a temperature of 70° was reported, while in South-West Bengal and East Bengal the lowest minimum reported is about 73°.

Humidity has generally been steadily, but slowly, decreasing throughout the week, and at its close the air was dry at the western stations generally, though in other cases the humidity was still fairly high. The amount of cloud too has rapidly diminished, and the average cloud proportion for the week shows that the sky has been only lightly clouded in all districts.

Rain, as before stated, has been practically absent for the greater part of the week over the whole Province, and the only day on which anything like light general rain fell over any large area was on the 9th. The rainfall, as may be expected, has been rather more frequent, though still in most cases very light, in the hill districts of North Bengal; but the extremely scanty nature of the rainfall over the Province generally may be best seen from the fact that the average number of rainy days at all the stations over the Province for the week has been equal to 0 6, while the average amount of rain which has been received is equal to less than a quarter of an inch. Even in Chutia Nagpur, which has received the largest rainfall, the average amount received has only been 0 42 inch; in North Bengal it has been 0·37 inch, while in South-West Bengal, East Bengal and South Behar the average amount received has been about two-tenths of an inch, and in North Behar it has been little more than a tenth of an inch. Finally in Orissa rainfall has been practically absent.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 9th of October 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 18th May 1885.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

Offg. Meteorological Reporter to the Govt. of Bengal.

MEMORANDA.

DURING the week ending 26th September 1885, the returns from the principal Municipalities in Bengal furnished the following results :—

1. That births and deaths were registered in the proportions, respectively, of 27·8 and 42·6 per 1,000 of population, against 26·4 and 37·4 per 1,000, respectively, during the preceding week ending 19th September, indicating an advance in the registration of both events, particularly of deaths.

2. That these events were returned in the highest proportions from the following Municipalities :—

Births.

	Ratio per *mille*.
Bhagulpore	55·2
Beauleah	44·6
Gya	41·7
Chittagong	37·6
Naraingunge	37·3
Arrah	37 1
Chupra	35·2
Patna	34·7
Durbhanga	34·6
Serampore	33·4

Deaths.

	Ratio per *mille*.
Bhagulpore	97·7
Gya	75·1
Patna	66·9
Jessore	61·2
Serampore	59·0
Arrah	58·6
Monghyr	44·3
Suburbs of Calcutta	42 4
Beauleah	39·4
Puri	37 8
Chupra	34·2
Darjiling	32·6
Midnapore	31·0
Hughli	30·9
Durbhanga	30·7
Burdwan	30·5

3. That the rates at which the several death-causes proved fatal, in comparison with the rates of the preceding week, were—

	Ratio per *mille* during the weeks ending—	
	26th September 1885.	19th September 1885.
Cholera	3·0	2·0
Small-pox	·03	·2
Fever	20·2	17·9
Bowel-complaints	6·4	6·8
Injury	·8	·4
Other causes	12·1	10·1

The above figures denote chiefly that there was a considerable increase of mortality from cholera, fever, and the diseases grouped under the head of "Other causes," prominently from fever.

4. That referring to the death-causes above indicated, while the casualties from small-pox and injury were not large anywhere, the rest of them proved conspicuously fatal to life in the following Municipalities :—

Cholera.

	Ratio per *mille*.
Arrah ...	21·5
Gya ...	10·9
Bhagulpore ...	8·1
Patna ...	3·9

Fever.

	Ratio per *mille*.
Jessore ...	55·1
Bhagulpore ...	50·7
Beauleah ...	36·8
Gya ...	35·5
Patna ...	34 4
Serampore ...	27·5
Arrah ...	23·9
Monghyr ...	21·7

Bowel-complaints.

	Ratio per *mille*.
Serampore ...	19·6
Bhagulpore ...	13·6
Patna ...	10·7

Other causes.

	Ratio per *mille*.
Puri ...	23·1
Bhagulpore ...	23·6
Midnapore ...	20·1
Darjiling ...	19·6
Gya ...	17·1
Chupra ...	16·6
Patna ...	16 5
Suburbs of Calcutta	14·9
Serampore ...	11·8
Dacca ...	11·0

5. That the death-rates in relation to *Sex*, *Class* and *Age* were returned at the rates indicated below :—

According to Sex.

	Ratio per *mille*.
Males	43·3
Females	41·9
Ratio of male deaths to every 100 female deaths ...	117

According to Class.

	Ratio per *mille*.
Christians	34·8
Hindus	45·7
Mahomedans ...	35·8
Other classes ...	36·4

According to Age.

	Ratio per *mille*.
Under 1 year ...	394·4
1 and under 5 years ...	75·4
5 „ 10 „ ...	31·0
10 „ 15 „ ...	19·5
15 „ 20 „ ...	25·1
20 „ 30 „ ...	23·0
30 „ 40 „ ...	22·3
40 „ 50 „ ...	26 6
50 „ 60 „ ...	47·0
60 years and upwards ...	50·4

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

The 12th October 1885.

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending 26th September 1885.

DISTRICTS.	NAMES OF MUNICIPALITIES.	2 POPULATION. Males.	Females.	Total	3 BIRTHS. Number of— Males.	Females.	Total.	4 Ratio per 1,000 of Population per Annum. Males.	Females.	Total.	5 Ratio of male births to every 100 female births.	6 MORTALITY ACCORDING TO— Disease. Deaths from— Cholera.	Small-pox.	Fevers.	Bowel-complaints.	Injury.	Other diseases. * A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives [illegible] the returns have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3275A.

GENERAL.—*The 6th October* 1885.—The following officers have been granted by Her Majesty's Secretary of State for India extensions of furlough for the periods mentioned opposite their names :—

Names.	*Periods of extension.*
Mr. N. S. Alexander, C.S.	... One month and twenty-nine days.
,, J. Tweedie, C.S. ...	... Four days.

The 13th October 1885.—Moulvie Syed Wajid Hossein, Temporary Sub-Deputy Collector, Hajipore, in the district of Mozufferpore, is appointed to act as Special Deputy Collector for employment on butwara work in that district, *vice* Baboo Ram Churn Lall, who will revert to the regular line from the date on which he may be relieved of his present appointment.

Mr. A. A. Wace, C.S., has been granted by Her Majesty's Secretary of State for India an extension of furlough for 14 days.

Syed Mahomed Israil, Deputy Magistrate and Deputy Collector, has been granted by Her Majesty's Secretary of State for India an extension of three months extraordinary leave, on medical certificate, without pay.

The 14th October 1885.—Mr. D. Norton, Assistant Magistrate and Collector, Kurseong, Darjeeling, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, on being relieved of his present appointment as Officiating Magistrate and Collector of Gya.

Mr. E. M. Reily, Deputy Magistrate and Deputy Collector, Madhubani, Durbhunga, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

Mr. J. White, Deputy Magistrate and Deputy Collector, Kurseong, Darjeeling, is transferred to Durbhunga, and is appointed to have charge of the Madhubani sub-division of that district, during the absence, on leave, of Mr. E. M. Reily, or until further orders.

The 16th October 1885.—Mr. J. Ware Edgar, C.S.I., Magistrate and Collector, Noakholly, is appointed to be Magistrate and Collector of Tipperah, but will continue to act as Secretary to the Government of Bengal, in the Financial Department, until further orders.

Mr. R. M. Waller, Magistrate and Collector, on furlough, is appointed to be Magistrate and Collector of Noakholly.

Mr. W. R. Larminie, Magistrate and Collector, Nuddea, is appointed to be Magistrate and Collector of the 24-Pergunnahs, but will continue to act as Commissioner of Dacca until further orders.

Mr. J. A. Hopkins, Officiating Magistrate and Collector, Nuddea, is confirmed in that appointment.

Mr. A. A. Wace, Magistrate and Collector, on furlough, is appointed to be Magistrate and Collector of Furreedpore

Mr. H. Lee, Assistant Magistrate and Collector, on furlough, is posted to the sudder station of the district of Purneah.

Mr. Lee is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the date on which he joins his appointment.

Mr. S. S. Jones is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to the sudder station of the district of Rungpore, on being relieved of his present appointment as Officiating Magistrate and Collector of that district.

Mr. C. P. Caspersz, Assistant Magistrate and Collector, on leave, is posted to the sudder station of the district of Cuttack.

Mr. Caspersz is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the date on which he joins his appointment.

Mr. C. R. Marindin is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to Monghyr on being relieved of his present appointment as Officiating Magistrate and Collector of Maldah

Mr. F. R. S. Collier, Assistant Magistrate and Collector, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to Manbhoom, on being relieved of his present appointment as Officiating Deputy Commissioner of that district.

Mr. A. E. Staley, Assistant Magistrate and Collector, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to the 24-Pergunnahs on being relieved of his present appointment as Officiating Deputy Commissioner of Julpigoree.

The undermentioned gentlemen are appointed temporarily to be Sub-Deputy Collectors of the fourth grade, and are posted to the districts mentioned opposite their names. Their services are placed at the disposal of the Financial Department of this Government for employment on excise work.

Baboo	Hera Lal Sen	...	... Moorshedabad.
„	Behary Lal Sirkar	...	... Dacca.
„	Hara Chandra Ghose	...	... Burdwan.

Mr. A. C. Tute, Joint-Magistrate and Deputy Collector, is posted to the sudder station of the district of Mozufferpore, on being relieved of his present appointment as Officiating Magistrate and Collector of Pubna.

The 17th October 1885.—Mr. A. Borooah is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to the sudder station of the district of Tipperah, on being relieved of his present appointment as Officiating Magistrate and Collector of Noakholly.

Mr. T. M. Kirkwood, Officiating District and Sessions Judge, Patna, is confirmed in that appointment.

Mr. R. M. Towers, Officiating District and Sessions Judge, Midnapore, is appointed to be District and Sessions Judge, Moorshedabad.

Mr. F. W. R. Cowley, District and Sessions Judge, Patna, on furlough, is appointed to be District and Sessions Judge of Chittagong.

Mr. F. H. McLaughlin, Officiating District and Sessions Judge, Jessore, is appointed to be District and Sessions Judge, Furreedpore.

The 19th October 1885.—Lieutenant-Colonel C. H. Garbett is re-appointed to act as Deputy Commissioner of Hazaribagh, during the absence, on deputation, of Major E. G. Lillingston, or until further orders, with effect from the forenoon of the 26th September 1885.

POLICE.—*The 6th October* 1885.—The special leave for six months granted to Mr. E. St. George Kaye, Assistant Superintendent of Police, has been commuted by Her Majesty's Secretary of State for India to leave for one year on medical certificate.

The 13th October 1885.—Mr. W. D. Pratt, District Superintendent of Police, Moorshedabad, is allowed leave for one month and one week, under section 72, chapter V of the Civil Leave Code, with effect from the date on which he may be relieved by Mr. G. R. K. Meares.

Mr. G. R. K. Meares, District Superintendent of Police, on furlough, is appointed to act as District Superintendent of Police, Moorshedabad, during the absence, on leave, of Mr. W. D. Pratt, or until further orders.

The 14th October 1885.—Mr. H. V. H. Roberts, Assistant Superintendent of Police, Mymensingh, is allowed leave for ten days, under section 72, chapter V of the Civil Leave Code, in extension of the leave granted to him under the order of the 24th August last.

The 17th October 1885.—Mr. B. Rattray, District Superintendent of Police, Pubna, is transferred to Rajshahye on being relieved by Mr. G. W. S. Cox.

Mr. G. W. S. Cox, Assistant Superintendent of Police, is appointed to act, until further orders, as District Superintendent of Police, Pubna.

Mr. R. L. Ward, Assistant Superintendent of Police, Gya, is appointed to act temporarily as District Superintendent of Police, Rajshahye.

The 19th October 1885.—Mr. J. Lambert, C.I.E., Officiating Commissioner of Police, Calcutta, is allowed leave for twenty days, under section 72, chapter V of the Civil Leave Code, with effect from the 26th instant.

REGISTRATION.—*The 19th October* 1885.—Moulvie Syed Abdur Rub, Special Sub-Registrar of Jessore, on leave, is transferred to Backergunge.

Baboo Nilratan Roy Chowdhry, Special Sub-Registrar of Chittagong, on leave, is transferred to Jessore, *vice* Moulvie Syed Abdur Rub.

ECCLESIASTICAL.—*The 16th October* 1885.—The Revd. F. R. Michell, Chaplain of St. James's Church, Calcutta, is allowed leave for two months, under section 122, chapter IX of the Civil Leave Code, with effect from the 16th instant, or such subsequent date as he may avail himself of it.

EDUCATION.—*The 12th October* 1885.—Baboo Ambika Charan Bose, Head Assistant in the office of the Director of Public Instruction, is promoted to class II of the Subordinate Educational Service, with effect from the 11th September 1885, *vice* Mr. H. Collie, deceased.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

Quarantine : Imposition of——at Aden and Perim against vessels arriving from Singapur.

No. 3845.

GENERAL DEPARTMENT.

Bombay Castle, 9th October 1885.

Telegram from the Government of India, Home Department, Simla, dated 8th October 1885 :—

"Imposition quarantine at Aden and Perim against arrivals from Singapur sanctioned."

RESOLUTION.—The Political Resident, Aden, should be informed by telegraph that the Government of India have sanctioned the imposition of quarantine at Aden and Perim

against arrivals from Singapur. A notification should be published in a *Bombay Government Gazette Extraordinary* bringing B Quarantine Rules into operation at Adeu and Perim against arrivals from Singapur. A copy of the notification should be forwarded to the officers and departments concerned for information with reference to Government Resolution No. 3793, dated 6th instant, and to the Government of India.

2. The Governments of Bengal, Madras and Ceylon, the Chief Commissioner British Burmah, and the Commissioner in Sindh should be informed by telegraph that the Government of India have sanctioned the enforcement of B Quarantine Rules at Aden and Perim against arrivals from Singapur, and copy of this Resolution and the notification should be forwarded to them by post.

J. MONTEATH,
Under-Secy. to Government.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, 9th October 1885.

No. 3845.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they will take effect from the 5th instant in the Port of Aden and at Perim as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Singapur shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the port shall go alongside the vessel, and, if communication with the shore is desired, shall direct the Commander to take the vessel to the quarantine anchorage, duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects and susceptible goods. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore, or other vessels and boats in the harbour. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year, and no communication shall be allowed with the pilot boat, otherwise than orally, or with the shore.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	Six days of quarantine.	
Do. nine	do.	...	...	Five do.
Do. ten	do.	...	...	Four do.
Do. eleven	do.	...	...	Three do.
Do. twelve	do.	...	...	Two do.
Do. thirteen	do.	and upwards	...	Twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim which may have communicated with vessels coming from Singapur shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that port.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills of health.

By order of His Excellency the Right Hon'ble the Governor in Council,

J. NUGENT,
Secretary to Government.

NOTIFICATION.

The 19th October 1885.—In accordance with the provisions of section 47 of Act XII of 1875, the following abstract accounts of the receipts and charges of the Port of Chittagong in 1884-85 is published for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Simla, the 16th October 1885.

PROGRAMME OF HIS EXCELLENCY THE VICEROY'S ARRIVAL IN CALCUTTA.

His Excellency the Viceroy and Governor-General will arrive in Calcutta by a special train on Saturday, the 12th December 1885, at 5 P.M., Calcutta time.

His Excellency will be received at the Howrah Railway Station by the Chairman of the Corporation and Commissioner of Police for the Town of Calcutta and the Magistrate of Howrah, and at Government House by the Lieutenant-Governor of Bengal, Members of His Excellency's Council, the principal Civil and Military Officers, and other gentlemen who are desirous of attending.

A Guard-of-Honor of the East Indian Railway Volunteers will be drawn up on the platform of the Howrah Railway Station, and a Guard-of-Honor of Native troops, with band, outside the station.

The route taken will be by the Hooghly Bridge, Strand Road, and Esplanade Row.

The Body Guard will form the escort.

Guards-of-Honor of British Infantry and of the Administrative Battalion, Presidency Volunteers, with band, will be drawn up in front of the Grand Staircase of Government House.

A Viceregal Salute will be fired from the ramparts of Fort William as His Excellency passes the Hooghly Bridge.

Full dress will be worn by Officers entitled to wear uniform. Gentlemen not entitled to wear uniform will appear in morning dress.

By Command,

G. FERGUS GRAHAM, *Colonel,*

for Military Secretary to the Viceroy.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information.

F. B. PEACOCK,

Chief Secy. to the Govt. of Bengal.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 12th October 1885.—Whereas a notification was published at page 767, Part I of the *Calcutta Gazette* of the 29th July 1885, declaring the intention of the Lieutenant-Governor to extend the provisions of Part IX of the Bengal Municipal Act, III (B.C.) of 1884, to the Culna Municipality, and whereas no objection has been raised to the proposal within one month from the date of the publication of the notification within the above municipality, it is hereby notified for general information that, in the exercise of the powers conferred on the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the said municipality, made at a meeting, the Lieutenant-Governor directs that the provisions of Part IX of the Act be extended to the said municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th October 1885.—It is hereby notified for general information that in the exercise of powers conferred on him by section 86 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Sewan Municipality, in the district of Sarun, made at a meeting, the Lieutenant-Governor intends to sanction the levy by the Commissioners, under section 131 of the Act, of a tax on carriages, horses, and other animals mentioned in the fifth schedule of the Act, and of a fee on the registration of carts kept or habitually used within the municipality, not exceeding the rates mentioned in the said schedule and in section 143 of the Act, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal

NOTIFICATION.

The 14th October 1885.—Whereas a notification was published at page 611, Part I of the *Calcutta Gazette* of the 24th June 1885, declaring the intention of the Lieutenant-Governor to extend the provisions of sections 224 to 232, 266, and 270 to 272 of Part VI of the Bengal Municipal Act, III (B.C.) of 1884, to the portion of the South Suburban Municipality situated within the following boundaries, and whereas no objection has been raised to the proposal within one month from the date of the publication of the notification within the municipality it is hereby notified for general information that, in the exercise of the powers conferred on the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the said municipality, made at a meeting, the Lieutenant-Governor directs that the provisions of sections 224 to 232, 266, and 270 to 272 of Part VI of the Act be extended to the municipality:—

On the North.—The Tollygunge Bridge Road.
On the South.—The northern extremity of Byrrabagan.
On the East.—The Russapagla Road.
On the West.—The east bank of Tolly's Nullah.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 15th October 1885.—It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 30th November 1885, in Ward No. IV of the Mozufferpore Municipality, for filling the place of Baboo Sham Narain Singh, who has ceased to be a Commissioner under the operation of section 20 of the Act.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 12th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Colgong Municipality for a public purpose, viz. for the site of a building for the office of the municipality, in the village of Kasba Colgong, pergunnah Colgong, district Bhagalpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bigahs 1 cottah 5 dhoors of standard measurement, is required. The land is bounded on the north and east by the Railway Station compound; on the south by the jote of Kali Sahu; and on the west by the public road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 12th October 1885.—The following draft of rules, which the Lieutenant-Governor proposes to make under clause (*a*) of section 138 of the Bengal Local Self-Government Act, 1885, is published for general information under section 143 of the said Act, and notice is hereby given that they will be taken into consideration on or after the 1st December 1885, when any objections or suggestions which may be made by any person and received before that date will also be considered.

PART I.

ELECTION OF MEMBERS OF UNION COMMITTEES.

Preliminary.

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority.

Of the qualification of Voters.

3. Every male person of the full age of twenty-one years, resident within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid any road cess, license tax or chowkidari tax, or who is a member of a joint undivided family, which has during such period paid any such cess or taxes, shall be entitled to vote at such election.

Of the qualification of Candidates.

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

Of the manner of holding elections.

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union, in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand: any costs incurred in issuing notices under this rule shall be defrayed from the District Fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the presiding officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question, the presiding officer shall proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

13. If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot, in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent. of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected.

17. Except as provided by rule 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

PART II.

ELECTION OF MEMBERS OF LOCAL BOARDS.

Preliminary.

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner shall decide the number of members who shall be elected for each thana within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thanas in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than three months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

Of the Qualification of Electors.

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within such area;

(2) Has, during the year immediately preceding such election,—

(*a*) paid a sum of not less than one rupee on account of road cess in respect of land situated either wholly or in part within such area;

(*b*) paid license tax in respect of a trade, dealing, or industry carried on within such area; or

(*c*) been possessed of a clear annual income from any source of not less than two hundred and forty rupees.

(3) Being a member of a joint undivided family, one of the members of which is qualified for election as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be entitled to vote at an election of members of such Local Board.

Of the Registration of Electors.

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the Magistrate of the district shall cause to be prepared for each thana within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall from time to time be corrected and added to as the Magistrate of the district may direct.

23. At least one month before the date fixed for the election for any thana, a copy of the register showing the persons qualified to vote for such thana shall be published at suitable places within that thana. Copies of all the thana registers shall also be pub-

lished at the sub-divisional office. Provided that all such registers made and published before these rules come into operation shall be held to have been duly made under Rule 4 and duly published under Rule 5.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus made shall be published at the thana at least three weeks before the date fixed for the election; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thana list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thana list shall be permitted to vote.

Of the qualification and the nomination of Candidates.

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within the area under the authority of the Local Board;

(2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board; and

(*a*) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board;

(*b*) paid a license tax of not less than twenty rupees in respect of a trade, dealing, or industry carried on within the area under the authority of the Local Board; or

(*c*) been possessed of a clear annual income from any source of not less than one thousand rupees.

(3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (*a*) or (*b*) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thana under the authority of such Local Board.

28. Any elector may, for the thana in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thana election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thana. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period. Provided that all such notices or nominations which may have been issued or made before these rules come into operation shall be held to have been issued or made under these rules.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office: his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thana at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

Of the manner of holding Elections.

32. The election for each thana shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thana shall be held at the head-quarters of the thana.

34. The date fixed for the thana election shall be duly notified at the thana, and at such other places as may appear suitable, at least one month beforehand.

Provided that any notice to this effect issued previous to these rules coming into force shall be held to be valid under these rules. A vernacular notice in the following form shall also, at least one week before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register:—

"You are hereby informed that you are registered as a voter for the thana, and that you will be entitled to vote at the election of members of the Local Board to be held at on the 18 ."

35. An elector duly qualified under Rule 4 shall be entitled to vote for the thana in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thana, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thana.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thana are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 8.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thana have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thana are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number of members for the Local Board fixed for such thana.

45. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thanas, such person shall be at liberty to choose which thana he will represent, and in every other thana for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him.

48. After all the thana elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

Miscellaneous.

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

PART III.

ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

Election of Members of District Boards.

53. A Local Board shall not elect members for the District Board until (*a*) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (*b*) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (*a*) of the preceding rule, or if later, the notification referred to in clause (*b*) of the same, the Local Board shall at a meeting elect the requisite number of members for the District

Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected for two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

59. The only persons qualified for election as members of the District Board shall be members of the Local Boards in the district.

60. The names of the elected members of the District Board shall, together with the names or official designation of the appointed members, if any, be published in the *Calcutta Gazette*.

Term of Office.

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member

62. The term of three years mentioned in the preceding rule shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding rule.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation, or removal, or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62. or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

B. District Boards.—As soon as possible after expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy amongst elected members under rule 63, the Magistrate of the district shall send a notice to the Local Board which has the right to elect a member to fill the vacancy, and such Board shall, within one month of the receipt of such notice, elect a member in accordance with rules 54 to 59.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, OCTOBER 21, 1885.

PART II.

Advertisements.

N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette. cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 26th October 1885, corresponding with 3rd Kartic 1293 Fusli.

The purchasers will be subject to the following conditions of sale—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet at „ 2 „

The above prices are for ordinary building purposes.

For *Planking*, *Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1883.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Augrahyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

Notice.

GYA MICA MINES.

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

IN pursuance of section 42, Act XXVIII of 1866, notice is hereby given that all persons having claims against the estate of James Hamilton Nolan, late of the Halmirah tea estate, near Golaghat, Assam, tea planter, who died at Melbourne, Australia, on the 3rd day of April 1885, should send in their claims to the undersigned on or before the 11th day of January 1886, after which date no claims will be admitted, and the assets of the estate will be distributed.

SANDERSON & Co., Attorneys for the administrator.

A. P. GHOSAL, Postmaster, Barrackpore.

Extension of Value-Payable system to Unregistered Book packets.

FROM and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the *prescribed form* containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certificate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable *parcels* and value-payable *registered* articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 19th September 1885.

Parcels to be presented with receipts ready filled up.

UNDER the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120, dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the *prescribed form*. This will be signed and returned to the messenger. Forms will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

5. An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.

Simla, the 19th September 1885.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	„ 2 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...	.....	„ 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
„ Thacker & Co., Bombay.
„ Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 *should be at once remitted.*

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

A Manual of Reference to the Examinations in Oriental languages, with the latest orders of Government, and specimen papers of the various standards. By Lieutenant-Colonel H. S. JARRETT. New Edition Rs. 4. Apply to the Librarian, 17, Elysium Row.

For sale in Rajputana to Officers stationed there.

Moore's Manual of Family Medicine for India, New Edition. *Price*—

To Government Officers (except those mentioned below) and to the public at large, Rs. 4.

To all Officers employed in Government Departments who are in receipt of salaries under Rs. 500 per mensem, on a certificate being furnished declaring that the book is to be purchased only for the personal use of the officer. Rs. 3 (8*a*).

PART V.

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 2nd October, 1885, and is hereby promulgated for general information :—

ACT No. XV OF 1885.

An Act to amend the Local Authorities Loan Act, 1879.

XI of 1879

WHEREAS it is expedient to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows :—

Addition to section 8, Act XI of 1879.

1. After clause (*b*) of the proviso to section 8 of the said Act the following shall be added :—

"or

"(*c*) to affect the power conferred on any local authority by any such enactment to charge its funds by guaranteeing the payment of interest on money to be applied to any purpose to which the funds of the local authority can legally be applied."

D. FITZPATRICK,
Secy. to the Govt. of India.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the Local Authorities Loan Act, 1879, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 23rd September, 1885 :—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the Local Authorities Loan Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Secretary to Chief Commissioner, British Burma, No. 303—24L., dated 13th June, 1885 [Paper No. 1].
From Secretary to Chief Commissioner, Assam, No. 972, dated 18th June, 1885 [Paper No. 2].
From Chief Commissioner, Ajmer-Merwára, No. 722, dated 3rd July, 1885 [Paper No. 3].
From Secretary to Government, North-Western Provinces and Oudh, No. 3051—X-518, dated 10th July, 1885 [Paper No. 4].
From Officiating Secretary to Government, Punjab, No. 7318., dated 17th July, 1885, and enclosures [Papers No. 5].
From Secretary for Berar to Resident, Hyderabad, No. 2740., dated 13th July, 1885 [Paper No. 6].
From Secretary to Chief Commissioner, Coorg, No. 688—89, dated 14th July, 1885 [Paper No. 7].
From Chief Secretary to Government, Madras, No. 1800, dated 10th July, 1885, and enclosures [Papers No. 8].
From Under Secretary to Government, Bombay, No. 2054, dated 18th July, 1885, and enclosures [Papers No. 9].
From Officiating Secretary to Government, Bengal, No. 1270, dated 20th July, 1885, and enclosures [Papers No. 10].
From Assistant Secretary to Chief Commissioner, Central Provinces, No. 3052—147, dated 11th August, 1885 [Paper No. 11].

2. It has been suggested that the term "raised" should be altered so as to include money devoted to any particular purpose by a person who may not have occasion to raise it, and we have accordingly substituted the words "applied to" for "raised for".

3. The only other alteration we have made in the Bill is a purely verbal one.

4. The publication ordered by the Council has been made as follows :—

In English.

Gazette.	*Date.*
Gazette of India	16th, 23rd and 30th May, 1885.

BEHAR.			
Patna Div. 26	Patna, Oct. 17 '85	Nil	Weather—clear. Prospects of paddy crop where saved good; fields being prepared for sowing *rabbee* crops. Fever prevalent all over the district.
27	Gya, „ 17 „	Nil	No rain anywhere during the week. Some showers much needed for *khareef* and *rabbee* sowings; otherwise prospects good. Health fair. Prices almost stationary.
28	Shahabad, „ 17 „	Nil	Weather—days hot; mornings and evenings getting cool. *Rabbee* sowings proceeding. Prospects of winter rice promising, but rain is wanted. Fever reported from the Buxar and Sasseram sub-divisions, and cholera also from the latter.
	Buxar ...	0·02	
	Bhabhua ...	Nil	
	Sasseram ...	Nil	
29	Durbhunga, „ 17 „	Nil	Fine clear weather. Paddy crop in excellent condition except in tracts where damage has been done to it by the late floods. On high lands it stands in need of more water. Fields for *rabbee* sowings are being prepared. Prices stationary. Cholera still continues in the Madhubani sub-division.
30	Muzufferpore, „ 17 ...	Nil	Weather—warm; seasonable. Prospects of rice promising. Harvesting of *bhadoi* almost completed, and land is under preparation for *rabbee* sowings. Mortality from cholera still reported from the Sitamarhi sub-division; public health in other parts of district good
	Sitamarhi ...	Nil	
	Hajipur ...	Nil	
31	Sarun, „ 17 „	Nil	Weather—seasonable Standing crops looking well. Fields being prepared for *rabbee* sowings. Sporadic cases of cholera and fever reported, but on the whole general health good.
	Sewan ..	Nil	
32	Chumparun „ 17 „	Nil	Weather—seasonable. Harvesting of *bhadoi* crops nearly completed. Prospects of *aghani* crops continue good. Prices of food-grains have fallen slightly. Public health generally good.
Bhagulpore Divs. 33	Monghyr, Oct. 17 '85	Nil	Weather—fine with passing clouds. Prospects continue good, but rain is much wanted; the high land rice is said to be drying up for want of it in the Jamui sub-division. Prices steady. Public health good.
	Begusarai ...	Nil	
	Jamui ...	Nil	
34	Bhagulpore, „ 17 „	Nil	Weather—fine; warm; rather cloudy. Crops on the ground doing well, but rain wanted for *dhan* on high land. Much cholera still about.
	Banka ...	0·38	
35	Purneah „ 17 „	Nil	Weather—fair and cool. Prospects of crops good. Cold-weather crops promising well. Some fever and a little cholera in a few places; public health otherwise good.
	Kissengunge ...	0·05	
	Arrareah ...	Nil	
36	Maldah „ 17 „	0·35	Weather—fine and hot. Prospects of winter rice and *kalai* continue good, but would be better for some more rain. A few cases of cholera reported from Khurba and Ratua thanas. Coarse rice selling at from 12 to 18 seers per rupee.
37	Sonthal Perghs. „ 17 „	Nil	Weather—variable in the early part of the week, but now setting fair. Prospects of *dhan* excellent everywhere. *Rabbee* sowings progressing most favourably. Prices falling. General health fairly good, but fever prevalent.
	Deoghur ...	Nil	
	Godda ...	Nil	
	Rajmehal ..	Nil	
	Jamtara ...	Nil	
	Pakour ...	1·67	
ORISSA.			
Orissa Divs. 38	Cuttack Oct. 16 '85	0·39	Weather—hot and cloudy. Reaping of *beali* completed. Early *sarad* in ear; late *sarad* doing well, but requires rain. Common rice sells at 11 seers per rupee in town and 15 seers in average in the interior. Public health generally good.
39	Pooree, „ 15 „	1·02	Weather—hot with occasional showers. Second weeding of late *sarad* paddy still going on. Early *sarad* ripening. Miscellaneous crops doing well. Prices stationary. Public health good.
	Khoorda ...	0·20	
40	Balasore, „ 16 „	Nil	Weather—clear and warm. *Beali* crops are advancing towards ripeness, and have been reaped in some places. Prospects of rice crop good except in places visited by sea-waves. Public health generally good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, Oct. 16 '85	Nil	Weather—bright and clear; unusually warm. Rain much wanted in parts of the district, elsewhere prospects of rice and other crops continue good. Cholera abating; fever reported; general health otherwise good.
42	Lohardugga, „ 17 „	Nil	Weather—hot and cloudy. Prospects of winter crops continue favourable. Prices steady. Slight rain much wanted for rice crop on high land. *Bhadoi* crops reaped and harvested; outturn estimated at 14 annas in the head-quarters sub-division, and in Palamow 10 to 12 annas. Public health generally good. Sporadic cases of cholera and fever reported from Palamow.
43	Singbhoom, „ 16 „	1·32	Weather—getting cooler daily. Prospects of crops excellent everywhere. Prices easy. General health good.
44	Manbhoom, „ 17 „	0·11	Weather—seasonable. A shower of rain would do good to crops on high lands in Govindpore. On the whole, however, prospects are excellent, and a sixteen-anna *aman* crop is expected. Common rice sells at 20 seers per rupee.

Published for general information.

Chittagong prices for salt and firewood not published, those reported

* Returns not received.

† The rise in price was due to large demand for exportation.

N In Feuny the retail price of salt was 10 seers per rupee.

O In the sub-divisions the retail prices of salt per rupee were:—Brahmunberiah 12½ seers, and Chandpore 11 seers.

P In the sub-divisions the retail prices of salt per rupee were:—Nowada 10 seers, Jehanabad 12 seers, and Aurungabad 11½ seers.

Q In the sub-divisions the retail prices of salt per rupee were:—Bhubhua 11 seers, Sasseram 12 seers, and Buxar 11½ seers.

R In the sub-divisions the retail prices of salt per rupee were:—Tappore 11½ seers and Madhubani 11 seers.

S In Sewan the retail price of salt was 11½ seers per rupee.

T In Begusarai and Jamui the retail price of salt was 11 seers per rupee.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, *the 19th October* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 16TH OF OCTOBER 1885.

THE past week has again been one of comparatively little importance from a meteorological point of view. The characters of the meteorological elements have been almost entirely those of the transition period which marks the close of the south-west monsoon, and ushers in the north-east or cold-weather monsoon. The week has therefore mainly been one of light winds, comparatively high day temperatures, slowly reducing night temperatures, reducing humidity and cloud proportion, together with occasional light rain showers in the southern, south-western and eastern districts.

The only abnormal feature, if it may be called such, for it is one which frequently occurs in October, has been the occurrence of a small cyclonic storm in the Bay, which affected the weather in Orissa, South-West and East Bengal for two or three days in the middle of the week. The small storm can be traced back probably as far as Saturday the 10th, when pressure was falling somewhat rapidly off Madras, and the wind directions along this coast apparently showed a tendency to cyclonic circulation. The small depression was probably forming on this day, and its existence was shown by a fairly strong indraught at the entrance of the Bay, but at this time, and throughout the whole of its existence, the storm remained comparatively feeble. The disturbed conditions continued almost unaltered off Madras on the 11th, and then the storm apparently moved in a northerly direction almost parallel to the coast line, and on the 12th the centre was off Vizagapatam. The depression on this day had distinctly deepened, but the winds at the coast stations continued comparatively feeble. On Tuesday, the 13th, the small storm was apparently advancing along the coast nearly opposite to Gopalpore, and on this day it slightly intensified, and by the following morning (the 14th) it was to the east of False Point, and was still advancing in a north-easterly direction. As the storm was thus advancing near the Sandheads, at daylight on the 14th orders were issued to the stations in the river to hoist storm signal No. 7, indicating the probable passage of a small cyclonic storm in a northerly direction to the east of Saugor Island and to the west of Chittagong. From reports subsequently received, it would appear that very bad weather prevailed at the Sandheads on this day, but the wind velocities at the coast stations continued comparatively small. The small storm continued its north-easterly advance, but pressure commenced to rise rapidly, and in its approach towards the land the depression commenced to fill up, and by the 15th it had become a shallow depression only, attended with light wind, and it was passing over the land area between Saugor Island and Chittagong. On this day, therefore, at about midday, the storm signals were lowered.

Winds, however, still continued to circulate cyclonically round the head of the Bay, even after the barometric depression over the land had disappeared. A peculiar feature of this storm was the extreme slowness of its movement, and the comparative lightness of the winds at the coast stations. Over the sea area, however, probably winds were strong, and, judging from the movements of the upper strata of the atmosphere, the indraught towards the centre of the storm was rather intense. Another point in connection with the storm was the comparative absence of heavy rain, and it would appear from theory that this is precisely what might be expected in a storm like that above described. On Friday, the 16th instant, these disturbed conditions had almost entirely passed away, and weather was fine all over Bengal and also apparently over the whole Bay.

During the continuance of the above conditions and the advance of the storm, round which there was of course the usual cyclonic circulation of winds, weather in Orissa, South-West and East Bengal also became disturbed, and light rain showers became comparatively frequent in these districts; but in Chutia Nagpur, North and South Behar and North Bengal, which were practically not under the influence of these disturbed conditions, weather has been fine almost throughout the week, and, with the exception of a few insignificant showers, rain has been absent for the whole of this period.

The variations of pressure for the week have been of little importance. At the commencement of the week it was distinctly, but slightly, above the normal in all districts, but on the Saturday pressure fell slowly at most stations. On the Sunday there was a somewhat rapid rise over the greater part of the Province, and on Monday, the 12th, pressure generally fell, the fall being largest at the Orissa stations. From this day up till Friday the variations of pressure were to a great extent dependent on the movement of the storm above described, and thus pressure generally fell slowly, though of course at the inland stations, which were beyond the influence of the storm, the variations were only of the usual oscillatory character. For the week, over the whole Province, pressure has therefore been not far removed from the normal, the average pressure only showing the slight excess of 0·01″. The variations at the particular stations also show clearly the effect of the passage of the small storm, and thus, while at Saugor Island and at Cuttack the average pressure of the week has been almost absolutely normal, at Dacca it has been 0·03″ above it.

Temperature has continued rather high throughout the week, and this has been again particularly noticeable in the maximum or day temperatures. Very many stations have reported almost daily temperatures above 90°, and at Gya, on the 12th, a maximum temperature of no less than 94·3° was registered. The minimum or night temperatures have not fallen

much during the week, and thus the mean daily temperature for the week has been at almost all stations distinctly above the normal. The average excess temperature in Orissa, Chutia Nagpur and North and South Behar has been nearly 2°; in South-West Bengal the excess has been about 1°, while in East Bengal the slight average defect of 0·4° is reported.

Except in the three districts—East Bengal Orissa and South-West Bengal—as previously described, rainfall has been practically absent throughout the week. Thus in North Behar absolutely no rain was reported from any station; in South Behar the average fall over the whole Province is only two hundredths of an inch. though in fact the slight rainfall was entirely confined to the Sonthal Pergunnahs district, and in Chutia Nagpur the average fall in all stations was only eight hundredths of an inch. North Bengal has received rather a larger amount and averages 0·34 inch over the whole Province. South-West Bengal has registered an average fall of 0·75 inch, which fell on an average number of 1·8 days. Orissa has received 0·83 inch on an average number of 1·7 rainy days. In both these districts the normal fall for this week is practically two inches, so that they have received decidedly less than half the normal fall; while on the other hand East Bengal has received an average fall of 1·68 inches on 2·1 rainy days, the normal fall for the period being 1·99 inches This district then alone of the whole Province has received a fall which is approximately normal.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 16th of October 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 18th May 1885.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, p passing temporary showers, t thunder, ⏥ dew, lr. lightning reflection, < lightning, g gloomy, ═ fog, d drizzling rain.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3283A.

GENERAL.—*The 15th October* 1885.—Baboo Raghu Nath Sahai, Temporary Deputy Magistrate and Deputy Collector, Sarun, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in that district.

The 20th October 1885.—Mr. A. W. R. Cadell, Assistant Magistrate and Collector, Barh, Patna, is allowed leave for twelve days, under section 72, chapter V of the Civil Leave Code, in extension of the leave granted to him under the order of the 8th September last.

The 23rd October 1885.—Mr. A. W. Mackie is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors in the district of Lohardugga, with effect from the date on which he was relieved of his acting appointment as Deputy Commissioner of that district.

The 26th October 1885.—Baboo Mohiny Mohun Chuckerbutty, Deputy Magistrate and Deputy Collector, Tumlook, Midnapore, is transferred to Furreedpore, and is appointed to have charge of the Madaripore sub-division of that district.

Baboo Juggobundhoo Bhattacharjee, Deputy Magistrate and Deputy Collector, Midnapore, is appointed to have charge of the Tumlook sub-division of that district.

Baboo Peary Mohun Banerjee, Deputy Magistrate and Deputy Collector, on leave, is transferred to Tipperah, and is appointed to have charge of the Brahmunberiah sub-division of that district.

This cancels the order of the 1st instant, transferring Baboo Peary Mohun Banerjee to Jehanabad in the district of Hooghly.

Mr. R. M. Towers, District and Sessions Judge, Moorshedabad, will continue to act as District and Sessions Judge of Midnapore until further orders.

POLICE.—*The 26th October* 1885.—Mr. C. A. Fisher, District Superintendent of Police, Khoolna, on furlough, is appointed to be District Superintendent of Police, Tipperah.

Mr. R. W. Keown, Assistant Superintendent of Police, Serajgunge, Pubna, is posted to the Chittagong Hill Tracts, but will continue to act as District Superintendent of Police, Howrah, until relieved.

Mr. C. S. Murray, Assistant Superintendent of Police, 24-Pergunnahs, is posted to the Chittagong Hill Tracts, but will continue to act as District Superintendent of Police, Tipperah, until relieved.

Mr. R. L. Ward, Assistant Superintendent of Police, Gya, is posted to Serajgunge, in the district of Pubna, but will continue to act as District Superintendent of Police, Rajshahye, until relieved.

MEDICAL.—*The 24th October* 1885.—Surgeon-Major W. A. Gilligan, Officiating Civil Surgeon, Chittagong, is appointed to be Civil Surgeon of Durbhunga.

Surgeon-Major J. Wilson, Officiating Civil Surgeon, Lohardugga, is appointed to act as Civil Surgeon of Chittagong, during the absence, on deputation, of Surgeon-Major R. D. Murray, or until further orders.

Surgeon W. Beatson, Officiating Civil Surgeon, Patna, is appointed to act as Civil Surgeon of Monghyr, during the absence, on deputation, of Surgeon-Major E. Bovill, or until further orders.

Surgeon-Major H. Whitwell, Officiating Civil Surgeon, Monghyr, is appointed to act, until further orders, as Principal Assistant to the Opium Agent, Behar.

Surgeon-Major H. B. Purves, Civil Surgeon, 24-Pergunnahs, is appointed to be Civil Surgeon of Patna and Superintendent of the Temple Medical School, Bankipore.

This cancels the order of the 21st September 1885, appointing Surgeon-Major Purves to act as Civil Surgeon of Patna.

Surgeon-Major C. H. Joubert, Officiating Professor of Midwifery, Medical College, Calcutta, is appointed to be Civil Surgeon of Rungpore.

Surgeon-Major Joubert will act as Civil Surgeon of the 24-Pergunnahs, during the absence, on deputation, of Surgeon-Major J. F. McConnell, or until further orders.

Surgeon-Major J. F. McConnell, Officiating Professor of Materia Medica and Clinical Medicine, Medical College, Calcutta, is appointed to be Civil Surgeon of the 24-Pergunnahs, but will continue to act in his present appointment until relieved by Surgeon-Major R. C. Chandra, or until further orders.

Dr. R. A. Barker, Civil Medical Officer, Serampore, Hooghly, is appointed to have medical charge of the civil station of Beerbhoom as a temporary arrangement.

The 26th October 1885.—Surgeon-Major E. G. Russell, Civil Surgeon of Nuddea, is allowed leave for fourteen days, under section 72, chapter V of the Civil Leave Code, with effect from the date on which he may avail himself of it.

OPIUM.—*The 19th October* 1885.—Mr. H. F. Campbell, Sub-Deputy Opium Agent, Benares Agency, is allowed furlough for five weeks, in extension of the furlough granted to him under the order of the 27th January 1885.

F. B. PEACOCK,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1885.—In accordance with the provisions of section 47 of Act XII of 1875, the following statement of receipts and expenditure of the Balasore Port Fund for the year 1884-85 is published for general information.

E. S. BYRNE,
For Accountant-General.

NOTIFICATION.

The 26th October 1885.—The following papers regarding the imposition of B. Quarantine at Aden and Perim against vessels arriving from Shanghai are republished for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

Quarantine, imposition of—at Aden and Perim against vessels arriving from Shanghai.

No. 3991.

GENERAL DEPARTMENT.

Bombay Castle, 20th October 1885.

Telegram from the Government of India, Home Department, Simla, dated 19th October 1885:—

"Your telegram 16th. Imposition quarantine at Aden and Perim against Shanghai sanctioned."

RESOLUTION.—A notification should be published in a *Bombay Government Gazette Extraordinary* bringing the B. Quarantine Rules into operation at Aden and Perim against arrivals from Shanghai.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other officers and departments concerned for information, with reference to Government Resolution No. 3933, dated 15th instant. Copies should also be forwarded to the Governments of India, Bengal, Madras and Ceylon, and the Chief Commissioner, British Burmah.

J. MONTEATH,
Under-Secy. to the Govt. of Bombay.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, 20th October 1885.

No. 3991.—In exercise of the power conferred by Act I of 1870, the following rules for quarantine against cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they will take effect from the 14th instant in the Port of Aden and at Perim as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Shanghai shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the port shall go alongside the vessel, and, if communication with the shore is desired, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour, or for the shorter period prescribed in rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects and susceptible goods. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinatter provided for, between such vessel and the shore, or other vessels and boats in the harbour. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year, and no communication shall be allowed with the pilot boat, otherwise than orally, or with the shore.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight	days of voyage	...	...	Six	days of quarantine.
Do. nine	ditto	...	...	Five	ditto.
Do. ten	ditto	...	...	Four	ditto.
Do. eleven	ditto	...	...	Three	ditto.
Do. twelve	ditto	...	...	Two	ditto.
Do. thirteen	ditto and upwards		...	Twenty-four hours of quarantine.	

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to

remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim which may have communicated with vessels coming from Shanghai shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that port.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills of health.

By order of His Excellency the Right Hon'ble the Governor in Council,

J. NUGENT,
Secretary to the Govt. of Bombay.

[Third Publication.]

NOTIFICATION.

The 13th October 1885.—The following Notice to Mariners is published for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS—(No. 59.)

INDIA—WEST COAST.

Replacement of buoy off Kárwár harbour (Sadashivgad).

WITH reference to Notice to Mariners No 37, issued from this Department on the 23rd June 1885, notice is hereby given that the buoy marking the rocky patch to the eastward of the Oyster rock light-house, which had drifted, was recovered and replaced in position on the 29th September 1885.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 12th October* 1885.

JUDICIAL DEPARTMENT.

No. 3284A.

The 20th October 1885.—The Lieutenant-Governor accepts the resignation tendered by Mr. J. Brough of his appointment of Honorary Magistrate for the Khagoul Bench in the district of Patna.

The 27th October 1885.—The services of Moulvie Mohabut Ali, Munsif of Chandpore, in the district of Tipperah, and of Baboo Pran Krishna Biswas, Munsif of Chikandi, in the district of Furreedpore, are placed at the disposal of the Chief Commissioner of Assam, with effect from the 9th November next.

This cancels the orders of the 17th instant, published in the *Calcutta Gazette* of the 21st idem, appointing Moulvie Mohabut Ali and Baboo Pran Krishna Biswas to be Munsifs in the district of Sylhet, to be ordinarily stationed at Karimgunge and Sonamgunge, respectively, and vesting them with the powers of a Small Cause Court Judge for the trial of suits up to the value of Rs. 50.

ERRATUM.—*The 20th October* 1885.—In the order of the 12th September last, published in the *Calcutta Gazette* of the 23rd idem, appointing Baboo Beer Krishna Prasad Singh to be an Honorary Magistrate for the Independent Bench at Sonbursa, in the district of Bhagulpore, *for* Beer Krishna Prasad Singh *read* Biran Singh.

F. B. PEACOCK,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1885.—It is hereby notified for general information that the Lieutenant-Governor is pleased, under section 16 of Act VI of 1871, to fix Saifganj as the place at which the Court of the Munsif of Kudha, in the district of Purneah, shall, until further orders, be held; and, under section 18 of the aforesaid Act, to fix the local limits of the jurisdictions of the said Court and the Court of the Sudder Munsif of Purneah as described below. These arrangements shall take effect from the 1st January 1886.

Munsifs.	*Thanas.*

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 19th October 1885.—It is hereby notified for general information that an election will be held, under section 27, Act III B.C.) of 1884, on the 16th December next, in the Sahebgunge Municipality, in the district of the Sonthal Pergunnahs, for the purpose of filling up the vacancies in the place of the following gentlemen, who have ceased to be Commissioners under section 20 of the Act:—

Baboo Jadu Nath Ghatiak. | Baboo Sital Sing.

J. WARE EDGAR,
Offg. Secy to the Govt. of Bengal.

NOTIFICATION.

The 19th October 1885.—It is hereby notified for general information that, under the powers vested in the Local Government by section 30, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to exclude from the operation of the Bengal Municipal Act, III (B.C.) of 1884, that portion of the road from Khoolna to Jessore which lies within the limits of the Khoolna Municipality, and to authorize its transfer to the charge of the Road Cess Committee of the district of Khoolna.

This notification does not apply to the side drains of the said road.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th October 1885.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221, Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Bussecrhat Municipality, in the district of the 24-Pergunnahs, made at a meeting, to extend the provisions of sections 233, 234, 235, 249, 250 and 251 of Part VI of the said Act to the above municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 19th October 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Baidyabat Municipality for a public purpose, viz. for widening the Mukhurjipara Lane, in the village of Chatra, pergunnah Boroe, zillah Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1¼ chittacks of standard measurement is required. It is bounded on the north and east by the Mukhurjipara Lane in Chatra; on the west by Khetter Nath Bhattacharji's lakhraj land; and on the south by Nando Lal Goswami's khas khamar land.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 12th October 1885.—The following draft of rules, which the Lieutenant-Governor proposes to make under clause (*a*) of section 138 of the Bengal Local Self-Government Act, 1885, is published for general information under section 143 of the said Act, and notice is hereby given that they will be taken into consideration on or after the 1st December 1885, when any objections or suggestions which may be made by any person and received before that date will also be considered.

PART I.

ELECTION OF MEMBERS OF UNION COMMITTEES.

Preliminary.

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority.

Of the qualification of Voters.

3. Every male person of the full age of twenty-one years, resident within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid any road cess, license tax or chowkidari tax, or who is a member of a joint undivided family, which has during such period paid any such cess or taxes, shall be entitled to vote at such election.

Of the qualification of Candidates.

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

Of the manner of holding elections.

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union, in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand: any costs incurred in issuing notices under this rule shall be defrayed from the District Fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the presiding officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question, the presiding officer shall proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot, in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent. of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected.

17. Except as provided by rule 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

PART II.

ELECTION OF MEMBERS OF LOCAL BOARDS.

Preliminary.

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner shall decide the number of members who shall be elected for each thana within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thanas in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than three months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

Of the Qualification of Electors.

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within such area;

(2) Has, during the year immediately preceding such election,—

(*a*) paid a sum of not less than one rupee on account of road cess in respect of land situated either wholly or in part within such area;

(*b*) paid license tax in respect of a trade, dealing, or industry carried on within such area; or

(*c*) been possessed of a clear annual income from any source of not less than two hundred and forty rupees.

(3) Being a member of a joint undivided family, one of the members of which is qualified for election as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be entitled to vote at an election of members of such Local Board.

Of the Registration of Electors.

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the Magistrate of the district shall cause to be prepared for each thana within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall from time to time be corrected and added to as the Magistrate of the district may direct.

23. At least one month before the date fixed for the election for any thana, a copy of the register showing the persons qualified to vote for such thana shall be published at suitable places within that thana. Copies of all the thana registers shall also be published at the sub-divisional office. Provided that all such registers made and published before these rules come into operation shall be held to have been duly made under Rule 4 and duly published under Rule 5.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus made shall be published at the thana at least three weeks before the date fixed for the election; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thana list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thana list shall be permitted to vote.

Of the qualification and the nomination of Candidates.

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within the area under the authority of the Local Board;

(2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board; and

(*a*) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board;

(*b*) paid a license tax of not less than twenty rupees in respect of a trade, dealing, or industry carried on within the area under the authority of the Local Board; or

(*c*) been possessed of a clear annual income from any source of not less than one thousand rupees.

(3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (*a*) or (*b*) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thana under the authority of such Local Board.

28. Any elector may, for the thana in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thana election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thana. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period. Provided that all such notices or nominations which may have been issued or made before these rules come into operation shall be held to have been issued or made under these rules.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office: his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thana at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

Of the manner of holding Elections.

32. The election for each thana shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thana shall be held at the head-quarters of the thana.

34. The date fixed for the thana election shall be duly notified at the thana, and at such other places as may appear suitable, at least one month beforehand.

Provided that any notice to this effect issued previous to these rules coming into force shall be held to be valid under these rules. A vernacular notice in the following form shall also, at least one week before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register:—

"You are hereby informed that you are registered as a voter for the thana, and that you will be entitled to vote at the election of members of the Local Board to be held at on the 18 ."

35. An elector duly qualified under Rule 4 shall be entitled to vote for the thana in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thana, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thana.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thana are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 8.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thana have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thana are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number or members for the Local Board fixed for such thana.

45. In the case of an equal number of votes being recorded in favour of two of more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thanas, such person shall be at liberty to choose which thana he will represent, and in every other thana for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him.

48. After all the thana elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

Miscellaneous.

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

PART III.

ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

Election of Members of District Boards.

53. A Local Board shall not elect members for the District Board until (*a*) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (*b*) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (*a*) of the preceding rule, or if later, the notification referred to in clause (*b*) of the same, the Local Board shall at a meeting elect the requisite number of members for the District Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected for two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

59. The only persons qualified for election as members of the District Board shall be members of the Local Boards in the district.

60. The names of the elected members of the District Board shall, together with the names or official designation of the appointed members, if any, be published in the *Calcutta Gazette*.

Term of Office.

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member.

62. The term of three years mentioned in the preceding rule shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding rule.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation, or removal, or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

B. District Boards.—As soon as possible after expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy amongst elected members under rule 63, the Magistrate of the district shall send a notice to the Local Board which has the right to elect a member to fill the vacancy, and such Board shall, within one month of the receipt of such notice, elect a member in accordance with rules 54 to 59.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th October 1885.—The following gentlemen are re-appointed to be Vice-Chairman and members of the Branch Road Committee of Moonaheegunge:—

Baboo Ramkinkar Sen	...	*Vice-Chairman.*
„ Purna Chandra Roy	...	*Members.*
„ Nunda Kumar Ghosh	...	*Members.*
„ Dwarka Nath Guha	...	*Members.*

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st October 1885.—Baboo Srish Chunder Bose is re-appointed to be a member of the Moorshedabad District Road Committee.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st October 1885.—Mr. R. S. Henderson is reappointed to be a member of the Dacca District Road Committee.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1885.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers vested in him by section 180 of Act IX (B.C.) of 1880, to confirm the following bye-laws, which have been framed by the District Road Committee of Lohardugga at a meeting, unless good reasons are shown to the contrary within one month from the date of the publication of this notification.

BYE-LAWS.

1. No person shall cultivate or prepare for cultivation any road under the charge of the Committee.

2. No person shall tether any cattle or permit any cattle to stray upon any such road.

3. No person shall, without having obtained leave in writing from the Chairman or Vice-Chairman of the District Road or of a Branch Committee, cut any road in charge of the Committee.

4. No person shall remove, injure, or destroy any tree, post, or fence on any such road.

5. No person shall damage, obstruct, or encroach upon any such road by erecting any building, wall, fence, or other thing thereon, or by allowing any tree, plant, or hedge to overhang the same.

6. No person shall leave any cart or other vehicle or any cattle unattended on any such road.

7. No person in charge of an elephant shall permit it to remain upon any such road when a horse is approaching, but shall remove such elephant to a reasonable distance from such road.

8. No person in charge of an elephant shall allow such elephant to pass any barrier erected on any such road for preventing the passage of elephants.

Every person who shall offend against any of the foregoing bye-laws shall on conviction before a Magistrate be liable, under section 180, Act IX of 1880 (B.C.), for every such offence to a penalty of Rs. 10, and in the case of a continuing offence to a penalty of Rs. 2 for every day during which such offence is continued.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

R. C. STERNDALE, Offg. Dy. Collector of Land Revenue in Calcutta.

Calcutta Collectorate, No. 4, Bankshall Street.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet at „ 2 „

The above prices are for ordinary building purposes.

For *Planking*, *Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion

Second and Third Class Timber will be sold and price fixed by agreement

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1883.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Augrahyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

Notice.

GYA MICA MINES.

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

Notes on Forestry,

By C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884 :—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows :—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	„ 2 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...	.....	„ 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

„ Thacker & Co., Bombay.

„ Higginbotham & Co., Madras.

The Government Central Book Depôt, Bombay.

„ Curator of Government Books, North-Western Provinces and Oudh.

„ Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 *should be at once remitted.*

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed :—

1*st.*—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd.*—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd.*—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations; together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

PART V.

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 2nd October, 1885, and is hereby promulgated for general information :—

ACT No. XV OF 1885.

An Act to amend the Local Authorities Loan Act, 1879.

XI of 1879.

WHEREAS it is expedient to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows:—

Addition to section 8, Act XI of 1879.

1. After clause (*b*) of the proviso to section 8 of the said Act the following shall be added :—

"or

"(*c*) to affect the power conferred on any local authority by any such enactment to charge its funds by guaranteeing the payment of interest on money to be applied to any purpose to which the funds of the local authority can legally be applied."

D. FITZPATRICK,
Secy. to the Govt. of India.

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to amend the Local Authorities Loan Act, 1879, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 23rd September, 1885 :—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the Local Authorities Loan Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Secretary to Chief Commissioner, British Burma, No. 30.—24L., dated 13th June, 1885 [Paper No 1].
From Secretary to Chief Commissioner, Assam, No. 972, dated 18th June, 1885 [Paper No. 2].
From Chief Commissioner, Ajmer-Merwára, No. 722, dated 3rd July, 1885 [Paper No. 3].
From Secretary to Government, North-Western Provinces and Oudh, No. 3051 X-518, dated 10th July, 1885 [Paper No 4].
From Officiating Secretary to Government, Punjab, No. 7318, dated 17th July, 1885, and enclosures [Papers No. 5].
From Secretary for Berar to Resident, Hyderabad, No. 2740., dated 13th July, 1885 [Paper No. 6].
From Secretary to Chief Commissioner, Coorg, No. 688—89, dated 14th July, 1885 [Paper No. 7].
From Chief Secretary to Government, Madras, No. 1800, dated 10th July, 1885, and enclosures [Papers No. 8].
From Under Secretary to Government, Bombay, No. 2054, dated 18th July, 1885, and enclosures [Papers No. 9].
From Officiating Secretary to Government, Bengal, No. 1370, dated 20th July, 1885, and enclosures [Papers No. 10].
From Assistant Secretary to Chief Commissioner, Central Provinces, No 3052 147, dated 11th August, 1885 [Paper No. 11].

2. It has been suggested that the term "raised" should be altered so as to include money devoted to any particular purpose by a person who may not have occasion to raise it, and we have accordingly substituted the words "applied to" for "raised for".

3. The only other alteration we have made in the Bill is a purely verbal one.

4. The publication ordered by the Council has been made as follows :—

In English.

Gazette.	*Date.*
Gazette of India	16th, 23rd and 30th May, 1885.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 16th October, 1885, and is hereby promulgated for general information:—

ACT No. XVIII OF 1885.

THE LAND ACQUISITION (MINES) ACT, 1885.

CONTENTS.

SECTIONS.

1. Short title, commencement and local extent.
2. Saving for mineral rights of the Government.
3. Declaration that mines are not needed.
4. Notice to be given before working mines lying under land.
5. Power to prevent or restrict working.
6. Mode of determining persons interested and amount of compensation.
7. If Local Government does not offer to pay compensation, mines may be worked in a proper manner.
8. Mining communications.
9. Local Government to pay compensation for injury done to mines.
10. And also for injury arising from any airway or other work.
11. Power to officer of Local Government to enter and inspect the working of mines.
12. Penalty for refusal to allow inspection.
13. If mines worked contrary to provisions of this Act, Local Government may require means to be adopted for safety of land acquired.
14. Construction of Act when land acquired has been transferred to a local authority or Company.
15. Pending cases.
16. Definition of local authority and Company.
17. This Act to be read with Land Acquisition Act, 1870.

An Act to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870.

WHEREAS it is expedient to provide for cases in which mines or minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870; It is hereby enacted as follows:— X of 1870.

1. *(1)* This Act may be called the Land Acquisition (Mines) Act, 1885; and

Short title, commencement and local extent.

(2) It shall come into force at once.

(3) It extends in the first instance to the territories administered by the Governor of Madras in Council and the Lieutenant-Governor of Bengal, but any other Local Government may, from time to time, by notification in the official Gazette, extend this Act to the whole or any specified part of the territories under its administration.

2. Except as expressly provided by this Act, nothing in this Act shall affect the right of the Government to any mines or minerals.

Saving for mineral rights of the Government.

3. *(1)* When the Local Government makes a declaration under section 6 of the Land Acquisition Act, 1870, that land is needed for a public purpose or for a C mpany, it may, if it thinks fit, insert in the declaration a statement that the mines of coal, iron-stone, slate or other minerals lying under the land or any particular portion of the land, except only such parts of the mines or minerals as it may be necessary to dig or carry away or use in the construction of the work for the purpose of which the land is being acquired, are not needed. X of 1870.

Declaration that mines are not needed.

(2) When a statement as aforesaid has not been inserted in the declaration made in respect of any land under section 6 of the Land Acquisition Act, 1870, and the Collector is of opinion that the provisions of this Act ought to be applied to the land, he may abstain from tendering compensation under section 11 of the said Land Acquisition Act in respect of the mines, and may— X of 1870.

(a) when he makes an award under section 14 of that Act, insert such a statement in his award;

(b) when he makes a reference to the Court under section 15 of that Act, insert such a statement in his reference; or

(c) when he takes possession of the land under section 17 of that Act, publish such a statement in such manner as the Governor-General in Council may, from time to time, prescribe.

(3) If any such statement is inserted in the declaration, award or reference, or published as aforesaid, the mines of coal, iron-stone, slate or other minerals under the land or portion of the land specified in the statement, except as aforesaid, shall not vest in the Government when the land so vests under the said Act.

The Land Acquisition (Mines) Act, 1885.—(Sections 4-10.)

Notice to be given before working mines lying under land.

4. If the person for the time being immediately entitled to work or get any mines or minerals lying under any land so acquired is desirous of working or getting the same, he shall give the Local Government notice in writing of his intention so to do sixty days before the commencement of working.

Power to prevent or restrict working.

5. *(1)* At any time or times after the receipt of a notice under the last foregoing section, and whether before or after the expiration of the said period of sixty days, the Local Government may cause the mines or minerals to be inspected by a person appointed by it for the purpose; and

(2) If it appears to the Local Government that the working or getting of the mines or minerals, or any part thereof, is likely to cause damage to the surface of the land or any works thereon, the Local Government may publish, in such manner as the Governor General in Council may, from time to time, direct, a declaration of its willingness either—

(a) to pay compensation for the mines or minerals still unworked or ungotten, or that part thereof, to all persons having an interest in the same; or

(b) to pay compensation to all such persons in consideration of those mines or minerals, or that part thereof, being worked or gotten in such manner and subject to such restrictions as the Local Government may in its declaration specify.

(3) If the declaration mentioned in case *(a)* is made, then those mines or minerals, or that part thereof, shall not thereafter be worked or gotten by any person.

(4) If the declaration mentioned in case *(b)* is made, then those mines or minerals, or that part thereof, shall not thereafter be worked or gotten by any person save in the manner and subject to the restrictions specified by the Local Government.

Mode of determining persons interested and amount of compensation.

6. When the working or getting of any mines or minerals has been prevented or restricted under section 5, the persons interested in those mines or minerals and the amounts of compensation payable to them respectively shall, subject to all necessary modifications, be ascertained in the manner provided by the Land Acquisition Act, 1870, for ascertaining the persons interested in the land to be acquired under that Act, and the amounts of compensation payable to them, respectively.

X of 1870.

If Local Government does not offer to pay compensation, mines may be worked in a proper manner.

7. *(1)* If before the expiration of the said sixty days the Local Government does not publish a declaration as provided in section 5, the owner, lessee or occupier of the mines may, unless and until such a declaration is subsequently made, work the mines or any part thereof in a manner proper and necessary for the beneficial working thereof, and according to the usual manner of working such mines in the local area where the same are situate.

(2) If any damage or obstruction is caused to the surface of the land or any works thereon by improper working of the mines, the owner, lessee or occupier of the mines shall at once, at his own expense, repair the damage or remove the obstruction, as the case may require.

(3) If the repair or removal is not at once effected, or, if the Local Government so thinks fit, without waiting for the same to be effected by the owner, lessee or occupier, the Local Government may execute the same and recover from the owner, lessee or occupier the expense occasioned thereby.

Mining communications.

8. If the working of any mines is prevented or restricted under section 5, the respective owners, lessees and occupiers of the mines, if their mines extend so as to lie on both sides of the mines the working of which is prevented or restricted, may cut and make such and so many airways, headways, gateways or water-levels through the mines, measures or strata, the working whereof is prevented or restricted, as may be requisite to enable them to ventilate, drain and work their said mines; but no such airway, headway, gateway or water-level shall be of greater dimensions or section than may be prescribed by the Governor General in Council in this behalf, and, where no dimensions are so prescribed, not greater than eight feet wide and eight feet high, nor shall the same be cut or made upon any part of the surface or works, or so as to injure the same, or to interfere with the use thereof.

Local Government to pay compensation for injury done to mines.

9. The Local Government shall, from time to time, pay to the owner, lessee or occupier of any such mines extending so as to lie on both sides of the mines, the working of which is prevented or restricted, all such additional expenses and losses as may be incurred by him by reason of the severance of the lands lying over those mines or of the continuous working of those mines being interrupted as aforesaid, or by reason of the same being worked in such manner and under such restrictions as not to prejudice or injure the surface or works, and for any minerals not acquired by the Local Government which cannot be obtained by reason of the action taken under the foregoing sections; and if any dispute or question arises between the Local Government and the owner, lessee or occupier as aforesaid, touching the amount of those losses or expenses, the same shall be settled as nearly as may be in the manner provided for the settlement of questions touching the amount of compensation payable under the Land Acquisition Act, 1870.

X of 1870

And also for injury arising from any airway or other work.

10. If any loss or damage is sustained by the owner or occupier of the lands lying over any such mines, the working whereof has been so prevented or restricted as aforesaid (and not being the owner, lessee or occupier of those mines), by reason of the making of any such airway or other works as aforesaid, which or any like work it would not have been necessary to make but for the working of the mines having been so prevented or restricted as aforesaid, the Local Government shall pay full compensation to that owner or occupier of the surface lands for the loss or damage so sustained by him.

The Land Acquisition (Mines) Act, 1885.—(Sections 11-17.)

Power to officer of Local Government to enter and inspect the working of mines.

11. For better ascertaining whether any mines lying under land acquired in accordance with the provisions of this Act are being worked, or have been worked, or are likely to be worked so as to damage the land or the works thereon, an officer appointed for this purpose by the Local Government may, after giving twenty-four hours' notice in writing, enter into and return from any such mines or the works connected therewith; and for that purpose the officer so appointed may make use of any apparatus or machinery belonging to the owner, lessee or occupier of the mines, and use all necessary means for discovering the distance from any part of the land acquired to the parts of the mines which have been, are being, or are about to be worked.

Penalty for refusal to allow inspection.

12. If any owner, lessee or occupier of any such mines or works refuses to allow any officer appointed by the Local Government for that purpose to enter into and inspect any such mines or works in manner aforesaid, he shall be punished with fine which may extend to two hundred rupees.

If mines worked contrary to provisions of this Act, Local Government may require means to be adopted for safety of land acquired.

13. If it appears that any such mines have been worked contrary to the provisions of this Act, the Local Government may, if it thinks fit, give notice to the owner, lessee or occupier thereof to construct such works and to adopt such means as may be necessary or proper for making safe the land acquired, and the works thereon, and preventing injury thereto; and, if after such notice, any such owner, lessee or occupier does not forthwith proceed to construct the works necessary for making safe the land acquired and the works thereon, the Local Government may itself construct the works and recover the expense thereof from the owner, lessee or occupier.

Construction of Act when land acquired has been transferred to a local authority or Company.

14. When a statement under section 3 has been made regarding any land, and the land has been acquired by the Government, and has been transferred to or has vested by operation of law in a local authority or Company, then sections 4 to 13, both inclusive, shall be read as if for the words "the Local Government" wherever they occur in those sections the words "the local authority or Company, as the case may be, which has acquired the land" were substituted.

Pending cases.

15. *(1)* This Act shall apply to any land for the acquisition whereof proceedings under the Land Acquisition Act, 1870, are pending at the time when this Act comes into force, unless before that time the Collector has made, in respect of the land, an award under section 11 or a reference to the Court under section 15 of that Act, or has taken possession of the land under section 17 of the same. X of 1870.

(2) When the Collector has before the said time made an award or reference in respect of any such land or taken possession thereof as aforesaid, and all the persons interested in the land, or entitled under the Land Acquisition Act, 1870, to act for persons so interested, who have attended or may attend in the course of the proceedings under sections 11 to 15, both inclusive, of the Land Acquisition Act, 1870, consent in writing to the application of this Act to the land, the Collector may by an order in writing direct that it shall apply, and thereupon it shall be deemed to have applied from the commencement of the proceedings; and the Collector shall be deemed, as the case may be, to have inserted in his award or reference, or to have published in the prescribed manner, when he took possession, the statement mentioned in section 3 of this Act. X of 1870. X of 1870. X of 1870.

Definition of local authority and Company.

16. In this Act—

(*a*) "local authority" means any municipal committee, district board, body of port commissioners or other authority legally entitled to, or entrusted by the Government with, the control or management of any municipal or local fund; and

(*b*) "Company" means a Company registered under any of the enactments relating to Companies from time to time in force in British India, or formed in pursuance of an Act of Parliament or by Royal Charter or Letters Patent.

This Act to be read with Land Acquisition Act, 1870.

17. This Act shall, for the purposes of all enactments for the time being in force, be read with and taken as part of the Land Acquisition Act, 1870. X of 1870.

D. FITZPATRICK,
Secy. to the Govt. of India

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 23rd September, 1885:—

WE, the undersigned, Members of the Select Committee to which the Bill to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Messrs. Macneill & Co., Managing Agents, Equitable Coal Company, Limited, dated 24th April, 1885, and enclosure [Papers No. 1].
From Officiating Secretary to Chief Commissioner, Assam, No. 640, dated 24th April, 1885 [Paper No. 2].
From Secretary to Chief Commissioner, Coorg, No. 206—25, dated 4th May, 1885 [Paper No. 3].
From Chief Commissioner, Ajmer-Merwára, No. 479, dated 7th May, 1885, and enclosure [Papers No. 4].
From Officiating Secretary to Chief Commissioner, British Burma, No. 708-94R., dated 29th April, 1885 [Paper No 5].
From Secretary for Berar to Resident, Hyderabad, No. 161 G., dated 9th May, 1885 [Paper No. 6].
From Registrar, High Court, Calcutta, No. 1524, dated 15th May, 1885 [Paper No. 7].
From Chief Secretary to Government, Madras, No. 1251, dated 9th May, 1885, and enclosures [Papers No. 8].
From Under Secretary to Government, Bombay, No. 4381, dated 30th May, 1885, and enclosures [Papers No. 9].
From Secretary to Government, Bengal, No. 481 T.—R., dated 28th May, 1885, and enclosures [Papers No. 10].
From Officiating Junior Secretary to Government, Punjab, No. 544, dated 4th June, 1885, and enclosures [Papers No. 11].
From Bábú Gurdhar Das, Honorary Magistrate, Etáwah, dated 8th May, 1885 [Paper No. 12].
From Chief Secretary to Government, North-Western Provinces and Oudh, No. 1150—I.-770, dated 30th June, 1885, and enclosures [Papers No. 13].
From Assistant Secretary to Chief Commissioner, Central Provinces, No. 2655—77, dated 11th July, 1885 [Paper No. 14].

2. Some of the Local Governments have objected to the Bill being applied to the provinces under their administration on the ground that, having regard to the manner in which the right to minerals is regulated in those provinces, it is unnecessary there, and that, if unnecessary, it would only prove an encumbrance and complication in the acquisition of lands. To meet these objections we have made the measure applicable by its own vigour only to the territories under the administration of the Governor of Madras in Council and the Lieutenant-Governor of Bengal, but have empowered the remaining Local Governments to extend it to the whole or any part of the territories administered by them if they think fit.

3. An apprehension has been expressed in some of the opinions received that the Bill might by implication affect the rights which the Crown has to all minerals throughout a very large portion of this country. Such an apprehension is, we believe, unfounded, but by way of greater precaution and to prevent misapprehension we have inserted a section (2) saving the rights of the Crown.

4. Section 2 of the Bill as introduced required the Government to determine, before it issued its declaration under section 6 of the Land Acquisition Act, whether the land should be acquired simply under that Act, that is to say, including the minerals, or whether the special provisions of this Bill should be put in force with a view to excluding the minerals from the acquisition.

It has been represented that it is not for the interest of any of those concerned that an irrevocable determination should necessarily be come to on so important a point at a stage of the proceedings when the circumstances of the case would in all probability be imperfectly known. The Government, it will be observed on reference to the Land Acquisition Act, has a discretion to withdraw from a proposed acquisition of land up to a considerably later stage, and it seems but reasonable that it should have a discretion to exclude the minerals from the acquisition at any time up to the same stage if it turns out that their acquisition is not essential to the undertaking, and that either the owners are unwilling to part with them or the Government or the local authority or Company concerned is unwilling to pay their full value. We have accordingly (in section 3) empowered the Collector, who in such a matter would, of course, act under the control of the Government, to exclude the minerals from the acquisition at any time up to the stage of the proceedings at which the land vests, and it is no longer in the discretion of the Government to recede from the transaction.

5. It has been urged that the notice of thirty days to be given to the Government, under section 3 of the Bill as introduced, by a mine-owner desiring to work his mines is too short having regard to the delays in communication in this country. We think the objection is reasonable, and we have accordingly (in section 4 of the amended Bill) extended the period to sixty days.

6. It has been held by the House of Lords in an important case (*Dixon* v. *The Caledonian Railway Co.*, 5 App. Ca. 820) that when a mine-owner gives notice under section 78 of the Railways Clauses Act, 1845, of his intention to work minerals, the Railway Company is not, for the purpose of giving its counter-notice to stop or control the working, limited to the thirty days for which the mine-owner's notice runs, that the period of thirty days is merely prescribed as a period until the expiration of which the mine-owner is debarred from

working, and that the Company can at any time give its counter-notice, though of course if given at any time after the thirty days had expired and the workings had been commenced it would have no effect except as regards the further progress of the workings. The opposite view, as was pointed out by their Lordships, would involve somewhat serious consequences, and it is obviously necessary that there should be no mistake as to the effect of the Bill in this respect. It would doubtless have been sufficient, so far as regards the ultimate result, if we followed the exact wording of the English Act, on the main lines of which we are proceeding throughout. The highest Courts in this country would, as a matter of course, follow the decision of the House of Lords, but it is to be apprehended that inferior authorities might in many cases be ignorant of that decision, and might mistake the effect of the wording of the English Act, which it must be admitted is by no means clear. We have therefore thought it safer to amend the sections concerned in such a manner that they will in a clear and unmistakeable way express the effect of the English Act as construed by the House of Lords.

7. Another important English decision which points to an amendment of the Bill is that in *Smith* v. *Great Western Railway Co.* (2 Ch. D. 235), and in appeal before the House of Lords, 3 App. Ca. 165). We may have, under a Bill of this sort, a state of things to deal with, of which that case affords an illustration, where one person holding under a terminable lease has an immediate right to work the minerals, and another person is entitled to the reversion on the expiration of the lease and perhaps to a rent or royalty during its continuance. The lease may or may not be of such a length as to admit of all the minerals being worked out during its continuance, and it may or may not be liable to be put an end to by forfeiture or otherwise before the expiration of its term. The provisions of the English Act, which deal specially with the subject now before us, and which have been incorporated in this Bill, were found inadequate to provide for the exigencies of such a state of things as that referred to. They probably contemplate a settlement only with the person immediately entitled to work the mines, and, in order to provide for the case of a reversioner or other person interested, it was found necessary to call in the aid of a general provision of the law which would be out of place in a Bill like this.

It appears to us that the simplest mode of dealing with the various interests that may co-exist in the mines is to require, in accordance with the scheme of the Land Acquisition Act, that they should all, whether present or future, be considered and compensated for simultaneously, whenever the owner of the surface has occasion to exercise his power of stopping or controlling the working.

We have accordingly provided in effect that where the person immediately entitled to work the mines intimates to the owner of the surface his intention to work them, and the latter after that determines to stop or control the working, the settlement of compensation must extend to all persons interested in the mines, and the stoppage or control will be binding in perpetuity on all alike.

8. We have introduced three new sections (8, 9 and 10), corresponding to sections 80, 81 and 82 of the Railways Clauses Act, 1845. We question whether the object of these sections would not have been otherwise attained through the medium of the Land Acquisition Act, the provisions of which were made applicable by section 6 of the Bill as introduced; but as importance appeared to be attached to them in the memorial of the Coal Companies, we have thought it better to remove all doubt by including them. They will doubtless overlap section 6 of the Bill, but no practical harm will result from this.

9. An objection has been taken in some quarters to section 11 of the Bill as introduced (now section 14), which in effect gives to certain Companies the powers conferred on the Local Government by some of the foregoing provisions of the Bill. It appears to be overlooked that the section in question can apply only to Companies established for such purposes and occupying such a position from a public point of view as would warrant the Government in acquiring land on their behalf. In particular it is provided, by sections 48 and 49 of the Land Acquisition Act, that land shall not be acquired for a Company under that Act unless it is needed for a work likely to prove useful to the public, and the Company enters into an agreement with the Government settling, among other matters, the time within which and the conditions on which the work shall be executed and maintained and the terms on which the public shall be entitled to use it.

10. We may further observe that there appears from some of the papers considered by us to be a certain amount of misapprehension as to the nature of the powers referred to.

If the Local Government or the Company exercising the powers of the Local Government neglects to come to terms with the mine-owner on his giving notice of his intention to work, it does so at the risk of its property. If, considering that the mine-owner is working improperly, it takes steps under section 7 (new numbering) to remedy the mischief with a view to charging the mine-owner with the cost, it does so at the risk of losing its money and of incurring serious legal consequences if the Court before which the case may ultimately come takes a different view of the matter. Similarly, if it considers that the mines are being worked contrary to the provisions of the Act and proceeds to take steps under section 13 (new numbering), it still acts at its own risk, for it is by no means certain that it will appear to the Court that the mines were being so worked.

Thus the powers in question are very far from being so formidable as has been supposed, and we may add that they are framed as closely as possible on the lines of those conferred by

Parliament on Railway Companies in England, the substance of which seems generally to have met with approval.

11. We have placed "local authorities" on a footing similar to that of Companies, as in many recent Acts the provisions of the Land Acquisition Act have been made applicable for the purpose of acquiring land for such authorities.

12. We are informed that there are certain land acquisition cases pending at this moment in Bengal, which have already proceeded beyond the stage at which the provisions of this measure would in its ordinary course be applicable to them, but in which it may nevertheless be thought desirable to have the benefit of it. To meet this, we have inserted a clause (15 (2)) which will admit of the Bill being applied in such cases if those concerned unanimously desire that it should.

13. The publication ordered by the Council has been made as follows :—

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor-General on the 16th October, 1885, and is hereby promulgated for general information :—

ACT NO. XIX OF 1885.

An Act to amend the law relating to Government Securities.

WHEREAS it is expedient to amend the law relating to Government securities in manner hereinafter appearing; It is hereby enacted as follows :—

Short title and commencement.

1. *(1)* This Act may be called the Indian Securities Act, 1885; and

(2) It shall come into force at once.

Definitions.

2. In this Act—

The expression "Government security" includes promissory notes, debentures, stock certificates, and all other securities issued by the Government of India or by any Local Government in respect of any loan issued under notification in the official Gazette, whether before or after the passing of this Act, but does not include a stock note or a currency note: and

"prescribed" means prescribed by rules made from time to time by the Governor General in Council in this behalf.

Right of survivors of joint payees of Government securities.

3. *(1)* Notwithstanding anything contained in the Indian Contract Act, section 45, when a Government security issued before the first day of April, 1866, is payable to two or more persons jointly and any of them dies, the security shall be payable to the survivor or survivors of those persons.

(2) Nothing herein contained shall affect any claim which the representative of the deceased person may have against the survivor or survivors in respect of the security jointly payable to them and the deceased.

(3) This section shall apply whether the death of the person to whom the security was jointly payable occurred or occurs before or after this Act comes into force.

Issue of renewed securities.

4. A person claiming to be entitled to a Government security as payable to him under an endorsement may, on satisfying the prescribed officer of the justice of his claim and paying the prescribed fee and delivering the security duly receipted to the prescribed officer, obtain from the officer a renewed security issued payable to himself.

Issue of duplicate securities.

5. *(1)* When a Government security is alleged to have been wholly or partly lost or destroyed, and a person claims to be the person to whom but for such loss or destruction it would be payable, he may, on application to the prescribed officer, and on producing proof to his satisfaction of the loss or destruction and of the justice of the claim, obtain from him an order for—

(a) the payment of interest in respect of the security said to be lost or destroyed pending the issue of a duplicate security; and

(b) the issue of a duplicate security payable to the applicant.

(2) An order shall not be passed under sub-section *(1)* until after the issue of the prescribed notification of the loss or destruction and after the expiration of the prescribed period, nor until the applicant has given the prescribed indemnity against the claims of all persons deriving title under the security lost or destroyed.

(3) A list of the securities in respect of which an order is passed under sub-section *(1)* shall be published in the *Gazette of India* at such times as the Governor General in Council may, from time to time, direct.

Period after which Government is released from liability in respect of original security.

6. When a renewed security has been issued under section 4, or a duplicate security has been issued under section 5, the Government shall be discharged of all liability in respect of the original security of which such renewed or duplicate security has been issued—

(a) in the case of a renewed security, after the lapse of six years from the date of the issue of the renewed security;

(b) in the case of a duplicate security, after the lapse of six years from the date of the publication under section 5, sub-section *(3)*, of the list in which the security is first mentioned, or from the date of the last payment of interest on the original security, whichever date is latest.

Power of Governor General in Council to make rules.

7. The Governor General in Council may, from time to time, make rules to prescribe—

(a) the fees to be paid for applications under sections 4 and 5;

(b) the form in which securities delivered for renewal are to be receipted;

(c) the officer who is to exercise all or any of the powers and perform all or any of the duties prescribed by sections 4 and 5;

(d) the proof which is to be produced by persons applying for duplicate securities;

(e) the form and mode of publication of the notification mentioned in section 5, and the period after which interest may be paid or a duplicate security may be issued under that section;

(f) the nature and amount of the indemnity to be given by a person applying under section 5 for the payment of interest or the issue of a duplicate security; and

(g) generally all matters connected with the grant of renewed and duplicate securities.

Publication of drafts and rules.

8. *(1)* The Governor General in Council shall, before making rules under the last foregoing section, publish a draft of the proposed rules in such manner as may, in his opinion, be sufficient for the information of the public.

(2) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(3) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) Every rule made under the last foregoing section shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under that section shall be conclusive evidence that it has been duly made.

D. FITZPATRICK,
Secy. to the Govt. of India.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the law relating to Government Securities was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 8th October, 1885:—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the law relating to Government Securities was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Secretary to Chief Commissioner, British Burma, No. 92—17L., dated 7th May, 1885, and enclosure [Papers No. 1].
From Officiating Secretary to Chief Commissioner, Assam, No. 746, dated 11th May, 1885, and enclosure [Papers No. 2].
From Secretary for Berar to Resident, Hyderabad, No. 178G., dated 18th May, 1885 [Paper No. 3].
From Bábú Gurdhar Dás, Honorary Magistrate, Etáwah, dated 18th May, 1885 [Paper No. 4].
From Chief Commissioner, Ajmer-Merwára, No. 645, dated 17th June, 1885 [Paper No. 5].
From Chief Secretary to Government, Madras, No. 1455, dated 3rd June, 1885, and enclosures [Papers No 6].
From Secretary to Government, North-Western Provinces and Oudh, No. 2793—X-395, dated 26th June, 1885 [Paper No. 7].
From Registrar, High Court, Calcutta, No. 1808, dated 24th June, 1885 [Paper No. 8].
From Secretary to Chief Commissioner, Coorg, No. 522—58, dated 23rd June, 1885 [Paper No. 9].
From Officiating Secretary to Government, Bengal, No. 1301T.F., dated 26th June, 1885, and enclosures [Papers No. 10].
From Officiating Secretary to Government, Punjab, No. 5203., dated 1st July, 1885, and enclosures [Papers No. 11].
Telegram from Chief Commissioner, Central Provinces, dated 1st July, 1885 [Paper No. 12].
From Under Secretary to Government, Bombay, No. 1809, dated 27th June, 1885, and enclosure [Papers No. 13].
From Secretary to Government of India, Legislative Department, to Solicitor to Government of India, No. 1379, dated 28th August, 1885; from Solicitor to Government of India, No. 1163, dated 17th September, 1885, and enclosure [Papers No. 14].

2. The only substantive alteration we have made in the Bill is in section 3, which, in cases in which one of a number of joint-holders of a Government security dies, applies what we may term the rule of survivorship as opposed to the rule of representation laid down by section 45 of the Indian Contract Act. The reasons which led to the insertion of this provision are fully set forth in the Statement of Objects and Reasons: but we find that a considerable difference of opinion exists regarding it.

3. On the one hand, it is urged, among others, by so high an authority as the Advocate General of Bengal, that this provision should be generalized and extended to other classes of obligations besides those arising on Government securities.

On the other hand, it is argued in several of the papers that the rule of survivorship as applied to instruments of the description in question is one that does not fit in with the habits and ideas of certain classes of the Native population, and might, if extended to those classes as an absolutely binding rule, open a door to the perpetration of frauds.

The question thus raised is of considerable importance and difficulty. We do not think that we should be justified in entering fully upon it here in the absence of those members of the Council most competent to advise on legal and commercial matters, and we accordingly propose, with a view to avoiding it as far as possible, to confine the section to Government securities already issued, or which may be issued before the 1st of April next.

4. As regards securities already issued, the law must be settled without any further delay, the delay which has taken place in obtaining opinions on the Bill having already led to

considerable public inconvenience. Moreover, as it is impracticable to make any distinctions among those securities, one and the same rule must be laid down for all, and it is clear that that rule must be the rule of survivorship. The rule of survivorship has hitherto been applied to them, as well after the passing of the Contract Act as before, subject at most to rare exceptions or qualifications. It is the rule that is most suitable to the great majority of those who hold those securities, and if in exceptional cases it should be found to be less suitable it must be remembered that those securities have been issued under a system which contemplated its application.

5. On the other hand, there is no necessity to settle the question at this moment as regards securities to be issued for all time to come, especially as a simple mode of providing, without the aid of the legislature, for securities to be hereafter issued has been proposed.

It has been suggested that it could be so arranged in the Loan Department of the Government that it should be in the option of persons, in whose favour securities are first issued or to whom they are subsequently transferred by endorsement, either to take them simply in their several names, that is to say, in favour, *e.g.*, of "A, B & C," without qualification, in which case the rule of the Contract Act would apply, or to take them under words giving a right of survivorship, as, *e.g.*, in favour of "A, B & C, and the survivor or survivors of them," in which case we are advised the rule of the Contract Act would be excluded and the rule of survivorship would apply. This, it has been argued, would be likely to afford a more satisfactory solution of the difficulty as regards securities to be hereafter issued than any enactment establishing either the rule of survivorship or that of representation in a hard-and-fast manner, as it would leave it open to all concerned to adopt for themselves the rule best adapted to their requirements.

It is urged, on the other hand, that the requirements of the new system would be likely for some time to be overlooked, and that considerable hardship and inconvenience would thus result, but this danger might perhaps be averted by some device such as that of a warning enfaced on the security in such a way as to attract attention.

We do not, however, recommend that any determination should be arrived at on this matter until it has undergone the fullest discussion. It will doubtless be settled during the course of the Calcutta Session, and we think that we are acting most in accord with the balance of convenience, and so as to occasion the least amount of disturbance in existing relations, by recommending that as regards securities issued meantime, *i.e.*, say up to the 1st of April next, the law should be placed on the same footing as for securities already issued, that is to say, that the rule of survivorship should apply.

6. The remaining changes which we have made in the Bill, being confined to matters of form or drafting, do not call for special notice. We may, however, mention that we have introduced words in the definition of "Government security" to make it clear that the Bill does not apply to stock notes or currency notes—classes of securities to which, as they are otherwise provided for, it was never intended to apply.

7. The publication ordered by the Council has been made as follows :—

In English.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 16th October, 1885, and is hereby promulgated for general information:—

ACT No. XX OF 1885.

An Act to postpone for a limited time the operation of certain provisions of the Bengal Tenancy Act, 1885.

WHEREAS it is provided by the Bengal Tenancy Act, 1885, that that Act shall come into force on such date as the Local Government, with the previous sanction of the Governor-General in Council, may, by notification in the local official Gazette, appoint in this behalf; VIII of 1885.

And whereas, in exercise of the power thus conferred, the Local Government, with the previous sanction of the Governor-General in Council, has, by a notification in the local official Gazette, appointed the first day of November, 1885, as the date on which the said Act is to come into force;

And whereas it is convenient that certain portions of the said Act relating to deposits of rent and distraint should not come into force until a later date;

It is hereby enacted as follows:—

Postponement of operation of deposit and distraint provisions.

1. Notwithstanding anything contained in the said notification—

(a) the provisions of sections 61 to 64, both inclusive, and of Chapter XII, of the said Act, except such of those provisions as confer powers to make rules, shall come into force on such date, not later than the first day of February, 1886, as the Local Government, after the passing of this Act, may, by notification in the local official Gazette, appoint in this behalf, or, if no date is so appointed, on the first day of February, 1886, and not before;

(b) until those provisions come into force, the enactments specified in Schedule I annexed to the said Act shall, in so far as they relate to deposits of rent and distraint, continue in force, and all references to those provisions in other portions of the said Act shall, so far as may be, be read as if they were made to the corresponding provisions of the said enactments.

D. FITZPATRICK,
Secy. to the Govt. of India.

STATEMENT OF OBJECTS AND REASONS.

THE Lieutenant-Governor of Bengal has, for reasons which have been approved of by the Government of India and in exercise of the power conferred by the Bengal Tenancy Act, directed that that Act shall come into force on the 1st of November next. A reference to section 190 of the Act will show that an interval of at least a month must elapse between the date on which the Act comes into force and the date on which rules made under it can be brought into force. There is no reason to believe that any practical inconvenience will result from this, except possibly as regards the matters of deposits of rent by tenants and distraint; but it is apprehended that inconvenience might be felt in regard to these matters if the provisions of the Act relating to them were for any time in force without the rules by which it is intended that they should be supplemented, and the Lieutenant-Governor has suggested, as the simplest mode of obviating this, that the date on which the provisions of the Act relating to deposits and distraint are to come into force should be postponed for a month or two, and that the existing law relating to these subjects should meantime be retained in force.

The Governor-General in Council, being anxious to minimize the inconvenience incidental to the transition from the old law to the new, has approved of this proposal, and the present Bill has been prepared to give effect to it.

S. C. BAYLEY,

RESOLUTION ON THE REPORT OF THE PORT OFFICER, CALCUTTA, FOR 1884-85.

MUNICIPAL DEPARTMENT—MARINE.

Darjeeling, the 21st October 1885.

RESOLUTION.

READ—

The Annual Report of the Port Officer, Calcutta, for the year 1884-85.

The Report is submitted by Captain Stiffe, who was in charge of the office throughout the year.

2. The desirability of placing the offices of Port Officer and Shipping Master in one building having been frequently pressed on Government, a Committee has been appointed to consider and report on the best way of utilizing for the purpose the space made available in the Customs House by the reduction in Customs operations consequent on the passing of the new Tariff Act, and it is hoped that in this manner a long-felt want may be soon supplied.

3. The strength of the Pilot Service at the close of the year was 61 pilots of all grades, and 24 unqualified mates and leadsmen apprentices. Notwithstanding the small number of pilots, there has not been sufficient business to keep them all fully employed; and, as Captain Stiffe remarks, there can be no doubt that 60 pilots, as recommended by the Committee of 1881, could do the whole work of the Service. The number will be reduced to 60, in accordance with the Committee's scheme, in 1886.

4. Seven leadsmen apprentices passed examinations as first and second mates during the year; and the Lieutenant-Governor is glad to learn that, as a body, they maintain their character for diligence and obedience. The system

of recruiting from the training-ships in England continues to work satisfactorily; but in response to local representations that this system tended to exclude candidates from this country who, though perfectly qualified in every way, were unable to go through the course in training-ships, the Lieutenant-Governor has, with the sanction of the Government of India, issued regulations to provide for such cases. In 1886, one vacancy out of the three expected will be reserved for local candidates; and it is hoped that it will always, in future years, be found possible to appoint some proportion of the new apprentices in this country. The question of providing convenient accommodation for leadsmen apprentices, which has been frequently under the consideration of Government, has now been satisfactorily solved by the renting of two houses at Garden Reach, where most of the unmarried apprentices reside under the superintendence of Mr. Mignon, a retired commissioned officer of the Indian Navy. The young men contribute Rs. 10 each per mensem for the accommodation, and are also required to pay for their own mess. The Government gives a subsidy of Rs. 60 a month. A library is being formed for the use of the resident apprentices, and the open space around the buildings affords suitable recreation. The Lieutenant-Governor learns with satisfaction that these arrangements are working admirably. They are certainly an improvement upon the earlier system, under which the apprentices were scattered all over the town in small lodging-houses.

5. The following statement shows the number of vessels, including both steamers and sailing vessels, visiting the port during the year 1884-85, compared with the previous year:—

	Arrivals.	Departures.	Total.	Total tonnage.	Average tonnage per ship.
1883-84	1,085	1,073	2,158	3,937,195	1,824
1884-85	903	923	1,826	3,475,145	1,902

There was a very considerable decrease in the number of ships. Indeed, with the exception of the year 1879-80, the total is smaller than it has been for the last ten years; and this is no doubt mainly due to the general depression of trade. The average tonnage shows a marked increase, which is common to steamers and sailing vessels. Steamers have steadily increased in size since 1870-71, from an average of 1,300 tons to 2,350 tons. The average tonnage of sailing-vessels has increased in the same period from 1,000 to 1,800. This progressive increase leads to periodical readjustments of the scale of tonnage for pilots; and in January last it was found necessary to raise the scale for all grades below that of Branch Pilot. The present Report shows that, before this new scale came into force, the earnings of Master Pilots had been very greatly reduced, and it is hoped that the change will result in a more equitable distribution of earnings among the different grades.

The average monthly number of vessels piloted by the different grades was as follows:—

Branch Pilots	4·99
Senior Master Pilots	3·02
Junior „ „	1·92
Mate Pilots	3·41

Seventeen small vessels were piloted by first and second mate leadsmen in the absence of duly qualified pilots.

6. There were 51 cases of grounding and 17 collisions during the year, against 42 and 14 last year. Damage was caused to only one vessel of the 51 which grounded.

In three of the 17 collisions "no damage" was reported, and in three other cases the injuries were "slight." The percentage of all accidents (3·72) was higher than in any year since 1873-74 (4·05), but most of them were trivial, as is shown by the facts that departmental enquiries were held in only five cases, and that only one pilot received any substantial punishment for neglect of duty.

7. Besides the five departmental enquiries already mentioned, one Marine Court for the trial of Pilots was assembled; but the pilot was acquitted. Four Special Courts of Enquiry were also held to enquire into the following matters:—The stranding of the emigrant steamer *Laleham*; the collision between the *Star of Italy* and the *Coleroon*; the stranding of the British Indian Steam Navigation Company's steamer *Madras*, resulting in her total loss; and an outbreak of fire on board the light-ship *Mermaid*. The certificate of the Master of the *Madras* was suspended, but the proceedings of the Court were set aside by Government as irregular, and the Master's certificate was returned to him A departmental enquiry was also held to investigate a charge against a native engine-driver of tampering with the Government safety-valve. The man's certificate was suspended for three months.

8. The pilotage receipts for the year amounted to Rs. 7,39,750, a decrease of Rs. 94,757. Of late years an impression appears to have been gaining ground that the pilotage charges of the port are too high, and that a large surplus is every year credited to General Revenues. Owing to the form in which the accounts were previously kept, this question could not hitherto be cleared up; but during the year under report detailed accounts of all the heads of expenditure which could properly be charged to pilotage for the years 1882-83 and 1883-84 were prepared, with the result that the charges for these two years were shown to have exceeded the receipts by Rs. 10,497. As the charges for 1883-84 were Rs. 8,67,211, it appears probable that there will have been a much larger deficit in 1884-85. The final accounts for the year have not yet been made up.

9. The steamer *Undaunted* was employed during the year, as usual, in supplying the Sandheads with pilots, in carrying the Port Officer on his inspection trips, and in overhauling buoys, recovering and relaying moorings, and other work at the ports inspected. She also made one voyage to Saugor Sand in search of a French barque reported in a dangerous position. The pilot brigs, *Cassandra*, *Coleroon*, and *Sarsuti* are reported to be at present in good condition. It is probable, however, that both the *Undaunted* and the *Cassandra*, which are both over 20 years old, will have to be replaced within the next two or three years.

10. One hundred and fourteen candidates for certificates of competency as sea-going officers were examined during the year. Of these 67 passed. The corresponding figures for 1883-84 were 102 and 57 respectively. Of 21 candidates for certificates as commanders of inland vessels, 11 passed, and one (a steam-tug pilot) was granted a certificate without examination. Six vessels were registered under the Merchant Shipping Act of 1854, and the registry of 11 vessels was cancelled. Three vessels were registered under Act X of 1841. There was a large increase in the number of B certificates granted under the Native Passenger Ships' Act VIII of 1876, in consequence of the orders of Government requiring a new certificate for every voyage, however short.

11. Captain Stiffe administered the Department with his usual tact and ability, for which the acknowledgments of the Lieutenant-Governor are due.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF THE SALT DEPARTMENT FOR THE YEAR 1884-85.

FINANCIAL DEPARTMENT—SALT.

Darjeeling, the 21st October 1885.

RESOLUTION.

READ—

The Report of the Board of Revenue on the Administration of the Salt Department for 1884-85.

The following statement compares the financial results of the department in the past two years :—

HEADS.	1883-84.	1884-85.	Increase.	Decrease.
RECEIPTS.	Rs.	Rs.	Rs.	Rs.
Imperial—				
Import duty on salt	1,73,15,875	1,91,89,360	18,73,485	.....
Excise ditto	8,82,118	10,12,212	1,30,094	.....
Total ...	1,81,97,993	2,02,01 572	20,03,579	.....
Provincial—				
Rent of warehouses	60,160	85,245	25,085	.....
Miscellaneous	39,824	39,095	.....	729
Total ...	99,984	1,24,340	24,356	.....
Total Receipts ...	1,82,97,977	2,03.25,912	20,27,935	.....
CHARGES.				
Imperial—				
Salaries, establishments and contingencies ...	9,728	5,324	.....	4,404
Compensation paid under conventions with the French Government	20,000	20,000	.....	.....
Salt Preventive establishment in Orissa ...	15,117	13,109	.....	2,008
Refund of customs duty on salt...	1,87,068	2,11,905	24,837	.....
Total ...	2,31,913	2,50,338	18,425	.....
Provincial—				
Salaries, establishments and contingencies ...	18,320	21,048	2,728	.....
Refunds, other than customs and excise duty ...	.....	65	65	.....
Total ...	18,320	21,113	2,793	.....
Total Charges ...	2,50,233	2,71,451	21,218	.....
Approximate net revenue ...	1,80,47,744	2,00,54 461	20,06,717	.....

The total receipts for the year were Rs. 20,27,935 over those of the previous year. the increase appearing under both "Excise and imported salt" and "Rent of warehouses." The increase in duty is due to larger clearances during the year, while the increased receipts from rent of warehouses are attributed to the state of the market which allowed the salt to remain longer in bond. On the other hand there was a small falling off of Rs. 729 in the receipts from miscellaneous sources. The increase of Rs. 21,218 in the charges is mainly attributable to larger refunds of customs duty on salt.

2. The quantity of salt in stock at the commencement of the year was 20,00,056 maunds against 14,16,637 in 1883-84. During the year 1,00,50,107 maunds were imported or manufactured, duty was paid on 1,04,09,389 maunds, and 15,41,259 maunds were in stock at the close of the year. Of the stock in hand at the commencement of the year, 14,21,146 maunds were imported, and the remainder was excise salt. The proportion borne by the salt manufactured during the year (4,26,434 maunds), to that imported (96,23,673 maunds), was little over one-twentieth. Of the amount of salt which paid duty, 75,22,724 maunds paid from shipboard, 23,85,409 maunds from bond, and the remaining 5,01,256 maunds was excise salt passed out of bond. The amount in stock at the close of the year consisted of 11,10,199 maunds of seaborne salt, 3,75,835 maunds of excise manufactured salt in bond, and 55,225 maunds of excise manufactured salt in aurungs.

3. Importation was confined during the year to the ports of Calcutta, Cuttack and Chittagong, and there was a net increase of 1,61,075 maunds as compared with the figures of the previous year. Chittagong and Cuttack showed an increase, while Calcutta showed a decrease in the importations. The chief sources of supply were the United Kingdom, Bombay, the Arabian and Persian Gulfs and Italy, no importations having occurred from France and Port Elizabeth. About 10,000 maunds were imported from Saigon. The attempt by Messrs. Ralli Brothers to import Sardinian salt, noticed in the last Resolution, was abandoned during the year under review. The question of reducing the wastage allowance to 3 per cent. by introducing a more careful system of weighment at Liverpool again engaged the attention of Government during the year. It has ultimately been decided to allow the present rates of wastage allowance to remain unchanged, but orders were passed for occasional re-weighment of boat-loads of salt at the Sulkeah Golahs, and this check is said to have worked satisfactorily.

4. The clearances of salt from shipboard increased by 4,95,875 maunds or 7·2 per cent. in Calcutta, and 65,926 maunds or 50·2 per cent. in Chittagong, as compared with the previous year. On the whole, there was an increase of 5,61,801 maunds or 8 per cent. in the total quantity cleared at both ports, and of Rs. 13,78,441 or 10·3 per cent. in the duty realized. There was an additional clearance of 22,042 maunds from shipboard at Chittagong under bond for Naraingunge. The total quantity cleared from bond in all ports amounted to 21,19,010 maunds against 18,24,644 maunds in 1883-84, and realized a duty of Rs. 42,38,022 against Rs 36,49,290. Chittagong is gradually becoming established as the port from which all East Bengal draws its salt.

5. The increase which occurred in 1883-84 in the manufacture of excise salt was not maintained in the year under review, the quantity manufactured having diminished by 2,11,237 maunds. In the 24-Pergunnahs the only manufacturer has found the speculation unprofitable, and has altogether abandoned his business. The decrease in Cuttack is small (5,449 maunds) and calls for no special remarks. In Pooree and Balasore, however, the decreases have been large, amounting to 1,01,491 and 1,04,296 maunds respectively. The falling off in Pooree is attributed to unfavourable weather, and to the large stock left undisposed of at the commencement of the year. In Balasore the business is rapidly falling. The Collector writes—

"The manufacture of Balasore *Pungah* is doomed, if not already dead, as a legitimate business. Knowing how costly is the production of this salt, and how much its legitimate sale has diminished, I cannot believe that it is worked at a *legitimate* profit even now. Knowing also that illicit manufacture and smuggling are exceedingly easy, and *almost absolutely safe*, I fear that there is strong ground for believing that the trade is kept up only because it is made very profitable illegitimately."

Both the Collector and the Commissioner complain of the system under which *Pungah* salt is at present manufactured in the Balasore district, but as the Salt Department in Orissa will shortly be placed under the immediate charge of the Commissioner of Salt Revenue, Madras, which will involve a complete reorganization of establishment, it is unnecessary to discuss the point any further.

6. The increase in the sales of excise salt in Pooree, as compared with the previous year, more than counterbalanced the decrease which occurred in the 24-Pergunnahs, Pooree and Balasore. The net result for all districts was an increase in sales from 4,39,256 to 5,01,255 maunds, and in duty from Rs 8,78,514 to Rs 10,02,512. In the 24-Pergunnahs, where the decrease amounted to 1,533 maunds, the local trade is dying out in consequence of the low price at which foreign salt is obtainable, and the gradual removal of the prejudices against its use. The decrease of 17,384 maunds in Cuttack is attributed to the preference shown by the people for *Kurkutch* salt, which was imported in much larger quantities from Pooree than in the preceding year. In Balasore, where the decrease amounted to 20,540 maunds, the local *Pungah* is being rapidly displaced by the cheap and excellent Liverpool salt, and the salt made at Cuttack and Pooree. The increase in the

sales in Pooree, amounting to 1,01,457 maunds, is attributed to the fact of the manufacturers endeavouring to dispose of their large stocks by selling at reduced rates throughout the year in order to prevent the importation of foreign salt.

7. The sales of salt in the portions of the saliferous districts of Bengal and Orissa rose from 10,21,385 maunds in 1883-84 to 10,49,885 maunds during the year under review. The increase occurred in all the districts except Midnapore, where there was a slight falling off of 253 maunds. This decrease is attributed chiefly to partial failure of crops and illicit manufacture. The increase of population, the general prosperity of the people, the influx of labourers from outlying districts, and the repression of illicit manufacture, are set forth as the principal causes which led to the increases in the other districts.

8. The number of seizures in all districts during the year was 384, and the quantity of salt attached was 261 maunds, against 459 seizures and 697 maunds in 1883-84. In 17 cases with 55 maunds, against 22 cases with 546 maunds in 1883-84, the salt was released. Thus the ratio of the quantity released to the quantity attached was 21 per cent. against 79 per cent. in 1883-84, a result which, in the opinion of the Lieutenant-Governor, is satisfactory as tending to show that the people were subjected to very little harassment by the police. The number of seizures and of unsuccessful searches was 427 and 54 against 624 and 102. The proportion between the seizures and unsuccessful searches is satisfactory in all districts except the 24-Pergunnahs, where in 102 seizures, no less than 41 unsuccessful searches were made. The action of the authorities in these cases must have caused considerable inconvenience and loss to the owners, and the Lieutenant-Governor will ask the Commissioner to take means for checking all tendency to injudicious activity. The action of the police in the Tumlook sub-division in not keeping records of unsuccessful searches was highly reprehensible and requires further explanation. The Lieutenant-Governor requests that the Board will call for further particulars on this point.

9. Prosecutions for offences against the salt laws were less numerous than in the previous year. The cases instituted during the year were 959 against 1,304 in 1883-84, and the total number brought to trial (inclusive of the cases pending from the preceding year) was 981 against 1,326, resulting in 930 convictions against 1,128. The districts which show an increase in the number of cases instituted are the 24 Pergunnahs, Khulna and Cuttack. In the 24-Pergunnahs the increase is attributed to illicit manufacture in parts of the Sunderbuns, while in Khulna it is due to the action of the police. It is explained that the time-expired rowanahs in the latter district, which had hitherto been passed from the thanas without examination to the Collector's office, underwent rigorous examination by the thana constables and the salt clerk at the Police office during the year under review, and that, in cases where the period was found to have been exceeded, prosecutions were instituted by the police. Some such action was, no doubt, necessary; but the Lieutenant-Governor entirely agrees with the Board that the work must not be left to subordinate agency without proper supervision. The irritation caused by the multiplication of petty charges against licensees entirely counterbalances the advantages gained by a strict application of the law, and the Lieutenant-Governor is glad to learn that the Collector has been directed to put a stop to the practice. In Cuttack the increase was small and calls for no special remarks. The decreases in other districts seem to afford an indication of increased attention on the part of local officers to the orders of Government in regard to petty cases of breach of license.

10. The amounts realized as fines and disbursed as rewards were Rs. 4,704 and Rs. 3,065, against Rs. 4,985 and Rs. 3,352 in the previous year. Excluding prosecutions for neglect to give up rowanahs, which are generally instituted at the instance of the Board of Revenue or of Collectors, in which the fines amounted to Rs. 651, the percentage of rewards to fines was 76·4 against 66·1. It is reported that the orders of Government regarding the prompt payment of rewards were acted up to in every district concerned.

11. The following table shows the despatches of salt into the interior by the different water routes and railways in the last two years:—

YEAR.	*Vid* Bali khal.	*Vid* Sankrail.	*Vid* Gewakhally.	*Vid* Kidderpore.	*Vid* Balliaghatta.	By the East Indian Railway.	By the Eastern Bengal and Calcutta and South-Eastern Railways, or *viâ* Chitpore.	*Vid* Ruthtollah Ghat.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
1883-84	13,84,238	6,26,398	2,72,664	3,02,677	15,02,072	31,67,723	9,86,563	44,884
1884-85	12,10,900	6,50,369	3,15,791	3,66,254	16,66,548	36,78,048	4,19,456	6,34,994
Increase	.....	23,971	42,627	.....	74,516	5,10,325	.....	5,90,110
Decrease	1,73,338	.....	.....	36,423	.....	.....	5,67,107	.....

The figures show a net decrease of 58,747 maunds in the quantity conveyed by water, and a net increase of 5,3[illegible],328 maunds in the despatches by rail.

12. In the Resolution recorded on the report for 1883-84, it was remarked that the question of placing the manufacture and sale of excise salt in Orissa under the supervision of the Commissioner of Salt Revenue, Madras, would be considered in connection with the special report on the subject that had recently been submitted by the Board. The report has since received the consideration of both the Lieutenant-Governor and the Government of India, and it has been finally settled to place the Salt Department in Orissa under the supervision of the Salt Commissioner in Madras, subject to the control of the Government of Bengal. It remains only to arrange the details for carrying the scheme into effect.

13. The depression of trade and low freights which held out less inducement to clear the salt out of ships for the return cargo, led to a decrease of nearly 5,35,000 maunds in the quantity of salt bonded during the year, the total quantity bonded being 16,61,055 maunds against 21,96,303 in the previous year. The quantity remaining in store at the end of the year was only 9,38,858 against 12,68,875 maunds at the commencement.

14. The Lieutenant-Governor's thanks are again due to the Board of Revenue for their careful administration of the department during the year. The names of the officers favourably noticed by them will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE STAMP DEPARTMENT FOR THE YEAR 1884-85.

FINANCIAL DEPARTMENT—STAMPS.

Darjeeling, the 21st October 1885.

RESOLUTION.

READ—

The Report on the Administration of the Stamp Department for the year 1884-85.

Read also—

The Report for the year 1883-84, and the Resolution recorded upon it.

The Acts under which the stamp revenue of the year was collected were, as in previous years, the Indian Stamp Act I of 1879, and the Court-fees Act VII of 1870. No change was introduced either in the description of stamps or in the system under which they are supplied to the public.

2. The question of the form and size of the stamped paper to be used for the realization of copying-fees in the civil and criminal courts engaged the attention of Government during the year. It has been pointed out that there will be a considerable saving in cost if impressed non-judicial stamps of the value of four annas are substituted for the two-anna paper now used for copies. The four-anna sheets will be of a larger size and contain twice the number of words to be copied, thus reducing the number of sheets to one-half. The proposal being in accordance with the original scheme of the High Court, and having met with the approval of the Board, has been sanctioned by Government, and the new stamps will, it is expected, come into issue from the 1st January next. Another proposal which originally emanated from the agents of certain Insurance offices in Calcutta has for its objects the amendment of the Indian Stamp Act I of 1879, so as to impose a uniform duty on all insurances and re-insurances other than life and marine insurances. The views of the Government of Bengal have been laid before the Government of India, and the whole subject is now under the consideration of the Supreme Government.

3. In the Resolution recorded on the previous year's report, it was remarked that duplicate receipts could not, as desired by the Calcutta Trades' Association, be exempted from stamp duty without involving an amount of risk which was not justified by the necessity of the matter. It was, however, felt that to require two or more stamped receipts in respect of the same transaction, where the duplicates were required merely for purposes of record, would be inequitable; and it was ruled that in Government transactions, instead of duplicate receipts, copies should be taken of the original receipt certified by the payer.

A question of some importance to land-owners in Northern Behar was decided during the year. Two of the documents know as "sharahnamahs" were submitted for the consideration of the Board of Revenue—one by the Commissioner of Patna, and the other by the Inspector-General of Registration. The contents of the document were in each case a declaration that certain rates of rent were the correct rates for lands of various descriptions given in a particular village, but this declaration was not accompanied by any agreement to pay rent at these rates. The Board held that such documents were not liable to stamp duty, and the High Court, to whom the question was referred for an authoritative decision, have agreed in this view.

Another important question in regard to stamp duty was decided by the High Court. In 1882 the High Court of Madras had ruled that a transfer of leasehold land came within the meaning of "transfer" under article 60(*b*), schedule I of the Stamp Act, but the order was silent as to whether or not any extra *ad valorem* duty under article 21 of the schedule should be levied in respect of the value of other properties conveyed along with a transfer of the lease. An analogous case occurred in Bengal in 1883, and the Advocate-General gave his opinion that the instruments were chargeable with duty under article 60 *b*). A firm in Calcutta, on the strength of these rulings, had obtained the Collector's certificate that the stamp duty under article 60(*b*) on a number of conveyances of tea estates was correct. As it was intended by these instruments to convey also all debts and moveable properties in or upon the lands, besides the mere transfer of the lease,

it was thought that *ad valorem* duty should be charged on the value of such moveables, and the question having been referred to the High Court, it was ruled that, as regards the transfer of the land, the deed should bear the stamp prescribed in clause 2 of article 60 of schedule I of the Stamp Act, but with regard to the other property, full *ad valorem* duty under article 21, schedule I should be charged. After this decision, the firm introduced an alteration in the wording of these transfers, setting forth that the moveable properties had been delivered over beforehand, and that the sole intent of the deed was the transfer of the interest secured by the leases. Documents drawn up in this form increased in number, and the Collector thought that the circumstances required him to decline to certify any deed of the kind unless the full *ad valorem* duty, as for a conveyance, was paid. The matter being referred to by the High Court, they have held that the deed should be regarded, not as a transfer of a lease under clause (*b*) of article 60, but as a conveyance under article 21 of schedule I of the Act

5. The financial results of the administration of the Stamp Department during the year are shown in the following table:—

Years.	Stamps under Act I of 1879.			Court-fees under Act VII of 1870.			Total.		
	Receipts.	Refunds and other charges.	Net revenue.	Receipts.	Refunds and other charges.	Net revenue.	Receipts.	Charges	Net revenue
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1880-81	32,38,172	1,93,053	30,45,119	81,53,465	3,27,144	78,26,321	1,13,91,637	5,20,197	1,08,71,440
1881-82	33,22,209	1,92,279	31,29,930	87,01,718	3,46,823	83,54,890	1,20,23,922	5,31,102	1,14,84,820
1882-83	33,58,795	1,88,308	31,70,487	88,54,749	3,49,251	85,05,498	1,22,13,534	5,37,559	1,16,75,975
1883-84	33,83,098	2,04,385	31,78,713	91,93,816	3,86,607	88,07,209	1,25,76,914	5,90,992	1,19,85,922
1884-85	34,57,900	2,13,689	32,44,301	95,33,201	4,32,388	91,00,813	1,29,91,191	6,46,077	1,23,45,114

The gross revenue collected under the two Acts, I of 1879 and VII of 1870, was Rs. 1,29,91,191 against Rs. 1,25,76,914 in the previous year, giving an increase of Rs. 4,14,277. Both classes of stamps, judicial and non-judicial, contributed to this increase, the receipts exceeding those of any previous year. As in previous years, the receipts were highest in Calcutta (Rs. 19.24,737) and lowest in Singbhoom (Rs. 6,427). The total charges under both the Acts amounted to Rs. 6,46,077, and the total net revenue to Rs. 1,23,45,114. The general incidence of stamp revenue on the population of Bengal, estimated at 66 millions, is 3 annas 1 pie per head.

6. The following table shows the receipts from sales of the different descriptions of stamps during the last two years:—

Years.	Sales of non-judicial stamps or stamps used under the Indian Stamp Act.										Sales of judicial stamps or stamps used under the Court-fees Act.			
	Impressed sheets including certificate stamps, customs and salt bond forms, and Public Works Department contract and tender forms.	Impressed labels.	Receipt or revenue stamps.	Share transfer stamps.	Foreign bill stamps.	Hundi or bills of exchange stamps.	Notarial stamps.	Advocate, vakeel, and attorney stamps.	Impressed one-anna stamps for cheques, bills, &c.	Total of non-judicial stamps.	Adhesive and impressed court-fee stamps.	Stamps for copies.	Total of court-fee stamps.	Total of both kinds of stamps.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1883-84	22,92,817	6,25,018	1,86,616	46,730	36,817	94,070	3,043	9,200	43,521	38,31,842	86,52,384	3,79,007	90,31,591	1,23,63,433
1884-85	24,48,233	5,59,917	1,86,946	23,408	34,599	79,569	4,371	10,025	40,797	34,11,956	89,53,519	4,11,427	93,64,946	1,27,76,902
Increase	1,50,406	.....	5,430	.....	. .	.....	1,328	825	....	80,114	3,00,935	32,420	3,33,355	4,13,469
Decrease	..	35,101	.. ..	23,322	2,227	14,501	..	.....	2,724	.....	.....	.....	.. ...	.....
Increase per cent. ...	6·5	.....	3	....	.....	.....	43·6	8·9	.....	2·4	3·4	8·5	3·6	3·3
Decrease per cent. ..	.....	5·6	..	49·9	6	15·4	.....	.....	6·2	...	.....	.....	.....	.....

The sales of stamps during the year exceeded those of 1883-84 by Rs. 4,13,469, the increase being shared by all classes of stamps, with the exception of impressed labels, share transfer, foreign bill, hundi, and one-anna impressed stamps. The increase was, however, very unequally distributed, no less than Rs. 3,33,355 being derived from sales of court-fee stamps, while non-judicial stamps show an increase of only Rs. 80,114. The districts which show the most marked improvement are Calcutta (Rs. 57,627), Mymensingh (Rs. 55,492), Mozufferpore (Rs. 39,566), and Sarun (Rs. 30,199), while the largest falling off was in Moorshedabad (Rs. 12,769), Backergunge (Rs. 11,873), and Hazaribagh (Rs. 10,370).

7. Among non-judicial stamps, impressed sheets yielded during the year more than two-thirds of the total revenue realized under the Indian Stamp Act. The collections amounted to Rs. 24,43,233 against Rs. 22,92,827 in the previous year, giving an increase of Rs. 1,50,406, or 6·5 per cent. This increase cannot be ascribed to any single predominating cause, although it may, the Board think, be due in some measure to a growing tendency to substitute written agreements for verbal contracts. There was an increase in 32 districts, and a decrease in 13. The increase was most considerable in Mymensingh (Rs. 14,156), Durbhunga (Rs. 11,506), Tipperah (Rs. 11,149) Patna (Rs. 9,417), Backergunge (Rs. 8,878), Furreedpore (Rs. 8,389), Sarun (Rs, 8,099), Mozufferpore (Rs. 7,385), and Calcutta (Rs. 7,144). The improvement in Mymensingh is attributed to the execution of a large number of kabuliyats by ryots, while in Tipperah the receipts were enhanced by increased sales of occupancy rights, the execution of a large number of pottahs and kabuliyats, and the increase in the number of vakeels and pleaders. The increase in Patna and Furreedpore may be ascribed to greater activity in business transactions, and in Backergunge to the issue of a large number of gun licenses. The increase in Durbhunga, which is proportionally larger than in any other district, is not satisfactorily explained. The Commissioner infers that the high prices of food-grains led to larger sales and mortgages of immoveable property; but it would have been more satisfactory to ascertain definitely whether the increase was most marked in these classes of documents Explanations are also wanting of the increases in Sarun and Mozufferpore. Probably the Commissioner is right in his inference, and the increases in all these districts are referable to the same cause—the financial difficulties of both land-owners and their tenants during the year under report. A decrease in the sale of impressed *labels* led to an increase in the sale of impressed *sheets* in Calcutta, both kinds of stamps being used for the same purpose. In four districts only did the decrease in the sale of impressed sheets exceed Rs. 1,000. These were Bhagulpore with a fall of Rs. 4,635, Sonthal Pergunnahs with Rs. 3,238, Rungpore with Rs. 1,599, and Bogra with Rs. 1,017. The decrease in Bhagulpore is attributed to the unusually large loan transactions of the Banaily Estate in 1883-84. A rather obscure explanation is given of the decrease in the Sonthal Pergunnahs, viz., that it is due to a large decrease in the number of documents presented for registration: this would appear *primâ facie* to be an effect rather than a cause, and some further explanation is necessary. The explanation of the decrease in Rungpore is to be found in the fact that the increase in 1883-84 was due to a great extent to the purchase of several stamps of high values for putni leases and sale certificates, while there were no such transactions during the year under review. The decrease in Bogra is said to be due to the failure of crops in consequence of which loan transactions for small sums were effected on the security of ornaments, instead of being recorded in formal bonds. The fluctuations in the other districts are inconsiderable, and need not be noticed.

8. The receipts from impressed labels, which are available only in Calcutta, fell from Rs. 6,25,018 in 1883-84 to Rs. 5,89,917 during the year under review. The causes of decrease assigned by the Collector of Calcutta are—(1) increase in the sale of impressed sheets, both kinds of stamps being, as already remarked, used for the same purpose; and (2) decrease in the number of transactions during the late commercial depression.

9. The sale of one-anna revenue stamps, commonly known as receipt stamps, realized Rs. 1,86,046 against Rs. 1,80,616 in the previous year, giving

an increase of Rs. 5,430 or 3 per cent. Eight districts only show a falling off in receipts, viz. Burdwan, Julpigoree, Jessore, Calcutta, Rajshahye, Bogra, Darjeeling, and Lohardugga. By far the greater part of the decrease occurred in Calcutta, where it amounted to Rs. 6,458. This falling off, however, is for the most part nominal, the place of the adhesive receipt stamps being taken by the impressed one-anna duty denoted on printed skeleton forms of cheques and other documents. In the remaining seven districts the decrease did not exceed Rs. 500. The almost universal increase under this head is attributed to the facilities afforded to the public for the purchase of these stamps through the agency of the post office, and to the better observance of the law in consequence of the increased vigilance exercised by local officers. The Lieutenant-Governor is glad to find that the repeated injunctions of Government have resulted during the past year in real efforts on the part of local officers to enforce this branch of the law; but he cannot doubt that it is still largely evaded in some districts. The Commissioner of Chittagong reports that this is the case in Chittagong, and that "there is really a good deal of sympathy with the persons who break this particular part of the law, and that giving information is looked on as 'bad form.'" The Deputy Commissioner of Singhboom remarks that "the native trading community look upon the stamp duty imposed by law, slight as it is, in the light of a species of taxation to be evaded on principle." There is reason to believe that, in the absence of strict supervision, the law can be evaded with comparative ease and impunity, and the Lieutenant-Governor trusts that the Board will not relax their efforts to maintain a vigilant control over this branch of the revenue.

An important ruling has been given by the High Court on the question of stamp duty under this head. A cloth merchant of Calcutta presented before the Collector a Bengali account book, in which there were various entries of payment made in respect of goods purchased by him from several wholesale merchants. In making these payments, the cloth merchant obtained against the entries the signature of the respective parties in acknowledgment of money paid to them. The Collector held that these entries constituted each a separate receipt, and he impounded the book. A test case was instituted in the Court of the Presidency Magistrate, and was referred by him for the decision of the High Court, which held that each entry was a receipt within the meaning of clause 17, section 3 of the Stamp Act, and was therefore liable to stamp duty.

10. In the other classes of non-judicial stamps which are of relatively minor importance, there were decreases of Rs. 2,227 under foreign bill stamps, Rs. 23,322 under share transfer stamps, Rs. 14,501 under hundi stamps and Rs. 2,724 under one-anna impressed stamps. On the other hand, there were increases of Rs. 825 under advocate, vakeel, and attorney stamps, and Rs. 1,328 under stamps for Notarial Acts. The decrease under "foreign bill" and "one-anna" impressed stamps is ascribed to the dulness of trade during the year, while the explanation of the falling off under share transfer stamps is to be found in the fact that the year was very unfavourable for joint stock companies generally. The decrease under hundi stamps is attributed to the extended operation of the postal money-order system, which must gradually diminish the sale of this class of stamps. The increase under advocate, vakeel, and attorney stamps was owing to a larger number of enrolments during the year, and under stamps for Notarial Acts to causes more or less of a local character. While writing of the fluctuations in revenue from stamps for Notarial Acts, the Board remark on the general ignorance which at present prevails of what is and what is not a Notarial Act, and ask for an authoritative ruling on the subject. The Lieutenant-Governor would prefer to deal with this question separately from the annual report, and will await specific proposals from the Board.

11. The following statement shows the results of the sales of the four kinds of judicial stamps during the last two years:—

Description of Stamps.	Sales in		Increase.	Decrease.
	1883-84.	1884-85.		
	Rs.	Rs.	Rs.	Rs.
Court-fees stamps	83,45,883	86,34,408	2,88,525	.....
High Court service stamps	8,000	6,000	.....	2,000
Calcutta Small Cause Court stamps ...	2,98,701	3,13,111	14,410	.....
Total ...	86,52,584	89,53,519	3,02,935	2,000
Stamps for copies	3,79,007	4,11,427	32,420	.....
Total of all kinds ...	90,31,591	93,64,946	3,35,355	2,000

The gross receipts increased from Rs. 90,31,591 to Rs. 93,64,946 during the year, yielding a net increase of Rs. 3,33,355 or 3·6 per cent. There was an increase in 29 districts ranging from 18·5 to ·3 per cent., and a decrease in 16 districts ranging from 14·6 to 1·7 per cent. By far the greatest increase occurred in Calcutta; next in order come Mymensingh, Mozufferpore, Bhagulpore, Dacca, Rajshahye, Hooghly, Shahabad, Sarun, Monghyr, Furreedpore and Midnapore. The falling off was heaviest in Backergunge and considerable in Moorshedabad, Noakholly and Hazaribagh. The large increase in Calcutta (Rs. 1,21,601) is due to the increase in the payments of stamp duty on probates; the fall in Backergunge is unexplained. The fluctuations in the other districts were due to local and accidental causes which are of no general interest.

12. The number of cases in which deficient stamp duty and penalty were levied by civil and revenue courts during each of the past five years, and the amount realized in these cases, are exhibited in the following table:—

Years.	Number of cases.		Amount of duty and penalty realized.		Total.	
	Civil courts.	Revenue officers.	By civil courts.	By revenue officers.	Cases.	Amount.
			Rs.	Rs.		Rs.
1880-81	1,042	1,898	10,945	19,841	2,660	30,786
1881-82	1,282	2,216	10,711	38,830	3,497	49,541
1882-83	1,776	2,304	13,465	26,917	4,080	40,382
1883-84	1,886	2,047	12,426	23,061	3,733	35,488
1884-85	1,509	2,193	13,825	22,866	3,694	36,691
Increase in 1884-85 as compared with 1883-84	.....	146	1,399	.....	.....	1,203
Decrease in 1884-85 as compared with 1880-81	186	.....	.....	196	40	.....

It is satisfactory to find that the observations made on this subject in the Resolution recorded last year have induced greater attention by revenue officers to the duty of enforcing compliance with the stamp laws. All the divisions, however, except Patna, show a falling off in the number of cases detected by the civil courts. There was a decrease of 11·03 per cent. in the total number of cases, while on the total amount of duty and penalty realized there was an increase of 11·2 per cent. These results are not altogether satisfactory. Regarding the number of cases dealt with by the revenue officers, the largest falling off occurred in the Presidency, Chittagong, and Bhagulpore Divisions. Several of the districts which showed poor results last year show considerable improvement, especially Bankoora, Midnapore, Hooghly, Nuddea, Furreedpore, and Chumparun; but still in many districts the number of detected

cases bears but a small proportion to those which, but for the negligence of the local officers, could be brought to light.

13. The number of prosecutions for infringement of the provisions of the Indian Stamp Act was 595 against 527 in the previous year; 704 persons were brought to trial, of whom 492 were convicted and no less than 153 acquitted. This result is unsatisfactory, whether viewed in the light of unnecessary or careless prosecutions. The amount realized as fines was Rs. 5,366, while Rs. 184 were disbursed as rewards to informers. There is reason to believe that a tendency prevails among some Magistrates to inflict fines which are smaller in amount than the penalty provided under the Stamp Act. The imposition of mere nominal fines is a direct encouragement to the public to infringe the provisions of the law; and the Lieutenant-Governor desires again to impress on district officers the necessity of keeping a strict watch over the action of subordinate Magistrates in this matter. Taking together the cases in which stamp duty and penalty were realized by Collectors, and those in which prosecutions were instituted, the Board observe that a marked improvement occurred in the districts noted in the margin, while the most unfavourable results were obtained in the 24-Pergunnahs, Moorshedabad, Khulna, Chittagong, Maldah, Pooree, and Lohardugga.

Burdwan.	Noakholly.
Bankoora.	Gya.
Midnapore.	Shahabad.
Hooghly.	Mozufferpore.
Calcutta	Durbhunga.
Nuddea.	Sarun.
Dinagepore.	Chumparun.
Rajshahye.	Monghyr.
Rungpore.	Bhagulpore
Pubna.	Purneah.
Dacca.	Cuttack.
Furreedpore.	Balasore.
Backergunge.	Hazaribagh.
Mymensingh.	Manbhoom.

14. The Lieutenant-Governor desires to thank the Board for their careful administration of the Stamp Department during the year. The names of the officers who have been mentioned as specially deserving of credit will be noted in the Appointment Department.

ORDER.—Ordered that a copy of the Resolution, with a copy of the Report, be submitted to the Government of India in the Department of Finance and Commerce for information.

Ordered also that a copy of the Resolution be forwarded to the Board of Revenue.

Ordered, further, that extract paragraph 14 of the Resolution, and paragraphs 99 to 102 of the Report, be forwarded to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secy. to the Govt. of Bengal.

REGULATIONS FOR MATRICULATION.

The 27th October 1885.—The following communication and regulations for the Matriculation Examination of the University of London are published for general information.

A. P. McDONNELL,
Secretary to the Govt. of Bengal.

No. 89 Public (Educational), dated India Office, London, the 10th September 1885.

From—Her Majesty's Secretary of State for India,
To—His Excellency the Right Hon'ble the Governor-General of India in Council.

I FORWARD copy of a letter received from the Clerk to the Senate of the University of London, and its accompanying packet of the Matriculation Regulations of the University for the information and guidance of intending candidates for matriculation.

University of London, Burlington Gardens, W., dated 25th August 1885.

From—T. C. MERCHANT DOUSE, Esq., Clerk to the Senate,
To—J. A. GODLEY, Esq., C.B., &c., &c., &c.

IN the absence of the Registrar, I have the honour to forward herewith three packets of the Matriculation Regulations of this University for transmission to the three presidential capitals of India, in order that intending candidates for matriculation may be easily able to obtain copies of the necessary instructions.

EXAMINATIONS IN 1885-86.

THE following are the dates at which the several examinations in the University of London for the year 1885-86 will COMMENCE :—

MATRICULATION.—Monday, June 15, 1885; and Monday, January 11, 1886.
BACHELOR OF ARTS.—Intermediate, Monday, July 20; B.A., Monday, October 26.
MASTER OF ARTS.—Branch I., Monday, June 1; Branch II., Monday, June 8; Branch III., Monday, June 15.
DOCTOR OF LITERATURE.—Intermediate, Monday, June 1; D.Lit., Tuesday, December 1.
SCRIPTURAL EXAMINATIONS.—Tuesday, December 1.
BACHELOR OF SCIENCE.—Intermediate, Monday, July 20; B.Sc., Monday, October 19.
DOCTOR OF SCIENCE.—Within the first twenty-one days of June.
BACHELOR OF LAWS.—Intermediate and LL.B., Monday, January 4, 1886.
DOCTOR OF LAWS.—Tuesday, January 19, 1886.
BACHELOR OF MEDICINE.—Preliminary Scientific, Monday, July 20; Intermediate, Monday, July 27; M.B., Monday, October 26.
BACHELOR OF SURGERY.—Tuesday, December 8.
MASTER IN SURGERY.—Monday, December 7.
DOCTOR OF MEDICINE.—Monday, December 7.
SUBJECTS RELATING TO PUBLIC HEALTH.—Monday, December 14.
BACHELOR OF MUSIC.—Intermediate, Monday, December 14; B.Mus., Monday, December 21.
DOCTOR OF MUSIC.—Intermediate, Monday, December 14; D.Mus, Monday, December 21.
ART, &c., OF TEACHING.—Tuesday, March 2, 1886.

REGULATIONS.

MATRICULATION.

[Candidates for any Degree in this University must have passed the MATRICULATION EXAMINATION. No exemption from this rule is allowed on account of Degrees obtained or Examinations passed at any other University.

[This Examination is accepted (*a*) by the College of Surgeons, (*b*) by the Incorporated Law Society, in lieu of their Preliminary Examinations. It also exempts candidates for admission to the Royal Military College from the Preliminary Test, except in Geometrical Drawing. And it is among those Examinations of which some one must be passed (1) by every Medical Student on commencing his professional studies; and (2) by every person entering upon Articles of Clerkship to a Solicitor,—any such person who may have Matriculated in the Honours or in the First Division being entitled to exemption from one year's service.

[This and all other Examinations of the University, together with the Prizes, Exhibitions, Scholarships, and Medals depending upon them, are open to Women upon exactly the same conditions as to Men.]

THERE shall be two Examinations for MATRICULATION in each year; one commencing on the Second Monday in January, and the other on the Third Monday in June.[1]

No Candidate shall be admitted to the MATRICULATION EXAMINATION unless he have produced a Certificate showing that he has completed his Sixteenth year.[2] This Certificate shall be transmitted to the Registrar at least *one calendar month* before the commencement of the Examination.

A Fee of Two Pounds shall be paid at Matriculation. No candidate shall be admitted to the Examination unless he have previously paid this Fee to the Registrar.[3] If, after payment of his Fee, a Candidate withdraws his name, or fails to present himself at the Examination, or fails to pass it, the Fee shall not be returned to him, but he shall be allowed to enter for any subsequent MATRICULATION EXAMINATION upon payment at every such entry of an additional Fee of One pound, provided that he give notice to the Registrar at least *one calendar month* before the commencement of the Examination.

The Examination shall be conducted by means of Printed Papers; but the Examiners shall not be precluded from putting, for the purpose of ascertaining the competence of the Candidates to pass, *viva voce* questions to any Candidate in the subjects in which they are appointed to examine.

Candidates shall not be approved by the Examiners unless they have shown a competent knowledge in each of the following subjects, according to the details specified under the several heads:—

1. Latin;
2. Any two[4] of the following Languages:—(*a*) Greek, (*b*) French, (*c*) German, and (*d*) either Sanskrit or Arabic[5];
3. The English Language, English History, and Modern Geography;
4. Mathematics;
5. Natural Philosophy;
6. Chemistry.

The following are the particulars of the foregoing subjects of Examination:—

LANGUAGES.

LATIN.

One Latin subject to be selected by the Senate one year and a half previously from the works of the undermentioned authors:[6]

Virgil ... One Book of the Georgics, and one Book of the Æneid.
Horace... Two Books of the Odes.
Sallust... The Conspiracy of Catiline, or the War with Jugurtha.
Cæsar ... One of the longer or Two of the shorter Books of the Gallic War.
Livy ... One Book.
Cicero ... De Senectute or De Amicitia, with One of the following Orations:—Pro Lege Manilia, one of the four Catilinarian Orations, Pro Archia, Pro M. Marcello.
Ovid...One Book of the Metamorphoses and One Book of the Epistles or Heroides, or Tristia; or Two Books of the Tristia.

The paper in Latin shall contain passages to be translated into English, with questions arising out of the book selected. Short and easy passages shall also be set for translation from other books not so selected. A separate Paper shall be set containing questions in Latin Grammar, with simple and easy sentences of English to be translated into Latin.[7]

GREEK.[8]

One Greek subject, to be selected by the Senate one year and a half previously from the works of the undermentioned authors:[9]

Homer...One Book.

---

[1] These Examinations may be held not only at the University of London, but also, under special arrangement (*see* Appendix I.), in other parts of the United Kingdom, or in the Colonies.

[2] A Certificate from the Registrar-General in London or from the Superintendent Registrar of the District, or a certified copy of the Baptismal Register, is required *in every case in which it can possibly be obtained*. In other cases a Declaration of the Candidate's age, and that he is unable to procure his Certificate of Birth or Baptism, made before a Magistrate by his parent or guardian, or by himself if of full age, will be accepted.—Every such document will be returned to the Candidate on or before Registration (*see* Note 1 on page 54.)

[3] Fees must be paid when Candidates inscribe their names on the Register of the University, and should not be sent in advance. Information respecting the time and place of Registration will be sent to Candidates with the acknowledgment of their Certificates of Age or their Notices.

[4] No credit will be given for more than two of these Languages.

[5] Candidates desiring to be examined in either Sanskrit or Arabic must give at least *Two Calendar Months'* notice to the Registrar, and must mention the other optional Language which they select.

[6] The LATIN subjects for 1886 and 1887 will be—
For January 1886:—*Ovid*, Metamorphoses, Book I, and Tristia, Book I.
For June 1886:—*Livy*, Book XXII.
For January 1887:—*Cicero*, De Senectute and Pro Lege Manilia.
For June 1887:—*Virgil*, Georgics, Book II, and Æneid, Book XII.

[7] Special stress is laid on accuracy in the answers to the Grammar questions, and on the correct rendering of English into Latin.

[8] Candidates may substitute German for Greek.

[9] The GREEK subjects for 1886 and 1887 will be—
For January 1886:—*Xenophon*, Anabasis, Book III.
For June 1886:—*Euripides*, Hercules furens.
For January 1887:—*Homer*, Iliad, Book XVI.
For June 1887:—*Xenophon*, Anabasis, Book II.

Xenophon ... One Book.
Euripides ... Hecuba; Andromachi; Hercules Furens. (One Play.)

The Paper in Greek shall contain passages to be translated into English, with questions arising out of the book selected, and with general questions in Grammar.[1] Short and easy passages shall also be set for translation from other books not so selected.

FRENCH.

The Paper in French shall contain passages for translation into English and questions in Grammar, limited to the Accidence.

GERMAN.

The Paper in German shall contain passages for translation into English, and questions in Grammar, limited (except when German is taken as an alternative for Greek[2]) to the Accidence.

SANSKRIT.[3]

Sanskrit subjects, to be selected by the Senate one year and a half previously from the under-mentioned works:[4]

Hitopadesa, Books II to IV.
Panchatantra, Books II to V.
Sahityaparichaya, Parts I and II, pp. 1-93.
Ramayana, Book I.
Mahabharata (Story of Nala, Story of Savitri, Bakavadhaparvan, Sakuntalopakhyana)
Manu, Books II to VII.

The Paper in Sanskrit shall contain passages to be translated into English, with questions in Grammar. A passage or short passages shall also be set for translation from other books not so selected.

ARABIC.[3]

The Paper in Arabic shall contain passages for translation into English, and questions in Grammar.

THE ENGLISH LANGUAGE, ENGLISH HISTORY, AND MODERN GEOGRAPHY.

Orthography: Writing from Dictation: The Grammatical structure of the Language.
History of England to the end of the Seventeenth Century, with questions in Modern Geography.

MATHEMATICS.

ARITHMETIC.

The ordinary rules of Arithmetic.
Vulgar and Decimal Fractions.
Extraction of the Square Root.

ALGEBRA.

Addition, Subtraction, Multiplication, and Division of Algebraical Quantities.
Proportion.
Arithmetical and Geometrical Progression.
Simple Equations.

GEOMETRY.

The First Four Books of Euclid, or the subjects thereof.

NATURAL PHILOSOPHY[2].

MECHANICS.

Composition and Resolution of Statical Forces.
Simple Machines (*Mechanical Powers*):—Ratio of the Power to the Weight in each.
Centre of Gravity.
General Laws of Motion, with the chief experiments by which they may be illustrated.
Law of the Motion of Falling Bodies.

HYDROSTATICS, HYDRAULICS, AND PNEUMATICS.

Pressure of Liquids and Gases, its equal diffusion, and variation with the depth.
Specific Gravity, and modes of determining it.
The Barometer, the Siphon, the Common Pump and Forcing Pump, and the Air-Pump.

---

[1] Special stress is laid on accuracy in the answers to the questions in Greek Grammar.
[2] That is, on the Tuesday morning (*see* Time Table, *page* 58).
[3] *See* the 5th note in *page* 1903.
[4] The SANSKRIT subjects for 1886 and 1887 will be—
For January 1886 :—Pañchatantra, Book V; Rámáyana, Book I, Chapter 66—77; Manu, Book V.
For June 1886 :—Hitopadeśa, Book III; Rámáyana, Book I, Chapters 20-32; Manu, Book II, 1-168.
For January 1887 :—Hitopadeśa, Book IV; Story of Nala, Lecture 1-10; Manu, Book II, 164 to the end.
For June 1887 :—Pañchatantra, Book II; Story of Nala, Lectures 11-16; Manu, Book III, 183 to the end
The questions in Natural Philosophy will be of a strictly elementary character.

OPTICS.

Laws of Reflexion and Refraction.
Formation of Images by Mirrors and Simple Lenses.

HEAT.

Its sources. Expansion. Thermometers—relations between different scales in common use. Difference between Temperature and Quantity of Heat. Specific and Latent heat. Calorimeters. Liquefaction. Ebullition. Evaporation. Conduction. Convection. Radiation.

CHEMISTRY.

Chemistry of the Non-metallic elements; including their compounds as enumerated below—their chief physical and chemical characters—their preparation—and their characteristic tests.

Oxygen, Hydrogen, Carbon, Nitrogen, Chlorine, Bromine, Iodine, Fluorine, Sulphur, Phosphorus, Silicon.

Combining proportions by weight and by volume. General nature of Acids, Bases, and Salts. Symbols and Nomenclature.

The Atmosphere—its constitution; effects of Animal and Vegetable life upon its composition.

Combustion. Structure and properties of Flame. Nature and composition of ordinary Fuel.

Water. Chemical peculiarities of Natural Waters, such as rain-water, river-water, spring-water, sea-water

Carbonic Acid. Carbonic Oxide. Oxides and Acids of Nitrogen. Ammonia. Olefiant Gas, Marsh Gas, Sulphurous and Sulphuric Acids, Sulphuretted Hydrogen.

Hydrocholoric Acid Phosphoric Acid and Phosphuretted Hydrogen. Silica.

The Examinations shall be conducted in the following order:—

MONDAY.

Afternoon, 2 *to* 4. Latin.
4 *to* 6 Latin Grammar and Composition.

TUESDAY.

Morning, 10 *to* 1. Greek, German, Sanskrit, or Arabic.
Afternoon, 3 *to* 6. French or German.

WEDNESDAY.

Morning, 10 *to* 1. Arithmetic and Algebra.
Afternoon, 3 *to* 6. Geometry.

THURSDAY.

Morning, 10 *to* 1. English Language.
Afternoon, 3 *to* 6. English History and Modern Geography.

FRIDAY.

Morning, 10 *to* 1. Natural Philosophy.
Afternoon, 2 *to* 5. Chemistry.

On Monday morning at nine o'clock in the week next but two after the Examination, the Examiners shall publish a numerical list of the candidates who have passed. And on the Monday morning next following at nine o'clock the Examiners shall publish a numerical list of the candidates who have passed, arranged in three divisions;—in the Honours Division in the order of proficiency[1]; in the first and second divisions in numerical order.

A pass certificate signed by the Registrar shall be delivered to each candidate[2] after the report of the Examiners shall have been approved by the Senate.[3]

If, in the opinion of the Examiners, any candidates in the Honours Division of not more than twenty years of age at the commencement of the Examination shall possess sufficient merit, the first among such candidates shall receive an exhibition of thirty pounds per annum for the next two years; the second among such candidates shall receive an exhibition of twenty pounds per annum for the next two years; and the third shall receive an exhibition of fifteen pounds per annum for the next two years; such exhibitions to be payable in quarterly instalments, provided that on receiving each instalment the exhibitioner shall declare his intention of presenting himself either at the two examinations for B.A., or at the two examinations for B.Sc., or at the INTERMEDIATE EXAMINATION IN LAWS, or at the PRELIMINARY SCIENTIFIC and INTERMEDIATE EXAMINATIONS IN MEDICINE, within Three Academical Years[3] from the time of his passing the MATRICULATION EXAMINATION.

---

[1] The places of candidates in the Honours Division are determined by their respective degrees of proficiency in the subjects of the Examination taken collectively.

[2] Certificates are generally ready for issue about a month after the publication of the Classified Pass List of each examination; and, in the absence of any request to the contrary, they will be posted to the addresses given by the candidates on their Schedules of Entry.

[3] By the term "Academical Year" is ordinarily meant the period intervening between any examination and an examination of a higher grade in the following year which period may be either *more or less* than a Calendar year. Thus the interval between the *Intermediate* Examination in Arts, Science, and Medicine, and the *Degree* Examinations of the next year in those Faculties, respectively, is about sixteen months; whilst the interval between the B. A. Examination and M. A. Examination of the next year, or between the B. Sc. Examination and the D. Sc. Examination of the next year, is less than eight months. Nevertheless, each of these intervals is counted as an "Academical Year."

Under the same circumstances, the Fourth among such candidates shall receive a prize to the value of ten pounds in books, Philosophical instruments, or money; and the fifth and sixth shall each receive a prize to the value of five pounds in books, Philosophical instruments, or money.

Any candidate who may obtain a place in the Honours division at the MATRICULATION EXAMINATION in January shall be admissible to the INTERMEDIATE EXAMINATION either in ARTS or in SCIENCE in the following July.

APPENDIX.

I.

PROVINCIAL EXAMINATIONS.

THESE Examinations are appointed by the Senate from time to time, upon the application of any City, Institution, or College desiring to be named as a local centre for one or more Examinations; and are carried on simultaneously with the Examinations in London, under the surpervision of Sub-Examiners also appointed by the Senate.

Candidates wishing to be examined at any Provincial centre must give notice of entry (naming the centre they select, and inclosing their certificates) to the Registrar of the Univer-ity of London, who will make all neccasary arrangements.

A Fee varying from 1*l.* to 2*l.* is usually charged by the local authorities, in addition to the University Fee.

Both Fees are payable on Registration, which takes place at the Provincial centres at a time and place of which due notice will be sent to Candidates.

The Answers of the Candidates at the Provincial Examinations are reviewed by the Examiners at the same time with the Answers of the Candidates examined in London; and a List of the Candidates who have passed at each Provincial Examination is published at the time fixed by the Regulations, at the place where such Examination has been held.

The MATRICULATION EXAMINATION OF JUNE 1885 was held at—

Aberystwith :—University College;
Bangor :—University College;
Birmingham :—Queen's College;
Bristol :—University College;
Cardiff :—University College;
Cheltenham (for Ladies only) :—The Ladies' College;
Downside :—St. Gregory's College;
Eastbourne :—New College;
Edinburgh :—The Literary Institute;
Epsom :—The Royal Medical College;
Leeds :—The Yorkshire College;
Liverpool :—University College;
Manchester :—The Owens College;
Newcastle-on-Tyne :—The School of Science and Art;
Sheffield :—Firth College;
Stonyhurst :—Stonyhurst College;
Ushaw :—St. Cuthbert's College;
Ware :—St. Edmund's College.

The MATRICULATION EXAMINATION OF JANUARY 1886 will be held at—

Aberystwith :—University College;
Birmingham :—Queen's College;
Glasgow :—Anderson's College;
Portsmouth :—The Grammar School.

The MATRICULATION EXAMINATION OF JUNE 1886 will be held at—

Birmingham :—Queen's College;
Bristol :—University College;
Liverpool :—University College;
Nottingham :—University College;
Oswestry :—The High School;
Sheffield :—Firth College.

The INTERMEDIATE EXAMINATION IN ARTS, 1885, was held at—

Birmingham :—The Mason Science College;
Cheltenham (for Ladies only) :—The Ladies' College;
Liverpool :—University College;
Manchester :—The Owens College;
Ushaw :—St. Cuthbert's College;
Ware :—St. Edmund's College.

The INTERMEDIATE EXAMINATION IN SCIENCE[1] and the PRELIMINARY SCIENTIFIC (M.B.) EXAMINATION[1], 1885, was held at—

Birmingham :—The Mason Science College;
Cheltenham (for Ladies only,:—The Ladies' College;
Liverpool :—University College;
Manchester :—The Owens College;
Ware :—St. Edmund's College.

[1] With the exception of the Practical Examination in Biology and Zoology, which must be carried on at the University.

The B. A. EXAMINATION, 1885, will be held at—
Cheltenham (for Ladies only):—The Ladies' College;
Liverpool:—University College;
Manchester:—The Owens College.

The INTERMEDIATE, PRELIMINARY, and B.A. EXAMINATIONS of 1886 will be held at—
Liverpool:—University College.

II.

SCHOLARSHIPS, &c.

GILCHRIST SCHOLARSHIPS, EXHIBITIONS, AND PRIZES.

I. BRITISH SCHOLARSHIPS, &c.:

(*a*) *For Male Candidates.*

1. A Scholarship of the value of Fifty Pounds per annum, tenable for three years, is biennially offered to Candidates intending to pursue, at OWENS COLLEGE, MANCHESTER, their studies for Graduation in one of the Faculties of the University of London; a single Scholarship of Fifty Pounds per annum for three years being awarded to the highest of those Candidates at the June Matriculation Examination who shall have been previously approved by the Principal of Owens College, provided that he pass in the Honours Division; or, in case no Candidate should so pass, two Scholarships each of Twenty-five Pounds per annum, being awarded to the two Candidates as aforesaid who shall stand highest in the First Division.—Particulars may be obtained on application to the Principal of Owens College, Manchester.

2. A Scholarship of Fifty Pounds per annum, tenable for three years, is annually awarded to that Candidate in the Honours Division at the June Matriculation Examination who shall stand highest of the Candidates previously approved by the Principal of UNIVERSITY COLLEGE, BRISTOL; and who intends to study at that College with a view to Graduation in one of the Faculties of the University of London. [N.B.—This Scholarship is open to Women.] Further particulars may be obtained on application to the Principal of University College, Bristol.

(*b*) *For Female Candidates.*

1. Two Exhibitions, one of Thirty Pounds, the other of Twenty Pounds per annum, tenable for two years, are annually awarded at the *June* Matriculation Examination to the two female Candidates, of not more than twenty years of age at the commencement of the Examination, who pass highest in the Honours Division, to assist them in pursuing their studies at some Collegiate Institution approved by the Gilchrist Trustees.

2. Two Exhibitions, one of Forty Pounds, the other of Thirty Pounds per annum, tenable for two years, are annually awarded to the two Female Candidates who pass highest at the Intermediate Examination in Arts (provided that they obtain in the one case at least two-thirds, and in the other at least three-fifths, of the total number of marks), to assist them in pursuing their studies at some Collegiate Institution approved by the Gilchrist Trustees.

3. A Book Prize of the value of Ten Pounds is annually awarded to the Female Candidate who passes highest at the B.A. Examination, provided she obtain not less than two-thirds of the total number of marks.

[*See* also the BRISTOL Scholarship above.]

Further particulars may be obtained on application to the Secretary to the Gilchrist Educational Trust, 4 Broad Sanctuary, Westminster, S.W.

II. INDIAN SCHOLARSHIPS:

A Scholarship of the value of One Hundred and Fifty Pounds per annum, and tenable for four years, is annually awarded to the Native Candidate who passes highest in the January Matriculation Examination carried on at CALCUTTA, BOMBAY, MADRAS, and COLOMBO; provided that such Candidate passes either in the Honours or in the First Division, is not more than 22 years of age, and is desirous of prosecuting his studies, either at the University of Edinburgh or at University College, London, with a view to Graduation in one of the Faculties of the University of London.

Further particulars of the *Indian Scholarships* may be obtained on application to the Secretary to the Gilchrist Educational Trust, 4 Broad Sanctuary, Westminster, S.W.

III. COLONIAL SCHOLARSHIPS:

1. A Scholarship of the value of One Hundred Pounds per annum, and tenable for three years, is annually awarded to the highest among those Candidates at the January Matriculation Examination carried on at MELBOURNE, SYDNEY, ADELAIDE, and HOBARTON who passes either in the Honours or in the First Division, is not more than 22 years of age, and is desirous of prosecuting his studies either at the University of Edinburgh, or at University College, London, with a view to Graduation in one of Faculties of the University of London.

2. A similar Scholarship, under the same conditions, is biennially awarded to the Candidate who passes highest at the January Matriculation Examination carried on in NEW ZEALAND.

3. A similar Scholarship under the same conditions is triennially awarded to the Candidate who passes highest at the June Matriculation Examination carried on at FREDERICTON (New Brunswick) and HALIFAX (Nova Scotia).

(*Note.*—Every Candidate for a Colonial Scholarship must either be a Native of the Colony in which he presents himself, or have resided therein for the five years immediately preceding.)

Further particulars of the *Colonial Scholarships* may be obtained on application to the Secretary to the Gilchrist Educational Trust, 4 Broad Sanctuary, Westminster, S. W.

WEST SCHOLARSHIP.

This Scholarship, of the value of thirty pounds, and tenable for one year, is awarded by the Council of University College, London, to that candidate at the June Matriculation Examination who distinguishes himself the most in English.—Further particulars may be obtained of the Secretary of University College, Gower Street, London, W. C.

TUFFNELL SCHOLARSHIPS.

Two Scholarships, of the value of about 100*l.* each, and tenable for two years, are awarded by the Council of University College for distinction in Analytical and Practical Chemistry, and in General Chemistry, alternately, to that student of the College, *being an Under-Graduate of the University of London of not more than three years' standing*, who shall have passed the most distinguished examination in the subjects for which the Scholarship is to be conferred, and shall have evinced sufficient merit to entitle him to the Scholarship. Further particulars may be obtained of the Secretary of University College, Gower Street, London, W. C.

REID STUDENTSHIPS FOR WOMEN.

A Free Studentship at Bedford College, value 30 guineas per annum, tenable for two years, will be awarded to the Woman taking the highest place in the Honours Division of the January Matriculation Examination, and to the Woman taking a similar place at the June Matriculation Examination.

A Free Studentship at Bedford College, value 30 guineas per annum, tenable for two years, will be awarded to the Woman taking the highest place in the Intermediate Examination in Arts.

A Free Studentship at Bedford College, value 30 guineas per annum, tenable for two years, will be awarded to the Woman taking the highest place in the Intermediate Examination in Science.

For further particulars application should be made to "The Reid Trustees," Bedford College, York Place, Portman Square, London, W.

[*Note.*—The Gilchrist and other Scholarships announced in this Appendix are awarded by the respective Educational Bodies upon the result of the University Examinations; but the University has otherwise no control over, and is not responsible for such award.]

III.

INSTRUCTIONS TO CANDIDATES FOR MATRICULATION.

Application for admission to the Examination may be made in person at the University, Burlington Gardens, W., between 12 and 4 o'clock (on Saturdays between 12 and 2), or by a simple letter of request. No special form of application is necessary. When written application is made, care must be taken to give a correct postal address, and the candidate's name *must be written in full.*

Every application, if made for the first time, must be supported by the requisite document giving proof of age. No candidate, whatever his age, is admitted to the Examination on his first application without the production of such a document.

Candidates who have previously presented themselves at the Examination must state that fact upon applying for admission, but need not produce their certificates of age a second time.

Application should not be made earlier than eight weeks, and must not be made later than a month, before the commencement of the Examination.

The age of a candidate with regard to entry is reckoned up to and inclusive of the first day of the several examinations, that day being computed to fall as late as the Regulations will possibly allow. The two dates, in the case of the Matriculation Examinations, are January 14th and June 21st. Only those candidates therefore who shall have *completed their sixteenth year* on or before either of those dates will be admissible to the January or the June Examination as the case may be; and not those who shall complete such age after those dates.

Fees must be paid on Registration, and not before.

Candidates living in London are recommended to make their application in person, and at the same time to pay their fee and enter their name in the Register.

The full marks obtainable at the Matriculation Examination are 2,800. Of these 2,000 qualify for a Prize, 1,600 for Honours, and 1,400 for the First Division. There is no regulation fixing the number of marks required for a pass. No further details as to the marking at this or other Examinations can be furnished.

The Alphabetical Pass List is sent, as soon as it is printed off, to every College or School from which any Candidate (whether successful or not) has immediately proceeded to the Matriculation Examination.

The Classified List is sent to every College or School from which a *successful* Candidate has immediately proceeded. It is also widely circulated among the leading Newspapers of the United Kingdom.

Lists cannot be supplied to individual Candidates or their friends.

The Examination Papers of past Examinations are not published separately; but the Papers of the previous academical year are printed in the University Calender of the current year, which is issued annually at the beginning of April, and is to be obtained (price 7*s*) of the publishers, Messrs. Taylor and Francis, Red Lion Court, Fleet Street, E.C.

REPORT ON THE CALCUTTA AND EASTERN CANALS AND NUDDEA RIVERS FOR THE YEAR 1884-85.

GOVERNMENT OF BENGAL.

PUBLIC WORKS DEPARTMENT—IRRIGATION ACCOUNTS.

Dated Calcutta, the 28th September 1885.

RESOLUTION.

READ—

The Report on the Administration of the Calcutta and Eastern Canals and Nuddea Rivers for the year 1884-85, submitted by the Board of Revenue with their Officiating Secretary's letter No. 499B of the 24th July 1885. Comparative statement of Revenue and Charges of Calcutta Canals and Nuddea Rivers for the year 1884-85, submitted by the Officiating Examiner, Public Works Accounts, Bengal, with No. 5937 of the 23rd June 1885.

Read again—

Resolution dated the 28th November 1884 on the report on the Calcutta and Eastern Canals and Nuddea Rivers for the year 1883-84.

RESOLUTION.—The accounts of the Calcutta and Eastern Canals and Nuddea Rivers for the year 1884-85, taken conjointly and inclusive of the direct charges debited to the capital account of the former, show a net revenue of Rs. 3,82,018, being an increase of Rs. 1,13,279 on that of the previous year. This result is not due to an increase in the toll collections, but in the main to a decrease in the charges incurred by the Public Works Department, and to an increase in receipts on account of a large sum paid by the Calcutta Municipality for land. On the other hand, there is a decrease in direct receipts in every case. This is due in the case of the Eastern and Circular Canals to a general depression of trade, and to some extent to the partial failure of the rice crop and the shallow state of portions of Tolly's Nullah. In the Nuddea Rivers the decrease in tolls is on the Jellinghee and Matabhanga rivers, due in the former case to a failure of crops in the northern districts, and on the Matabhanga to the lateness of the preparation of jute for the market by reason of want of water in the eastern districts, and the diversion of the traffic when the river fell to the Sunderbunds route.

2. In the following tables, compiled from the monthly statements of traffic and tolls published by the Public Works Department in the *Calcutta Gazette*, the traffic during each month of the year is compared with that of the corresponding month of the previous year:—

CALCUTTA AND EASTERN CANALS.

3. From the commencement of the year 1883-84 these canals have been included under the head of Provincial Works for which Capital and Revenue Accounts are kept.

4. The following tables, extracted from the Finance and Administrative Accounts of the year furnished by the Examiner of Public Works Accounts, give the Capital and Revenue Accounts of the canals up to the end of the year :—

CALCUTTA AND EASTERN CANALS.

Capital Account for and to end of 1884-85.

Total ...	1,75,62,487	5,69,726	1,81,32,213	Total ...	1,75,62,487	5,69,726	1,81,32,213

(a) Include Rs. 4,885 on account of the salary of the Deputy Collector engaged on the Committee referred to in paragraph 8.

5. As explained in the resolution of the former year, these accounts have not yet been finally accepted, but are the best that can be prepared under the circumstances of the case. In connection with the proposals for the extension and improvement of this system of canals, though more directly with reference to the new docks at Kidderpore, the scheme for the locking of Tolly's Nullah is now before the Government of India, and orders thereon are awaited.

6. The total receipts for the year are Rs. 5,69,726 against Rs. 5,64,101 for the previous year, giving an increase of Rs. 5,625. The receipts from tolls are, however, less by Rs. 16,286, and the excess is made up by indirect receipts, as explained in paragraph 1. The expenditure incurred by the Public Works Department is much reduced, being Rs. 2,40,109 against the previous year's expenditure of Rs. 3,21,334, due chiefly to the completion of the original works in hand. There was no expenditure on original works, capital account, on account of the expenditure on the new girder bridges over Tolly's Nullah and at Gurriah being transferred to the head of Revenue. The charges for repairs and maintenance, which are included in the above figures, show a decrease of Rs. 3,054. The charges for collection are reduced from Rs. 51,587 in 1883-84 to Rs. 47,280 for the year under review. Altogether the total direct charges are Rs. 2,87,389 against Rs. 3,72,921 in 1883-84, showing an improvement of Rs. 85,532, and with the increase in receipts of Rs. 5,625, a net revenue for the year of Rs. 91,157 over and above that of the previous year.

The decrease in tolls occurs under both Calcutta Canals and Tolly's Nullah, the preponderance in the former being the same as noticed last year.

7. The number of boats using the canals shows a decrease in both case on the returns of the last year, but the maundage is greater, showing an increase in the average size of boats, the number under 25 maunds having decreased with a corresponding increase in those above that maundage. This may be due to the increased facilities afforded by the construction of the new Chitpore lock. It would afford useful information if in future returns the number of boats above 500 and 1,000 maunds were shown.

The following table gives the particulars of some items of cargo carried :—

CIRCULAR CANALS AND TOLLY'S NULLAH.

Nature of Cargo.	Number of Boats.		Weight of Cargo.		Tollage.	
	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.
	No.	No.	Mds.	Mds.	Rs.	Rs.
Rice and paddy	37,274	31,178	69,51,916	63,61,531	1,12,142	1,08,235
Jute	5,872	5,256	28,10,887	34,41,185	52,354	61,733
Wheat	21	19	15,950	6,200	184	120
Coal	4,751	3,437	17,16,560	20,53,325	27,641	24,886
Lime	991	766	9,88,880	9,29,940	17,865	14,753
Salt	6,380	6,385	20,18,663	25,71,541	35,850	41,361
Firewood	10,694	7,340	41,75,983	35,15,578	66,050	50,951
Miscellaneous	65,974	76,039	59,59,647	32,26,945	1,42,512	1,29,404

There is a decrease in most items due to a general depression of trade, and in firewood on account of a diminished demand.

8. The report of the Committee appointed to consider the working and management of the canals has been issued and is under consideration. The decision of Government on the several points which were enumerated for report, and which have since been the subject of considerable correspondence, will be published shortly.

9. The interest account of the canals as at present accepted is given in the statement below :—

CALCUTTA AND EASTERN CANALS.

Interest Account for and to end of 1884-85.

	Amount.		Amount.
	Rs.		Rs.
Net revenue to end of 1883-84 ...	1,10,57,527	Interest charges to end of 1883-84 ...	65,61,871
Ditto during 1884-85 ...	2,78,512	Ditto for 1884-85 ...	2,07,882
		Total to end of 1884-85 ...	67,69,753
		Balance net profit...	45,66,286
Total net revenue ...	1,13,36,039	Total ...	1,13,36,039

NUDDEA RIVERS.

10. The net revenue derived from the Nuddea rivers is Rs. 99,681 against Rs. 77,559 for 1883-84. This result is mainly due to a reduction in the charges incurred by the Public Works Department under the head of repairs and establishment. The charges for collection show also a slight decrease. The toll collections have fallen off from Rs. 2,00,908 in 1883-84 to Rs. 1,94,981, of which explanation is given in paragraph 1. The tolls on the Bhagirutti river, however, again show an improvement, which is attributed to a more favourable state of the river. The number of steamers and flats using the rivers have increased, the reason assigned being the plying of a number of steamers for the first time between Nuddea and Kishnaghur, and the establishment of a steamer service between Calcutta and Cutwa by Messrs. Hoare Miller and Company.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Col.*, R.E.,

Offg. Secy. to the Govt. of Bengal, P. W. Dept.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 24th October 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL		
	Western Districts.		
	BURDWAN DIVN.		
1	Burdwan, Oct. 24 '85	0·14	Weather—hot, cooled by rainfall of 22nd. Irrigation going on in many villages, but the recent rainfall will obviate the necessity of irrigation. Crops doing well. Public health good. Price of rice 12 to 15½ seers per rupee.
	Raneegunge ...	0·74	
2	Bankoora, „ 24 „	Nil	Weather—clear and warm for the time of year. Crops on ground doing well. Slight rain fell during the week. Fields on which early rice was grown are now being prepared for sowing winter crops. Health good.
	Bishunpore ...	0·66	
3	Beerbhoom, „ 24 „	0·04	Weather—hot. Prospects of *aus* and *amun* crops excellent. *Aus* is being cut in some places. Prices falling somewhat. General health normal except for some cases of cholera.
	Rampore Haut ...	Nil	
4	Midnapore, „ 24 „	0·64	Weather—seasonable. A bumper harvest is expected in almost every part of the district that was above flood-level.
5	Hooghly, „ 24 „	3·29	Weather—cloudy with rain. In the area not damaged by the floods a good rice crop is now assured. Public health fair.
	Howrah, „ 26 „	0·53	Weather—sultry and slight rain. Crops left (about ¼th of the whole) are doing well. Health fair.
	Colooberiah ...	0·08	
	Central Districts.		
	PRESIDENCY DIVN.		
6	24-Pergns Oct. 26 '85	.....	Weather—seasonable; rather hot. Prospects of *amun*, except in low and inundated parts of the district, are good. Public health good.
7	Nuddea „ 24 „	2·16	Weather—cloudy with occasional showers. Rain has done much good to *amun*. Sowing of winter crops still going on, and those already sown are doing well. Public health generally good.
	Kushtea ...	0·47	
	Meherpore ...	Nil	
	Chuadanga ..	0·03	
	Ranaghat ...	0·39	
8	Khoolna, „ 24 „	1·82	Weather—hot and latterly cloudy with some rain. *Amun* paddy in flower. Rain has done good to standing crops. Prospects very good. Prices continue high. Coarse rice Rs. 2-12 per maund. Public health good.
9	Jessore, „ 24 „	0·45	Weather—sultry. Rain of the week has done good to *amun* crop. Prospects good except in Bongong. Price of rice stationary. Public health fair except in Jhenida, where fever continues.
	Jhenida ...	0·18	
	Magurah ...	Nil	
	Narail ...	Nil	
	Bongong ...	Nil	
10	Moorshedabad, „ 24 „	0·26	Weather—hot. *Amun* crop in the *Rarh* promises well. *Rubbee* crops are being rapidly grown. *Kalai* doing well. Public health fairly good. Common rice selling at from 13 to 17 seers per rupee.
	Lalbagh ..	0·73	
	Kandi ...	0·06	
	RAJSHAHYE DIVN.		
11	Dinagepore, Oct. 23 „	0·11	Weather—fair. Prospects of crops good. Average price of rice 17 seers per rupee.
12	Rajshahye, „ 25 „	0·20	Weather—cloudy and getting cooler. Prospects of *amun* and other standing crops fair, but a little more rain wanted, particularly in Nowgong. Lands are being prepared for sowing of mustard. Fever general.
	Nattore ...	0·40	
	Nowgong ...	Nil	
13	Rungpore „ 25 „	2·07	Weather—seasonable. Prospects of *amun*, ginger, turmeric and sugarcane are good. Price of rice has fallen. Cholera reported from the Nilphamari subdivision.
14	Bogra, „ 24 „	1·49	Weather—heavy fogs have begun to appear. A slight shock of earthquake on the 22nd. Weather tolerably cool now. Prospects of crops excellent. Rain on the 22nd has rendered prospects much brighter. Public health fair.
15	Pubna, „ 24 „	Nil	Weather—occasional showers of rain, cool in the night. Prospects of *amun* crop good. Public health fair.
	Serajgunge ..	0·30	
16	Darjeeling, „ 24 „	1·11	Weather—fair. State and prospects of crops good.
17	Julpigoree, „ 24 „	Nil	Weather—fine; latterly cloudy. Prospects of *amun* paddy continue favourable. Lands are under preparation for mustard and other cold-weather crops. Public health generally good.
	Eastern Districts.		
	DACCA DIVISION.		
18	Dacca, Oct. 24 '85	2·29	Weather—seasonable. Harvesting of *kartiki* paddy nearly completed. Prospects of *amun* and *dighe* paddy and sugarcane good. Public health good.
	Manickgunge ...	0·15	
19	Furreedpore. „ 24 „	2·06	Weather—very hot, till a thunder-storm on the 22nd. Prospects of *amun* good. *Rubbee* being sown. A good deal of fever at head-quarters.
	Madaripore ...	0·23	
	Goalundo ..	3·61	
20	Backergunge, „ 23 „	Nil	Weather—seasonable. Prospects of *amun* crop good. Fever prevails in almost all thanas. Public health only fair.
21	Mymensingh, „ 23 ..	2·07	Weather—cool. Heavy rain on the 22nd. Cold-weather crops being sown. Prospects of winter rice good.
	Jamalpur ...	0·11	
	Kisboregunge ..	0·21	
	Attia ...	Nil	
	Netrokona ...	Nil	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—*concld.*			
	***Eastern District*—contd.**		
CHITTAGONG DIVS. 32	Chittagong Oct. 27 '85	0·88	Weather—seasonable. Prospects of crops fair. Standing crops still damaged by grubs. Prices stationary Public health good
CHITTAGONG DIVS. 33	Noakholly, „ 23 „	0·68	Weather—generally fair, last two days of the week cloudy and slightly rainy. Prospects of the *amun* crop good except in the Feuny sub-division, where there is still some complaint of damage by insects. Public health good.
	Feuny ...	0·30	
CHITTAGONG DIVS. 34	Tipperah „ 22 „	Nil	Weather—hot and close and occasionally cloudy. Prospects of *amun* good. Preparation of lands for cold-weather crops well advanced. Fever reported from the Brahmanbariah and Chandpur sub-divisions; otherwise public health good
	Brahmanbariah ...	Nil	
	Chandpore ...	1·00	
CHITTAGONG DIVS. 35	Chittagong Hill Tracts. ...	.....	Report not received.
	Hill Tipperah, Oct 21 '85	0·81	Weather—rather hot. Prospects of crops continue favourable. Public health good.
BEHAR.			
PATNA DIVS. 26	Patna, Oct. 24 '85	0·44	Weather—generally clear; sun very hot, but cool at night and in early morning. Prospects of paddy crop good. A slight shower fell during the week, but a good fall of rain would be very beneficial. Sowing of *rubbee* crops has commenced. Fever prevalent in many parts of the district.
PATNA DIVS. 27	Gya, „ 24 „	Drizzling rain not sufficient to measure.	Temperature continues high for the time of the year. Cloudy weather on two days of the week gave promise of rain, but it passed off with only a few very slight showers. Rain is urgently wanted for the rice crops and serious injury will be caused to them unless a good fall is obtained shortly. Prices satisfactory as compared with last year. Health good.
PATNA DIVS. 28	Shahabad, „ 24 „	Nil	Weather—days cloudy and hot, mornings and evenings getting cool. Paddy crop doing well except in the Bhabhua sub-division where rain is much wanted. *Rubbee* sowings have commenced. Cholera still prevalent, especially in Sasseram, and fever all over the district.
	Sasseram ...	1·15	
	Buxar ...	Nil	
	Bhabhua ...	Nil	
PATNA DIVS. 29	Durbhunga, „ 24 „	Nil	Weather—cloudy. Paddy crop, except where damaged by the late flood, is in excellent condition. More rain is wanted for the paddy on high lands. Ploughing and sowing of *rubbee* crops in progress. Prices remain stationary. Public health generally good.
PATNA DIVS. 30	Mozufferpore, „ 24 ...	.....	Weather—seasonable. Rice crop doing well. *Rubbee* crops being sown all over the district. Deaths from cholera still reported from the Sitamarhi sub-division. Public health in other parts of the district continues good.
PATNA DIVS. 31	Sarun, „ 24 „	0·08	Weather—seasonable; cloudy with a few drops of rain on the night of the 21st and the morning of the 22nd. Standing crops are looking well. *Rubbee* sowing has commenced. Sporadic cases of fever reported, public health otherwise good.
	Sewan ...	Nil	
	Gopalgunge ...	Nil	
PATNA DIVS. 32	Chumparun „ 24 „	Nil	Weather—seasonable. Harvesting of *bhadoi* crops completed. Prospects of *aghani* crops continue good. Prices of food-grains have fallen slightly. Cholera has re-appeared in the interior of the district.
BHAGULPORE DIVS. 33	Monghyr, Oct. 24 '85	0·05	Weather—fine with passing clouds; much warmer than usual at this season of the year. Want of rain is beginning to be seriously felt for the high land rice, and a fall would improve the prospects of the *rubbee* crops. Prices steady Public health on the whole good.
	Begusarai ...	Nil	
	Jamui ...	Nil	
BHAGULPORE DIVS. 34	Bhagulpore, „ 24 „	Nil	Weather—cloudy and warm. Prospects of rice not very good. On high lands it is suffering from want of rain. Cholera still bad in north.
BHAGULPORE DIVS. 35	Purneah „ 24 „	0·07	Weather—fair; rather hot in the day. State of standing crops good. Prospects of *aghani* fair. Sowing of *rubbee* crops in full progress. Some cholera and fever in Arrareah; otherwise public health good.
	Kissengunge ...	0·09	
	Arrareah ...	0·13	
BHAGULPORE DIVS. 36	Maldah „ 24 „	0·05	Weather—first part of the week fine and hot, but latter part cloudy. Prospects of winter rice and *kalai* continue good, but rain is wanted. Coarse rice is selling at from 13 to 18 seers per rupee. Public health fair.
BHAGULPORE DIVS. 37	Sonthal Pergha. „ 24 „	0·51	Weather—not yet settled; wind variable; a little rain on the 22nd. Prospects of paddy crops everywhere splendid. *Rubbee* sowings progressing favourably. The rain of the 22nd, slight as it was, will do some good to recent sowings. A good deal of fever about.
	Pakour ...	0·02	
ORISSA.			
ORISSA DIVN 38	Cuttack Oct. 23 '85	0·61	Weather—hot and cloudy. Reaping of *beali* rice completed. Early *sarad* rice in ear; late *sarad* doing well, but requires rain. Common rice 11 seers per rupee in town and 15 seers in average in the interior. Public health generally good.
ORISSA DIVN 39	Pooree, „ 22 „	4·22	Weather—cloudy with heavy showers of rain for the last two days of the week. Crops much benefited by the rain. Late *sarad* rice in ear. *Laghu sarad* ripening. Miscellaneous crops thriving well. Relief works are going on in the tracts bordering the Chilka owing to the failure of crops in those tracts. Common rice sells at an average of 18 seers per rupee in the Suddor sub-division, and 19 seers 11 chittacks in the Khoorda sub-division. Public health fair.
	Khoorda ...	0·59	
ORISSA DIVN 40	Balasore, „ 23 „	0·4	Weather—cloudy and warm. *Beali* crops are being cut. State of rice crops exceptionally good. Public health generally good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, Oct. 23 '85	0·98	Weather—latterly cloudy and unsettled; good rain on the 22nd and 23rd. Rice crops suffering in most places for want of rain. Rain also wanted for winter crops. Cases of cholera still continue to be reported; general health otherwise good.
42	Lohardugga, „ 24 „	0·34	Weather—hot and cloudy. Prospects of winter rice continue favourable. Slight rain during the week has done much good to the crop. *Rubbee* being sown. Prices steady. Cholera decreasing in Palamow. General health good.
43	Singbhoom, „ 23 „	2·08	Weather—cloudy with showers. Prospects of crops continue excellent. Prices easy. Cattle-disease reported from two thannas. General health good.
44	Manbhoom, Govindpore „ 24 „ ...	3·37 Nil	Weather—alternately cloudy and cool. Good showers of rain on the 21st and 22nd have done much good to the standing crops A full sixteen-anna *aman* crop is expected. Coarse rice 21 seers per rupee at the Purulia market on the 24th. Public health good.

Published for general information.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the surrounding spaces in the total rainfall columns are left blank.

CALCUTTA, *the 26th October* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 23RD OF OCTOBER 1885.

At the close of the previous week weather was fine, and it appeared fairly settled over the whole Province; winds were north-easterly in South Bengal, and there seemed a tendency for the northerly winds to become stronger, and pressure was very uniform at almost all stations. On the 17th instant pressure began to fall rapidly near the Pegu coast, and strong winds commenced to blow at the stations in the south of the Bay. At the same time winds at the stations round the Bengal coast shewed distinct indraught towards the Bay. On the following day pressure commenced to rise at the eastern stations of the Bay and to fall at the western stations, and strong winds continued to blow at Diamond Island and in the south of the Bay. On Monday, the 19th, pressure again rose at the stations in the north and east of the Bay, and it was falling at the central stations on the west coast; strong winds were still blowing in the east and south, and there was a distinct cyclonic circulation over a large part of the Bay, so that on this day the indications clearly pointed either to the formation of a small cyclonic storm in the centre of the Bay, or to the first advance of the monsoon towards the west coast. During the whole of this period, weather in Bengal was almost uniformly fine, and with the exception of light showers in Orissa and in the hills of North Bengal the province was rainless. Winds were light and variable, and temperature was high in all districts.

On the 20th instant the conditions as above described, which existed in the centre of the Bay, became further developed, and it was clear that it was not a cyclonic storm, but a diffused depression, and that a burst of rainfall was advancing towards the coast of the Circars, and on the 20th and following two days rather heavy rain was reported on this and on the Ganjam coast, while lighter rain fell in connection with this disturbance over the whole of Orissa, Chutia Nagpur and South-West Bengal. At the same time the disturbed conditions advanced apparently in a northerly direction, and in addition to giving general rain in the last-named districts, they became more diffused and gave light rain over East Bengal and North Bengal and over parts of South Behar.

With the gradual advance of this diffused depression over Bengal skies of course clouded over, humidity increased very rapidly, temperature, and particulary the night or minimum temperature, increased quickly, and the south-west monsoon conditions in a feeble form again established themselves temporarily over a large part of the province. The burst of rainfall along the west coast can scarcely be considered a true commencement of the Madras rains, but rather as a feeble, diffused and preliminary action, which might under other circumstances have generated a rather severe storm. As it was there were decidedly disturbed conditions which existed along the whole west coast and extended far into Bengal, the centre of greatest barometric depression, which was, however, particularly shallow, being about Vizagapatam, while the centre of heaviest rainfall was at Coconada, which received nearly eleven inches in two days, while Gopalpore also received nearly five inches, and on the 21st alone Vizagapatam registered 2·50 inches. It will thus be seen that for the first three days of the week rainfall was practically absent over Bengal, and that for the remaining four days of the week rainfall was fairly general except in Behar, though a few showers penetrated even as far as this district.

Pressure in Bengal was not very much affected by the formation and progress of the diffused disturbance above described, and the principal variations of pressure for the week have been of the usual oscillatory description. For the whole week the mean pressure over the province has been 0·018″ below the normal. The largest defects have been in the western districts, and thus Orissa, Chutia Nagpur and South Behar show a defect approaching 0·03″, while East Bengal on the other hand shows a slight, but distinct, excess pressure for the week.

Temperature usually at the latter end of October commences to decrease rapidly, but with the conditions as above described, which have obtained during the present week, the fall of temperature has practically ceased, and high temperatures, both during the day and during the night, have obtained over the whole province. Temperature has thus been considerably in excess of the normal in all districts, the smallest excess being in Orissa, where it equalled 0·7°, while in North Behar the excess above the normal has been 3·1°; over the whole province an average excess temperature of nearly 2° has been registered.

The distribution of the rainfall over the province as regards its time and also locality, and the cause of its occurrence, have already been referred to, and therefore only the question of quantity remains to be stated. The largest amount has been received in Orissa, which reports an average fall for the week of 1·96 inches. The normal fall in this district for this period is 0·73 inch, and thus the rainfall has been nearly three times the normal amount. Chutia Nagpur has received an average amount of 1·50 inches of rain for the week, and as the normal quantity for the week is only 0·14 inch, the actual fall has been more than ten times the normal. South-West Bengal reports an average fall of 1·08 inches against the normal 0·33 inch, the actual has then been about three times the normal. East Bengal averages 1·68 inches, and the normal fall is 0·47 inch, this district has thus received nearly four times the usual amount. North Bengal reports an average fall of 0·94 inch, the normal amount being 0·44 inch, or the actual is more than twice the normal fall. In South Behar the fall for the week has been almost normal, the actual being 0·23 inch and the

normal 0·21 inch, but in this district the rainfall was very local and the largest amount fell in the Sonthal Pergunnahs. Finally, in North Behar rain has been practically absent for the week except in the Purneah district, where a few light showers were reported.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 23rd of October 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1885.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

d drizzling rain, ≏ dew, t thunder, o overcast, g gloomy, p passing temporary showers, ═ fog.

ALEXANDER PEDLER,

For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 26th October 1885.

MEMORANDA.

Births and deaths were registered in the principal Municipalities in Bengal during the week ending 3rd October 1885, at the rates, respectively, of 27·1 and 40·0 per 1,000 of population, against 27·8 and 42·6 per 1,000 during the preceding week ending 26th September, indicating a considerable diminution in the registration of deaths.

2. In the following Municipalities births and deaths are reported to have been recorded at the highest rates :—

Births.

	Ratio per *mille*.
Bhagulpore	65·2
Patna	44·1
Gya	38·9
Utterpara	37·8
Naraingunge	37·2
Monghyr	33·4
Beauleah	31·5
Purneah	31·1

Deaths.

	Ratio per *mille*.
Gya	105·2
Bhagulpore	73·4
Patna	52·2
Monghyr	50·6
Suburbs of Calcutta	44·7
Utterpara	37·8
Chupra	37·1
Durbhanga	34·6
Serampore	33·4
Midnapore	31·0
Jessore	30·6
Chittagong	30·5

3. The principal diseases specified in the table appended to this memoranda proved fatal at the rates exhibited below, in comparison with the rates of the preceding week :—

	Ratio per *mille* during the weeks ending—	
	3rd October 1885.	26th September 1885.
Cholera	8·5	3·0
Small-pox	·03	·03
Fever	18·2	20·2
Bowel-complaints	7·0	6·4
Injury	·5	·8
Other causes	10·7	12·1

The noticeable point disclosed by the above figures is that the mortality from fever and from the maladies recorded under the head of "Other causes" had diminished sensibly.

4. The above-mentioned death-causes (excepting small pox, which appears to have prevailed only in the Arrah town, attended with one casualty) caused the greatest loss of life in the following Municipalities :—

Cholera.

	Ratio per *mille*.
Gya ...	25·3
Monghyr ...	11·8
Durbhanga ...	6·3

Fever.

	Ratio per *mille*.
Gya ...	46·4
Bhagulpore...	40·8
Jessore ...	30·6
Patna ...	26·6
Chittagong ...	21·1

Bowel-complaints.

	Ratio per *mille*.
Utterpara ...	37·8
Serampore ...	17·7
Gya ...	12·9
Monghyr ...	12·6

Injury.

	Ratio per *mille*.
Gya ...	4·8

Other causes.

	Ratio per *mille*.
Bhagulpore ...	19·9
Midnapore ...	18·6
Naraingunge	16·6

* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

Mr. C. Meares, Temporary Assistant Sub-Deputy Opium Agent, Benares Agency, is, appointed *sub pro tem* to be an Assistant Sub-Deputy Opium Agent of the fourth grade, from the 21st April to the 23rd June 1885, *vice* Mr. W. J. Currie.

Mr. O. O'Donnell, Probationary Assistant Sub-Deputy Opium Agent, Benares Agency is appointed *sub pro tem* to be an Assistant Sub-Deputy Opium Agent of the fourth grade from the 24th June to the 27th July 1885, *vice* Mr. W. J. Currie.

The 2nd November 1885.—Mr. J. O. D. Murray, Assistant Sub-Deputy Opium Agent, Benares Agency, is allowed privilege leave for one month, with effect from the 5th November 1885, or from such subsequent date as he may avail himself of it.

MEDICAL.—*The 30th October* 1885.—The services of the undermentioned medical officers are placed temporarily at the disposal of the Government of India in the Home Department:—

Surgeon-Major K. P. Gupta, Deputy Sanitary Commissioner, Metropolitan Circle.
Surgeon D. Basu, Civil Surgeon of Furreedpore.

The 2nd November 1885.—Surgeon S. Little is appointed to act as Resident Surgeon, Eden Hospital, Calcutta, during the absence, on deputation, of Surgeon J. Clarke, or until further orders.

The following notifications are republished from the *Assam Gazette*:—

No. 72.—*The 24th October* 1885.—Baboo Manmath Nath Chatterji, B.A., B.L., late Acting Munsif of Nattore, in the district of Rajshahye, is appointed to officiate as a Munsif in the district of Sylhet, to be ordinarily stationed at Habiganj, during the absence, on leave, of Baboo Rajoni Nath Mitter.

No. 73.—Baboo Rajani Nath Mitter, Third Munsif of Habiganj, in the district of Sylhet, has been granted leave of absence for two months and twenty-five days, under section 73, rule 1 of the Civil Leave Code, with effect from the 7th October 1885, or the subsequent date on which he may have availed himself of it.

F. B. PEACOCK,
Chief Secy. to the Govt. of Bengal.

BENGAL TENANCY ACT.

REVENUE DEPARTMENT—LAND REVENUE.

Darjeeling, the 1st November 1885.

RESOLUTION.

READ—

The Report of a Committee appointed to consider and advise on the Rules to be framed by the Local Government under the Bengal Tenancy Act, 1885.

The Draft Rules prepared by the Committee.

THE informal publication of a draft of the Rules which it was proposed to issue under the Bengal Tenancy Act, when that Act had come into force, has had the good result of eliciting valuable comments from several public Associations and private persons interested in the working of the Act. The provisional Draft Rules, with the comments made upon them, have now been revised and recast by a Committee composed of the gentlemen named in the margin, who have submitted a Report upon the subject.

Hon'ble H. J. Reynolds, C.S.I., Member, Board of Revenue ... ... *President.*
Hon'ble A. P. MacDonnell, Secretary to Government ... ...
Mr. R. F. Rampini, Officiating Judge, 24-Pergunnahs ...
Mr. P. Nolan, Collector, Shahabad ... ... *Members.*
Mr. M Finucane, Director, Agricultural Department ... ...
Mr. H. H. Risley, on Special Duty ... ...

2. The Draft Rules, as amended by the Committee, have now been considered by the Lieutenant-Governor, and some modifications, chiefly in the sequence and grouping of the Rules, have been introduced. Substantially, however, the Rules remain the same as in the draft submitted by the Committee.

ORDERED—That the Committee's Report be printed for general information, and that the Draft Rules be published in the *Calcutta Gazette* as Proposed Rules, in conformity with section 190, Act VIII of 1885, for the information of persons likely to be affected thereby.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

REPORT.

WE, the Members of the Committee appointed under the orders of Government, dated the 20th instant, to consider and advise on the form which the Rules under the Bengal Tenancy Act should take, with a view to their publication under section 190 of the Act, have the honour to report that we have considered the provisional draft rules published in the *Gazette* of the 12th August and various subsequent dates, and also the papers noted in the margin. With many of the objections and criticisms embodied in these papers we are not able to concur; but in several instances we have found them to contain useful suggestions, of which we have gladly availed ourselves.

1. Letter from Baboo Kedar Nath Roy, dated the 15th August 1885.
2. Letter from Baboo Pronob Nath Ghosal, dated the 25th August 1885.
3. Letter from the Secretary, Bhagulpore Landholders' Association, dated the 28th August 1885.
4. Letter from the Secretary, Bhagulpore Landholders' Association, dated the 7th September 1885.
5. Letter from the Secretary, East Bengal Landholders' Association, dated the 26th September 1885
6. Remarks by the Secretary, East Bengal Landholders' Association, dated the 11th October 1885.
7. Letter from the Secretary, Behar Landholders' Association, dated the 1st October 1885.
8. Letter from the Secretary, British Indian Association, dated the 1st October 1885.
9. Letter from the Secretary, Burrisal People's Association, dated the 25th September 1885.
10. Letter from the Secretary, Bhagulpore Landholders' Association, dated the 8th October 1885.

2. It will be observed that the provisions of the Tenancy Act include executive orders of three different kinds. Some matters are left to be dealt with in such a manner as the Local Government may from time to time direct. Such matters are not the subject of rules, and usually there is no legal obligation to publish the orders of Government regarding them in the official *Gazette*. In the next place, many sections of the Act refer to proceedings which are to be carried out in the "prescribed manner," or to notices which are to be prepared in the "prescribed form." In all these cases the law requires a publication in the official *Gazette*; but the matters need not be made the subject of rules, unless they concern the regulation of the procedure to be followed by Revenue Officers under the Act, or prescribe the manner in which notices are to be served. Lastly, there are certain matters which can only be dealt with by rules duly published under section 190 of the Act.

The distinction will perhaps be more clearly seen if we give an example of each class of cases. Under section 39 (1), Collectors are to prepare price lists of staple food-crops grown in such local areas as the Government may from time to time direct. An order defining these local areas is not a rule, and the Government is not required to publish it in the *Gazette*. Under section 13 (1) the purchaser of a permanent tenure is required to pay into Court the prescribed fee for service of the notice of sale on the landlord. The amount of the fee must be fixed by a notification published in the official *Gazette*; but no rule on the subject need be framed. Under section 61 (2) a deposit of rent must be accompanied by a fee of such amount as the Local Government, from time to time, by rule, directs. The amount of this fee must be notified under section 190, and cannot be finally fixed until one month after the date of the notification.

3. While recognizing these distinctions, we have found, in the process of framing rules, that it was not possible to preserve them and at the same time to make the rules self-explanatory and intelligible. For instance, a given procedure, in order to be practically effective, may have to be made up of directions falling under each and all of the classes indicated above, and to break it up into the various forms of rule and notification appropriate to those classes would make it difficult to understand and cumbersome to administer. We have therefore decided to bring together under each section all the instructions necessary for its enforcement, irrespective of the consideration whether the instructions are technically "rules" under the Act or not.

4. The sections of the Act under which the Local Government is required or empowered to make "rules" are the following:—

(*a*) Under section 39 (7)—rules for determining what are to be deemed staple food-crops in any local area, and for the guidance of officers preparing price lists.

(*b*) Under section 54 (2)—rules authorizing a tenant to pay his rent by postal money-order.

(*c*) Under section 51 (2)—rules prescribing the amount of the fee which must accompany a deposit of rent.

(*d*) Under section 80 (2)—rules respecting applications for the registration of landlords' improvements.

(*e*) Under section 82 (5)—rules for the appointment of assessors to estimate the compensation to be awarded for improvements.

(*f*) Under section 87 2)—rules regarding the manner of publishing a notice by the landlord that he has treated a holding as abandoned.

(*g*) Under section 92 (3)—rules declaring local standards of measurement.

(*h*) Under section 103—rules to enable a Revenue Officer to ascertain and record certain particulars with respect to an estate or tenure.

(*i*) Under section 107—rules to regulate the procedure of Revenue Officers engaged in the settlement of rents.

(*j*) Under section 118—rules to enable a Revenue Officer to ascertain and record whether land is or is not private land.

(*k*) Under section 134 (1)—rules to prescribe the charges to be levied as costs of distraint and sale of distrained property.

(*l*) Under section 189—rules to regulate the procedure to be followed by Revenue Officers under the Act, and to prescribe the mode of service of notices where no more is prescribed by law.

5. The accompanying draft will be found to contain no mention of rules under the headings (*b*), (*e*), and (*g*) of the preceding paragraph. It appears to us that the experiment of permitting rent to be paid by postal money-order may well be deferred till the plan of paying Government revenue through this agency has been found on trial to work successfully. With regard to section 52, it may be permitted to us to hope that cases of ejectment will be rare. It is probable, too, that the amount of compensation awardable in such cases will not ordinarily be very large. It seems to us a matter of some difficulty to specify in a rule the qualifications of persons whose assistance would be useful to the Court; and we are unwilling to add to the costs of the trial by prescribing a procedure which would involve an expenditure incommensurate with the amount of the compensation. If it should be found hereafter that the Courts experience a practical difficulty in the decision of these cases, and express a wish for the appointment of assessors, the question of making a rule may be further considered. The definition of local standards of measurement, under section 92 (3), is a matter which demands very careful previous enquiry; and the information at our disposal does not justify us in recommending that the Government should put forward any declaration on the subject at present. With these three exceptions, the draft we have prepared deals with all the matters in respect of which the Act contemplates the publication of rules by the Local Government.

6. Under section 39, we have given a list of local areas and of the marts at which price lists are to be prepared. The list of local areas is not, strictly speaking, a part of the rule; but there is a manifest convenience in treating it as such, and publishing it for general comment. The list of marts falls under sub-section (7), as an instruction for the guidance of officers engaged in the preparation of the price-lists. We have suggested a scheme for the determination of the staple food-crops, and for the preparation and publication of the lists. It will be observed that we propose that the prices shall be recorded on two market days during the month, and that the lists shall be published at the marts to which they refer, as well as at the revenue office, the Munsif's court, and the police stations.

7. Under section 80 (2), we have abbreviated and simplified the previous draft with a view to making the procedure for registration as short and inexpensive as possible. It was, we think, the intention of the law that the enquiry should be limited to the fact of the alleged improvement having been

actually and lawfully made, and we have modified the rules accordingly. We have also provided that a subordinate officer's refusal to register shall not be final until confirmed by the Collector.

8. The rules regarding the conduct of proceedings under Chapter X are of great importance, as they will not only apply to the survey and record of rights about to be taken in hand in Mozufferpore, but will also, in the majority of cases, form a code of instructions for the guidance of officers engaged in making settlements of land revenue in any of the districts to which the Act extends. We have accordingly recast these rules with great care; and we believe that, in their present form, they will be found sufficient for the objects which they have in view, and that they are also entirely consistent with the provisions of the Act.

9. The published rules of the Board of Revenue relating to settlements will have to be revised in accordance with the changes of the law introduced by the Act. When this revision has been made, the instructions contained in the Board's rules will be supplementary to the rules under the Act, it being manifestly impossible to frame the latter in such detail as to form a complete manual for the guidance of officers in every particular. We have accordingly provided that, in carrying out the rules under the Act, Revenue Officers shall have regard to the instructions issued by the Board of Revenue so far as they are consistent with the present rules, and that the Board's rules shall be followed where no other mode of procedure is prescribed.

10. The course of proceedings under Chapter X will, we understand, be of the following kind. The Local Government will appoint the Survey and Settlement Officers employed upon the work to perform such of the functions of Revenue Officers as are assigned to them by the rules under section 189 (1). The rules declare that all orders of Revenue Officers, passed in the discharge of any duty under the Act, shall be subject to the supervision and control of the Board of Revenue; and that the orders of each inferior Revenue Officer shall be subject to the supervision and control of the Revenue Officers to whom the Board may declare him to be subordinate. In this manner every Officer engaged in settlement operations will have the legal status of a Revenue Officer, while at the same time his action will be restricted to the particular duties which he is called upon to perform.

11. We have made numerous minor and verbal alterations in the draft rules as provisionally published, the particulars of which need not here be specified. We recommend that the rules, as now revised, should be published under section 190 of the Act.

The 27th October 1885.

NOTIFICATION.

BENGAL TENANCY ACT.

The 1st November 1885.—The following draft of Proposed Rules under the provisions of Act VIII of 1885 are published for general information, in conformity with section 190 of the Act, and it is hereby notified that the draft will be taken into consideration by the Government of Bengal on the 7th December 1885. Any objection or suggestion which may be made by any person with respect to the draft should be submitted to the Secretary to the Government of Bengal in the Revenue Department, Calcutta, before the date specified above.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

RULES UNDER THE BENGAL TENANCY ACT.

CHAPTER I.—GENERAL.

1. In carrying out the following rules Revenue Officers shall have regard to the instructions which have been issued, or which may hereafter be issued, by the Board of Revenue for the guidance of Revenue Officers subordinate to them, so far as such instructions are consistent with the rules herein prescribed under Act VIII, 1885.

2. All proceedings and orders of Revenue Officers, passed in the discharge of any duty imposed upon them by or under this Act, shall be subject to the supervision and control of the Board of Revenue. The orders of each inferior Revenue Officer under this Act, shall be subject to the supervision and control of the Revenue Officers to whom he may be declared by the Board of Revenue to be, for the purposes of the Act, subordinate.

3. Where no other mode of service of notice is prescribed under the Tenancy Act or any other Act under which proceedings are being taken, Revenue Officers shall cause notice to be served in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, if the notice is addressed to only one person, and if it is addressed to a number of persons occupying or owning land in the same village, the notice shall be served by proclamation and beat of drum in the village, and also by suspending it in the office where the rent is usually paid, or some conspicuous place in the village.

CHAPTER II.—STAPLE FOOD-CROPS AND PRICE LISTS.

1. *Section* 39 (1).*—The local areas under this section shall be those entered in Schedule II annexed to these rules, and the mart specified in the same schedule for each local area shall be that at which prices shall be recorded.

2. *Section* 39 (7).—The Collector, after such enquiry into the relative extent to which particular food-crops are grown in his district, as he may think necessary, shall report to the Board of Revenue what food-crops are most extensively grown in each local area, distinguishing, if necessary, staple food-crops grown on uplands from those grown on lowlands. The Board of Revenue shall submit this report to the Local Government. The Local Government, after considering the report, shall determine and notify in the *Calcutta Gazette* what shall be deemed staple food-crops in each local area.

3 Price lists of staple food-crops shall be prepared on two market days in the month at intervals of not less than ten days. Such market days shall be selected by the Collector, subject to the control of the Board of Revenue.

4. The price recorded for each staple food-crop shall be the prevailing retail price at which that crop was actually sold in the mart to which the price list refers on the days prescribed in the last preceding rule.

Price lists shall ordinarily be prepared by a gazetted officer not below the rank of a Sub-Deputy Collector. But in special cases where a Sub-Deputy Collector is not available, the Collector, with the sanction of the Commissioner, may authorize a canoongoe to prepare the lists

6. Every officer charged with the preparation of price lists shall keep a record showing—

(*a*) The date of his visit to the market, the prices in which are to be recorded;
(*b*) The names of vendors and purchasers, the quantities sold, and the prices thereof, for any sales effected in his presence.

7. When price lists are prepared at the sudder sub-division by an officer other than a Covenanted Deputy Collector, or the Senior Deputy Collector, or at other sub-divisions by an officer subordinate to the Sub-Divisional Officer, they shall be submitted to the Covenanted Deputy Collector, or the Senior Deputy Collector, or Sub-Divisional Officer as the case may be. Such officer shall scrutinize the lists; he may call for explanations and cause manifest errors to be corrected; and, having satisfied himself of the accuracy of the lists, he shall countersign them

* These references are in all cases to the sections of the Bengal Tenancy Act (Act VIII, 1885).

8. The price lists shall be published at the marts to which they respectively refer, at the Collector's or sub-divisional office, and at every police station and munsifi in the local area.

9. The lists shall then be submitted to the Board with any objections made to them, and with the opinions of the officers who prepared and countersigned them, and of the Collector, on such objections.

CHAPTER III.—LANDLORDS' IMPROVEMENTS.

1. *Section* 80.—An application for the registration of a landlord's improvement may be presented to the Collector of the district or to the officer in charge of the sub-division in which the land benefited by the improvement is situated, or to any Assistant or Deputy Collector who may be specially appointed by the Government to receive such application. It shall be in the form specified in Schedule I appended to these rules.

2. The officer receiving the application may, if he thinks fit, require the applicant to present as many copies of the application as there are tenants mentioned in column 7 of the application, or as there are villages mentioned in column 2, and he may, as the case may be, either forward by registered letter copies to the tenants whose names are specified, or may cause a copy to be fixed up in some conspicuous place in every such village. In either case he shall fix a date for hearing objections to the application, and shall cause that date to be notified to the parties concerned, either by entering it in the copies forwarded by registered letter or by proclaiming it by beat of drum in each village. The expenses of such service shall be borne by the applicant for registration.

3. The officer may make over the application to any of his subordinates, not being below the rank of a canoongoe, for local enquiry and report, and shall in that case fix a date for hearing the report, and shall cause such date to be notified to the parties concerned in the manner set forth in Rule 2. The enquiry shall be limited to the ascertainment of the fact whether the alleged improvement is of such a nature as to come within the meaning of section 76 (2) or not.

4. On the date so fixed, or on any date to which the proceedings may be adjourned, the officer shall hear summarily such of the parties and their witnesses as may attend, and shall consider any report submitted to him under Rule 3. He shall then decide whether the work is an improvement as defined in section 76 (2), and whether the landlord is entitled to register it, and shall accordingly order it to be registered or refuse registration.

5. Nothing hereinbefore contained shall preclude the officer receiving the application from holding a local enquiry in person, and from ordering the improvement to be registered, or refusing the registration in accordance with the result of the enquiry so held.

6. If an order refusing to register an improvement is passed by an officer lower in rank than the Collector of the district, such order shall not take effect until confirmed by the Collector of the district.

7. *Section* 81 (1).—Evidence relating to any improvement under this sub-section shall be recorded by the Revenue Officer specified in Rule 1 of this Chapter, who shall exercise the powers of a Civil Court in the trial of suits, and shall be guided by the provisions of sections 182 and 184 of the Civil Procedure Code.

CHAPTER IV.—RECORD OF PROPRIETORS' PRIVATE LANDS.

1. *Section* 118.—Applications under this section may be made to the Collector of the district, or to the officer in charge of the sub-division in which the land in question is situated, or to any Assistant or Deputy Collector specially empowered by Government to receive such applications. If the application is made to the Collector of the district, he may transfer it for disposal to any officer empowered to receive it.

2. An application shall contain the following particulars so far as the applicant is able to furnish them:—

(*a*) The name, towji number, and Government revenue of the estate.
(*b*) The names of the registered proprietors, and the share held by each.
(*c*) The specification of each plot of land referred to in the application, showing the village in which it is situated and the area and boundaries of each plot, if known.
(*d*) The names of the tenants (if any) in occupation of each such plot.
(*e*) Grounds of the application.

3. The application shall be signed and verified in the manner prescribed by section 51 of the Code of Civil Procedure.

4. On receipt of the application the officer shall make such inquiry as he may think fit by examining the applicant or his agent, and may call for further particulars before ordering further proceedings.

5. If the area of the lands has not been already recorded in a map made under the authority of Government, the officer shall order the lands to be measured, and shall estimate the cost of measurement in accordance with the rules for the time being in force for the measurement of lands in partition cases, and shall require the applicant to deposit the amount either at once or in such instalments as the officer may direct.

CHAPTER V.—SERVICE OF NOTICES.

1. *Sections* 12, 13, *and* 15.—Notices under these sections shall contain, so far as may be possible, the particulars given in the forms specified in Schedule I, and shall be served on the landlord or his agent, or, where two or more persons are joint landlords, on their common agent referred to in section 188, or on their common manager appointed under section 95 as the case may be, in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure. Where there is more than one landlord, and no common agent or common manager has been appointed, the notice shall be served by being posted in some conspicuous place on the tenure. When notice is served personally, the landlord's fee shall be tendered with the notice. If in cases of personal service a receipt cannot be obtained for the fee from the landlord or his agent, and in all cases when the notice is not served personally, the fee shall be held in deposit by the Collector until applied for by the person or persons authorized to receive it.

2. *Section* 45.—Notice to a raiyat to quit under this section shall be served through the Collector* in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, and shall be subject to the same process fee.

*Criticism is invited on an alternative proposal to serve this notice through the Court having jurisdiction to entertain a suit for ejectment from the holding. It has been suggested that this alternative mode of service would simplify proof of service.

3. *Section* 46 (2).—The agreement under this section shall be filed in the Court having jurisdiction to entertain a suit for arrears of rent of the holding, and shall be served on the raiyat in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, and shall be subject to the same process fee

4. *Section* 46 (4).—The notice under this section shall be filed in the Court having jurisdiction to entertain a suit for arrears of rent of the holding, and shall be served on the landlord in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, and shall be subject to the same process fee.

5. *Section* 63 (2).—In cases (*a*), (*b*), and (*d*) of section 61 herein referred to, the notice of the receipt of the deposit shall be served by forwarding the notice by post in a letter registered under Part III of the Indian Post Office Act, 1866, or, where the Court may deem it necessary, in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure.

6 *Section* 72 (2).—The general notice referred to in this sub-section may be published by the transferee by fixing up a written notice to the tenants in the village office or in some conspicuous place on the lands, and by proclaiming to the tenants by beat of drum, in every village to which the transfer extends, that the interest of the former landlord has passed to the transferee. The transferee may, if he thinks fit, apply for service of the notice to the Civil Court having jurisdiction to entertain a suit for arrears of rent of the holding, and the Court shall thereupon serve the notice as hereinbefore prescribed on payment of a process fee of Re. 1 for each village to which the transfer extends.

7. *Section* 73.—Notice under this section shall be in writing, and shall be delivered to the landlord or his agent, or, where two or more persons are joint landlords, to their common agent referred to in section 188, or to their common manager appointed under section 95, as the case may be, at the landlord's village office, or at such other convenient place as may be appointed by the landlord for the payment of rent under sub-section (2) of section 54

8. The raiyat may, if he thinks fit, cause the notice to be served through the Civil Court having jurisdiction to entertain a suit for arrears of rent of the holding in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, and subject to the same process fee.

9. *Section* 86 (4).—The notice of surrender to the landlord by the tenant under this sub-section shall be served in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, and shall be subject to the same process fee.

10. *Section* 87.—A notice of the tenant's abandonment of his holding under sub-section (2) of this section shall be in the form specified in Schedule I, shall be published by beat of drum upon the holding alleged to be abandoned, and a copy thereof shall be affixed to some dwelling-house, or tree, or other conspicuous object upon the holding. The fee payable by the landlord shall be Re. 1.

11. *Section* 155.—Notice of ejectment to the tenant under this section shall be filed in the Court having jurisdiction to entertain a suit for arrears of rent of the holding, and shall be served in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, and shall be subject to the same process fee.

CHAPTER VI.—RECORD OF RIGHTS AND SETTLEMENT OF RENTS.

Powers of Revenue Officers.

1. All Revenue Officers appointed to be Settlement Officers or Assistant Settlement Officers for the purpose of making surveys, records of rights, and settlement of rents under the Tenancy Act are hereby vested with all powers exercised by a Civil Court in the trial of suits, and with the powers mentioned in section 189 (1) (*b*) and (*c*) of the Tenancy Act, VIII of 1885.

Procedure for Cadastral Survey and Record of Rights.

2. The following processes will ordinarily be comprised in a cadastral survey and record of rights:—

I.—Demarcation of boundaries.

II.—Measurement.

III.—Testing of measurement.

IV.—Record of rents and rights.

V.—Determination of fair rents on application, and, in certain cases, without application, of parties.

3. All disputed entries shall be shown in red ink, and undisputed entries in black ink.

Demarcation of Boundaries before Cadastral Survey.

4 The demarcation of village boundaries shall be carried out by a Deputy Collector or Sub-Deputy Collector in accordance with the definition of a village given in section 3 (10), and the boundary according to possession, where different from that demarcated as above, shall also be shown on the map.

5. Boundary pillars of a permanent nature shall be erected at every point where the boundaries of three or more villages meet, and may be erected wherever the Revenue Officer considers it necessary to define by pillars the boundaries of estates or tenures or of lands which have been the subject of dispute.

Measurement.

6. A field map of every village shall be prepared. It shall show the boundaries of every field separately assessed to rent, or of such plot of land as the Board of Revenue may from time to time direct by general or special order.

7. A field register or khasrah shall be prepared at the time of survey in the form annexed (I), or such similar form as the Board of Revenue may from time to time direct, with reference to any order which may be made under section 101 (1).

8. The Board of Revenue shall from time to time issue such instructions, consistent with these rules, as they may deem necessary for the guidance of officers in preparing the khasrah.

FORM OF KHASRAH I.

NOTE.—(1) The heading of columns 10 and 11 will for khatians of under-raiyats be changed to "according to raiyat," and "according to under-raiyat."
(2) For raiyat and under-raiyat will be substituted tenure-holder and undertenure-holder in case of tenure-holder's khatians.

11. The record of right shall consist of and be contained in—

I.—The khewat.

II.—The khatians or abstracts of particulars of raiyats' holdings.

Rights of Proprietors and Tenure-holders.

12. The khewat shall contain—

(*a*).—A record of the character and extent of proprietary interests as entered in the Collector's register under the Land Registration Act, VII (B.C.) of 1876.

(*b*).—A record of the particulars specified in section 102 or in any order that may be issued under section 101(1) regarding tenures.

13. The khewat will be prepared in the following manner :—

(*a*).—An extract from the Collector's Registers A, B, C, D, framed under the Land Registration Act, VII (B.C.) of 1876, containing the names, extent, and character of the interests of proprietors of all revenue-paying and revenue-free lands comprised within the mouzah, shall be supplied by the Collector of the district to the Revenue-officer on the latter's application.

(*b*).—If the Revenue-officer finds that the proprietary interests existing in the village are in accordance with the entries regarding extent and character of proprietary interests as given in the Collector's registers, he shall have the entries copied into the khewat, which will form the record of proprietary and proprietary-mortgagees' interests for the purposes of the record of rights under the Tenancy Act. The extracts from the Collector's land revenue registers will also show the names and proprietary interests of managers and mortgagees of all revenue-free property within the village.

(*c*).—If any person claiming as proprietor or as assignee or mortgagee of an alleged proprietor deny the accuracy of the khewat as copied from the Collector's registers, the Revenue-officer shall refer him to the Collector of the district, and shall also report the fact to the Collector in order that action may, if necessary, be taken under the Land Registration Act, to compel registration of the proprietor's name.

(*d*).—In any proceeding under Chapter X, the Revenue-officer may, at his discretion, recognise as proprietor the person in possession of the land pending the registration of his name and interest under the Land Registration Act.

(*e*).—The record of the rights of tenure-holders and undertenure-holders shall be prepared in the same way as the record of raiyats' rights, or in such other manner, not being inconsistent with those rules, as the Board of Revenue may direct.

Rights of Raiyats and Under-Raiyats.

14 The record of raiyats' and under-raiyats' rights shall be prepared in the manner hereinafter described:—

15 As soon as possible after the completion of the field measurements of each village, the following papers shall be made over to the Revenue-officer:—

(1) The map. | The amin's khasrah. | (3) The khatian.

16. On receipt of these papers, the Revenue-officer shall depute one of his subordinates to the village with a copy of the map and khatians, with instructions to explain the entries to all parties concerned. The Revenue-officer shall fix and notify a period which shall not be less than fifteen days after which applications for the settlement of fair rents will not be received. Such notice shall be given by proclamation and beat of drum in the village in which the land is situated, and shall also be suspended in some conspicuous place in the village. He shall also notify his intention to come to some specified place at or near the village on a specified date within that period, for the purpose of framing the record of rights and settling rents, and he shall call on all persons interested to attend there on that date, and on any other dates to which the proceedings may be adjourned. On arriving at the place specified, he will there cause the raiyats, under-raiyats, and landlords, or there authorized agents, to assemble.

17. The entries recorded by the amin in each raiyat's khatian at the time of measurement shall then be read out in presence of such of the interested parties as are in attendance.

18. If the correctness of the entries recorded by the amin be disputed, the Revenue-officer shall settle the dispute by local enquiry or otherwise: Provided that if the correctness of the measurement is called in question, and a fresh measurement demanded, the Revenue-officer may require the costs of the re-measurement to be deposited. If the re-measurement show the original measurement to have been inaccurate, the amount deposited shall be refunded to the objector.

19. The Revenue-officer shall then summarily ascertain and record in column 12 of the khatian the amount of each raiyat's present rent.

20. The Revenue-officer shall ascertain from the raiyats which (if any) of them claim the right to hold at fixed rates, explaining, as far as may be necessary, the provisions of the Act in this respect. If the right claimed is disputed by the landlord, the Revenue-officer shall call on the claimants for proof of such right.

21. The Revenue-officer shall ascertain which of the raiyats are settled raiyats or occupancy raiyats, as the case may be, and shall record them as such in column 14 of the khatian.

22. The Revenue-officer shall obtain from the landlord or his agent a statement showing the names of the raiyats alleged by him to be non-occupancy raiyats. He shall explain to the raiyats whose names are entered in the statement the nature of the presumption raised by section 20 (7). If after such explanation a raiyat admits himself to be a non-occupancy raiyat, he shall be recorded as such. If he does not admit himself to be a non-occupancy raiyat, the Revenue-officer shall call on the landlord to prove the allegation made by him in regard to such raiyat.

Determination of Proprietor's private lands,—Nij-jote, Sir, Zerat, or Khamar.

23. Only land which is proprietor's private land, as defined in section 120 of the Tenancy Act, will be entered as such. Land which, though cultivated by the proprietor, is not proprietor's private land within the meaning of the law, will be entered thus—"Cultivated by the proprietor, but not private land." Separate khatians should be prepared for such land and for "Proprietor's private land."

Record of Rents payable.

24. Abwabs will not be recorded with, nor entered as forming part of, the existing rent. Cesses which are authorized by law will be recorded in column 12 (*b*).

25. The record of rents payable will be contained in the *khatians*. The existing rents summarily ascertained by the Revenue-officer under Rule 19 will be recorded as the rents payable, except in cases when proceedings for settlement of fair rents and proceedings for decision of disputes under section 106 are necessary. In such cases the fair rent, when settled, shall be recorded in column 13 of the *khatian* as the rent payable.

26. In proceedings for the settlement of fair rents, if the landlord applies for a settlement of a fair rent, he shall be considered as plaintiff and the tenant as defendant, and the proceeding shall be dealt with as a suit under the Tenancy Act. If the tenant applies for the settlement of a fair rent, he shall be considered as plaintiff and the landlord as defendant, and the proceeding shall be dealt with as a suit under the Tenancy Act.

27. In settling rents, the existing rent being presumed under section 104 (clause 3) to be fair till the contrary is proved, if the landlord claims an enhancement, he will have to prove the grounds of and amount of enhancement claimable in accordance with the law; and if a raiyat claims a reduction, he will similarly have to prove the grounds of reduction. Such cases shall be dealt with as suits in accordance with the rules prescribed for the guidance of officers acting under section 107 of the Tenancy Act.

28. When it appears that the tenant is holding land in excess of or less than that for which he is paying rent, and neither the landlord nor the tenant applies for a settlement of rent, the Revenue-officer shall notify to the landlord and tenants, in the form specified in Schedule I annexed to these rules, his intention to settle rents at a future date, which shall not be less than fifteen days after the date of such notification, and he shall call upon them to appear before him on the date specified and on any subsequent dates to which the proceedings may be adjourned, and to state any objection they may have to urge against the existing rent being recorded as the fair and equitable rent. Such notice shall be given by proclamation and beat of drum in the village in which the land is situated, and shall also be suspended in some conspicuous place in the village, and it shall be given to the landlord by service, if practicable, on himself or his agent, or manager in the village.

If neither the landlord nor tenant attend on the date specified in the notice, or on any subsequent date to which the proceedings may be adjourned, the existing rent shall be recorded as the fair rent in respect of the land held by the tenant.

If the landlord attend and claim an enhancement on the existing rent, he shall be considered as plaintiff and the tenant as defendant, and the proceeding shall be dealt with as a suit under the Tenancy Act.

If the tenant attend and claim a reduction, he shall be considered as plaintiff and the landlord as defendant, and the proceeding shall be dealt with as a suit under the Tenancy Act.

29 Where the estate or tenure belongs to or is managed by the Government or the Court of Wards, the procedure laid down in the preceding rules for the settlement of rents and for proceedings under section 106 shall be followed, the Government or the manager of the estate or tenure respectively, as the case may be, being regarded as the landlord.

30. With the consent of the Revenue-officer, any number of tenants occupying land under the same landlord, in the same village or estate, may make a joint application for the settlement of rents, or may be joined as defendants in the same proceeding on a similar application by the landlord: Provided that if at any time it shall appear to the Revenue-officer that the question between any two of the parties of whom one is so joined with others cannot conveniently be so jointly tried, he may order a separate trial to be held of that question.

31. In proceedings under section 106, when a dispute arises before the final publication of the record regarding the correctness of an entry (not being an entry of rents settled under Chapter X) or as to the propriety of any omission, notice of the objection shall be served on all persons whose interests may, in the opinion of the Revenue-officer, be affected thereby, and they shall be called upon to attend at such time and place as the Revenue-officer may fix for the disposal of the objection. If any person attends and contests the objection, the proceeding shall be dealt with as a suit between the parties under the Tenancy Act, in which the objector shall be plaintiff and the other parties defendants. If no person attends to contest the objection, the record may be amended accordingly or the person who made the objection may, if the Revenue-officer thinks fit, be called upon to produce evidence in support of his objection, which may in that case be heard and decided as a suit *ex parte* under the Tenancy Act.

Publication of the Record.

32. When the record of rights and rents has been prepared in the manner described in these rules, the Revenue-officer shall cause a draft of it to be posted at the landlord's village office, if there be one, and, if not, in some conspicuous place in the village, for one month, and shall receive and consider any objections which may be made to any entry therein during this period.

33. When all applications for settling a fair rent, and all disputes under section 106, have been decided by the Revenue-officer, he shall finally frame the record and cause it to be published by having it posted in the landlord's village office, or in some conspicuous place in the village.

Supply of Copies of the Record of Rights to parties interested.

34. The Revenue-officer having completed the record, shall cause copies of it to be made, one of which will be made over to the proprietor of the village or, where there are more proprietors than one, to their common agent or common manager, as the case may be, one to the village patwari, if there be a patwari, one to the Collector or Sub-divisional Officer.

35. A copy of the khatian relating to his tenancy shall be given to every tenant under the signature and seal of the Revenue officer.

Final Reports.

36. The Local Government may, if it thinks fit, direct that a final report be written in English for each village and each local area under survey. The report for the village will show—

(*a*).—The number of tenants of each class.

(*b*).—The area and classification of the village lands according (*a*) to survey and settlement; (*b*) to landlord's jamabandi, if known.

(*c*).—The rental according to settlement, and according to landlord's jamabandi, with explanation of increase or decrease, amount of Government revenue, and comparison of rent with revenue.

(*d*).—The rates of rent prevailing, with history of past enhancements.

(*e*).—Proximity to markets.

(*f*).—Facilities for irrigation.

(*g*).—Village customs, including customs as to payment of village officials.

(*h*).—Arrangements made for maintenance of records.

(*i*).—Other matters deserving of notice which have been excluded from the record of rights.

The report for the whole area under survey will contain the following particulars:—

I.—General description of the tract.

II.—Its fiscal history.

III.—Statistical results.

IV.—Comparison of condition of tract as regards rentals before and after survey.

V.—Financial results, including approximate division of expenses under the heads—

(*a*).—Survey.

(*b*).—Record of rights.

(*c*).—Preparation and distribution of records.

These reports shall not form part of the record.

Applications by Proprietors for Survey and Record of Rights.

37. *Section* 103.—Applications under this section shall be made to the Collector of the district.

38. The application shall specify—

(*a*).—The status of the applicant, viz. whether he is a proprietor or a tenure-holder, and the particulars in respect of which the application is made

(*b*).—The number of tenants (so far as the applicant is able to state it) occupying the estate or tenure, or part thereof in respect of which the application is made, the total rent payable by them at the time, and the estimated area covered by the application.

39. If the application is made by a proprietor, it shall not be admitted unless the name of the applicant and the extent of his interest are registered under Act VII (B.C.) of 1876.

40. On receipt of the application the Collector shall forward it to the Commissioner with any remarks which he may think necessary.

41. The Commissioner may call for further information, or may require the application to be amended.

42. If the Commissioner shall have reason to believe that the number of tenants affected by the application does not exceed 200, and that the rent payable by them at the time the application is made does not exceed Rs. 1,000, he shall pass an order allowing or rejecting the application; but otherwise he shall forward the application with an expression of his opinion for the orders of the Board of Revenue.

43. A Commissioner rejecting an application shall record his reasons for doing so, and the applicant, if dissatisfied with the order, may appeal within one month to the Board of Revenue.

44. When an application is referred to the Board under Rule 6, or in consequence of an appeal under Rule 7, the Board shall pass such orders as it may think fit for allowing or rejecting the application.

45. The Commissioner or the Board, as the case may be, when allowing an application shall specify the Revenue-officer or officers by whom the record is to be prepared.

46. As soon as an application is allowed, the Collector shall call upon the applicant to deposit the expenses at the rate of eight annas per acre for the estimated area in respect of which the application has been allowed. If the Collector is unable to estimate the area, he shall calculate the expenses at the rate of Rs. 2 per each tenant. If the amount does

not exceed Rs. 500, the applicant must deposit the whole amount in advance. If it exceeds Rs. 500, the applicant shall deposit the sum of Rs. 500, and shall give such security as the Collector may require for the balance. The applicant shall from time to time deposit such further sum as may be necessary for carrying on the operations. On completion of the proceedings, any unexpended balance shall be refunded to the applicant.

47. In conducting the operations, the Revenue-officer shall proceed in accordance with the rules for the guidance of officers acting under orders made under section 101.

CHAPTER VII.—GENERAL SCALE OF FEES.

1. *For service of Notices.*—For the service of every notice under this Act directed to one or more persons residing in the same village, a process fee of 12 annas shall be levied.

2. Where notices are directed to several persons resident in different villages, a fee of 12 annas shall be levied for service in each village.

3. In addition to the above fee, the actual charge which must be incurred, if it is necessary to travel by railway or boat, or cross ferries, will be levied from and paid by the person at whose instance the process is issued before issue of the process. If a peon carries more than one process involving charges for railway-fare, boat-hire, &c., the sum leviable will be charged in equal shares upon all the processes so carried. The rates at which such boat-hire is to be charged shall be the same as those fixed for criminal processes under Rule VII of the rules prescribed by the High Court under clause 2, section 20, Act VII of 1870, and shall be sufficient only to cover, on the whole, the actual cost of hiring boats, or of such boat establishment as it may be necessary to maintain for the purpose of serving processes of these classes.

4. If a peon is detained at the place of service for more than 24 hours at the request of the person at whose instance the process was issued, or of his agent, such person or agent must then and there pay demurrage at the rate of 5 annas a day. Unless this demurrage is paid, the peon must decline to wait. No demurrage is to be charged if the delay was not due to the person requiring the process or to his agent.

5. *For deposits of Rent.*—For deposits of rent under section 61 (2), 4 annas for every such deposit of Rs. 25 or less, with an additional 4 annas for every Rs. 25 or part of Rs. 25 in excess: Provided that in no case shall the fee exceed the sum of Rs. 5.

6. *For distraint of Crops.*—The following scale of charges is prescribed on account of processes for distraint and sale under the Bengal Tenancy Act:—

(*a*).—In respect of the warrant of distraint—8 annas.

(*b*).—In respect of each man necessary to effect the distraint and also to ensure safe custody, where such man is to be left in actual possession—4 annas a day.

(*c*).—In respect of action taken under section 126 (clause 2) for the reaping, storing, or preservation of the crop distrained—4 annas a day for every person employed, and in addition actual hire of threshing floor or store-house, if necessary.

In addition to the charges under clauses (*a*), (*b*), and (*c*) above, railway-fare, boat-hire, and ferry charges will be levied when necessary as under Rule 3 of this Chapter.

SCHEDULE I.

NOTICE UNDER SECTION 12, ACT VIII OF 1885.

To

THE COLLECTOR OF

LET this notice be served on A.B., resident of , as required by section 12 Act VIII of 1885. The landlord's fee of Rs. with process fee of Rs. is forwarded herewith.

C.D.,

Registering Officer.

To

A.B., RESIDENT OF

TAKE notice that the transfer of the tenure* specified below, of which you are alleged to be the landlord, has been registered, and that the landlord's fee of Rs. is tendered to you herewith.

* Or raiyati holding at fixed rates.

NOTIFICATION.

The 4th November 1885.—Under section 392 of Act XIV of 1882, the Lieutenant-Governor has been pleased to make the following rules as to the persons to whom commissions shall be issued under the Bengal Tenancy Act :—

Whenever, under sections 31 (*b*) and 158 (2) of the Bengal Tenancy Act, a Court directs that a local enquiry be held under Chapter XXV of the Code of Civil Procedure, the commission shall be issued to such person, not being below the rank of an Assistant or Deputy Collector, as the Collector of the district may from time to time select for the purpose.

The Court shall issue a precept to the Collector, requiring him forthwith to nominate a fit person as above to conduct the enquiry, and the commission shall be issued to the person so nominated.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th November 1885.—Under the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order that a survey shall be made, and a record of rights prepared, in respect of all lands included within the external boundaries of pergunnah Gudeaswar and Tuppehs Chukla Nye and Butsaleh in the district of Mozufferpore.

The particulars to be recorded in the survey and record of rights shall be the following :—

The name of each proprietor, with the character and extent of his interest.

The situation, quantity, and boundaries of proprietors' private lands, as defined in Chapter XI of the Act.

The name of each tenant.

The class to which he belongs: that is to say, whether he is a tenure-holder, raiyat holding at fixed rates occupancy-raiyat, non-occupancy raiyat or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

The situation, quantity, and boundaries of the land held by him.

The name of his landlord.

The rent payable.

The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.

If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

The special conditions, and incidents, if any, of the tenancy.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

REVENUE (FORESTS) DEPARTMENT.

The 30th October 1885.—Mr. C. A. G. Lillingston, Assistant Conservator of Forests, Palamow Forest sub-division, is allowed leave for six days, under sections 71 to 74, chapter V of the Civil Leave Code, in extension of the leave granted to him under orders of the 11th June 1885.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th October 1885.—The Lieutenant-Governor is pleased to declare, under the provisions of section 26 of the Indian Forest Act (VII of 1878), and with the previous sanction of the Governor-General in Council, that the area specified below, which, in the notification of the 17th June 1881, published at page 629 of the *Calcutta Gazette* of the 22nd June 1881, was declared to be reserved forest under section 19 of that Act, as forming part of the reserved forest then so declared under the name of the "Teesta Chel Range," shall cease to be reserved forest from this date. The area in question is made over to the charge of the Deputy Commissioner of Darjeeling for settlement under orders of Government.

A piece of land measuring, more or less, 2 1 acres, demarcated by masonry pillars, separating it on all sides from the Leesh forest reserve, which forms part of the Chel Range, Teesta Forest sub-division, and is situated in the Dumsong sub-division of the Darjeeling district.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 29th October 1885.—The following revised rules for the working of the Indian Treasure Trove Act (VI of 1878) have been approved by the Lieutenant-Governor, and are hereby published under section 19 of the said Act for general information, in modification of those published at page 1223 of the *Calcutta Gazette* of the 20th November 1878 :—

1. The notification under section 5 (*a*) shall be published at the Collector's cutcherry, sub-divisional cutcherry, Munsif's cutcherry and police station within the jurisdiction of which the treasure was found, and at some conspicuous spot in the village in which it was found.

2. On receipt of any application under section 4, or on receipt of information from any person other than the finder that treasure has been found, the Collector shall report the fact to the Commissioner, stating—

(1) name of finder;
(2) nature of treasure, and number of coins, if any;
(3) approximate value;
(4) date of finding;
(5) whether the treasure, being coin, has been acquired under section 16, or whether it is recommended that Government should acquire the treasure.

A copy of this report shall be sent to the Asiatic Society at Calcutta for information.

3. In the case of information being given by a person other than the finder, the Collector shall issue a notice under section 5 (*b*) of the Act on the person informed against to show cause why he should not be prosecuted for not giving the required notice; and in the event of no cause being shown, the Collector shall take such further action as may seem expedient.

4. All notices under section 5 shall be served at the cost of Government.

5. On receipt of the Collector's report, the Commissioner will, if he thinks the property ought to be acquired by Government, report the case for the orders of the Board of Revenue. This rule does not apply to cases where *coins* are the property found.

6. Collectors shall *ordinarily* acquire, under section 16 of the Act (without its being necessary for them to obtain the sanction of higher authority) the whole of any coins found, whether gold, silver, or copper, that appear to be old and not of British mintage.

Explanation.—These include coins struck at Calcutta, Moorshedabad, Benares, Surat, Arcot, in the name of Shah Alum, dated 19th Juloos.

7. If for any special reasons, such as the largeness of the quantity found, or the coins being known to be of merely metal value, the Collector considers it unnecessary to acquire the whole of the coins found, he shall, in the report mentioned in rule 2 above, state (sixthly) why he considers that the whole of the coins found need not be acquired on behalf of Government.

8. On receipt of the report, the Commissioner, if he thinks that the whole of the coins found should not be acquired, shall report the case for the orders of Government.

9. Coins acquired under section 16 of the Act shall be sent to the Asiatic Society at Calcutta, and the Society shall report to this Government the number and nature of the coins, and their probable numismatic value.

10. Collectors are empowered to purchase, otherwise than when proceeding under the provisions of the Treasure Trove Act, any coins of the age and description stated in rule 8 above, when they are less than Rs. 10 in value, on payment of a sum equal to the value of the materials of the coins, together with one-fifth of such value. Coins so purchased shall be treated in the manner described in the last section.

11. All fines levied under this Act shall be credited to Land Revenue, "Miscellaneous," and any treasure which vests in Government under section 20 or 21 shall, unless it be such as it is thought advisable for Government to retain, be sold by public auction to the highest bidder under the orders of the Commissioner, and the proceeds be credited to the above head.

12. All Commissioners and Collectors should append a paragraph to their land revenue annual reports stating whether any applications have been presented during the year under report under section 4, or any proceedings taken before the Magistrate under section 20 or 21, or under rule 10 above.

A. P. MACDONNELL.
Secretary to the Govt. of Bengal.

SCHEDULE.

[48 & 49 VICT. c. 49.]

An Act to carry into effect an International Convention for the Protection of Submarine Telegraph Cables. [6*th August* 1885.]

Be it enacted by the Queen's most excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows—

Short title.

1. This Act may be cited as the "Submarine Telegraph Act, 1885."

Confirmation of Convention.

2. The Convention of the fourteenth of March one thousand eight hundred and eighty-four, mentioned in the schedule to this Act as set forth in that schedule, is hereby confirmed, and subject to the provisions of this Act, the articles of such Convention (referred to in this Act as the Convention) shall be of the same force as if they were enacted in the body of this Act.

Punishment for violation of Article two of Convention.

3. (*1*) A person shall not unlawfully and wilfully, or by culpable negligence, break or injure any submarine cable to which the Convention for the time being applies, in such manner as might interrupt or obstruct, in whole or in part, telegraphic communication.

(*2*) Any person who acts or attempts to act in contravention of this section shall be guilty of a misdemeanour, and on conviction—

(*a*) if he acted wilfully, shall be liable to penal servitude for a term not exceeding five years, or to imprisonment, with or without hard labour, for a term not exceeding two years and to a fine, either in lieu of or in addition to such penal servitude or imprisonment; and

(*b*) if he acted by culpable negligence, shall be liable to imprisonment for a term not exceeding three months, without hard labour, and to a fine not exceeding one hundred pounds, either in lieu of or in addition to such imprisonment.

(*3*) Where a person does any act with the object of preserving the life or limb of himself or of any other person, or of preserving the vessel to which he belongs or any other vessel, and takes all reasonable precautions to avoid injury to a submarine cable, such person shall not be deemed to have acted unlawfully and wilfully within the meaning of this section.

(*4*) A person shall not be deemed to have unlawfully and wilfully broken or injured any submarine cable, where in the *bonâ fide* attempt to repair another submarine cable injury has been done to such first-mentioned cable, or the same has been broken; but this shall not apply so as to exempt such person from any liability under this Act or otherwise to pay the cost of repairing such breakage or injury.

(*5*) Any person who within or (being a subject of Her Majesty) without Her Majesty's dominions in any manner procures, counsels, aids, abets, or is accessory to the commission of any offence under this section, shall be guilty of a misdemeanour, and shall be liable to be tried and punished for the offence as if he had been guilty as a principal.

Limitation of Article four of Convention.

4. Article four of the schedule to this Act shall not apply to that part of a cable which is laid in a depth of water exceeding one hundred fathoms; but nothing in the Convention or this Act shall take away, prejudice, or affect any right or remedy to which by law any party is or may be entitled otherwise than under the provisions of the Convention or this Act.

Application of law as to lights and signals for carrying into effect Articles five and six of Convention.

5. (*1*) It is hereby declared that the enactments of the Merchant Shipping Act, 1862, and the enactments amending the same, touching regulations as to lights and to signals and for the avoiding of collisions, shall extend to authorise regulations for carrying into effect Articles five and six of the schedule to this Act, within as well as without the territorial waters of Her Majesty's dominions, and reglations may be made, applied, altered, and revoked, and the contravention thereof punished accordingly under the said enactments; and section six of the Sea Fisheries Act, 1883, shall extend to the enforcement of the said regulations as regards sea fishing boats within the limits of that Act.

(*2*) If any vessel engaged in the laying or repairing of a submarine cable to which the Convention for the time being applies, interferes contrary to the said regulations or articles with any vessel engaged in fishing, or if the operations of any vessel in connection with any such submarine cable are wilfully delayed so as to interfere with sea fishing, the master of the vessel, or the owner thereof, if it appear that he was in fault, shall be deemed guilty of a breach of the said regulations, and may be punished accordingly.

Powers of British and foreign officers.

6. (*1*) For the purpose of carrying into effect the Convention, a person commanding a ship of war of Her Majesty or of any foreign State for the time being bound by the Convention, or a ship specially commissioned for the purpose of the Convention by Her Majesty or by the Government of such foreign State, may exercise and perform the powers and duties vested in and imposed on such officer by any article in the schedule to this Act.

(2) If any person obstructs any such officer in such exercise or performance, or refuses or neglects to comply with any demand or direction lawfully made or given by him in pursuance of this Act, such person shall be liable, on summary conviction, to a fine not exceeding fifty pounds, or to be imprisoned for a term not exceeding two months, with or without hard labour.

(3) Any action, prosecution or proceeding against any officer for any act done in pursuance or execution or intended execution of this Act, or in respect of any alleged neglect or default in the execution of this Act, shall not lie or be instituted unless it is commenced within twelve months next after the act, neglect or default complained of.

(4) In any such action tender of amends before the action was commenced may, in lieu of or in addition to any other plea, be pleaded. If the action was commenced after such tender, or is proceeded with after payment into court of any money in satisfaction of the plaintiff's claim, and the plaintiff does not recover more than the sum tendered or paid, he shall not recover any costs incurrd after such tender or payment, and the defendants shall be entitled to costs, to be taxed as between solicitor and client, as from the time of such tender or payment.

(5). Every such action shall be brought in one of Her Majesty's superior courts in the United Kingdom (which courts shall have jurisdiction to try the same wherever the matter complained of occurred) or in a supreme court in India or in a court exercising in a British possession the like authority as the High Court of Justice in England, but in no other court whatsoever.

Incorporation of Part X of 17 and 18 Vict. c. 104.

7. Part X of the Merchant Shipping Act, 1854 (which relates to legal procedure), and the enactments amending the same, so far as unrepealed, shall have effect as if enacted in this Act; and offences under this Act may be tried, and fines under this Act recovered accordingly, save that nothing in the said Part shall authorise the award of any punishment not authorised by this Act, or the summary prosecution of any indictable offence under this Act.

Evidence.

8. (1) Any document drawn up in pursuance of Article seven or Article ten of the schedule to this Act shall be admissible in any proceeding, civil or criminal, as *primâ facie* evidence of the facts or matters therein stated.

(2) If evidence contained in any such document was taken on oath in the presence of the person charged in such evidence, and such person had an opportunity of cross-examining the person giving such evidence and of making his reply to such evidence, the officer drawing up such document may certify the said facts or any of them.

(3) Any document or certificate in this section mentioned purporting to be signed by an officer authorised to act under the schedule to this Act for carrying into effect the Convention, shall be admissible in evidence without proof of such signature, and, if purporting to be signed by any other person, shall, if certified by any such officer to have been so signed be deemed, until the contrary is proved, to have been signed by such other person.

(4) If any person forges the signature of any such officer to any such document as above mentioned, or makes use of any such document knowing the signature thereto be forged, such person shall be guilty of a misdemeanour and liable on summary conviction to imprisonment for a term not exceeding three months with or without hard labour, and on conviction on indictment to imprisonment with or without hard labour for a term not exceeding two years.

Liability of masters of vessels.

9. Where any offence against this Act has been committed by means of a vessel, or of any boat belonging to a vessel, the master of such vessel shall, until some other person is shewn to have been in charge of and navigating such vessel or boat, be deemed to have been in charge of and navigating the same, and be liable to be punished accordingly.

Savings.

10. The provisions of this Act shall be in addition to and not in derogation of any other provisions existing at common law or under Act of Parliament or under the law of a British possession for the protection of submarine cables; and nothing in this Act shall prevent any person being liable under any Act of Parliament, law of a British possession, or otherwise to any indictment, proceeding, punishment or penalty other than is provided for any offence by this Act, so that no person shall be punished twice for the same offence; and nothing in this Act, nor any proceedings with respect to any matter, shall exempt a person from any liability in any action or suit with reference to the same matter, so that no person shall be required to pay compensation twice in respect of the same injury.

Extent of Act.

11. This Act shall, so far as such extension is consistent with the tenor of this Act, extend to the whole of Her Majesty's dominions, and to all places within the jurisdiction of the Admiral of England and to all places where Her Majesty has jurisdiction.

Definitions.

12. In this Act, unless the context otherwise requires—

The expression "vessel" means every description of vessel used in navigation in whatever way it is propelled; and any reference to a vessel shall include a reference to a boat belonging to such vessel:

The expression "master" includes every person having command or charge of a vessel:

The expression "British possession" includes any part of Her Majesty's dominions exclusive of the United Kingdom:

The expression "person" includes a body of persons corporate or unincorporate.

Commencement and continuance of Act.

13. This Act shall come into force on such day as may be fixed by a notice in that behalf published in the *London Gazette*, and if the Convention ceases to be binding on Her Majesty, shall cease to be of any effect.

SCHEDULE.

SUBMARINE TELEGRAPHS CONVENTION.

CONVENTION for the preservation of telegraphic communications by means of submarine telegraphs made on the 14th of March 1884, between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, His Majesty the German Emperor, King of Prussia, His Excellency the President of the Argentine Confederation, His Majesty the Emperor of Austria, King of Bohemia, &c., and Apostolic King of Hungary, His Majesty the King of the Belgians, His Majesty the Emperor of Brazil, His Excellency the President of the Republic of Costa Rica, His Majesty the King of Denmark His Excellency the President of the Dominican Republic, His Majesty the King of Spain, His Excellency the President of the United States of America, His Excellency the President of the United States of Colombia, His Excellency the President of the French Republic, His Excellency the President of the Republic of Guatemala, His Majesty the King of the Hellenes, His Majesty the King of Italy, His Majesty the Emperor of the Ottomans, His Majesty the King of the Netherlands, Grand Duke of Luxemburg, His Majesty the Shah of Persia, His Majesty the King of Portugal and the Algarves, His Majesty the King of Roumania, His Majesty the Emperor of all the Russians, His Excellency the President of the Republic of Salvador, His Majesty the King of Servia, His Majesty the King of Sweden and of Norway, and His Excellency the President of the Oriental Republic of the Uruguay.

The following is an English translation of the Convention, with the ommission of the formal beginning and end—

ARTICLE I.

The present Convention applies outside territorial waters to all legally established submarine cables landed on the territories, colonies, or possessions of one or more of the High Contracting Parties.

ARTICLE II.

It is a punishable offence to break or injure a submarine cable, wilfully or by culpable negligence, in such manner as might interrupt or obstruct telegraphic communication, either wholly or partially, such punishment being without prejudice to any civil action for damages.

This provision does not apply to cases where those who break or injure a cable do so with the lawful object of saving their lives or their ship, after they have taken every necessary precaution to avoid so breaking or injuring the cable.

ARTICLE III.

The High Contracting Parties undertake that, on granting a concession for landing a submarine cable, they will insist, so far as possible, upon proper measures of safety being taken, both as regards the track of the cable and its dimensions.

ARTICLE IV.

The owner of a cable who, on laying or repairing his own cable, breaks or injures another cable, must bear the cost of repairing the breakage or injury, without prejudice to the application, if need be, of Article II of the present Convention.

ARTICLE V.

Vessels engaged in laying or repairing submarine cables shall conform to the regulations as to signals which have been, or may be, adopted by mutual agreement among the High Contracting Parties, with the view of preventing collisions at sea.

When a ship engaged in repairing a cable exhibits the said signals, other vessels which see them, or are able to see them, shall withdraw to or keeping beyond a distance of one nautical mile at least from the ship in question, so as not to interfere with her operations.

Fishing gear and nets shall be kept at the same distance.

Nevertheless, fishing vessels, which see or are able to see a telegraph ship exhibiting the said signals, shall be allowed a period of twenty-four hours at most within which to obey the notice so given, during which time they shall not be interfered with in any way.

The operations of the telegraph ships shall be completed as quickly as possible.

ARTICLE VI.

Vessels which see, or are able to see, the buoys showing the position of a cable when the latter is being laid, is out of order, or is broken shall keep beyond a distance of one-quarter of a nautical mile at least from the said buoys.

Fishing nets and gear shall be kept at the same distance.

ARTICLE VII.

Owners of ships, or vessels, who can prove that they have sacrificed an anchor, a net or other fishing gear in order to avoid injuring a submarine cable, shall receive compensation from the owner of the cable.

In order to establish a claim to such compensation, a statement, supported by the evidence of the crew, should, whenever possible, be drawn up immediately after the occurrence; and the master must, within twenty-four hours after his return to, or next putting into, port, make a declaration to the proper authorities.

The latter shall communicate the information to the Consular authorities of the country to which the owner of the cable belongs.

ARTICLE VIII.

The tribunals competent to take cognizance of infractions of the present Convention are those of the country to which the vessel on board of which the offence was committed belongs.

It is, moreover, understood that in cases where the provisions in the previous paragraph cannot apply, offences against the present Convention will be dealt with in each of the Contracting States in accordance, so far as the subjects and citizens of those States respectively are concerned, with the general rules of criminal jurisdiction prescribed by the laws of that particular State, or by international treaties.

ARTICLE IX.

Prosecution for infractions provided against by Articles II, V, and VI of the present Convention shall be instituted by the State, or in its name.

ARTICLE X.

Offences against the present Convention may be verified by all means of proof allowed by the legislation of the country of the court. When the officers commanding the ships of war, or ships specially commissioned for the purpose by one of the High Contracting Parties, have reason to believe that an infraction of the measures provided for in the present Convention has been committed by a vessel other than a vessel of war, they may demand from the captain or master the production of the official documents proving the nationality of the said vessel. The fact of such document having been exhibited shall then be endorsed upon it immediately. Further, formal statements of the facts may be prepared by the said officers, whatever may be the nationality of the vessel incriminated. These formal statements shall be drawn up in the form and in the language used in the country to which the officer making them belongs; they may be considered, in the country where they are adduced, as evidence in accordance with the laws of that country. The accused and the witnesses shall have the right to add, or to have added, thereto, in their own language, any explanations they may consider useful. These declarations shall be duly signed.

ARTICLE XI.

The proceedings and trial in cases of infraction of the provisions of the present Convention shall always take place as summarily as the laws and regulations in force will permit.

ARTICLE XII.

The High Contracting Parties engage to take or to propose to their respective Legislatures the necessary measures for insuring the execution of the present Convention, and especially for punishing, by either fine or imprisonment, or both, those who contravene the provisions of Articles II, V, and VI.

ARTICLE XIII.

The High Contracting Parties will communicate to each other laws already made, or which may hereafter be made, in their respective countries relating to the object of the present Convention.

ARTICLE XIV.

States which have not signed the present Convention may adhere to it on making a request to that effect. This adhesion shall be notified through the diplomatic channel to the Government of the French Republic, and by the latter to the other Signatory Powers.

ARTICLE XV.

It is understood that the stipulations of the present Convention do not in any way restrict the freedom of action of belligerents.

ARTICLE XVI.

The present Convention shall be brought into force on a day to be agreed upon by the High Contracting Powers.

It shall remain in force for five years from that day; and unless any of the High Contracting Parties have announced, twelve months before the expiration of the said period of five years, its intention to terminate its operation, it shall continue in force for a period of one year, and so on from year to year.

If one of the Signatory Powers denounce the Convention, such denunciation shall have effect only as regards that Power.

ARTICLE XVII.

The present Convention shall be ratified, and the ratifications exchanged at Paris with as little delay as possible, and, at the latest, at the expiration of a year.

ADDITIONAL ARTICLE.

The stipulations of the Convention concluded under to-day's date for the protection of submarine cables shall be applicable, in conformity with Article I, to the colonies and possessions of Her Britannic Majesty, with the exception of those hereinafter mentioned, namely—

Canada.	Victoria.
Newfoundland.	Queensland.
The Cape.	Tasmania.
Natal.	South Australia.
New South Wales.	Western Australia.

New Zealand.

Provided always that the stipulations of the said Convention shall be applicable to any of the above named colonies or possessions on whose behalf notice to that effect shall have been given by Her Britannic Majesty's representative at Paris to the French Minister for Foreign Affairs.

Each of the above named colonies or possessions which may have acceded to the said Convention shall be at liberty to withdraw from it in the same manner as the Powers parties to it. In the event of any of the said colonies or possessions desiring to withdraw from the Convention, a notification to that effect shall be made by Her Britannic Majesty's representative at Paris to the French Minister for Foreign Affairs.

EVIDENCE BY COMMISSION ACT, 1885.

[48 & 49 VICT. c. 74.]

An Act to amend the Law relating to taking Evidence by Commission in India and the Colonies and elsewhere in Her Majesty's Dominions. [*14th August* 1885.]

Be it enacted by the Queen's most excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows—

Short title.

1. This Act may be cited as the Evidence by Commission Act, 1885.

Power to courts to nominate examiner in civil proceedings.

2. Where in any civil proceeding in any court of competent jurisdiction an order for the examination of any witness or person has been made, and a commission, mandamus, order, or request for the examination of such witness or person is addressed to any court, or to any judge of a court, in India or the colonies, or elsewhere in Her Majesty's dominions, beyond the jurisdiction of the court ordering the examination, it shall be lawful for such court, or the chief judge thereof, or such judge, to nominate some fit person to take such examination, and any deposition or examination taken before an examiner so nominated shall be admissible in evidence to the same extent as if it had been taken by or before such court or judge.

Power in criminal proceedings to nominate judge or magistrate to take depositions.

3. Where in any criminal proceeding a mandamus or order for the examination of any witness or person is addressed to any court, or to any judge of a court, in India or the colonies, or elsewhere in Her Majesty's dominions, beyond the jurisdiction of the court ordering the examination, it shall be lawful for such court, or the chief judge thereof, or such judge, to nominate any judge of such court, or any judge of an inferior court, or magistrate within the jurisdiction of such first mentioned court, to take the examination of such witness or person, and any deposition or examination so taken shall be admissible in evidence to the same extent as if it had been taken by or before the court or judge to whom the mandamus or order was addressed.

Application of 22 Vict. c. 20, as to conduct money, &c., to proceedings under this Act.

4. The provisions of the Act passed in the twenty-second year of Her Majesty, chapter twenty, intituled "an Act to provide for taking evidence in suits and proceedings pending before tribunals in Her Majesty's dominions in places out of the jurisdiction of such tribunals" (which may be cited as the Evidence by Commission Act, 1859), as amended by this Act, shall apply to proceedings under this Act.

Amendment of 22 Vict. c. 20 as to costs.

5. The power to make rules conferred by section six of the Evidence by Commission Act, 1859, shal be deemed to include a power to make rules with regard to all costs of or incidental to the examination of any witness or person, including the remuneration of the examiner, if any, whether the examination be ordered pursuant to that Act or under this or any other Act for the time being in force relating to the examination of witnesses beyond the jurisdiction of the court ordering the examination.

Oath or affirmation of witness.

6. When, pursuant to any such commission, mandamus, order or request as in this Act referred to, any witness or person is to be examined in any place beyond the jurisdiction of the court ordering the examination, such witness or person may be examined on oath, affirmation or otherwise, according to the law in force in the place where the examination is taken; and any deposition or examination so taken shall be as effectual for all purposes as if the witness or person had been examined on oath before a person duly authorized to administer an oath in the court ordering the examination.

D. FITZPATRICK,
Secretary to the Govt. of India.

The Calcutta Gazette.

WEDNESDAY, NOVEMBER 4, 1885.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 19th October 1885.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers conferred on him by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the South Barrackpore Municipality, in the district of the 24-Pergunnahs, made at a meeting, to extend the provisions of sections 225 230, 231, 250, 251, 266, 270. and 271 of Part VI of the above Act to the entire area of the said municipality, and of sections 243, 244, and 267 of the Act to only Ward No. III of the municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1885.—It is hereby notified for general information that, under section 6 (*f*) of the Bengal Ferries Act I (B.C.) of 1885, the Lieutenant-Governor is pleased to discontinue the public ferry over the river Keul on the Patna and Monghyr road, in the district of Monghyr.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1885.—It is hereby notified for general information that, under section 6 (*b*) of the Bengal Ferries Act, 1885, the Lieutenant-Governor is pleased to take possession of the ferry over the river Toorag at Konda, in the district of Dacca, and to declare it to be a public ferry.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd October 1885.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers conferred on him by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Revilgunge Municipality, in the district of Sarun, made at a meeting, to extend the provisions of Part X of the above Act to the said municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 24th October 1885.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Mr M. P. Jackson to be a Commissioner of the Nattore Municipality, in the district of Rajshahye, *vice* Baboo Jogesh Chunder Bagchee, who has ceased to be a Commissioner under the operation of section 20 of the Act.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 24th October 1885.—It is hereby notified for general information that, under section 149, Act III (B.C) of 1884 the Lieutenant-Governor intends to sanction a proposal made by the Commissioners of the Kotchandpore Municipality, in the district of Jessore, to declare the ferries over the river Bhairab at Alumpore and Jagannathpore, which are adjacent to the municipality, to be municipal ferries, unless valid reasons are shown to the contrary within one month from the date of the publication of this notification within the aforesaid municipality and at the ferry ghâts referred to.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 26th October 1885.—It is hereby notified for general information that in the exercise of the powers conferred on him by section 3 of Act IV (B.C.) of 1865 (an Act for the prohibition of the practice of inoculation), the Lieutenant-Governor extends the provisions of the above Act to the thanas named in the margin, situated in the districts of Noakholly and Backergunge, with effect from the 1st November 1885.

Thana.	District.
Chagolnaya ...	Noakholly.
Fenny ...	
Lakhipore ...

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 29th October 1885.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Moulvi Fazla Rahi to be a Commissioner of the Lalbagh Municipality, in the district of Moorshedabad, *vice* Mr. J. Reuther, resigned.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th October 1885.—It is hereby notified for general information that the Lieutenant-Governor has, under the powers vested in him by section 17, Act IV (B.C.) of 1876 prescribed the following revised rules for the election of Commissioners for the town of Calcutta—.

Rule 1.—The next election of members of the Municipal Corporation of the town of Calcutta under the Calcutta Municipal Consolidation Act, Act IV (B.C.) of 1876, shall be held on the 15th December 1885.

Rule 2.—Under section 18 of the Act, any person qualified to vote at an election, or to be elected as a Commissioner, may at any time, not being less than six weeks or more than three months before the election takes place, apply personally or by letter to the Chairman of the Commissioners for the registration of his name as such voter or person qualified for election, and shall at the same time name the ward or wards of the town in which he is entitled to vote. After the receipt and examination of all such applications, and at a date not less than one month before the election, a printed list of all persons qualified to vote or to be elected will be prepared and affixed by the Chairman of the Commissioners in some conspicuous place in or near his office, and at the police-station of each of the wards of the town, for general information, and such lists will be open to public inspection for fifteen days after the date of publication. In virtue of the authority conferred on the Chairman by the second paragraph of section 18 and section 19, Act IV of 1876, "the Chairman shall be at liberty at any time to revise the said list for the purpose of removing therefrom the name of any person not duly qualified and erroneously entered therein, or of recording the name of any person duly qualified and erroneously omitted therefrom."

Rule 3.—No person shall be qualified to vote at an election, or to be elected as a Commissioner, unless his name shall be registered as prescribed by section 18 or section 19 of the Act.

Rule 4.—The election shall be held at the stations hereinafter appointed for the respective wards, which are numbered and defined in the first schedule of the Act, that is to say—

Wards 1, 2, 3, at the Burtollah Police Section.
Wards 4, 5, 6, at the Jorasanko Police Section.
Wards 7, 8, 9, 10, 11, 12, at the Town Hall.
Wards 13, 14, 15, 16, 17, at the Municipal Office.
Ward 18, at Hastings Police Section.

Rule 5.—The Municipal Commissioners shall appoint one or more polling officers to preside at each station, and may pay to each officer so appointed such reasonable remuneration for his services as they may think fit. Each polling officer so appointed shall keep order at his station, shall regulate the number of voters to be admitted at a time, and may exclude all other persons, except the clerks, the agents of the candidates and the constables on duty.

Rule 6.—Each polling officer shall be supplied by the Chairman of the Municipal Commissioners with a copy of so much of the register of the persons entitled to vote as may relate to the ward or wards for which such polling officer is appointed to take votes, and also with a copy of the register of persons qualified to be elected as Municipal Commissioners

Rule 7.—At a date not less than 21 days before the day fixed for taking the poll, the Chairman shall cause one voting paper in the form appended hereto to be posted at the General Post Office, Calcutta, to the address given in the registration form, or to any other address which the voter may have expressly asked to have substituted for that address.

Rule 8.—The signature of the Chairman shall be stamped under his supervision on each part of each voting paper before the same is issued by him, and votes given on any other than the official paper shall be invalid.

Rule 9 —The voter on receipt of this voting paper may—

(1)—Return it by post duly filled up to the Municipal Office in a closed cover marked "voting paper———Ward No——," or

(2)—Return it by hand to the Municipal Office in a closed cover marked "voting paper——Ward No.——," or

(3)—Present it himself at the polling station on the day of the poll, or

(4)—Entrust the whole or any part of such paper, containing one or more complete votes, to any person whom he may select for delivery at the polling station on the day of the poll.

Rule 10.—All polling papers received at the office in accordance with clause (1) or (2) of Rule 9 will be made over unopened to the polling officers, to be opened by them publicly at the polling station on the day and at the time of the poll.

Rule 11.—Should any cover not marked "voting paper Ward No.——" be received in the Municipal Office, and on being opened be found to contain a voting paper otherwise in due order, the Secretary of the Corporation shall at once enclose such paper in a cover and mark it with the ward to which it belongs, and shall forward it to the polling officer on the day of the poll as above.

Rule 12.—Any voter who, owing to miscarriage of the post-office or other mishap, may not have received his voting paper by the 14th day before the poll, may apply at the municipal office personally or by agent, putting in a written statement that he has not received any voting paper. In cases where the application is made by a voter personally, a voting paper marked "duplicate" shall be delivered to him at the municipal office; but where the application is made through an agent, a voting paper marked "duplicate" shall be posted to the address of the voter in the manner prescribed by Rule 7. A voter, on receipt of such duplicate paper, may deal with it as an original voting paper under the provisions of Rule 9.

Rule 13.—When on the application of a voter under Rule 12, a duplicate voting paper is issued by the municipal office, such voter shall give his votes on the duplicate paper and no vote given on his original voting paper shall be counted or received as a valid vote, Provided that nothing herein contained shall prevent such voter from appearing and recording his votes at the polling station under the provisions of the next succeeding rule.

Rule 14.—Voting papers on different coloured paper from the original and duplicate papers referred to above shall be provided at all polling stations at the time of the poll, and any voter who has not already voted, or who may wish to cancel his previous votes, may, notwithstanding that he has already filled up an original or a duplicate voting paper, appear at the poll and fill up a paper in the presence of the polling officer, and such vote or votes shall alone be held valid and shall cancel all previous votes.

Rule 15.—All persons qualified to vote, who are able to read and write, should in their own handwriting put down the names of the candidates for whom they desire to vote. In case a voter is unable to write, he shall, if he is desirous of voting, appear personally at the

polling station and present his voting paper to the polling officer, who shall sign for him and put down the names of the candidates for whom he is desirous of voting, and in such case the polling officer shall put down his own signature underneath the name of the voter.

Rule 16.—No municipal officer or employé, or official subordinate of such officer or employé, shall, directly or indirectly engage himself in canvassing for votes or otherwise assisting in the election of any candidate save by giving his own vote. Any breach of this rule will render him liable to dismissal.

Rule 17.—On the day fixed for the election, the polling shall commence at 9 A.M. and shall close at 6 P.M. precisely, and each voter shall, as prescribed in Rule 9, present or forward in a sealed cover his voting paper, with the name of the person, or names of the persons, for whom he desires to vote, and with all particulars duly filled in.

Rule 18.—In all cases where, in accordance with Rule 15, the existing papers are signed and filled up in any language other than English, the name of the voter and of the persons for whom he votes shall also be entered in English.

Rule 19.—On the presentation of each voting paper, the polling officer shall forthwith note on the back of each voting paper whether it was presented by the elector in person and, if not, the name in full and residence of person presenting it.

Rule 20.—If the voting paper is not in accordance with rules 8, 15, and 18, the polling officer shall receive the votes under objection, and shall record the objection on the back of the voting paper

Rule 21.—The polling officer shall satisfy himself that the voter and the person for whom he votes are entered in the printed lists referred to in Rule 3. He shall then note off against the elector's name the fact of the vote or votes and the person or persons for whom the vote or votes have been given. In case the polling officer, on coming afterwards to note off a later vote or votes from the same elector, find that a second voting paper has been used, he shall note the objection and forward the papers to the Chairman for action in accordance with Rule 13 or 14 as the case may be.

Rule 22.—After noting the above information, the polling officer shall attach a consecutive number to each voting paper, and shall, under the said number, affix his signature. The polling officer shall then read out in a loud voice, three times, the name and residence of the elector, and the names and residences of the person or persons for whom he votes.

Rule 23.—Up to the close of the poll, as provided for in Rule 17, any person present at the polling station shall be at liberty to object to any voter or intending voter on any of the grounds indicated in the above rules.

Rule 24.—If any objection authorized by the next preceding rule shall be made to any voter, the polling officer shall, on the back of the voting paper, record the name and residence of objector and the nature of objection, and shall direct, verbally or by letter, the objector and the voter to appear within three days from the day of the election before the Chairman of the Commissioners, and the decision of the Chairman of the Commissioners, made after due enquiry into the objection, shall be final.

Rule 25.—At the close of the poll, the polling officer shall forward all the voting papers, arranged according to their consecutive numbers, in a packet duly sealed and secured, to the Chairman of the Municipal Commissioners.

Rule 26.—The polling officer shall, at the close of the day, transmit to the Chairman of the Municipal Commissioners a list of the objections taken by him under Rules 20 and 21 or admitted by him under Rule 23, and the said Chairman shall, after hearing and deciding upon all such objections, make lists of the votes given in each ward, and shall record the same in his office.

Rule 27.—The Chairman of the Municipal Commissioners shall with all reasonable despatch, after the election, publish in the *Calcutta Gazette* and at the Municipal Office the names of the persons in whose behalf votes have been recorded and the number of votes given for them respectively; and the candidates for whom the greatest number of votes shall have been given in each ward shall, in the proportion assigned by Act IV (B.C.) of 1876 to the respective wards, be deemed to have been elected members of the Corporation for the said wards accordingly.

WARD No._____POLICE SECTION.

_____Municipal Commissioners are to be elected for this Ward. Each Elector has ____ votes, and may give all his votes to one candidate or may divide his votes amongst the candidates. A separate vote must be recorded on each portion of this paper.

N.B.—Poll for this Ward will take place at _____ on _____ 188 , and this voting paper must be delivered there on that date between the hours of 9 A.M. and 6 P.M., or, as provided for in Rule 9, be previously sent under a closed cover marked "Voting paper, Ward No. _____," to the office of the Municipal Commissioners.

The attention of voters is directed to Rules 15 and 18, which are as follows—

RULE 15.—*All persons qualified to vote, who are able to read and write, should in their own handwriting put down the names of the candidates for whom they desire to vote. In case a voter is unable to write, he shall, if he is desirous of voting, appear personally at the polling station and present his voting paper to the polling officer, who shall sign for him and put down the names of the candidates for whom he is desirous of voting, and in such case the polling officer shall put down his own signature underneath the name of the voter.*

RULE 18.—*In all cases where, in accordance with Rule 15, the existing papers are signed and filled up in any language other than English, the name of the voter and of the persons for whom he votes shall also be entered in English.*

Calcutta, the 31st October 1885. (683—1) G. H. SIMMONS, Traffic Manager.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS- From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet at „ 2 „

The above prices are for ordinary building purposes.

For *Planking*, *Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1883.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Agrahyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen, dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

SURVEY OF INDIA DEPARTMENT,
Calcutta, 1st October 1885.

CHAS. STRAHAN, *Major* R.E.,
Asst. Surveyor-General, in charge Map Record and Issue Office.

Notice.

GYA MICA MINES.

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

Wanted

A SURVEYOR and Draftsman for the Singbhoom Road Cess works for six months on a salary of Rs. 60 and fixed travelling allowance of Rs. 15 per mensem. Candidates must have the qualifications of a Public Works Department Overseer. Applications should be made to the Chairman before the 15th November with copies of testimonials.

UPENDRANATH BANERJEA, B.C.E.,
District Engineer, Singbhoom.

Chybassa, the 19th October 1885. (680—3)

Notification.

WANTED a Canoongo temporarily for six months on Rs. 50 a month for supervising the collection of water-rates in the district of Shahabad

Applications will be received up to the 15th November next.

S. P. CHATTERJEE, Special Dy. Collector.

Arrah, the 28th October 1885.

Notice.

THE Directors have made the following changes in the Bank's establishment—

Mr. M. B. Logan, Acting Agent at Allahabad, has, on return from leave, resumed charge of the branch.

Mr. W. D. McKewan, Acting Agent at Agra, has, on return from furlough, resumed charge of the branch.

R. HARDIE, Secretary and Treasurer.

Bank of Bengal, Calcutta, 26th October 1885. (677—1)

DESTROYED.—The Government Promissory Note No. 142763 of the 4 % of 1842-43 for Rs. 1,000, originally standing in the name of the Bank of Bengal, and last endorsed to Bholanath Banerjee, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietor.

(682—3) BHOLANATH BANERJEE, Boinchee.

R. Scott, Thomson & Co., "Ld."

THE Forty-fifth Half-yearly Ordinary General Meeting of Shareholders will be held at the registered office of the Company, 15, Government Place, on Friday, the 20th instant, at noon, for the purpose of declaring an *ad interim* dividend for the half-year which ended on the 30th September last.

By order of the Directors,

ROBT. J. CARBERY, Secretary and Accountant.

Calcutta, 3rd November 1885. (684—3)

Forest Department, Bengal.

A. L. HOME, Conservator of Forests, Bengal.

Darjeeling, the 19th October 1885.

Commissariat Notice No. 13.

TWO flour mills, each workable by a pair of bullocks, are available for sale, one at Golaghat, and the other at Dinapore; and likewise water-mill apparatus (forming four mills) at the latter place. This has never been brought into use, and comprises the following—

6 Boards, wooden.
2 Top boards, wooden.
4 Boards in pieces.
1 Bottom board.
15 Cross beams.
1 Centre beam.
8 Mill-stones.
4 Wooden funnels.
7 Brass brushes.
32 Screws, small.
8 Do., large.
5 Flying wheels.

Gross weight of the water-mills is about 35 maunds, and that of the bullock mills about 70 maunds each.

Offers are invited for the purchase—

1*st*.—Deliverable at the places where the intending purchasers may wish.

2*nd*.—Deliverable at the place of sale. The bullock mills, though brought into use, are as good as new.

E. DEC. RENNICK, Captain,
Assistant Commissary-General.

Shillong, Executive Commissariat Office, the 18th September 1885.

In the Court of the First Subordinate Judge, Alipore.

EXECUTION CASE No. 223 OF 1884.

Nund Kumar Mookerjee ... ... Decree-holder,

versus

Shib Kristo Chatterjee and Mohit Lal Chatterjee, minors, by their guardian Hurry Hur Chatterjee, representing the estate of Khetter Nath Mookerjee, deceased ... . Debtor.

TO be sold on the 9th of November 1885, at 12 o'clock noon, by the nazir of the district court of 24-Pergunnahs, pursuant to the decree made in the suit, and dated the 7th of August 1884, the undermentioned property of the said Khetter Nath Mookerjee, deceased.

Estate No. 120 of the Collectorate of 24-Pergunnahs, pergunnah Baridhatty, called taraf Kodalia and others, bearing a sudder jama of Rs. 5,110 a year, and consisting of nine mouzahs, viz. Lat Kodalia, Chitra Sali, and others, lying in the sub-districts of Alipore, Debipore, and Barripore. The zemindari is let out in putni to one Sristydhur Mundle of Rama Kanthapore. For further particulars apply to the decree-holder's pleader.

KRISHNA CHANDRA CHATTERJEE.
First Subordinate Judge.

Kedarnath Banerjee, Pleader. (660—1)

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st.*—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd.*—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd.*—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 16th October, 1885, and is hereby promulgated for general information:—

ACT No. XVIII OF 1885.

THE LAND ACQUISITION (MINES) ACT, 1885.

CONTENTS.

SECTIONS.

1. Short title, commencement and local extent.
2. Saving for mineral rights of the Government.
3. Declaration that mines are not needed.
4. Notice to be given before working mines lying under land.
5. Power to prevent or restrict working.
6. Mode of determining persons interested and amount of compensation.
7. If Local Government does not offer to pay compensation, mines may be worked in a proper manner.
8. Mining communications.
9. Local Government to pay compensation for injury done to mines.
10. And also for injury arising from any airway or other work.
11. Power to officer of Local Government to enter and inspect the working of mines.
12. Penalty for refusal to allow inspection.
13. If mines worked contrary to provisions of this Act, Local Government may require means to be adopted for safety of land acquired.
14. Construction of Act when land acquired has been transferred to a local authority or Company.
15. Pending cases.
16. Definition of local authority and Company.
17. This Act to be read with Land Acquisition Act, 1870.

An Act to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870.

WHEREAS it is expedient to provide for cases in which mines or minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870; It is hereby enacted as follows:— X of 1870.

1. *(1)* This Act may be called the Land Acquisition (Mines) Act, 1885; and

Short title, commencement and local extent.

(2) It shall come into force at once.

(3) It extends in the first instance to the territories administered by the Governor of Madras in Council and the Lieutenant-Governor of Bengal, but any other Local Government may, from time to time, by notification in the official Gazette, extend this Act to the whole or any specified part of the territories under its administration.

2. Except as expressly provided by this Act, nothing in this Act shall affect the right of the Government to any mines or minerals.

Saving for mineral rights of the Government.

3. *(1)* When the Local Government makes a declaration under section 6 of the Land Acquisition Act, 1870, that land is needed for a public purpose or for a Company, it may, if it thinks fit, insert in the declaration a statement that the mines of coal, iron-stone, slate or other minerals lying under the land or any particular portion of the land, except only such parts of the mines or minerals as it may be necessary to dig or carry away or use in the construction of the work for the purpose of which the land is being acquired, are not needed. X of 1870.

Declaration that mines are not needed.

(2) When a statement as aforesaid has not been inserted in the declaration made in respect of any land under section 6 of the Land Acquisition Act, 1870, and the Collector is of opinion that the provisions of this Act ought to be applied to the land, he may abstain from tendering compensation under section 11 of the said Land Acquisition Act in respect of the mines, and may— X of 1870.

(a) when he makes an award under section 14 of that Act, insert such a statement in his award;

(b) when he makes a reference to the Court under section 15 of that Act, insert such a statement in his reference; or

(c) when he takes possession of the land under section 17 of that Act, publish such a statement in such manner as the Governor-General in Council may, from time to time, prescribe.

(3) If any such statement is inserted in the declaration, award or reference, or published as aforesaid, the mines of coal, iron-stone, slate or other minerals under the land or portion of the land specified in the statement, except as aforesaid, shall not vest in the Government when the land so vests under the said Act.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 23rd September, 1885:—

WE, the undersigned, Members of the Select Committee to which the Bill to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Messrs. Macneill & Co., Managing Agents, Equitable Coal Company, Limited, dated 24th April, 1885, and enclosure [Papers No. 1].
From Officiating Secretary to Chief Commissioner, Assam, No. 649, dated 24th April, 1885 [Paper No. 2].
From Secretary to Chief Commissioner, Coorg, No. 206—25, dated 4th May, 1885 [Paper No. 3].
From Chief Commissioner, Ajmer-Merwára, No. 479, dated 7th May, 1885, and enclosure [Papers No. 4].
From Officiating Secretary to Chief Commissioner, British Burma, No. 708-94R., dated 29th April, 1885 [Paper No. 5].
From Secretary for Berar to Resident, Hyderabad, No. 161 G., dated 9th May, 1885 [Paper No. 6].
From Registrar, High Court, Calcutta, No. 1524, dated 15th May, 1885 [Paper No. 7].
From Chief Secretary to Government, Madras, No. 1251, dated 9th May, 1885, and enclosures [Papers No. 8].
From Under Secretary to Government, Bombay, No. 4381, dated 30th May, 1885, and enclosures [Papers No. 9].
From Secretary to Government, Bengal, No. 481 T.—R., dated 28th May, 1885, and enclosures [Papers No. 10].
From Officiating Junior Secretary to Government, Punjab, No. 544, dated 4th June, 1885, and enclosures [Papers No. 11].
From Bábú Gurdhar Das, Honorary Magistrate, Etáwah, dated 8th May, 1885 [Paper No. 12].
From Chief Secretary to Government, North-Western Provinces and Oudh, No. 1150—I.-776, dated 30th June, 1885, and enclosures [Papers No. 13].
From Assistant Secretary to Chief Commissioner, Central Provinces, No. 2655—77, dated 11th July, 1885 [Paper No 14].

2. Some of the Local Governments have objected to the Bill being applied to the provinces under their administration on the ground that, having regard to the manner in which the right to minerals is regulated in those provinces, it is unnecessary there, and that, if unnecessary, it would only prove an encumbrance and complication in the acquisition of lands. To meet these objections we have made the measure applicable by its own vigour only to the territories under the administration of the Governor of Madras in Council and the Lieutenant-Governor of Bengal, but have empowered the remaining Local Governments to extend it to the whole or any part of the territories administered by them if they think fit.

3. An apprehension has been expressed in some of the opinions received that the Bill might by implication affect the rights which the Crown has to all minerals throughout a very large portion of this country. Such an apprehension is, we believe, unfounded, but by way of greater precaution and to prevent misapprehension we have inserted a section (2) saving the rights of the Crown.

4. Section 2 of the Bill as introduced required the Government to determine, before it issued its declaration under section 6 of the Land Acquisition Act, whether the land should be acquired simply under that Act, that is to say, including the minerals, or whether the special provisions of this Bill should be put in force with a view to excluding the minerals from the acquisition.

It has been represented that it is not for the interest of any of those concerned that an irrevocable determination should necessarily be come to on so important a point at a stage of the proceedings when the circumstances of the case would in all probability be imperfectly known. The Government, it will be observed on reference to the Land Acquisition Act, has a discretion to withdraw from a proposed acquisition of land up to a considerably later stage, and it seems but reasonable that it should have a discretion to exclude the minerals from the acquisition at any time up to the same stage if it turns out that their acquisition is not essential to the undertaking, and that either the owners are unwilling to part with them or the Government or the local authority or Company concerned is unwilling to pay their full value. We have accordingly (in section 3) empowered the Collector, who in such a matter would, of course, act under the control of the Government, to exclude the minerals from the acquisition at any time up to the stage of the proceedings at which the land vests, and it is no longer in the discretion of the Government to recede from the transaction.

5. It has been urged that the notice of thirty days to be given to the Government, under section 3 of the Bill as introduced, by a mine-owner desiring to work his mines is too short having regard to the delays in communication in this country. We think the objection is reasonable, and we have accordingly (in section 4 of the amended Bill) extended the period to sixty days.

6. It has been held by the House of Lords in an important case (*Dixon* v. *The Caledonian Railway Co.*, 5 App. Ca. 820) that when a mine-owner gives notice under section 78 of the Railways Clauses Act, 1845, of his intention to work minerals, the Railway Company is not, for the purpose of giving its counter-notice to stop or control the working, limited to the thirty days for which the mine-owner's notice runs, that the period of thirty days is merely prescribed as a period until the expiration of which the mine-owner is debarred from

working, and that the Company can at any time give its counter-notice, though of course if given at any time after the thirty days had expired and the workings had been commenced it would have no effect except as regards the further progress of the workings. The opposite view, as was pointed out by their Lordships, would involve somewhat serious consequences, and it is obviously necessary that there should be no mistake as to the effect of the Bill in this respect. It would doubtless have been sufficient, so far as regards the ultimate result, if we followed the exact wording of the English Act, on the main lines of which we are proceeding throughout. The highest Courts in this country would, as a matter of course, follow the decision of the House of Lords, but it is to be apprehended that inferior authorities might in many cases be ignorant of that decision, and might mistake the effect of the wording of the English Act, which it must be admitted is by no means clear. We have therefore thought it safer to amend the sections concerned in such a manner that they will in a clear and unmistakeable way express the effect of the English Act as construed by the House of Lords.

7. Another important English decision which points to an amendment of the Bill is that in *Smith* v. *Great Western Railway Co.* (2 Ch. D. 235), and in appeal before the House of Lords, 3 App. Ca. 165). We may have, under a Bill of this sort, a state of things to deal with, of which that case affords an illustration, where one person holding under a terminable lease has an immediate right to work the minerals, and another person is entitled to the reversion on the expiration of the lease and perhaps to a rent or royalty during its continuance. The lease may or may not be of such a length as to admit of all the minerals being worked out during its continuance, and it may or may not be liable to be put an end to by forfeiture or otherwise before the expiration of its term. The provisions of the English Act, which deal specially with the subject now before us, and which have been incorporated in this Bill, were found inadequate to provide for the exigencies of such a state of things as that referred to. They probably contemplate a settlement only with the person immediately entitled to work the mines, and, in order to provide for the case of a reversioner or other person interested, it was found necessary to call in the aid of a general provision of the law which would be out of place in a Bill like this.

It appears to us that the simplest mode of dealing with the various interests that may co-exist in the mines is to require, in accordance with the scheme of the Land Acquisition Act, that they should all, whether present or future, be considered and compensated for simultaneously, whenever the owner of the surface has occasion to exercise his power of stopping or controlling the working.

We have accordingly provided in effect that where the person immediately entitled to work the mines intimates to the owner of the surface his intention to work them, and the latter after that determines to stop or control the working, the settlement of compensation must extend to all persons interested in the mines, and the stoppage or control will be binding in perpetuity on all alike.

8. We have introduced three new sections (8, 9 and 10), corresponding to sections 80, 81 and 82 of the Railways Clauses Act, 1845. We question whether the object of these sections would not have been otherwise attained through the medium of the Land Acquisition Act, the provisions of which were made applicable by section 6 of the Bill as introduced; but as importance appeared to be attached to them in the memorial of the Coal Companies, we have thought it better to remove all doubt by including them. They will doubtless overlap section 6 of the Bill, but no practical harm will result from this.

9. An objection has been taken in some quarters to section 11 of the Bill as introduced (now section 14), which in effect gives to certain Companies the powers conferred on the Local Government by some of the foregoing provisions of the Bill. It appears to be overlooked that the section in question can apply only to Companies established for such purposes and occupying such a position from a public point of view as would warrant the Government in acquiring land on their behalf. In particular it is provided, by sections 38 and 39 of the Land Acquisition Act, that land shall not be acquired for a Company under that Act unless it is needed for a work likely to prove useful to the public, and the Company enters into an agreement with the Government settling, among other matters, the time within which and the conditions on which the work shall be executed and maintained and the terms on which the public shall be entitled to use it.

10. We may further observe that there appears from some of the papers considered by us to be a certain amount of misapprehension as to the nature of the powers referred to.

If the Local Government or the Company exercising the powers of the Local Government neglects to come to terms with the mine-owner on his giving notice of his intention to work, it does so at the risk of its property. If, considering that the mine-owner is working improperly, it takes steps under section 7 (new numbering) to remedy the mischief with a view to charging the mine-owner with the cost, it does so at the risk of losing its money and of incurring serious legal consequences if the Court before which the case may ultimately come takes a different view of the matter. Similarly, if it considers that the mines are being worked contrary to the provisions of the Act and proceeds to take steps under section 13 (new numbering), it still acts at its own risk, for it is by no means certain that it will appear to the Court that the mines were being so worked.

Thus the powers in question are very far from being so formidable as has been supposed, and we may add that they are framed as closely as possible on the lines of those conferred by

Parliament on Railway Companies in England, the substance of which seems generally to have met with approval.

11. We have placed "local authorities" on a footing similar to that of Companies, as in many recent Acts the provisions of the Land Acquisition Act have been made applicable for the purpose of acquiring land for such authorities.

12. We are informed that there are certain land acquisition cases pending at this moment in Bengal, which have already proceeded beyond the stage at which the provisions of this measure would in its ordinary course be applicable to them, but in which it may nevertheless be thought desirable to have the benefit of it. To meet this, we have inserted a clause (15 (2)) which will admit of the Bill being applied in such cases if those concerned unanimously desire that it should.

13. The publication ordered by the Council has been made as follows :—

In English.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor-General on the 16th October, 1885, and is hereby promulgated for general information :—

ACT NO. XIX OF 1885.

An Act to amend the law relating to Government Securities.

WHEREAS it is expedient to amend the law relating to Government securities in manner hereinafter appearing; It is hereby enacted as follows :—

Short title and commencement.

1. *(1)* This Act may be called the Indian Securities Act, 1885; and

(2) It shall come into force at once.

Definitions.

2. In this Act—

The expression "Government security" includes promissory notes, debentures, stock certificates, and all other securities issued by the Government of India or by any Local Government in respect of any loan issued under notification in the official Gazette, whether before or after the passing of this Act, but does not include a stock note or a currency note: and

"prescribed" means prescribed by rules made from time to time by the Governor General in Council in this behalf.

Right of survivors of joint payees of Government securities.

3. *(1)* Notwithstanding anything contained in the Indian Contract Act, section 45, when a Government security issued before the first day of April, 1866, is payable to two or more persons jointly and any of them dies, the security shall be payable to the survivor or survivors of those persons.

(2) Nothing herein contained shall affect any claim which the representative of the deceased person may have against the survivor or survivors in respect of the security jointly payable to them and the deceased.

(3) This section shall apply whether the death of the person to whom the security was jointly payable occurred or occurs before or after this Act comes into force.

Issue of renewed securities.

4. A person claiming to be entitled to a Government security as payable to him under an endorsement may, on satisfying the prescribed officer of the justice of his claim and paying the prescribed fee and delivering the security duly receipted to the prescribed officer, obtain from the officer a renewed security issued payable to himself.

Issue of duplicate securities.

5. *(1)* When a Government security is alleged to have been wholly or partly lost or destroyed, and a person claims to be the person to whom but for such loss or destruction it would be payable, he may, on application to the prescribed officer, and on producing proof to his satisfaction of the loss or destruction and of the justice of the claim, obtain from him an order for—

(a) the payment of interest in respect of the security said to be lost or destroyed pending the issue of a duplicate security; and

(b) the issue of a duplicate security payable to the applicant.

(2) An order shall not be passed under sub-section *(1)* until after the issue of the prescribed notification of the loss or destruction and after the expiration of the prescribed period, nor until the applicant has given the prescribed indemnity against the claims of all persons deriving title under the security lost or destroyed.

(3) A list of the securities in respect of which an order is passed under sub-section *(1)* shall be published in the *Gazette of India* at such times as the Governor General in Council may, from time to time, direct.

Period after which Government is released from liability in respect of original security.

6. When a renewed security has been issued under section 4, or a duplicate security has been issued under section 5, the Government shall be discharged of all liability in respect of the original security of which such renewed or duplicate security has been issued—

(a) in the case of a renewed security, after the lapse of six years from the date of the issue of the renewed security;

(b) in the case of a duplicate security, after the lapse of six years from the date of the publication under section 5, sub-section *(3)*, of the list in which the security is first mentioned, or from the date of the last payment of interest on the original security, whichever date is latest.

Power of Governor-General in Council to make rules.

7. The Governor General in Council may, from time to time, make rules to prescribe—

(a) the fees to be paid for applications under sections 4 and 5;

(b) the form in which securities delivered for renewal are to be receipted;

(c) the officer who is to exercise all or any of the powers and perform all or any of the duties prescribed by sections 4 and 5;

(d) the proof which is to be produced by persons applying for duplicate securities;

(e) the form and mode of publication of the notification mentioned in section 5, and the period after which interest may be paid or a duplicate security may be issued under that section;

(f) the nature and amount of the indemnity to be given by a person applying under section 5 for the payment of interest or the issue of a duplicate security; and

(g) generally all matters connected with the grant of renewed and duplicate securities.

Publication of drafts and rules.

8. *(1)* The Governor General in Council shall, before making rules under the last foregoing section, publish a draft of the proposed rules in such manner as may, in his opinion, be sufficient for the information of the public.

(2) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(3) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) Every rule made under the last foregoing section shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under that section shall be conclusive evidence that it has been duly made.

D. FITZPATRICK,
Secy. to the Govt. of India.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the law relating to Government Securities was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 8th October, 1885:—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the law relating to Government Securities was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Secretary to Chief Commissioner, British Burma, No. 92—17L., dated 7th May, 1885, and enclosure [Papers No. 1].
From Officiating Secretary to Chief Commissioner, Assam, No. 746, dated 11th May, 1885, and enclosure [Papers No. 2].
From Secretary for Berar to Resident, Hyderabad, No. 178G., dated 18th May, 1885 [Paper No. 3].
From Bábú Gurdhar Dás, Honorary Magistrate, Etáwah, dated 18th May, 1885 [Paper No. 4].
From Chief Commissioner, Ajmer-Merwára, No. 645, dated 17th June, 1885 [Paper No. 5].
From Chief Secretary to Government, Madras, No. 1455, dated 3rd June, 1885, and enclosures [Papers No 6].
From Secretary to Government, North-Western Provinces and Oudh, No. 2793—X-395, dated 26th June, 1885 [Paper No. 7].
From Registrar, High Court, Calcutta, No. 1898, dated 24th June, 1885 [Paper No. 8].
From Secretary to Chief Commissioner, Coorg, No. 522—58, dated 23rd June, 1885 [Paper No. 9].
From Officiating Secretary to Government, Bengal, No. 1301T.F., dated 26th June, 1885, and enclosures [Papers No. 10].
From Officiating Secretary to Government, Punjab, No. 520[illegible]., dated 1st July, 1885, and enclosures [Papers No. 11].
Telegram from Chief Commissioner, Central Provinces, dated 1st July, 1885 [Paper No. 12].
From Under Secretary to Government, Bombay, No. 1869, dated 27th June, 1885, and enclosure [Papers No. 13].
From Secretary to Government of India, Legislative Department, to Solicitor to Government of India, No. 1379, dated 28th August, 1885; from Solicitor to Government of India, No. 1163, dated 17th September, 1885, and enclosure [Papers No. 14].

2. The only substantive alteration we have made in the Bill is in section 3, which, in cases in which one of a number of joint-holders of a Government security dies, applies what we may term the rule of survivorship as opposed to the rule of representation laid down by section 45 of the Indian Contract Act. The reasons which led to the insertion of this provision are fully set forth in the Statement of Objects and Reasons: but we find that a considerable difference of opinion exists regarding it.

3. On the one hand, it is urged, among others, by so high an authority as the Advocate General of Bengal, that this provision should be generalized and extended to other classes of obligations besides those arising on Government securities.

On the other hand, it is argued in several of the papers that the rule of survivorship as applied to instruments of the description in question is one that does not fit in with the habits and ideas of certain classes of the Native population, and might, if extended to those classes as an absolutely binding rule, open a door to the perpetration of frauds.

The question thus raised is of considerable importance and difficulty. We do not think that we should be justified in entering fully upon it here in the absence of those members of the Council most competent to advise on legal and commercial matters, and we accordingly propose, with a view to avoiding it as far as possible, to confine the section to Government securities already issued, or which may be issued before the 1st of April next.

4. As regards securities already issued, the law must be settled without any further delay, the delay which has taken place in obtaining opinions on the Bill having already led to

considerable public inconvenience. Moreover, as it is impracticable to make any distinctions among those securities, one and the same rule must be laid down for all, and it is clear that that rule must be the rule of survivorship. The rule of survivorship has hitherto been applied to them, as well after the passing of the Contract Act as before, subject at most to rare exceptions or qualifications. It is the rule that is most suitable to the great majority of those who hold those securities, and if in exceptional cases it should be found to be less suitable it must be remembered that those securities have been issued under a system which contemplated its application.

5. On the other hand, there is no necessity to settle the question at this moment as regards securities to be issued for all time to come, especially as a simple mode of providing, without the aid of the legislature, for securities to be hereafter issued has been proposed.

It has been suggested that it could be so arranged in the Loan Department of the Government that it should be in the option of persons, in whose favour securities are first issued or to whom they are subsequently transferred by endorsement, either to take them simply in their several names, that is to say, in favour, *e.g.*, of "A, B & C," without qualification, in which case the rule of the Contract Act would apply, or to take them under words giving a right of survivorship, as, *e.g.*, in favour of "A, B & C, and the survivor or survivors of them," in which case we are advised the rule of the Contract Act would be excluded and the rule of survivorship would apply. This, it has been argued, would be likely to afford a more satisfactory solution of the difficulty as regards securities to be hereafter issued than any enactment establishing either the rule of survivorship or that of representation in a hard-and-fast manner, as it would leave it open to all concerned to adopt for themselves the rule best adapted to their requirements.

It is urged, on the other hand, that the requirements of the new system would be likely for some time to be overlooked, and that considerable hardship and inconvenience would thus result, but this danger might perhaps be averted by some device such as that of a warning enfaced on the security in such a way as to attract attention.

We do not, however, recommend that any determination should be arrived at on this matter until it has undergone the fullest discussion. It will doubtless be settled during the course of the Calcutta Session, and we think that we are acting most in accord with the balance of convenience, and so as to occasion the least amount of disturbance in existing relations, by recommending that as regards securities issued meantime, *i.e.*, say up to the 1st of April next, the law should be placed on the same footing as for securities already issued, that is to say, that the rule of survivorship should apply.

6. The remaining changes which we have made in the Bill, being confined to matters of form or drafting, do not call for special notice. We may, however, mention that we have introduced words in the definition of "Government security" to make it clear that the Bill does not apply to stock notes or currency notes—classes of securities to which, as they are otherwise provided for, it was never intended to apply.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 16th October, 1885, and is hereby promulgated for general information :—

ACT No. XX OF 1885.

An Act to postpone for a limited time the operation of certain provisions of the Bengal Tenancy Act, 1885.

WHEREAS it is provided by the Bengal Tenancy
III of 1885. Act, 1885, that that Act shall come into force on such date as the Local Government, with the previous sanction of the Governor-General in Council, may, by notification in the local official Gazette, appoint in this behalf;

And whereas, in exercise of the power thus conferred, the Local Government, with the previous sanction of the Governor-General in Council, has, by a notification in the local official Gazette, appointed the first day of November, 1885, as the date on which the said Act is to come into force;

And whereas it is convenient that certain portions of the said Act relating to deposits of rent and distraint should not come into force until a later date;

It is hereby enacted as follows :—

Postponement of operation of deposit and distraint provisions.

1. Notwithstanding anything contained in the said notification—

(a) the provisions of sections 61 to 64, both inclusive, and of Chapter XII, of the said Act, except such of those provisions as confer powers to make rules, shall come into force on such date, not later than the first day of February, 1886, as the Local Government, after the passing of this Act, may, by notification in the local official Gazette, appoint in this behalf, or, if no date is so appointed, on the first day of February, 1886, and not before;

(b) until those provisions come into force, the enactments specified in Schedule I annexed to the said Act shall, in so far as they relate to deposits of rent and distraint, continue in force, and all references to those provisions in other portions of the said Act shall, so far as may be, be read as if they were made to the corresponding provisions of the said enactments.

D. FITZPATRICK,
Secy. to the Govt. of India.

STATEMENT OF OBJECTS AND REASONS.

THE Lieutenant-Governor of Bengal has, for reasons which have been approved of by the Government of India and in exercise of the power conferred by the Bengal Tenancy Act, directed that that Act shall come into force on the 1st of November next. A reference to section 190 of the Act will show that an interval of at least a month must elapse between the date on which the Act comes into force and the date on which rules made under it can be brought into force. There is no reason to believe that any practical inconvenience will result from this, except possibly as regards the matters of deposits of rent by tenants and distraint; but it is apprehended that inconvenience might be felt in regard to these matters if the provisions of the Act relating to them were for any time in force without the rules by which it is intended that they should be supplemented, and the Lieutenant-Governor has suggested, as the simplest mode of obviating this, that the date on which the provisions of the Act relating to deposits and distraint are to come into force should be postponed for a month or two, and that the existing law relating to these subjects should meantime be retained in force.

The Governor-General in Council, being anxious to minimize the inconvenience incidental to the transition from the old law to the new, has approved of this proposal, and the present Bill has been prepared to give effect to it.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 15th October, 1885:—

No. 17 OF 1885.

A Bill rendering it permissive to the members of the Maimon Community to declare themselves subject to Muhammadan Law.

WHEREAS there is in the Presidency of Bombay and elsewhere a class of persons known as Maimons, and questions have from time to time arisen in the case of some of those persons as to the law by which in certain particulars they are governed, and whereas some of those persons consider that they are governed or desire to be governed in those particulars by the Muhammadan law as established in the Hanafi School;

And whereas it is expedient that a procedure should be provided whereby the applicability of that law to them in those particulars could be placed beyond dispute;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Maimons Act, 1886.

Declaration to be made by Maimons.

2. *(1)* When any Maimon who has attained his majority has declared in manner next hereinafter provided that he desires to be governed by the Muhammadan law as established in the Hanafi School, that law shall thereafter, notwithstanding any custom to the contrary, apply to him in each part of British India in the same particulars and to the same extent as it applies to other persons in that part of British India who are governed by it.

(2) A declaration to take effect under sub-section *(1)* must be made by a written instrument under the hand of the person making the same, in the form given in the schedule to this Act or in a form to the like effect, and must—

(a) if made in a part of British India in which the Indian Registration Act, 1877, is for the time being in force, be registered during his lifetime under that Act; and [Act III of 1877, s. 33.] III of 1877.

(b) if made elsewhere, be executed before, and authenticated by, a notary public or a Court, Judge, Magistrate, British Consul or Vice-Consul or representative of Her Majesty or of the Government of India.

(3) Nothing in this Act shall prevent any person being or becoming subject to any form of Muhammadan law in any other manner than that provided by this Act.

THE SCHEDULE.

FORM OF DECLARATION.

I hereby declare that I wish to be governed to the extent provided by the Maimons Act, 1886, by the Muhammadan law as established in the Hanafi School.

STATEMENT OF OBJECTS AND REASONS.

1. THE Maimons, like the Khojás, were originally Hindus, and have been converted to Muhammadanism, but though they are said, as a rule, to be Muhammadans in a fuller sense than the great body of the Khojás, it has been held by the Courts that certain sections of them are in some particulars still governed by Hindu customs instead of by Muhammadan law.

2. From a petition lately received by the Government, it appears that to a large number of the Maimons in question this position is not satisfactory. They hold that they should be governed, or they wish to be governed, by the Muhammadan law of the Hanafi School, and they ask that it may be declared by the legislature that they are so governed.

3. It is not to be expected that any such declaration would be made by the legislature unless it were shown that it was desired by the entire community to which it would apply, and it must be admitted that there is a want of unanimity among them on this subject.

It seems but reasonable, however, that some simple procedure should be provided by which the petitioners and other members of the Maimon class, who may be of their way of thinking, would be enabled to secure the application to themselves of those portions of the Muhammadan law which are applied by our Courts to ordinary Muhammadans, and to avoid all risk of being held to be governed by customs which are distasteful to them, and which it is to be apprehended are far from being well settled.

4. Such a procedure is to be found in the clause which it has been proposed to insert in the Khojá Succession Bill now under consideration, and which provides that a Khojá of full age may by a registered declaration withdraw himself from the peculiar law of succession by which Khojás are to be governed and place himself under the Muhammadan law of succession.

The present Bill has been prepared with a view to providing a similar procedure for Maimons. It is, however, not restricted to the matter of succession, as the difficulty which it is intended to meet is not confined to that branch of the law; and as, from all that has appeared up to this, the Hanafi form of the Muhammadan law is the only one to which Maimons would desire to be subject, it provides for the application to them only of that form of the law.

5. As it is obviously undesirable that any doubt should be thrown on the legal position of Maimons who may be already fully subject to the Muhammadan law, or that it should be suggested that a Maimon could not after the passing of the Bill become fully subject to that law in any way in which he, in common with Hindus and others, might become subject to it at present, a clause has been inserted in the Bill, providing that nothing therein contained shall prevent any person from being or becoming subject to any form of Muhammadan law in any other manner than that provided by the Bill.

AMÍR ALÍ.

SANITATION OF CALCUTTA.

MUNICIPAL DEPARTMENT—MUNICIPAL

Darjeeling, the 27th October 1885.

RESOLUTION.

READ—

Letter to the Chairman of the Corporation of the Town of Calcutta, No. 819T—M, dated the 1st July 1885, conveying the remarks of the Lieutenant-Governor on the resolution passed by the Commissioners on the subject of the report of the Commission appointed under section 28 of Act IV (B.C) of 1876 to consider the cleaning and conservancy of the Town, and the action taken by them towards carrying into effect certain of the recommendations made by the Commission.

Letter to the Government of India in the Home Department, No. 824T—M, dated the 1st July 1885, submitting for information a copy of the report of the Sanitary Commission, together with copies of the correspondence containing the orders passed by the Lieutenant-Governor on the report.

Letter from the Government of India in the Home Department, No. 256, dated the 31st August 1885, in reply to the above.

Letter to the Chairman of the Corporation of the Town of Calcutta, No. 1668T—M, dated the 9th September 1885, forwarding for the information of the Commissioners copies of the above correspondence with the Government of India.

Letter from the Chairman of the Corporation of the Town of Calcutta, No. 1671, dated the 24th September 1885, reporting the measures that have been adopted by the Commissioners, and the progress made by them in giving effect to the recommendations made by the Sanitary Commission.

The Lieutenant-Governor, in the letter of the 1st July last, to the Chairman of the Calcutta Corporation, gladly recognised the progress in sanitary matters made by the Commissioners in recent years. At the same time he was constrained to animadvert upon the preventible sanitary evils, the continued existence of which had been brought out clearly in the report of Messrs. Beverley and Lidderdale, and to record his opinion that, so long as those evils are permitted to exist, the Commissioners cannot be held free from responsibility from the continuance within the Town of sources of disease the effects of which are not controverted and the removal of which is practicable. These views have since been fully accepted by the Government of India, in their letter of the 31st August last, in which it was recorded that, although the present Commissioners have greatly improved on the practice of their predecessors, they have still to show that they are determined to lose no further time, and spare no possible outlay, in removing those grave sanitary evils which have so long made Calcutta a reproach. It was added that the provision made for sanitation, though recently in advance of what was usual in former years, has never been anything like adequate to the crying necessities of the case. The Lieutenant-Governor observes with much satisfaction that the Corporation, as appears from their Chairman's letter of the 24th September, now recognise that a vast amount of work lies before them in the way of sanitary reform, and are fully impressed with the responsibility which attaches to them, so long as the insanitary conditions which still prevail in many parts of the town are not completely removed. It may now be accepted as the result of a long correspondence and enquiry that this practical agreement as to the existence of the evils and the necessity for their removal, will, in the words of His Excellency in Council, "lead to the early preparation of a complete scheme of future operations, which will fully utilise the whole energies and all the available resources of the Corporation, and not be in any degree departed from or postponed until every remediable sanitary defect has been altogether removed."

2. In the meantime, the Lieutenant-Governor accepts the proposals in the present letter as on the whole complying with the main requisitions made in the letter of the 1st July. The scheme for the further extension of the unfiltered water-supply, which is now being considered by the Water-supply Committee, will, when fully completed, enable the Corporation to carry out the recommendations made by the Sanitary Commission for the flushing of the pipe-sewers and the connection, with the sewers, of private privies and zemindary latrines. The action which is being taken in filling up foul tanks, as reported by the Health Officer, is satisfactory so far as it goes, and the Lieutenant-Governor trusts that no relaxation will be allowed in dealing with tanks already condemned, but not as yet filled up. The Chairman of the Corporation states that the Commissioners fully acknowledge the necessity of erecting, at least, one bathing platform in every large bustee, and, in accordance with the recommendation of Mr. Beverley's Commission, have issued instructions for the construction of at least seventy-five platforms before the end of the current year Some doubt seems to be felt as to the possibility of completing this work, owing to the anticipated delay in obtaining possession of the required land. The Lieutenant-Governor has called the attention of the officers engaged in the work of acquisition to the necessity of promptitude, and will see that no avoidable delays shall occur.

The Lieutenant Governor is glad to observe that the Commissioners have decided upon making the latrines free and adding to their number. Although the measure of freeing the latrines is described as a tentative one, to last for two years, His Honor has little doubt that its advantage will be seen so clearly before the end of that time, that the question of re-imposing the fee is not likely to be again seriously entertained.

In the present letter the Officiating Chairman repeats the assurance given by Mr. Harrison in his letter of the 4th May last, that the reorganisation of the Health Department will be reconsidered upon the appointment of a permanent whole-time Health Officer. The transfer of Dr. O'Brien to other duties should facilitate the early settlement of this important question.

3. In the letter of the 1st July, the Lieutenant-Governor called attention to the fact that the Corporation had rejected the proposals of their executive

to fix the house-rate for 1883-84 at the maximum of 10 per cent., and had since then retained the rate of 7½ per cent.; and His Honor observed that, under these circumstances, it was impossible to avoid the conclusion that the resources at the disposal of the Commissioners have not been utilized to the utmost. The Government of India consider that the action of the Corporation in this matter did not show an adequate appreciation of the requirements of the case, and that the reduction of the house-tax was made in the interests of the house-owners, although there is good ground for supposing that in the great majority of cases the tax has long since been passed on to the occupiers and added to their pre-existing rents. Having regard to the authoritative expression of opinion thus recorded, the Lieutenant-Governor anticipates that the Commissioners will not be unwilling to reconsider their action in this matter, and he is supported in this hope by the concluding sentence of the Officiating Chairman's letter, that the Commissioners do not intend permanently to levy the house-rate at 7½ per cent. The Lieutenant-Governor trusts that this resolution will be borne in mind by the Commissioners when preparing the budget for the coming year, and that they will not allow their hesitation to increase the rate of house-tax, to interfere with the progress and completion of the sanitary reforms which still lie before them, and their responsibility for which they now fully acknowledge.

4. The Lieutenant-Governor must postpone the consideration of many of the questions raised in the correspondence cited in the preamble, until he has received the report of the Special Committee, appointed to enquire into the proposed amalgamation of the Town of Calcutta with the Suburbs or a portion of them. There can be no doubt, as remarked in the concluding paragraph of the Officiating Chairman's letter, that fresh legislation will be necessary to define the constitution, the powers, and the duty of the new Municipality; and the Lieutenant-Governor is glad to be assured of the assistance which the experience of the Commissioners will enable them to give him in the preparation of the necessary law. It will probably not be possible to carry a measure of such magnitude and intricacy through the legislature in the course of the coming session, in which case it may be found necessary to introduce a Bill amending the present Municipal Act in some of the points noticed in the report of the Sanitary Commission, and in the letters of this Government and of the Government of India. This question, however, cannot be finally decided pending the receipt of the amalgamation Committee's report.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Government of Bengal.

No. 824T—M, dated Darjeeling, the 1st July 1885.

From—J. WARE EDGAR, Esq., C.S.I., Offg. Secretary to the Government of Bengal, Municipal Department,

To—The Secretary to the Government of India, Home Department.

I AM directed to acknowledge the receipt of your letter No. 41, dated the 19th May 1885, communicating the remarks of the Government of India upon the Administration Report of the Calcutta Municipality for the year 1883-84. In paragraph 2 it is requested that the Government of India may be furnished, at an early date, with a copy of the Report of the Commission appointed by the Lieutenant-Governor to enquire into certain matters connected with the sanitation of the Town of Calcutta, together with a copy of the orders of the Government of Bengal thereon.

2. In reply, I am directed to submit, for the information of the Government of India, a copy of the Report of the Sanitary Commission, together with a copy of the correspondence noted in the margin, containing the orders passed by the Lieutenant-Governor on the Report.

Letter to the Chairman of the Calcutta Corporation, No. 964, dated the 1st April 1885.
Letter from the Chairman of the Calcutta Corporation, No. 295, dated the 4th May 1885.
Letter to the Chairman of the Calcutta Corporation, No. 819T—M, dated the 1st July 1885.

3. I am to take this opportunity to submit, for the information of the Government of India, the accompanying copy of a Resolution* recently recorded by the Lieutenant-Governor appointing a Committee to enquire into the question "of extending the boundaries of the Town so as to embrace the more populous and important portions of the Suburbs, and the placing of the fiscal and sanitary concerns of the whole area under one metropolitan authority." Reference is made in the resolution to the Report of the Octroi Committee. A copy of this report and of the papers† connected with it is also enclosed.

* Dated 28th June 1885.

† Government resolution, dated 4th August 1884.
Letter to Chairman of the Calcutta Corporation, No. 961, dated 4th April 1885.
Letter from Chairman of the Calcutta Corporation, No. 528, dated 26th May 1885.
Government resolution, dated 29th June 1885.

No. 256, dated Simla, the 31st August 1885.

From—A MACKENZIE, Esq., C.S., Secy. to the Govt. of India, Home Dept.,

To—The Secretary to the Government of Bengal, Municipal Department.

I AM directed to acknowledge receipt of your letter No. 824, dated 1st July 1885, submitting a copy of correspondence regarding the sanitation of Calcutta, including the Report of a Special Commission appointed last year by the Lieutenant-Governor under section 28 of Act IV (B.C.) of 1876, with the orders of His Honor thereupon.

2. The Governor-General in Council has read these papers, and the connected Proceedings of the Bengal Government for March and December 1884, with the care demanded by the importance of the subject and the amount of public attention which has recently been directed to it. His Excellency in Council thinks it a matter for grave regret that so much acrimonious feeling and contentious discussion should have been allowed to gather round a subject in which all classes of the Calcutta community, official and unofficial, are personally and equally interested. It appears to the Government of India that the true points for consideration lie on the very surface of the case, and that a disproportionate amount of time and energy has been wasted in discussing issues which are of merely academic or at best of only collateral moment.

3. Thus the question whether the great increase in cholera mortality in Calcutta since 1880* was or was not coincident with the spread over the neighbouring districts of an epidemic cholera-wave, while of interest to students of epidemiology, is but of minor practical importance, so long as the existing defects in the sanitation of the town are as great as they are on all hands admitted to be. The Army Sanitary Commission has repeatedly urged that what practical sanitarians have to look to is the amelioration of those local conditions which determine, as experience shows, the intensity and fatality of epidemic cholera. "Cholera and other epidemics cluster" (as the Army

Cholera mortality—
1880 ... 805
1881 ... 1,693
1882 ... 2,240
1883 .. 2,037
1884 ... 2,272, of which 1,616 deaths occurred in March, April, and May

Sanitary Commission has remarked) "round the foul plague spots of large cities." While Calcutta sanitation is as defective in many points as it is shown to be in the reports of the Special Commission and in the Chairman's memorandum printed at page XCIV of that report, it can be no matter of surprise that epidemic exacerbation of cholera in the neighbourhood should lead to exceptional mortality in the city, and, when it is clearly shown that the disease fastens chiefly upon the most insanitary wards, the consequent mortality must certainly be regarded as preventible. It was long ago pointed out by the Army Sanitary Commission that the best and only practicable way of reducing mortality and minimising the effect of epidemics in Calcutta is to provide the people with pure water to drink, to complete the drainage system and house connections, to fill up all foul tanks and wells, to level and drain the surface soil, to cleanse and keep clean the city, not merely as regard its streets, but throughout its private premises and courts, and to reform radically the *bustees* and their water-supply.

4. Again, an enquiry by the Executive Government into the sufficiency or otherwise of the sanitary provision made by the Municipality does not affect in any way the principles of local self-government as properly understood. The Governor-General in Council regrets to observe the attempts which have been made to prejudice the case by raising irrelevant issues of this description, and to stigmatise all criticism by Government of municipal action as an unwarranted interference with the independence of the Corporation. In all civilised countries, and under all municipal systems, the State has reserved to itself powers such as the Calcutta Municipal Act confers on the Local Government. Thus in England, under the Public Health Act of 1875, the Local Government Board is empowered to examine into and effectually direct municipal sanitation where defects are found to exist without correction; and if such a power of control is found necessary in England, much more is it required in India, where elective municipal institutions on a large scale are comparatively new, and where there are so many influences hostile to the imposition of public burdens for such purposes as sanitation. The Government will not lightly interfere with the independent action of local Boards, but it is bound to see that the health of the community is not sacrificed to a short-sighted and misplaced economy.

5. The Municipal Commissioners have, as it seems to the Governor-General in Council, discussed the question far too exclusively from the point of view of the past progress made in town sanitation and improvement under their administration, and have shown a disposition to resent, on no sufficient grounds, the advice and criticisms of the Local Government. But in fact both the Local Government and the Government of India have repeatedly acknowledged the good work actually done of late years by the Corporation, a summary of which is given in paragraphs 9 to 17 of the Special Commission's Report, and His Excellency in Council is glad once more to take this opportunity of expressing his belief that there is a real desire on the part of at least a large section of the municipal body to push on sanitary improvement and reduce preventible mortality to a minimum. The point really at issue between the Government and the Corporation is as to the *rate* at which such improvements should be carried forward, and the extent to which the municipal resources should be strained to counteract preventible mortality. There can be no doubt that though the Commissioners have, since the introduction of elective institutions in 1876, done much to improve the city, there have been at the same time very serious shortcomings on which the Government has been frequently compelled to comment. Years of valuable time were wasted in discussion before the extension of the filtered water-supply was put in hand. It was not till 1880 that a beginning was made in *bustee* reclamation, and the expenditure up to date has fallen far short of the minimum sum of 1½ lakhs per annum, which the Government of India, in its orders on the report for 1882-83, declared to be necessary. It was not until the beginning of 1883-84 that an establishment for the surface cleaning of *bustees* began to be organised. The work of supplying bathing platforms has been but slowly pushed on. Even now it is evident from the remarks of the Corporation on the Special Commission's Report that there is prospect of considerable delay in improving the service of unfiltered water. The filling up of foul tanks and

wells has not proceeded so fast as might have been expected. These and similar shortcomings have annually been pointed out by Government and the Army Sanitary Commission; and although the present Commissioners have greatly improved upon the practice of their predecessors, they have still to show that they are determined to lose no further time and spare no possible outlay in removing those grave sanitary evils which have so long made Calcutta a reproach.

6. The Governor-General in Council is constrained to remark that there was in the proceedings of the Commissioners, with reference to the budget provisions for, and expenditure on, sanitation during recent years, sufficient ground for public anxiety and for the initiation of further enquiry by the Local Government. This anxiety was no doubt brought to a climax by the extraordinary cholera mortality of the last two years, and showed at times a tendency to degenerate into panic; but the fact remained that, in spite of the reiterated remonstrances of Government and the Army Sanitary Commission, the provision made for sanitation, though recently in advance of what was usual in former years, has never been anything like adequate to the crying necessities of the case; and the Lieutenant-Governor was justified in his efforts to get this fact recognised by the Municipal authorities. It was certainly alarming to observe that, although the cholera mortality of the town had been steadily rising since 1880, the Commissioners had for 1883-84 reduced the sanitation estimates of their own executive officers by nearly 5 lakhs of rupees, while the outlay upon *bustee* reclamation in 1883-84, and the provision made for 1884-85, was far below the minimum sum indicated in the Government orders already referred to.

7. It might indeed fairly have been expected that, when once the drainage and water-supply schemes had so far advanced as to set free some portion of the municipal resources, the Commissioners would have devoted the whole of the funds thus made available to those other improvements without which neither drainage nor water-supply can confer any permanent or general benefit. Instead of this, the earliest opportunity was taken of reducing the house-tax in the interests of the house-owners, although there is good ground for supposing that in the great majority of cases this tax has long since been passed on to the occupiers and added to their pre-existent rents. The Governor-General in Council is compelled to remark that this action on the part of the Corporation, opposed as it was to the recommendations of their own Chairman and executive officers, did not show an adequate appreciation by the Commissioners of the requirements of the case. The Lieutenant-Governor has said that he has no wish to judge the Commissioners by any ideal standard of absolute perfection, and it is indeed very manifest that no place for the application of such a standard could at present be found. But it is no sufficient answer to the case against the Commissioners to point to a certain amount of actual progress, real and even considerable as that may have been, when it is clear that, had the available resources of the Municipality been fully utilized, much more might have been done and many valuable lives in all certainty have been saved.

8. Under these circumstances, and in view of the strong feeling, both in Calcutta itself and in Europe, as to the positive inadequacy of the sanitary arrangements of the town, it is much to be regretted that the Corporation declined to accept the Lieutenant-Governor's proposal of the 16th July 1884, to appoint a strong Commission of Enquiry, under the presidentship of their own Chairman, to examine carefully the whole situation and prepare a comprehensive scheme of sanitary and structural improvement, "in order" (as Sir Rivers Thompson stated) "that the Commissioners might see what the real wants of the town are; how far those wants could be provided with the funds to be made available; and how the funds might be most advantageously expended." It would have been better no doubt had the Lieutenant-Governor put forward this proposal on its merits, and without reference to the alternative appointment of a Special Commission under section 28 of the Act, which the Commissioners naturally regarded as a strong censure upon their administration. But the Governor-General in Council considers that the grounds urged in the Lieutenant-Governor's letter of the 16th July 1884, for a comprehensive enquiry into the condition of the town as a basis for the settlement

of a well-considered plan of future operations, were such as ought to have commanded the cordial concurrence of the Municipality, and the acceptance of the proposal would have gone far to allay the feeling of dissatisfaction which, rightly or wrongly, had taken possession of a large and influential section of the community.

9. This proposal being, however, rejected, the appointment of a Special Commission, under section 28 of the Municipal Act, was in a measure forced upon the Lieutenant-Governor. It was in any case a matter which the law leaves altogether to his discretion. The Governor-General in Council observes, however, that both the Special Commission itself, and the Local Government in the orders which it has passed on the Commission's report, has treated the question under consideration in a broad and conciliatory spirit, though necessarily without that completeness of result which the more detailed and prolonged enquiry, originally suggested by the Lieutenant-Governor, would probably have secured. His Excellency in Council cordially concurs in the hope expressed by His Honor that the good sense and voluntary action of the Municipality will now induce them to give full effect to the recommendations of the Commission, and lead to the early preparation of a complete scheme of future operations which will fully utilise the whole energies and all the available resources of the Corporation, and not be in any degree departed from or postponed until every remediable sanitary defect has been altogether removed. In the opinion of the Government of India no question of remission of municipal taxation can properly arise until it is shown that all important sanitary improvements are adequately provided for. Income should be maintained at the maximum until the town is properly cleansed, drained, and watered. If the ordinary staff of the Municipality is inadequate to superintend the execution of work on such an extended scale, the Local Government could probably arrange to give the necessary temporary assistance.

10. The Governor-General in Council does not propose to examine in detail the recommendations of the Commission, or to consider how far effect might be given to these by orders under section 29 of the Act. That is a matter for the Local Government to determine. His Excellency in Council will content himself with expressing his general concurrence in the remarks of the Lieutenant-Governor on the subject as embodied in Mr. Edgar's letter to the Chairman of the 1st July 1885. His Excellency in Council thinks it, however, his duty especially to endorse the views of the Lieutenant-Governor on the provision of free latrines which are explained in paragraph 12 of that letter. If there is any doubt as to the obligation of the Corporation to make adequate provision of this description for the poorer classes of the population, an early opportunity should be taken of amending the law.

11. The view of the Government of India upon the general question is, as already stated, that, while there is on the Commissioners' own showing so much to be done, the Corporation is bound to utilize its sources of income to the uttermost to provide the necessary establishments and carry out the needed improvements. The Governor-General in Council has already said that 1½ lakhs of rupees is the least sum which should annually be spent upon the cleansing and structural improvements of *bustees*. This amount was indicated as the *minimum* limit of expenditure upon one important branch of sanitary reform, and it is for the Local Government to consider whether a minimum outlay on this and other main branches of sanitary expenditure might not be safeguarded by law in the same manner as the minimum outlay on drainage is safeguarded by clause 4 of section 27* of the Municipal Act. The benefits of sanitary reform are so immediate and real, that the existing generation of citizens may well be content to bear their full share of the burden of cost. It is scarcely too much to say, as the Army Sanitary Commission once observed, that the value of a single year's loss of productive labour which the existence of the present acknowledged evil entails upon the city would go far to pay for their entire removal. It must also be remembered that the trade of India with Europe is seriously hampered at present by quarantine regulations which rest for their supposed

* It shall be the duty of the Commissioners, and they are hereby required to—

* * *

(4) complete and extend throughout the town the new underground drainage works now under construction, and for that purpose to expend annually a sum, being not less than one lakh and a half of rupees, or with the sanction of the Local Government any sum less than the above amount.

justification upon the continued prevalence of cholera in our large ports and especially in Calcutta, which is regarded as the *nidus* of this disease. Every re-appearance of the malady with anything like epidemic prevalency is at once followed by fresh restrictions upon trade, and it is hopeless to attempt to get these removed or reduced to a minimum until the progress of sanitary reform has broken down the epidemic character of the disease by reducing locally the liability to personal seizure. The history of Western epidemic diseases, as remarked by the Army Sanitary Commission on the Calcutta Report for 1876, warrants the anticipation of this result.

12. The Governor-General in Council trusts that for the future the public spirit of the Commissioners will lead them fully to recognise these facts, and that their action will place it out of the power of any outside critics to impute to them indifference or failure to justify the confidence of Government in entrusting to their hands the municipal arrangements of the metropolis of British India. The good effects which have undoubtedly resulted from what has already been done should encourage the Corporation to organize its operations upon a larger scale, and induce the community generally to bear cheerfully the heavy burden which the urgency of the reforms required plainly imposes on it. If in any respect the present law fails to give the Corporation itself adequate control over nuisances arising from the action or inaction of individuals, the local Legislature should be moved to amend it. For the reform of the milkmen's *bustees*, further powers appear certainly to be required. The executive of the municipality is entitled to have its hands strengthened in every reasonable way to enable it to grapple successfully with the task before it.

13. I am to add that the Report of the Special Commission will, with the connected papers, be forwarded for the information of Her Majesty's Secretary of State and of the Army Sanitary Commission.

14. The Governor-General in Council will await with interest the report of the Committee which the Lieutenant-Governor has appointed to consider the question of extending the boundaries of the town so as to embrace the more populous and important portions of the Suburbs.

No. 1668T—M, dated Darjeeling, the 9th September 1885.

From—J. WARE EDGAR, Esq., C.S.I., Offg. Secy. to the Govt. of Bengal, Munpl. Dept,
To—The Chairman of the Corporation of the Town of Calcutta.

IN continuation of my letter No. 819T—M, dated the 1st July last, I am directed to forward, for the information of the Commissioners, copies of a letter* from the Government of India on the subject of the enquiry made by the Commission appointed by the Lieutenant-Governor under section 28 of Act IV (B.C.) of 1876, and of the letter† to which it refers. I am to observe that, although more than two months have elapsed since the date of my letter to your address, referred to above, no reply has yet been received on the subject. I am accordingly to enquire when the Corporation are likely to be in a position to furnish their answer.

* No. 256, dated 31st ultimo.

† Letter to the Government of India, Home Department, No. 824—M of the 1st July 1885.

No. 1671, dated Calcutta, the 24th September 1885.

From—Baboo Gopal Laul Mitter, Offg. Chairman of the Corporation of Calcutta,

To—The Secretary to the Government of Bengal, Municipal Department.

I have the honour to acknowledge the receipt of Government letter No. 819-TM, dated 1st July 1885.

2. The letter was laid in due course before the Town Council, and in accordance with the Resolution passed by the Council, it was submitted for the consideration of the Commissioners at a Special General Meeting held on the 30th July last. At that Meeting the following Resolution was passed:—"That a Committee be appointed to consider the letter from the Government of Bengal, No. 819-TM, dated 1st July 1885, to suggest what course the Commissioners should pursue with regard to that communication, and to draft a reply for approval by the Commissioners in Meeting." The reply to Government was placed before the Special General Meeting held yesterday, and approved.

3. The Commissioners notice with satisfaction the recognition by His Honor the Lieutenant-Governor of "the substantial progress in sanitary matters which has been made of late years by the Corporation, and especially by the present body of Commissioners." They are aware that a vast amount of work lies before them in the way of sanitary reform, and they are fully impressed with the responsibility which attaches to them so long as the insanitary conditions, which still prevail in many parts of the town, are not completely removed. It may be observed that their efforts in this direction have been steady and sincere and, with due regard to the means at their disposal, successful. It is not necessary to recapitulate, in this letter, all the works that were done in the course of the last official year. This has been fully detailed in the Administration Report of that year, but the Commissioners would refer to some of them, if only to shew that they fully appreciate the importance of the question of sanitary reform. Thirty-four bustees engaged the attention of the Commissioners. The works in respect of eight of these have been completed. Permanent arrangements have been made for the proper conservancy of the entire area of 207 bustees. Twenty-nine tanks were filled up and obliterated, besides four which were filled up by the owners. Though the law does not give the Corporation the power to close wells, 68, which were in a most insanitary condition, were closed by the exertions of the Health Department. The project of the underground drainage of Hastings was sanctioned, and the supplementary works connected with the sewerage of the town, which had nearly been completed (with the exception of Baug Bazar and Hastings), were being carried on at a cost of Rs. 1,20,608. The works for the extension of the filtered water-supply were pushed on with vigor. The pumping station at Mullick's Ghât for the distribution of unfiltered supply was placed in working order by the construction of a jetty, and the existing pipes being found insufficient to carry the full supply, the substitution of larger pipes was commenced at the close of the year. To remedy the foul condition of cowsheds, 1,760 prosecutions were instituted, and of the 550 cowsheds in the town, more than half were connected with the sewer, and the drainage of 88 was placed on a satisfactory footing. Two model cattle sheds, capable of holding 72 cattle, were erected in Jorabagan and Kalabagan at a cost of Rs. 17,412-10-4. The construction of bathing platforms was pushed on steadily, and 28 were in working order at the end of the year. The difficulty which the Commissioners experienced was in the selection of proper sites, and the existing partial extension of the unfiltered supply. A scheme for the extension of the supply to the principal streets is now under the consideration of the Commissioners, and on the completion of the works, they will be in a position to construct these platforms in all parts of the town. They have been a boon to the lower classes, and the Commissioners feel the necessity of increasing their number so as to bring them within the reach of the residents of all the bustees. The scheme for the drainage of the area to the north of Baug Bazar Street has been completed, and is now occupying the attention of the Town Council.

4. The Commission under Section 28 did not, as observed in the Government letter under acknowledgment, confine themselves to the strict letter of the law. Their recommendations were made with a view to giving a "complete account of the requirements of the town," though some of them were beyond the powers of the Corporation to give effect to, and others were "wanting in precision and definiteness." The Commissioners treated these recommendations with the respect which was due to such high authorities as Mr. Beverley and the chief sanitary officer of the Province, and though they were of opinion that the recommendations were not such as could be enforced under the provisions of Section 29 of Act IV (B. C.) of 1876, they adopted most of them with willingness.

5. The Government letter in paragraph 6 observes:—"The Lieutenant-Governor regrets to find no reference in your letter to the important subject of finance, which is discussed in paragraphs 139 to 142 of the Commission's report, and which, for obvious reasons, underlies the whole of its more important recommendations." The Commissioners would beg to observe that there was no desire on their part to avoid this important subject, and they gladly avail themselves of this opportunity of fully entering into it. Under Section 25 of the Calcutta Municipal Consolidation Act, 1876, all funds received or raised by the Commissioners are declared to be applicable to the purposes expressly authorised by that Act, and the Section which follows declares the purposes to which the same may be applied, but so far as the occupiers' rates are concerned (*vide* Sections 160, 165 and 192 of the Act), the application of the proceeds thereof is restricted to the immediate purposes for which those rates are respectively levied. The only fund, which is thus available for all other purposes, is the General Fund, which is principally composed of the house-rate, license fees from trades and carriages, fines and penalties, tramway receipts, fees for removal of business refuse, night-soil fees, receipts from the Slaughter-house and the Municipal Markets, &c. The other sources of income being practically fixed, there remains the house-rate, from the proceeds of which alone the General Fund may be augmented. Your letter observes that, in settling their Budget for 1883-84, the Commissioners rejected the proposals of their executive that the house-rate should be fixed at the maximum of 10 per cent., and reduced expenditure by 3½ lakhs of rupees, of which Rs. 2,93,100 was cut out of the estimates from various conservancy departments, and again that the house-rate of the current year has been fixed at 7½ per cent. It may here be pointed out that the reference to the reduction relates to the year 1884-85 and not to the year 1883-84. Be that as it may, the Commissioners regret that there should be any misapprehension on the subject. The estimates of expenditure are fixed in the first instance, and in the presence of the executive officers, and usually with their consent. Before that is done, the Committee appointed for the purpose of settling the Budget estimates minutely enter into the past expenditure of several years, and the requirements of the year for which the Budget is framed. They then fix the estimates of all other sources of income, leaving the house-rate to be considered last, and it is not until every requirement has been provided for, and every income from other sources considered, that the house-rate is fixed. As regards the reductions in the Budget estimates for 1884-85, the Commissioners did not depart from the usual practice of former years That they were perfectly justified in making the reductions will be evident from the fact that even the estimates as reduced could not, during the year, be fully worked out; and it has been the invariable practice of the Commissioners to raise the sanctioned grant whenever just grounds are brought forward, and they observe with satisfaction that the majority of the members of the Commission correctly represent that the Commissioners, "while insisting on the integrity of the Budget system as regards their officers, have not always thought it necessary to regard it as a hard-and-fast rule for themselves." Adverting to the subject of those reductions, Mr. Harrison, at the Special General Meeting of the Commissioners, held on the 26th of February 1885, observed as follows:—

In presenting this budget he wished to say a few words to remove certain misapprehensions which had prevailed at the time when last year's budget was presented, from the fact that the expenditure side of the draft budget was 3¾ lakhs in excess of the budget as it was passed by the Commissioners. That gave rise to criticisms from two opposite quarters, one

that the budget prepared by the executive was an extravagant budget; the other that the grant passed by the Commissioners was insufficient, being 3¾ lakhs less than what was considered necessary by the executive. Neither of these criticisms was entirely correct. A budget as passed contained what might be considered the necessary provision for the year together with such desirable additions as occurred reasonable. But in framing the budget, the executive had to include not only what might really be considered necessary, but also what was considered desirable if funds were available, but which no one considered necessary. He had to consider not only all that was necessary, but improvements, alterations, new buildings, &c, which the officers in charge of the departments considered desirable. The consequence was that the budget always contained a good deal which no single person considered, and he himself did not consider absolutely necessary. He saw no harm in putting before the Commissioners a large proportion of desirable improvements. He had therefore always proceeded on the principle of keeping in the budget estimates for all reasonable improvements, not intending that the Budget Committee should pass them all, but that they should exercise the discretionary power of passing what they considered most important. At the same time, in this present year, the Municipality enjoyed the advantage of having resources which they never had in any previous year. They were not only relieved from the payment of interest on 25 lakhs of 6 per cent. debentures, but the assessment on property had increased so substantially that the rates and taxes would themselves produce an appreciable increase of that income; and therefore from both these sources a great deal more money would be available this year. He had been very careful to include in the budget only such items as he considered most desirable; at the same time he was far from saying that everything entered in the budget was necessary, but he did think, looking at the funds which would be available, that a large proportion of them was desirable.

And again, at the Meeting held on the 30th March 1885, after the Budget estimates of the current year were framed, Mr. Harrison remarked as follows, with special reference to the 7½ per cent. house rate:—

They would all admit that this was perhaps the most satisfactory budget yet laid before the Commissioners since the present Municipal Act was passed. He said that, because on the one hand, it practically conceded all that had been asked for by the executive departments, and, on the other hand, it did so without any necessity for raising the house-rate, which formed what was the back bone of the General Fund for all general expenditure above 7½ per cent. He might recall to their minds the discussion which took place at the end of 1881, when there was a question whether the rate for that year should be lowered to 7 per cent., or not. In advocating the not lowering of it, he said that, even at 7½ per cent. there was a slight deficit, and his arguments were thus recorded in the proceedings of that Meeting: "Even at 7½ per cent. an equilibrium could not be maintained, there would be a slight deficiency, and he thought therefore that the true interests of the rate-payers was to endeavour to maintain the house-rate at 7½ per cent. There was a possibility, he might say, a probability, that with the 7½ per cent. the Commissioners might with economy be able to maintain an equilibrium, but if the rate was lowered, there was a moral certainty that the rate must be raised next year to 8 per cent.," and in conclusion, he said on that occasion that "if the rate was kept at 7½ per cent. gradually as the town improved, the income of the Municipality would be sufficiently elastic, and with strict economy that rate might permanently suffice."

6. The Commissioners have no hesitation in saying that the well-being of the Municipality depends upon an efficient control, rigorously maintained, over the various items of expenditure, and it is because this control is maintained over the finances that they are in a position to lay out large sums of money on substantial improvements. It will be remembered that when the administration of the Municipality was handed over to the Commissioners under the present law, they inherited a legacy in the shape of a deficit of a large sum of money, but their position has since changed very much for the better. They have spent considerable sums of money on improvements, and yet their financial position is perfectly solvent. It has been stated that the "resources at the disposal of the Commissioners have not been utilized to the utmost," that the house-rate has been kept at 7½ per cent., while the law gives the Corporation the power to raise it to 10 per cent., and that the Commissioners have failed to avail themselves of the maximum amount which they can and ought to apply to the improvement of the town. It is necessary, therefore, that the circumstances which have hitherto influenced the Commissioners in this matter should be stated. The number of premises which are assessed for the purpose of levying the house-rate is 42,500. Of these 24,361 are assessed on an annual valuation of less than Rs. 108, as shown in the annexed statement. The number of premises, the annual valuation of which ranges from Rs. 61 to Rs. 108, is 5,745, and consists of 2,412* huts and 3,333 pucca premises. The number assessed at below Rs. 60 (less than Rs. 5 per month) is 18,616, or

* When empty land is leased out to a tenant and he builds on it, the building is called a but in the Assessment Register. The landlord pay the house-rate on the land, and the tenant pays the House, Water, Police and Lighting rates on the hut.

considerably more than one-third of the total number of premises in the town. These consist of 15,753 huts and 2,863 pucca premises. The poverty of a large class of residents thus admits of no doubt, and when it is considered that most of them have to pay not only the house-rate but the other rates also, it cannot but be conceded that the burden of taxation, even as imposed on them at present, is extremely heavy. His Honor, in recommending the free use of public latrines, has had his attention direct to the poverty of a large class of residents. "There are large classes of persons," says the Government letter, "resident within the town whose circumstances will not permit them to pay any charge, however small, for the use of a latrine; these people have no alternative, in the absence of free accommodation, but to resort to the lanes and open spaces in the neighbourhood of their own houses; nor is it possible to prevent it by any measure of practical severity." The Commissioners submit that an increase in the house-rate, which, under the present law, will not exempt any class of residents, will inflict a very great hardship, and should only be resorted to in case of absolute necessity. The Commissioners have been able, during the present year, with a house-rate at 7½ per cent., to make provision for the improvement of the town to the extent desired by Government. This they have been able to do partly in consequence of the increase in the assessments of houses during the late revision, and much more by reason of a saving of over two lakhs of rupees, which has followed upon the repayment of the loan of 1864. But more is expected of them, and yet they must express with some degree of regret that they have not received from Government the relief which they prayed for in regard to the Police-rate. The Commissioners submitted a proposal to the Local Government to be relieved from contributing to the Police Fund, for the express purpose of spending a much larger amount, than what is now available, for the improvement of the town. Their proposal was that the Police-rate should be done away with, and in lieu thereof they should be authorised to raise another rate from the class who now pay that rate, for the purpose of devoting the principal portion of it for the improvement of the town. If this proposal had been accepted, all classes of the community would have borne their share for the improvement of the town: but this did not meet with the approval of Government, and the Commissioners have not yet been relieved from the contribution to the Police Fund. It does seem hard to the Commissioners that the concession to which they have a just claim is delayed by the Local Government, and yet they are asked to raise the house-rate for the purpose of doing more towards the improvement of the town. The Commissioners do not intend permanently to levy the house-rate at 7½ per cent., but they will be prepared, from time to time, to adjust it to the necessary requirements of the town

7. With reference to the recommendations alluded to in paragraph 8 of your letter, *viz.* (I) that unfiltered water be laid on to as many sewer-summits as possible, with a view to the more effectual flushing of pipe-sewers; (No. XI) that more rapid progress be made in the distribution of unfiltered water in the principal streets; (No. XIX) that wherever possible, privies should have unfiltered water laid on, and be connected with the sewers, and (No. XXII) that zemindary latrines be connected with the sewers and with the water-supply, the Commissioners observe that the adoption of these recommendations in their completeness depends upon the further extension of the unfiltered supply. Such a scheme, as has already been stated in paragraph 4, has been placed before the Water Supply Committee, and is now under their consideration. On the 30th May last, the Town Council passed the following Resolutions:—"That pipes of sufficient dimensions be laid down for the distribution of unfiltered water where it is most wanted, and that a list be submitted of all applications received for unfiltered supply connections, and that all such applications, together with all applications subsequently received, be considered and disposed of by the Town Council." These Resolutions are being carried out. The additional streets, named in the margin, have been piped from 31st September 1884 to the 30th June 1885; a large number of public latrines and night-soil depôts have been supplied with unfiltered

1. Halliday Street and Kalabagan Bustee.
2. Sobha Bazar Street.
3. Strand Road.
4. Mooktaram Baboo's Street.
5. Mitter's Lane.
6. Upper Chi pore Road, between Mooktaram Baboo's Street and Grey Street.
7. New Road, east of Jorabagan Bustees.
8. Hogg Street and Municipal Office Street.

water. The pipe sewers are flushed by means of carts, pumps and hose attachments, unfiltered water only being used for the purpose. This has been done regularly, but it is not possible to state what quantity of water has been used. The scheme for further extension, however, provides for flushing them more effectively and more promptly than is now the case. A copy of this scheme, as submitted by the Engineer, is herewith forwarded for the information of Government.

8. The recommendations of the Commission, regarding the de-watering and filling up of tanks, are being practically carried out. Besides the 33 tanks filled up in 1884-85, as mentioned above, it was found necessary to de-water three. During the last hot weather, when cholera made its appearance in some parts of the town, particular attention was directed to the condition of the tanks in the vicinity of the outbreak, and guards were placed near two or three which were considered most foul, and these were immediately de-watered. Ten tanks have been de-watered this year (1885). The Health Officer reports that "the state of the tanks is continually occupying the attention of the Health Department, and that not only in the hot weather, but in the cold, is a vigilant watch kept over them. Should unusual sickness of any kind, especially cholera, occur in the neighbourhood of a tank, measures are at once taken to have it de-watered, and in the usual routine of inspection, tanks that are observed to have become particularly foul, are brought to the notice of the Engineer for early action in the matter of filling up." The operation for filling-up tanks, which have already been condemned, will commence at the close of the rainy season.

9. The necessity for constructing a sufficient number of bathing platforms for the bustee population of the town is fully acknowledged by the Commissioners, and they agree with the Commission that platforms should be erected in those parts of the town where they are required, at least one being given to every large bustee. They also agree that it is desirable to construct at least 75 platforms before the end of the current year, and have issued instructions that this shall, if possible, be done. They have, however, to represent that the present unfiltered water supply limits the operation to those localities which are at sufficiently measureable distance from the pipes which have been laid down. Unavoidable delay is occasioned by the procedure prescribed by law for the acquisition of land, and the time which should be taken by the Collector under Act X of 1870 for making over possession to the Corporation, cannot be definitely fixed.

10. In paragraph 12 of your letter under reply, it is stated:—"So far from admitting that the freeing of the latrines may properly be deferred, because they have hitherto paid only a moderate percentage on their capital cost, the Lieutenant-Governor regards it as quite indefensible that they should be expected to yield any return whatever. But even if this were not the case, the argument, with which the Commissioners seek to justify their disregard of the recommendations of the Commission, would appear singularly unhappy in the face of the fact that they have for years past derived a handsome annual profit from the operation of the Night-soil Department." And again:—"The impropriety of working this Department so as to bring in a profit has been represented by the Chairman on more than one occasion, and has also been admitted by the Commissioners themselves. It is difficult, therefore, to reconcile their accepted views upon the question with their present hesitation to apply a small part of this profit to remove a very grave defect in their administration of the Department from which it accrues." It seems to the Commissioners that the question of freeing latrines is distinct from that of the realization of the night-soil fees. Before the present system, the night-soil was removed by tolah mehters, who paid to the Municipality, by way of fees, the annual sums, noted in the margin, for the years 1874 to 1876. The work not having been done by them in a satisfactory manner, the Commissioners, in 1877, introduced the present system, which, it must be admitted, has, on the whole, worked well. The accounts certainly show a surplus, as stated in your letter, but it does not follow that the whole of it represents a profit to the Corporation, for nothing is debited on account of contribution to the Health Officer's establishment.

	Rs.
1874	28,200
1875	29,750
1876	44,542

In the current year, the sum of Rs. 23,678 has been debited under that head, so that the profit is really a great deal less than the amount mentioned. If their predecessors could receive fees from tolah mehters, the Commissioners do not see why they should not be justified in securing a surplus in the place of those fees, but if it is indefensible for them to derive any profit from this source, their obvious course is to reduce the fees for the benefit of those who pay them.

The question, whether the latrines should be made free or not, is a different one altogether. If the Commissioners were satisfied that the sanitary condition of the town would be very much improved by freeing the latrines, they would not hesitate to adopt the recommendation of the Commission. They must say that it was unfortunate that the members of the Commission did not take fuller evidence on the point, but having regard to the opinions expressed by the majority who signed the report, and the views of His Honor the Lieutenant-Governor, the Commissioners have resolved to make the existing latrines free tentatively for two years, and to construct three latrines for the exclusive use of females. They also agree with His Honor that it is desirable to construct more latrines, and have called on the executive to prepare estimates, and indicate sites, with a view to the erection of a latrine in every large bustee where there is no such accommodation at present, an improvement advocated in paragraph 91 of the Report of the Commission.

11. The views of the Commissioners on recommendation (XXXV) of the Commission have been stated in paragraph 36 of their letter to Government, dated the 4th May last The organization of the Health Department will be reconsidered by them on the appointment of a whole-time Health Officer.

12. The question of the amalgamation of the Town with the Suburbs is now under the consideration of the Special Committee appointed by His Honor. Whether the whole or a portion of the Suburbs is ultimately included in the Town, there can be no doubt that fresh legislation will be necessary to define the constitution, the powers, and the duties of the new Municipality, and the Legislature will have to determine issues which will be of vital importance to the residents of the Town and of the Suburbs. The Commissioners will always be ready to offer such assistance to the Special Committee and to the Legislature as their past experience of the working of the present Municipal Act may lead them to think necessary, for the amendment of existing provisions or for the introduction of future reforms.

EXTENSION OF UNFILTERED WATER-SUPPLY.

To the Officiating Chairman.

1. I have now the honor to submit the plan and detailed estimate for the full "extension of the unfiltered water-supply" from Mullick's Ghât amounting to Rs. 3,71,592 as follows:—

	Rs.	Rs.	Rs.
Northern Division.			
Main and sub-mains with ground hydrants and wash-outs	1,63,319		
Flushing branches to sewer-summits in piped streets ...	1,861		
Ditto ditto in side streets ...	53,670		
	2,18,850		
Deduct value of pipes to be taken up and relaid	18,669		
		2,00,181	
Southern Division.			
Mains and sub-mains with ground hydrants and wash-outs	89,164		
Flushing branches to sewer-summits in piped streets ...	2,009		
Ditto ditto in side streets ...	20,595		
	1,11,768		
Deduct value of pipes to be taken up and relaid	22,498		
		89,270	
			2,89,451
Providing hydrants for those streets which are already piped			32,141
Add for marginal item			50,000
Total of estimate Rs.			3 71,592

2. This extension is exclusively for distribution pipes, the mileage of which would be effected in the manner shewn by the following figures:—

Northern Division.—Length of existing pipes	16·77		
Net length of pipes now proposed to be laid	8·78		
	25·55		
Add for flushing branches to side streets ...	12·38		
			37·93
Southern Division.—Length of existing pipes (exclusive of 1·12 miles to the drainage pumping station and slaughter-houses)	17·01		
Net length of pipes now proposed to be laid	5·20		
	22·21		
Add for flushing branches to side streets ...	4·59		26·80
Total mileage ...			64 73

That is to say, there are 33·78 miles of streets piped at present, and the proposed extension is to be 30·95 miles more. Of the existing pipes the 20-inch and 12-inch mains running down Bow Bazar Street (the dividing line between the northern and southern divisions of the town) supply half of wards 7, 8, 9 of the northern division besides the whole of the southern. With this exception, however, the northern division has till now been entirely without large supply mains, and has merely been provided with small pipes which have been laid down from time to time in a tentative manner and with limited regard to a

comprehensive system. Now that the demand for unfiltered water, in the northern division particularly, has been unmistakeably pronounced, it has become necessary to fully develope the resources contained in the new pumping power at Mullick's Ghât. With this view the estimate now submitted is the result of a thorough revision of the pipe plan *de novo*.

3. The principle upon which the scheme is based consists in *the demand for road watering*. This demand is by far the largest that takes place within a definite period, and that being satisfied, it is assumed that all other demands can be satisfied, with the general proviso that these other demands shall be complied with at other hours than those devoted to road-watering. To meet probable increase of demand, a margin of 16 per cent. has been allowed for in the northern division and 6 per cent. in the southern over present road-watering areas, there being more room for expansion in the north than in the south.

The method of calculation is this: it is assumed, from practical experiment, that a square yard of road surface in the hot weather requires one gallon of water for one effectual watering; there are two waterings daily, and the process of watering occupies two periods in the day of three hours each, so that each square yard of road surface as shown on the watering list is assigned 2 gallons of water to be supplied in 6 hours. This, with the marginal percentages as above added, works out to—

For northern division	...	... 680 cubic feet per minute.
For southern division	...	... 540 „ „
	Total	... 1,220 cubic feet per minute.
	Equal to	7,600·6 gallons per minute.

which the Mullick's Ghât engines are capable of supplying by working at the rate of 27·54 revolutions per minute, which is within their capability. Up to the present these engines have not worked up to half this quantity.

4. Under the scheme now presented the following are among chief advantages which will be obtained:—

(1) Every street of 50 feet wide and upwards and several others to give equable distribution as shown by plan will be piped, and supplied with ground-hydrants at suitable intervals for watering the roads by hose. Thus a large number of watering carts will be set free, which can be utilized for the more effectual watering of streets, which at present are scantily treated, for the extension of road watering and for conveying flushing water to pipe sewers in streets and lanes not provided with pipes.

(3) Branch pipes with sluice-valves will be laid to every sewer-summit passed by the pipe lines for flushing purposes.

(4) Branch pipes will be laid up every side street off the pipe lines to the nearest sewer-summit in such side street for flushing purposes.

(5) Every bathing platform will be supplied with a branch pipe in place of the existing ferrule system, so as to ensure an abundant supply. The supply being under control, however, by means of stop-cocks and equilibrium ball-valves.

(6) Supply to house privies along all the pipe line can be given, provided the pressure requisite for road watering is not unduly reduced, and provided that when that pressure becomes unduly reduced, measures be adopted for not giving the house supply simultaneously with the road watering.

(7) A more abundant supply can be given to all public latrines, and latrines can be increased in number as may appear necessary. Night-soil depôts, until they become things of the past through the universal connection of privies and latrines with the sewers, can also be more abundantly supplied where necessary.

5. The flushing of pipe sewers and of the minor or tributary brick sewers will be brought completely under control, and independently of the increased domestic filtered supply in prospect. The improvement, consisting only of pipe-laying, can be carried into effect with far greater celerity than any of the works necessary for an increase to the filtered water-supply.

6. The total cost of the unfiltered water-supply to Calcutta, as far as I have been able to ascertain, is shown by the following figures:—

	Rs.
Chandpal scheme	2,46,369
Mullick's Ghât scheme to 30th June 1885	4,23,967
Total expended ...	6,70,336
To which add present estimate	3,71,592
Grand total cost ...	10,41,928

This amount does not include the cost of the old pumping station at Nimtollah Ghât nor of the small station at Chandpal originally handed over by Government to the town. On the other hand, however, there is the set-off of Rs. 1,00,731, which amount has to be contributed by the Port Commissioners for removal of the station from Chandpal to Mullick's Ghât, and the sale of the old machinery and buildings at Chandpal, the proceeds of which have amounted to Rs. 7,909 from first to last.

7. In conclusion, I would mention that the specification of the pipes with the view to calling for tenders is being printed, and I would suggest that Messrs. Joseph Quick and Son, the lately appointed professional agents, be instructed to call for tenders from three or four well-known pipe founders, including Messrs. Cochrane Grove and Co., the contractors for the 48-inch main. I would further suggest that, if possible, advantage be taken of Mr. Harrison's presence in England to ask him to settle the contract in conference with Messrs. Joseph Quick and Son, on behalf of the Commissioners; thereby much time would be saved.

JAMES KIMBER, C.E.,
Engineer to the Corporation.

19*th August* 1885.

CORPORATION OF THE TOWN OF CALCUTTA.

EXTENSION OF UNFILTERED WATER-SUPPLY, 1885.

Calcutta, 13*th August* 1885.

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER FOR BENGAL FOR THE YEAR 1884 INCLUDING THE REPORT ON VACCINATION IN BENGAL FOR THE YEAR 1884-85.

MUNICIPAL DEPARTMENT—SANITATION

Darjeeling, the 31st October 1885.

RESOLUTION.

READ—

The Report of the Sanitary Commissioner for Bengal for the year 1884, including the Report on Vaccination in Bengal for the year 1884-85.

Read again—

The Reports for the previous year, and the Resolution recorded upon them.

The present Report is submitted by Dr. Lidderdale, who was in charge of the office of Sanitary Commissioner throughout the year. It was not received until the end of July, and the delay in its submission is said to have been chiefly due to irregularities in the office of the Sanitary Commissioner, which have since been removed. It is again urged that the 1st May, which is the date fixed for the submission of the report, is "too early a one, with which it is almost impossible to comply, and which does not give a fair time for the proper compilation and digest of statistical and other information given." No doubt the submission of the Vaccination Report with the Sanitary Report has much to do with the delay, since the former, unlike the latter which is for the calendar year, is for the official year which terminates on the 31st March, and there is barely time between that date and the 1st May to check and compile the reports and statistics of each circle of vaccination, and to submit a proper report on the whole in a printed form; but there appears to be no reason why, since returns of the work performed in each circle are now submitted monthly, and the vaccinating season has been curtailed, the annual report cannot be drawn up and submitted much earlier than it has been for the last three years. Its earlier submission would certainly be facilitated by a reduction in its bulk. The length of the report has steadily increased during the last four years. The report for 1881 occupied 73 pages (exclusive of appendices and tables); that for 1884 has extended to 187 pages. In the Resolution on the Report for 1883, the disproportionate attention paid to vaccination by the Sanitary Department was commented upon. But this subject occupies 64 pages in the present report, as against 37 in the report for the previous year. Several other subjects are treated at needless length; and while the Lieutenant-Governor fully recognizes the care and industry bestowed on its preparation, he is satisfied that it would be an advantage to every one if, with the omission of a great mass of details, the necessary information could be compressed into a smaller compass.

2. The year 1884 was characterised by drought in nearly all the districts of the Province, particularly those of the Burdwan and Patna Divisions, where the distress among the people was so great as to necessitate the adoption of special relief measures which were carried on to the end of the year. In Durbhunga a grant of Rs. 5,000 in aid of the road cess funds was sanctioned by Government for expenditure on relief works, and the Board of Revenue were authorized to suspend the collection of rent in those Government estates in the district of Gya in which distress was anticipated by reason of the failure of crops. The rainfall, which was unseasonable and irregularly distributed, was again much below the average, being 57·56 inches against 64·70 inches, the average of previous years, and, as a consequence, the harvest partially failed, giving rise to a considerable advance in the prices of food-grains, particularly common rice, the price of which rose from Rs. 1-10-6

per maund, the average of previous years, to Rs. 2-8-1 per maund in 1884. Notwithstanding the great scarcity and the high prices of food, it is a noticeable feature in the sanitary history of the year that the health of the people throughout the Province does not seem to have suffered. The Sanitary Commissioner records the opinion "that the prejudicial effects of a diminished food-supply with high prices were more than counterbalanced by a comparatively drier season proving beneficial to health."

3. Some advance was made in the registration of vital statistics during the year. The ratio of births per mille of population was 23·51 against 22·08, and that of deaths 20·83 against 18·82. The recorded death-rate, which is still of course very far from being accurate, is considered to be an indication of marked improvement in the registration of mortuary statistics, inasmuch as there was no unusual general epidemic prevalence of sickness to cause an increase in the number of deaths, and, according to local reports, "many deaths were unreported owing to chowkidars having left their villages to seek a livelihood elsewhere, by other labour, in consequence of high prices of food-grains caused by deficient rainfall having injured the crops." The Lieutenant-Governor is disposed to agree with the Sanitary Commissioner in referring almost the whole of the increase to improved registration. It is beyond question that public health was far better in 1884 than in 1882, when cholera raged with unwonted severity, and a deadly wave of fever passed over the greater part of the Province, yet the recorded death-rate in the past year (20·83) exceeds that recorded for 1882 (20·41) by ·42. The districts in which a marked improvement in registration is noticeable are Pubna, Balasore, Sarun, Faridpore and Monghyr. In Sarun, where the number of deaths recorded rose from 34,972 in 1883 to 49,071 in 1884, the *hath-chitti* or hand-book system was introduced, and is said to have worked satisfactorily.

4. During the year under review the provisions of the Compulsory Registration Act IV (B.C.) of 1873 were extended to the Bansberiah Municipality, in the district of Hooghly, and the Naihatti Municipality, in the district of the 24-Pergunnahs. The provisions of the Act, so far only as they relate to the registration of deaths, were also extended to the portion of the Darjeeling district which lies to the west of the river Teesta. The law is now in operation in 116 towns and one rural tract. Its provisions were, however, only enforced in 42 towns during the year. The total number of prosecutions was 396 with 316 convictions, against 297 prosecutions with 232 convictions in 1883. The largest number of prosecutions instituted was reached in Howrah, where 81 persons were tried for offences under the Act, 71 of whom were convicted. The results for the year show an improvement in the administration of the law, and the Lieutenant-Governor is pleased to learn that in some towns "the absence or paucity of prosecutions is due to the people spontaneously and regularly reporting the occurrence of births and deaths among them, and thus giving no occasion for the exercise of the clause of the law, prescribing a penalty for evasions, and that, moreover, in some municipalities special agency has been engaged to detect cases of non-compliance by the people with the requirements of the law." The Lieutenant-Governor recognises the fact that, so long as the work of registration in municipalities is done by the police, Municipal Commissioners are not likely to take any active interest in the subject. He is glad therefore to learn that several municipalities have already taken this work into their own hands, and he trusts that, as this practice becomes more general, the co-operation of the Municipal Commissioners will ensure rapid improvement in the registration of vital statistics in their respective towns.

5. The registration of births was carried on in 47 towns with a total population of 1,685,651 persons during the year, against 46 towns with a total population of 1,685,150 in 1883. The recorded number of births, exclusive of 1,437 children still-born, was 39,640, or a ratio of 23·51 per mille of the total population under registration, against 37,215, or a ratio of 22·08 recorded in the previous year. The record of the number of births is still very defective, and, compared with the number of deaths recorded in the same area, it is

shown to be less by 10,709, or a ratio of 6·35 per mille of population. The following are the towns in which the best results were obtained :—

	1884.	1883.		1884.	1883.
Jamalpore in Monghyr	40·30	40·17	Bankura	38·55	34·93
Kendrapara	40·91	25·54	Revilgunge	32·41	37·30
Brahmenberia	37·45	33·46	Serampore	31·02	26·70
Bettiah	35·17	30·47	Durbhunga	29·87	2 ·8
Jamalpore in Mymensingh	34·49	34·24	Gya	29·41	2 ·8
Bhagulpore	33·88	33·64			

In all these towns, with the exception of Bhagulpore, Serampore, and Gya, the recorded number of births exceeded the number of deaths. The percentage of male to female births was 116 against 114 in the previous year.

6. Of a total population of 66,163,884 persons within the area in which the registration of deaths was carried on, 1,378,610, exclusive of 20,015 still-born children, were reported to have died during the year, showing an increase of 132,934 compared with the number reported to have died in the previous year. The ratio of deaths to population was 20·83 against 18·82 in 1883. The increase in the death-rate was, as noticed above, mainly due to greater interest having been taken in the registration of deaths, especially in the rural circles. The following table exhibits the death-rate from specific causes for the year under review, compared with that for the previous year and the quinquennium 1879—83 :—

Name of Disease.	Proportion of deaths per 1,000 of population.								
	In 1884.			In 1883.			In 1879—83.		
	Urban.	Rural.	Province.	Urban.	Rural.	Province.	Urban.	Rural.	Province.
Cholera	3·81	1·96	2·03	3·64	1·27	1·36	3·47	1·52	1·59
Small-pox	1·10	·24	·28	·27	·14	·14	·65	·27	·29
Fevers	12·80	14·81	14·60	13·77	13·81	13·81	15·50	12·26	12·58
Bowel-complaints	3·24	·79	·88	3·54	·73	·83	3·89	·70	·82
Injury	·44	·36	·37	·40	·35	·35	·43	·33	·33
Other causes	5·91	2·54	2·66	5·64	2·18	2·30	5·79	1·73	1·89
Total of all causes ...	27·43	20·58	20·83	27·26	18·49	19·02	29·73	16·82	17·30

There was an increase in the mortality recorded under every head of disease, especially under cholera, fevers, and the maladies classed under "other causes." Most of the increase was contributed by the rural circles. The Sanitary Commissioner observes that, "where registration has been improved, the opinion is growing that the rural circles, characterized by the existence in them of unchecked morbific influences stimulated by primitive filthiness of habits of the people, &c., are unhealthier than the urban circles in which corrective precautions are observed." The experience of the year again showed that the fourth quarter of the year, immediately after the rains, is the most fatal to life. The two worst months were November and December, and October came fourth in the death-scale, the most prevalent diseases being, as usual, fevers and bowel-complaints. The months of April and May were marked by the prevalence of cholera and small-pox, which caused the death-rate for these months to rise considerably above the death-rate for the same months in the previous year. The mortality among infants was higher than usual, the ratio having been 117·90 against 99·22 in 1883. The death-rates per mille of population according to class or nationality were—Christians 13·61, Hindus 20·26, Mahomedans 22·48, Budhists 13·79, and "Other races" 15·21.

7. As in the previous year, the birth-rate in Calcutta was lower and the death-rate higher than in the other Bengal towns. The ratio of births was 19·13 and of deaths 30·59. The increase in the number of deaths occurred under cholera and "Other causes." The mortality in the cantonments in Bengal, among a total population of 33,346, rose from 21·50 per mille in 1883 to 24·35 per mille in 1884. The mortality was again highest in the Hazaribagh Cantonment, where the death-rate rose from 61·16 per mille in 1883 to 129·41 per mille in the year under review. Of 21,182

European seamen who visited the Port of Calcutta during the year, 2,026 were admitted into hospital, of whom 76 died from various causes, chiefly from cholera, the number of deaths from which cause was 36. Besides these, there were 31 deaths which occurred out of hospital. Compared with the statistics of the previous year, the death rate among the European port population was 63·53 per mille against 48·92. Of the native floating population estimated at 25,409 at the census of 1881, 301 resorted to hospital, of whom 62 died while under treatment. Among this number 38 died from cholera. Outside hospital there were 135 deaths, 100 of which were from cholera. This disease appears to have afflicted the native floating population very severely, "the deaths from it amounting to no loss than 70·05 per cent. of the total loss of the year."

8. During the year under review, cholera prevailed to a much greater extent, and with more fatal effect, than in the previous year The number of deaths recorded was 134,421, or at the rate of 2·03 per mille of the registered population, against 90,439, or a rate of 1·36 per mile of population in 1883. The disease was "present in every district, and pervaded 24,621 villages against 16,316 in 1883, prevailing epidemically in 90 of the registering circles against 47, and with conspicuous severity in 90 against 64; while 432 against 491 circles enjoyed much immunity, and 37 against 46 were entirely free from the pest." Of the total number of deaths, 9,390 were contributed by the urban and 125,031 by the rural circles. The districts in which the disease prevailed with the greatest severity were Balasore (7·79), Nuddea (5·79). Faridpore (5·34), Moorshedabad (4·99), Rajshahye (4·95), Backergunge (4·63), Cuttack 4·16), Dacca (3·85), 24-Pergunnahs (3·57), Pooree (3·52), Jessore (3·38), and Pubna (3·36). In all these districts the death-rate was higher than in the previous year.

9. Thirty-four pages of the report are devoted to the history of cholera during the year; but the observations made in different districts appear to have led to no new discoveries on the subject. As usual, the disease was most fatal in the hot, dry months, and local insanitary conditions fostered its development. With a few exceptions, all the northern districts were comparatively free from it. It is a common idea that the disease is disseminated by pilgrims who carry it with them in their journeyings from district to district. This point was made the subject of special investigation by the Sanitary Commissioner, who, after a careful examination of the cholera statistics of those districts which are traversed by pilgrims, records the following opinion:—

"I think it unfair to infer that cholera is disseminated by pilgrims *per se*, or that they communicate the disease wherever they go. The fact is that when cholera, engendered by causes not yet definitely determined, and fostered by climatic influences or local insanitary conditions, is prevailing in any locality, pilgrims, if present there, suffer in common with the local residents, often more severely owing to fatigue, old age, debility, bad food or water, crowding, &c; but they do not import or communicate the disease. They, however, continue to suffer during their onward journey, if the wave of the disease is travelling in the same direction, and the people residing in the localities traversed by this wave also suffer along with them. The disease appears in places far removed from pilgrim routes, and it is during the dry months that it prevails with intense severity, generally in every district in Bengal Proper, whether pilgrims are present in them or not during that peri d"

A remarkable circumstance in the cholera history of the year is that in a very few instances was the disease found to have manifested itself in the crowds of people who assembled at the public fairs held for days together in the districts. This is attributed to the sanitary precautions adopted. Some noteworthy efforts were made to arrest the progress of cholera in places where it appeared in a virulent form. Special mention is made of the measures adopted by Mr. Collier, the Sub-Divisional Officer, and Dr. Barker, the Civil Surgeon of Serampore, and of the help rendered them by Mr. Finlay of the Hastings Jute Mills, in mitigating the severity and checking the spread of the disease in that town. The remarks made by the Sanitary Commissioner in paragraph 93 of his report, regarding the necessity for an improved water-supply at Pooree, have been communicated to the Public Works Department, and the question will be considered by the Lieutenant-Governor when at Pooree during his approaching visit to Orissa.

10. In examining the cholera mortality in the 24-Pergunnahs during the year 1884, the Sanitary Commissioner remarks—

"The Suburbs of Calcutta again heads the list with an increase in mortality of nearly one per 1,000 of population, as compared with the death-rate of 1883. The mohullahs in it which formed the scene of greatest suffering were Balliaghatta, Entally, Bhowanipore and Watgunge. This Municipality was specially inspected by me and found in an extremely insanitary condition. A report embodying the defects and indicating remedies was sent to the Commissioners, and a copy thereof submitted to Government. An abstract of this report, with a note of the action taken by the Commissioners on the suggestions therein made, will be found in Appendix III to this report. Some of the officers of the Vaccination Department visited the Suburbs of Calcutta and several of the other localities where exceptional mortality from cholera occurred. Assistant Surgeon Priumbor Mitter, Deputy Superintendent of Vaccination, Metropolitan Circles, records the following observations in connection with some localities in the Suburbs and in the North and South Suburban Towns. *Manicktollah* is the most filthy part of the Suburbs, the land behind houses being used as public latrines. In fact, all the bustees in this area are in an extremely insanitary condition from *fæces* and house refuse lying on the roadsides, lanes and bye-lanes and the ponds, hollows, and low lands being the receptacles of liquid sewage and filth. *Garden Reach.*—All the bustees here are in a similar insanitary condition with regard to conservancy, drainage, roads, &c. *Sett Bagan and Ghose Bazar.*—In these and the neighbouring bustees foul water holes, containing decaying vegetation, abounded; there are many filthy private privies; the water in two large tanks was filthy, green in colour and turbid, and two of the smaller ones were covered with decomposing plants, their sides lined with rank vegetation, the water in them 'appearing like vegetable decoction emitting disagreeable odour.' *Ballygunge.*—Here the waste lands were found to be covered with litter and other refuse, and were resorted to for defæcation. *Gangarambusti and Wolfutbazar.*—These were found in their usual state of uncleanliness without any arrangement for the removal of sewage and refuse. *Matiabrooj, Mooriali and Kanchisharak* were so crowded as to prevent free perflation of air, and their courtyards and compounds were extremely filthy. In *Ekbalpore* some of the drains were filthy and obstructed, and the cowsheds full of decomposing litter and refuse. *Baniapooker.*—Here the drains were filthy and emitted a sickening odour, and the ditches and low lands covered with *fæces*, rank vegetation and refuse of every description. The water-supply in all its bustees was bad, drinking-water being taken without any regard as to its quality; many of the houses were deficient in ventilation, the ground about them damp, and no arrangements existed with regard to house scavenging. *Bhowanipore.*—This place was in an indescribably insanitary condition, and its bustees do not admit of free scavenging. The tanks are foul and the drains, with few exceptions, are defective in level. *Watgunge.*—Some of the ditches here contained weeds, house sweepings, and human excreta, and the receptacles in one of the latrines were overflowing with *fæces* emitting an abominable odour. *Kalighat in Tollygunge.*—Although some improvements had been effected, the sanitary condition of this locality is yet very defective with regard to scavenging, cleanliness, ventilation and crowding of huts. The latrines were most filthy, the vessels in them overflowing with decomposed bubbling *fæces* seats unclean, and the latrine too near a much-used tank belonging to the police. The remarks of Dr. Ghose, the Officiating Deputy Sanitary Commissioner of the Metropolitan Circles, who also visited most of the above-named localities, are equally condemnatory. His reports also expose many extremely insanitary conditions obtaining at Cossipore, Baranagore, Barripore and Joynuggur thanas, and Baraset Municipality. I would be extending my Report to an undesirable length were I to reproduce all the defects disclosed in the reports of the Officers of the Vaccination Department. It will suffice to say that the above description applies *mutatis mutandis* to several other localities in the Suburbs, one of the largest and most important of the Municipalities in Bengal, and to other towns and thanas in the Province. It may be noted here that some judicious recommendations made by Dr. Ghose, after careful inquiry and inspection of several bustees in the Suburbs, do not appear from his later reports to have been followed by any action on the part of the municipal authorities."

It seems to the Lieutenant-Governor that it would be impossible for Government to approach the subject of a removal of these horrible conditions in different parts of the Suburban Municipality till the question of amalgamation is settled. At the same time he is convinced that, if the Suburban Municipality is unable or unwilling to cope with the state of things revealed by the Sanitary Commissioner's report, it is only by the amalgamation that any effective reform can be secured.

These remarks, together with a copy of paragraph 299 of the Report, will be communicated to the Committee appointed to consider the question of the amalgamation of a portion of the Suburbs with the town of Calcutta.

11. Small-pox prevailed in a more virulent form during the year 1884 than in the previous year. "The reported number of casualties amounted to 18,533 against 9,714 and the proportionate death-rate to population to ·28 per mille against ·14 per mille. The disease prevailed with more or less severity in 53 circles against 30, and was absent from 224 against 284; and it invaded 2·96 per cent. of the villages against 1·73 per cent." Of the total number of

deaths, 2,711 were contributed by the urban and 15,822 by the rural circles. The areas in which the disease was most severely felt belonged to the districts of Gya (10), Sarun (8), Patna (7), Chumparun (5), and Hazaribagh (7). The districts of Gya and Sarun have not yet been brought under the operation of the Vaccination Act, and this no doubt accounts for the high death-rates returned by them. The same may be said of Chumparun, which has been only partially protected; and although Patna was reported to have been almost thoroughly protected, the number of deaths from small-pox in that district seems to contradict this statement. As in the previous year, the mortality was highest among children; no less than 72·27 per cent. of the total number of deaths were those of children under 12 years of age. The record of the seasonal incidence of the disease confirmed the experience of former years that small-pox is most prevalent during the hot months of March to June.

12. The total number of deaths from fever recorded during the year was 966,233, or a ratio of 14·60 per mille of the registered population, against 913,766, or a ratio of 13·81 in 1883. The registered mortality from this cause has steadily increased year after year since 1871, when the recorded number of deaths stood at 169,505, or a ratio of 2·56 per mille of population. With regard to this return, the Sanitary Commissioner states that the numerical increase is due to the facts revealed by improved registration, and that no circumstances have occurred to "justify the belief that the Province *generally* is getting more feverish than before." Of the total number of deaths, 584,893 were registered in Bengal Proper, 301,302 in Behar, 26,523 in Orissa, and 53,485 in Chota Nagpore. The death-rate per mille of population in each of these areas was 16·67, 13·02, 7 30, and 12·34 respectively. The districts which suffered most from fever were Rajshahye (30·40), Nuddea (29·22), Pubna (27·45), Jessore (22·41), Bogra (20·96), Gya (20 81), Moorshedabad (20·25), Beerbhoom (9·53), Burdwan (18·81), Khulna (18 52), Julpigoree (18·25), and Rungpore (17 09) The experience of the year again showed "that the severity of the disease begins and progresses in intensity after the rains have well set in, and is most virulent in January, October, November, and December, especially in the two latter months, when the evaporation of moisture from the sodden soil is rapid and the daily range of temperature considerable." As in the case of cholera, "the relationship of fever with the quantity of rainfall has always been a constant phenomenon." The local reports continue to show that fever is found to be most prevalent in those districts in which the soil is saturated with moisture, and the land is loaded with decaying organic matter owing to obstructed drainage due either to artificial deposits, or to the silting up of the beds of rivers and khals. It is no doubt true, as reported from many districts in Central and Eastern Bengal, that the process of silting is steadily going on throughout a very wide area, and extending its influence on health from year to year. The effect of drainage on fever is strikingly exemplified in the case of certain villages visited by Dr. Ghose, Officiating Deputy Sanitary Comissioner, in the Midnapore district. On the inner side of the embankment, along the right bank of the Roopnarayan river, is a group of well-drained villages, in which "no vestige of malarious cachexia, is to be seen in the people;" while on the outer side of the embankment, "the people of churs Najooreh and Bilkota living on *churs* generally inundated during the rains have well-marked signs of malarious disease in them." The Lieutenant-Governor notices the frequency with which the steeping of jute fibre in tanks and water-courses is spoken of in the present report as a harmful source of pollution of water, and consequently a probable cause of much disease. The matter is one to which local attention should also be specially directed, and the point should be specially noticed in the next report. The water-supply stations on the Eastern Bengal Railway were specially reported on in August 1884, in consequence of which measures have been taken by the Manager to improve the supply at some of the most important stations, and other improvements are in contemplation. The remarks of the Sanitary Commissioner regarding the silting up of the Kana and Sarasati nuddees in the Hooghly district will be considered in the Public Works Department.

13. The mortality during the year from "bowel-complaints," "injury," and "other diseases" was 58,376, 24,674, and 176,373 respectively. Compared with the statistics of the previous year, there was an increase under each

of these heads, though not to a very noticeable extent. Under "injury" the largest number of deaths are again shown to have been occasioned by snake-bites and attacks of wild beasts. The recorded mortality from this cause was 10,393 against 9,776 in 1883. Accidents stood high in the list of casualties, the number having been 10,078 against 8,727 in 1883. Among "other diseases," heat apoplexy and scurvy caused more suffering among the European seamen who visited the port during 1884 than in the previous year

14. The work of the Vaccination Department continued to progress during the year 1884-85. The total number of operations performed was 1,488,296 against 1,364,642, the number performed during the previous year, showing an increase of 123,654. Towards this increase the vaccination circles contributed 114,483 and the municipal area 9,171 operations, as exhibited in the following table:—

Circles.	Total number of vaccinations performed.		Difference in 1884-85.	
	In 1884-85.	In 1883-84.	Increase.	Decrease.
Calcutta	15,955	9,538	6,417	.....
Metropolitan Circles	366,139	342,543	23,596	.....
Bovine Vaccination Department, Calcutta	4,740	3,310	1,430	.....
Suburbs of Calcutta, including cooly depôt	15,021	14,397	624	.....
Total of Metropolitan Circles ...	385,920	360,250	25,670	.....
Darjeeling Circle	239,560	221,536	8,024	.....
Ranchi ,, ...	148,972	146,283	2,689	.....
Sonthal Pergunnahs ,, ...	123,048	106,985	16,063	.....
Eastern Bengal ,, ...	397,079	351,016	46,063	.....
Orissa ,, ...	46,971	52,542	.....	5,571
Berar ,, ...	54,755	39,627	15,128	.....
Total of Vaccination Circles ...	1,402,280	1,287,777	114,483	5,571
Municipalities, Dispensaries, &c.	86,016	76,865	9,171	.....
Grand Total ...	1,488,296	1,364,642	123,654	5,571

Of the total number of operations in the year, 421,274 were performed by the Government agency, 976,226 by licensed agency, 4,760 by the Bovine Vaccination Department, and 86,036 by municipal vaccinators, dispensary medical officers, &c. Comparatively speaking, the largest amount of work was done by the Government vaccinators, each of whom performed on an average 1,280 operations. The licensed vaccinators performed on an average 915 operations each. It is believed that better results would have been obtained from the licensed system of vaccination, were it not for the difficulty which is experienced by the licensed vaccinators in realizing the fees for operations performed by them. It appears to the Lieutenant-Governor that this difficulty would not be felt, in places where the Compulsory Vaccination Act is in force, if in each case the fee were demanded before the operation was performed. The law, if rigidly enforced, would compel the people to seek vaccination, and the licensed vaccinators, to whom the people would have to go, would be able to refuse to perform the operation without prepayment. Protection was afforded for the first time by Government vaccinators to four thannas in the Tipperah district, two thanas in the Noakhally district, six thanas in the Cuttack district, and four thanas in the district of Shahabad. On the other hand, nine thanas in the district of Mymensingh, and the whole of the Patna district, were for the first time placed under the licensed system of vaccination, after having been traversed by the Government vaccinators. In addition to the areas protected in former years, the whole of the districts of Tipperah and Pubna, and parts of the districts of Manbhoom, Lohardugga, and Cuttack, were reported to have been thoroughly protected at the close of the season 1884-85. The Sanitary Commissioner, however, shows that the words "thorough protection" must not be construed too literally. Even in the Metropolitan Circles, in which the districts have been reported year after year to be "thoroughly protected," many whole villages have been found by Dr. Ghose, the Officiating Superintendent, which have up to this time successfully resisted vaccination. In the Midnapore district alone there are no less than 356 villages in which the whole or a large portion of the inhabitants are

still unprotected. Until the strong prejudices against vaccination, which still prevail in the minds of a considerable section of the population in all parts of the Province, are overcome, thorough protection, in the literal sense of the words, will be impracticable.

15. The following table exhibits the number of primary and secondary operations performed during the year 1884-85 in the different circles (including municipalities), and the percentage of successful cases under each:—

Circles.	Total number of vaccinations.	Primary vaccinations.			Re-vaccinations.		
		Total.	Number successfully vaccinated.	Percentage of successful operations.	Total.	Number successfully vaccinated.	Percentage of successful operations.
Metropolitan	418,338	409,832	406,469	99·57	8,506	4,069	54·89
Darjeeling	234,453	214,180	211,750	99·48	271	207	76·98
Ranchi	150,966	150,879	146,317	99·03	87	48	63·85
Sonthal Pergunnahs ...	132,810	131,749	130,591	99·89	561	374	66·90
Eastern Bengal... ...	409,706	409,364	407,307	99·91	342	254	76·78
Orissa	51,167	51,240	49,396	96·61	127	65	55·55
Behar	75,301	74,837	71,773	97·31	464	184	54·97

The reason assigned for the comparatively small number of operations performed in the Orissa Circle is that the districts of Balasore and Pooree were excluded from the sphere of operations for the year, and that in some of the selected areas of the Cuttack district, vaccine operations had to be stopped in the middle of the season owing to an outbreak of cholera. In the Sonthal Pergunnahs Circle, where the work performed was unfavourably reported on in 1883-84, the number of operations rose considerable. The increase is said to have been caused by work having been carried on largely during the recess, to suppress outbreaks of small-pox in the Sonthal Pergunnahs, Bhagulpore, and Monghyr districts. It was also due in part to the exertions of the new Superintendent. The Lieutenant-Governor learns with regret that much of the work of the Government vaccinators in the district of Shahabad was retarded in consequence of an order issued by the Magistrate, permitting certain inoculators to vaccinate, and forbidding police interference with them. It appears that some of these men not only induced people to refuse vaccination by the Government vaccinators, but, under cover of the licenses granted to them, practised inoculation even in thanas where the prohibitory law is in force. The Lieutenant-Governor will await the result of the Sanitary Commissioner's enquiry into this matter. Compared with the figures of the previous year, there was an increase in the number of children brought under protection in the year 1884-85; but fewer adults were vaccinated than in the previous year.

16. During the year under review, the provisions of the Compulsory Vaccination Act were extended to the towns of Kotechandpore in Jessore, Deoghur, Sahebgunge, Dumka, and Rajmehal in the Sonthal Pergunnahs, Brahmanbaria and Commilla in Tipperah, Darjeeling, Cuttack, Bali in Howrah, Sherpore in Bogra, Patna, Durbhunga, Hazareebagh, Purneah, and Pooree, and to five thanas in Tipperah. The law is now in force in 81 towns, 4 cantonments, and 9 rural areas, and preliminary steps have been taken to extend it to the Chittagong and Sudharam municipalities. With a few exceptions, such as Gya, Monghyr, and Bhagulpore, the law met with comparatively less resistance in the places in which it was enforced during the year 1884-85 than in previous years. It is evident that the measure is being gradually more appreciated by the Mahomedans, and that the Rajpoots and Marwaris, who have always stoutly resisted it, are in many places less persistent in their opposition. In Burdwan, owing to the presence of small-pox, operations had to be carried on throughout the year, and it is stated that the Marwaris, who were at the outset strongly hostile to the measure, at last acquiesced and allowed their children to be vaccinated. Experience of the beneficial effects of vaccination is slowly, but surely, popularizing it wherever it is introduced: it is a work of time, and inoculation is still a powerful rival; but every year shows that the superiority of vaccination is more generally acknowledged.

17. A very large number of the operations during the year were performed with bovine lymph, which is still spoken of as "equal in operative power to humanized lymph." Its only drawback is that when stored in tubes it soon deteriorates, on account of the serum of blood which passes into the tube with the virus when squeezed from the vesicle on the calf, and when conveyed to long distances its efficacy is lost in consequence of this deterioration during transit. When used direct from the calf its efficacy is indisputable. On the whole, the work performed with this lymph was successful, and the Lieutenant-Governor is glad to learn that the prejudice against it entertained by the Hindus is dying out. The one great advantage which bovine lymph has over humanized lymph is that it is easily obtained, and that the supply is always equal to the demand.

18. The total amount expended on vaccination during the year 1884-85 was Rs. 1,51,448-14-4, exceeding the expenditure, in the previous year by Rs. 15,853-15-6. Of the total expenditure, Rs. 73,663-9 represent the cost of the operations performed by the Government vaccinators, Rs. 67,082-15-8 the cost of the establishment provided by Government for supervising the operations of the licensed vaccinators, and Rs. 10,702-5-3 the cost of vaccination to municipalities. In addition to the regular expenditure, Rs. 1,201-11, which were received as private contributions from various sources, were expended in aid of the work. The average cost of each successful operation performed by the Government vaccinators was 2 annas and 10 pies; that by the licensed vaccinators 1 anna and 1 pie; and that by the municipal agency 2 annas and 2 pies. On the whole, the average cost of each operation performed during the year was 1 anna and 8 pies, the same as it was in the previous year.

19. The percentages of municipal income expended on sanitary works and roads during the year 1884-85 were 38 and 19 against 34 and 18 respectively in the previous year. The districts in which the largest proportion of municipal income was devoted to improvements in sanitation were Julpigoree, Dacca, Hazaribagh, Burdwan, Pooree and Midnapore. The towns in the districts of Mymensing, Khulna, Bogra, and Noakholly were most deficient in this respect. The special purposes for which the municipal allotments for sanitation were expended during the year 1884, compared with the figures for the year 1883, are shown in the following statement:—

Nature of work.	Total cost.		Difference in 1884.	
	In 1884.	In 1883.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Conservancy, including latrines	3,99,293	3,07,951	91,342	.....
Ditto, establishment	2,82,206	3,25,890	.....	43,684
Drainage	1,05,973	96,097	9,876	.....
Water-supply	1,35,181	1,60,449	.....	25,268
Disposal of the dead	8,141	7,429	712	.....
Markets and slaughter-houses	24,042	16,542	7,500	.....
Vaccination	12,481	10,992	1,489	.....
Treatment of the sick	1,87,185	1,69,339	17,846	.....
Other sanitary works	78,987	53,080	25,907	.....
Total ...	12,32,789	11,47,030	84,559	68,952
Construction, maintenance, and repairs of roads ...	6,28,578	6,06,160	22,418	.....
Total including roads ...	18,61,367	17,54,090	1,07,277	68,952

There was an increase of expenditure under all heads except establishment and water-supply.

20. Among the important sanitary works carried out during the year 1884, the Burdwan water-supply takes a leading place. The water-works were formally opened by the Lieutenant-Governor on the 4th November, and the regular supply of water commenced from the 1st December 1884. The beneficial effect of the improved water-supply on the inhabitants of the northern portion of the town where the pipes are laid, 99 per cent. of whom are said to use the water, is unquestionable. The Lieutenant-Governor trusts that it will not be long before the supply is extended to the southern portion of the town, the inhabitants of which still resort to the Banka Nulla and the Eden Canal. Very slow progress appears to have been made with regard to the proposed

water-supply scheme for all the riparian municipalities on the right bank of the Hooghly from Howrah to Serampore. The services of a Government Engineer have been lent for the purpose of preparing the necessary estimates, and it is hoped that some definite project will be adopted before the close of the current year. A scheme of water-supply for the town of Bhagulpore has been sanctioned by Government, and the work is being carried on as rapidly as possible. Some attention was devoted to the improvement of drainage during the year, but very much still remains to be done in this direction, and the Lieutenant-Governor trusts that the suggestions made from time to time by the Sanitary Department on the subject will not be disregarded by the local bodies to whom they have been communicated. During the year 1884, much attention was paid by the Government to the insanitary condition of Calcutta and its Suburbs, and steps were taken with the view of remedying the evils which have been shown to exist.

21. The Lieutenant-Governor observes with satisfaction the improvement in the amount of sanitary work performed by the officers of the Vaccination Department. The record of the observations made by these officers is interesting, and cannot fail to help on the cause of sanitation. The work of the Department affects the well-being of some 68 millions of people; and if the progress is slow, the result is due to the apathy and, sometimes, hostility of the people to any measure of reform, and to the cost involved in any practical schemes of improvement. There is also the fact that outside of municipalities there is no law by which the officers of the Department can enforce their remedies. Even, however, if the advice given to the inhabitants of the villages inspected is not immediately followed by action, it is in itself an advantage to the Province to have so many qualified medical officers thoroughly acquainted with the sanitary condition of the areas under their charge; and with the introduction of the Local Self-Government Act, when funds are made available for local improvements, the question of village sanitation should, at any rate in the more advanced districts, be taken up in real earnest. The detailed remarks of the Sanitary Commissioner upon his subordinates will be communicated to the Appointment Department for information. Finally, the thanks of the Lieutenant-Governor are due to Dr. Lidderdale for his report, which, though too lengthy and diffuse, is full of interesting and valuable information.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE FOREST ADMINISTRATION REPORT FOR 1884-85.

REVENUE DEPARTMENT—FORESTS.

Darjeeling, the 31st October 1885.

RESOLUTION.

READ—

The Progress Report of Forest Administration in Bengal for 1884-85.

The Report has been submitted by Mr. A. L. Home, who was in charge of the Department throughout the year. It reached Government considerably after the prescribed date—a fact which is not adequately explained by the circumstance that during part of the year the Conservator had executive charge of the Darjeeling Division in addition to his own office. Owing to the pressure of work in connection with the floods in Bengal, the consideration of the Report by Government has been unavoidably postponed.

The Report is full to a degree. Consisting of 52 quarto pages of text, besides 45 pages of tabular statements and appendices, it leaves no detail of the year's administration untouched. Numerous topics, which have formed the subject of separate correspondence during the year, are here again brought to notice, and the result is that in the mass of unimportant and uninteresting details, the broad facts of administration, which alone it was necessary to set forth, are obscured. The Lieutenant-Governor must confess to a feeling of dissatisfaction at the size to which the Forest, as well as other annual reports are extending. Whatever the merits of administration in any department may be, those merits are greatly enhanced, in the Lieutenant-Governor's judgment, by the capacity to record its results in a concise and clear narrative; and certainly if the report of one year's forest work in Bengal requires a big volume to itself, the Lieutenant-Governor looks with despair to the duty which would devolve upon him in any adoption of a triennial system of reports. Steps are now being taken to reduce the size of other reports, and Sir Rivers Thompson desires that the Conservator shall, for his part, submit a plan whereby in future the size of his report may be diminished, without sacrifice of what alone it is material for Government to receive in the shape of an Annual Forest Administration Report.

2. *Area of Forests.*—The following statement shows the areas of the various classes of forests superintended by the Department during the year under report:—

Class of Forest.	Area in Acres.
Reserved	3,124,267
Protected	1,470,376
District	2,760,563
Total ...	7,355,236
Proposed reserves not included under either District or Protected forests	147,980
Total	7,503,186

The variations of these figures from the corresponding areas shown last year are inconsiderable, and call for no special comment.

The forest areas specified above lie chiefly on the declivities and at the foot of the Himalayas in the Darjeeling and Julpigoree districts, in the Chittagong district, in the Sunderbuns, and in the Chota Nagpore and Orissa Divisions. In addition, however, to the forests under State control or supervision, there are considerable private forests in Bankoora and Midnapore in South-

Western Bengal, in the districts of Dacca and Mymensingh in Eastern Bengal, in Rungpore and Dinagepore in Northern Bengal, in Chumparun, in North Behar, in Shahabad and Monghyr in South Behar, in the Sonthal Pergunnahs, in Chota Nagpore, and in Orissa. Very great benefit would undoubtedlly accrue to the owners of these private forests, as well as to the country generally, from the adoption of a system of conservancy adapted to the circumstances of each case. Some owners have already shown an intelligent interest in the matter; and it is to be hoped that the special report which has been called for by the Government of India, in regard to the extent of private forests in these Provinces, may lead to the general adoption of some simple rules of conservancy for the protection of these valuable properties. In this connection it may be mentioned that the Lieutenant-Governor has recently received a valuable report on the forests in the Chota Nagpore Division from the Inspector-General, Dr. Schlich. The report is under His Honor's consideration.

3. *Demarcation and Surveys and Working Plans.*—Some progress has been made during the year with the important work of forest demarcation and survey. The report for 1883-84 stated that the boundaries of 3,584 square miles of reserved forest had been completely surveyed, that the boundaries of 60 square miles had been partly surveyed, while the boundaries of 1,027 square miles remained untouched. The report under notice now shows that 130 miles of boundaries were newly demarcated at an average cost of Rs. 6-13 per mile, and 1,464 miles were re-cleared at a cost of Rs. 6-7 per mile. It is understood that, with slight exceptions, all the boundaries of the forests under the management of the Department were cleared, and the boundary marks repaired where necessary during the year. The total expenditure debited during the year to "Demarcation" was Rs. 10,809 (the cost per mile varying from Rs. 21-4 in the Buxa Division to Rs. 1-11 and Rs. 1-14 in the Singbhoom and Khoorda sub-divisions) The Conservator is collecting information which will enable him to compile an accurate statement of the length of boundaries of all the forests under the management of the Department. When this is done, it will be convenient to show against each forest the progress made in surveys and re-clearances with respect to it.

4. In regard to working plans, that is, definite schemes of working to be adhered to over long periods of time, the Lieutenant-Governor had understood that such plans had been completed for the forests of the Darjeeling Division, and for some forests in the Buxa and Kurseong Divisions. It is, however, stated in the report that experiments are now being conducted "in a selected area of forest, with a view to obtaining the factors of conversion and other data necessary for the correct estimation of the growing stock on which the detailed working plan of the Darjeeling working circle will be based." This statement needs explanation.

5. *Establishments.*—At present there is a combined list of Forest Officers for Bengal and Assam—an arrangement which is not without its inconveniences. Several alterations in the strength of the staff occurred during the year, but the only change which need be noted here was the increase in the strength of the Sub-Assistant Conservator class. This increase was very necessary, but owing to the want of suitable candidates it has not yet been carried out in its entirety.

At the close of the year the subordinate establishment (excluding clerks, peons, and menials) consisted of 20 forest rangers (out of 27 sanctioned), 78 foresters, and 297 forest guards. A forest ranger had on an average 575 square miles of forest to supervise, a forester had 149 square miles, and a forest guard had 40 square miles to watch. These figures do not include the area of proposed reserves, and they indicate a probable cause of the small measure of success which in some forests have attended the efforts at fire prevention. The forest staff, to be effective, needs strengthening in its lower ranks.

The Conservator records a large increase in the number of prosecutions of members of the subordinate staff. Eleven officers were charged with criminal misconduct during the year, out of which number, however, five were acquitted or discharged, indicating, in the Lieutenant-Governor's opinion, the necessity for greater care in the institution of prosecutions, or in the method of conducting them. Other forest officers, besides those criminally prosecuted, were departmentally punished during the year, and it seems desirable that

the Conservator's enquiries should be directed into the causes of the apparent inferiority of a portion of the subordinate forest staff compared with the corresponding ranks in other departments of the public service

6. *Breaches of Forest Law.*—During the year 443 cases of breach of the Forest Law were taken into court, and 800 cases were compounded. The total number of cases (1,243) is much below the corresponding number (2,229) for the preceding year, the falling off being due to the large decrease of compounded cases, which, in the Sunderbuns, were 602 only in number as against 1,698 in the preceding year. The Lieutenant-Governor is glad to learn from the Conservator that the decrease is due to better supervision resulting in fewer breaches of the law. The results of prosecutions, which have been most frequent in Darjeeling and Orissa, also show that cases are not brought into court without adequate reasons.

7. *Forest Fires.*—In this branch of work special measures were taken during the year to preserve from fire (806,209 acres) 1,259 square miles of forest. Of that area, nevertheless, 279 square miles were burned, while 488 square miles of forest, not the subject of special protective measures, were also injured. The failure of protective measures may be localized to the Singbhoom and Angul forests, where about 230 square miles, or nearly one-half of the protected area, was burnt. In these forests protection was first attempted during the year under report, and the Conservator reports that it is very difficult to bring the Kols to understand that they must not light fires indiscriminately in reserved forests.

Of the total area of the reserves, covering 4,882 square miles, including those in which special measures were not adopted, the only forests which entirely escaped fire during the year were those in the Sunderbuns and Chittagong Divisions, and in the Hazaribagh sub-division. The Darjeeling and Teesta forests suffered only to a trifling extent. In Kurseong 3,599 acres were burned; in Palamow 12,000 acres, or 10·2 per cent. of the reserves, were burned; in Julpigoree 15,556 acres, or over 13 per cent. of the reserves, were burned; in Buxa 59,780 acres, or nearly 35 per cent., were burned. With the record of these extensive losses before him, it is scarcely necessary for the Lieutenant-Governor to press upon the Conservator the early prosecution of special measures for the protection of all reserves against fire. Omitting the Angul and Singbhoom forests from calculation, the measure of success obtained in the reserves in which fire protection has been well established is 94·2 per cent Mr. Richardson, the Divisional Officer of Buxa, deserves credit for his activity and success in saving his forests from fire in a dangerous season.

The expenditure on fire protection during the year amounted to Rs. 16,122. Having regard to the great importance of this department of forest work, the amount seems to the Lieutenant-Governor to be quite inadequate, and he desires that in the next budget a more liberal allowance be provided. The fire protection rules, which were made in December 1881 for the Darjeeling and Julpigoree Divisions, are now in force in the Hazaribagh, Lohardugga, and Angul forests.

8. *Grazing.*—The revenue realized from grazing and the sale of grass and leaves for fodder was Rs. 6,237 against Rs. 6,692 in 1883-84, and the number of cattle admitted into the forests fell from 28,276 to 24,649. Grazing rules for the Darjeeling and Khoorda forests are now under the Lieutenant Governor's consideration. Should the rules as submitted not provide for the cases referred to in the Conservator's 63rd and 74th paragraphs, a special report in regard to these matters should be submitted to Government. The question of cattle-grazing in forest tracts is not one which can be decided with reference to considerations of forest conservancy alone, and this qualification is specially applicable to the case of Darjeeling.

9. *Natural reproduction, Plantation, and Cultural operations.*—The Conservator's remarks under these headings show that good work was done by the Department during the year The experiment of opening out the soil in the Buxa Reserve by driving elephants through the forests with light logs attached to them has been a success, and where this has been done, followed by broadcast sowing of sâl seed to assist natural reproduction, seedlings have come up plentifully.

The record of plantations stands as follows:—

	Area in acres.		
	At beginning of the year.	Added during the year.	At close of the year.
Regular plantations	1,740	261	2,001
Other cultural operations (*i.e.* chiefly filling up of blank spaces in the forests in assistance of natural reproduction)	823	111	934
Total ...	2,563	372	2,935

Of the area thus planted, hill trees, principally oak and tun, cover 982 acres; teak, plains tun, sâl and other plains trees cover 1,581 acres; bamboos 312 acres; and the 60 remaining acres include small plantations and nurseries of conifers, mango, jack, divi-divi (*Cæsalpinia coriaria*), India-rubber tree, rain-tree (*Pithecolobium saman*), paper mulberry (*Brussonetia papyrifera*). &c. The divi-divi seedlings in the Buxa Reserve were devastated during the year by field rats, which destroyed all but 561 plants in a block of 45 acres. The mahogany sowings appear to have been moderately successful in the Chittagong Division, but to have failed elsewhere. The expenditure under the head of Planting and cultural operation in the year was Rs. 10,500.

10. *Communications and Buildings.*—One hundred and five miles of new roads were opened during the year, and 320 miles were repaired, at a total cost of Rs. 12,588. Good progress was made in the Chota Nagpore Division, where there is much need for opening the forests for export.

11. *Working and yield of the Forests.*—The yield of the forests for the year is stated as follows:—

	Timber.	Fuel.	Bamboos.	Minor produce
Removed—	C. ft.	C. ft.	No.	Mds.
From Reserved forests—				
By departmental agency	78,147	328,313	881,933	427
,, permit-holders	5,067,051	11,035,383	4,802,388	31,20,915
On free grants	3,626	.....	.....	975
Total of Reserved Forests ...	5,148,824	11,363,696	5,444,321	31,22,317
From Protected and District forests—				
By permit-holders	505,657	4,965,812	16,964,905	8,66,553
On free grants	.. ..	.....	900	.....
Grand Total of all Forests ...	5,654,481	16,340,508	21,710,126	39,88,870

Removal of timber and other produce of the forests of these Provinces is effected for the most part by private agency, and in the year under review the timber and fuel removed by the agency of the Department (which worked directly chiefly in the Buxa and Darjeeling forests) amounted only to 1·3 and 2 per cent. respectively of the total yield.

There was a falling off in the year under review in the operations of permit-holders under all the heads given in the above table, except under the head of "Bamboos," as compared with the total yield of the forests in the year 1883-84, which was shown as follows:—

Timber.	Fuel.	Bamboos.	Minor produce.
C. ft.	C. ft.	No.	Mds.
6,466,746	19,034,256	20,572,889	49,90,257

It will be seen that there was a decrease of 812,000 cubic feet in the removals of timber and of 2,684,000 cubic feet in the removals of fuel. The decrease in the removals of timber and fuel is especially noticeable for the Sunderbuns and Kurseong Divisions; the decrease in the case of fuel was great also in the Chittagong Division. From the reserved forests of the Sunderbuns Division which yielded 70 per cent. of the whole outturn of wood brought out of the forests managed by the Department), 542,000 cubic feet of timber less than in the previous year, and 2,020,000 cubic feet of firewood less than in the previous year, were worked out during the year. The decreased working of the forests of this Division is attributed, as in the case of the previous year, to the fact that timber-dealers have

been holding off in their operations on account of changes recently made in the permit system, whereby permits are given for shorter periods, and on account of better supervision which now prevents two or more cargoes of timber or fuel being exported on payment for a single load. Large stocks accumulated in and round Calcutta in previous years have enabled dealers to hold off in the last two years; but since the close of the year under review, an active demand has again set in. In the Kursoong Division the decrease of demand is due to the fact that large clearings have recently been made for tea cultivation, and the demand of dealers has been in great part met from the newly-cleared area, "the managers of the gardens being glad to get rid of the forest produce cut at merely nominal rates." The same cause has been at work in the Julpigoree Division. The decreased working of timber in the Chittagong Division is due to the local market having been overstocked from heavy fellings in the previous year. There was an increased outturn during the year from the Darjeeling and Teesta Divisions.

The important part played by *fakirs* in the working of the Sunderbuns forests deserves a word of passing notice. They accompany parties of wood-cutters in these forests to protect them by their religious observances from tigers. Notwithstanding the presence of these *fakirs*, it is reported that tigers made great havoc among the wood-cutters during the year, killing no less than 116 men. Among those killed were two *fakirs* in charge of *paras* or wood-cutters' stations. "Several *paras* were abandoned because of the number of men carried away from them by tigers, and in one case 17 wood-cutters were carried away from a single *para* on the Bhudder river, before the remainder lost faith in the *fakir* in charge."

12. *Financial results.*—The following table compares the financial results of the working of the Department during the last two years:—

Year.	Receipts.	Charges.	Surplus.
	Rs.	Rs.	Rs.
1883-84	6,94,334	3,87,813	3,06,521
1884-85	5,71,152	4,11,915	1,59,237

The expenditure of the year under review was higher than it has been in any previous year; while the receipts were less than any of the preceding three years. The explanation given of the increase in expenditure would seem to indicate that the increase is not of a permanent character, and that, as far at all events as it has been incurred in the Chota Nagpore Division, it is of the nature of reproductive expenditure.

As in former years, the paying divisions are the Sunderbuns and Chittagong Divisions only. All the other Divisions show deficits on their working, ranging from Rs. 5,300 in the Teesta Division to Rs. 49,000 in Chota Nagpore.

13. *Conclusion.*—Notwithstanding the falling off in the receipts of the year, which are believed to be entirely due to temporary causes, the Lieutenant-Governor observes with satisfaction that the year has been one of substantial progress in forest administration. The policy of the Department has been steadily directed to increasing the permanent resources of the forests of these Provinces, and the annual surpluses have never been obtained, though they might often have been increased, by discounting the future. The only matter of importance which seems to have escaped attention during the year is the question of village fuel preserves. Much has been written regarding it, but nothing practical has yet been attempted. It is pre-eminently a question in which the Conservator should consult with the Director of the Agricultural Department.

The Lieutenant-Governor desires to repeat the commendation expressed on former occasions of Mr. Home's zealous and efficient management of the Department. Mr. Home makes favourable mention of all the controlling staff who were employed under him during the year, with one exception. His remarks will be noted in the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

A. P. MacDONNELL,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 31st October 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Div. 1	Burdwan, Oct. 31 '85	Nil	Weather—seasonable Prospect of *amun* on the whole good. A slight fall of rain would do good in parts. Health fair, but there is some fever in the Sudder sub-division Price of rice has risen slightly, except in the Culna sub-division.
	Culna ...	1·30	
	Cutwa ..	0·05	
	Ranegunge ...	0.80	
2	Bankoora, „ 31 „	Nil	Weather—bright and getting cool. Prospects of *kaimanta* paddy continue bright. Sowings of cold-weather crops in progress. Police report shows that rice is selling at from 16 to 28 seers per rupee. Public health generally good.
3	Beerbhoom, „ 31 „	Nil	Weather—cool in morning and night. Prospects of *amun* crop good. *Aus* paddy being reaped. Rain wanted for *amun* on high lands and sugarcane. Price of rice falling. General health good excepting a few cases of cholera.
	Rampore Haut ...	0·25	
4	Midnapore, „ 31 „	0·89	Weather—seasonable. Prospects of rice in unflooded parts generally very good, and good *rubbee* crops, where such are grown, are expected. Public health normal.
5	Hooghly, „ 31 „	Nil	Weather—cool and fair. Rice crop excellent in all parts of the district not damaged by floods. *Rubbee* and *boro* paddy cultivation has commenced. Public health fair.
	Serampore ...	0·56	
	Jehanabad ...	0·25	
	Howrah, Nov. 2 „	0·08	Cold weather has set in. Crops are good where there are any A small part of *amun* crop being reaped. *Boro* paddy being cultivated. Land being ploughed for winter crops. Health fair.
	Central Districts.		
Presidency Div. 6	24-Pergha. Nov. 2 '85	0·44	Weather—seasonable Prospects of *amun*, except in low and inundated tracts, are good. Lands are being prepared for winter crops. Public health generally good.
7	Nuddea, Oct. 31 „	Nil	Weather—clear and getting cold. Sowing of winter crops progressing well; prospects of those already sown are very good. Public health good.
	Kushtea ...	0·87	
	Meherpore ...	0·65	
	Chuadanga ..	1·42	
	Ranaghat ...	Nil	
8	Khoolna, „ 31 „	Nil	Weather—days hot, but nights becoming cooler; no rain except in Bagirhat. Prospects of late rice very good everywhere except in the small area damaged by floods. Ploughing and sowing of cold-weather crops continue favourably. Public health fair.
9	Jessore, „ 31 „	Nil	Weather—seasonable. Prospects of *amun* crop good except in the Bongong sub-division where it was greatly injured by the late inundation. Sowings of *rubbee* crops have commenced. Price of rice stationary. Common rice Rs. 2-8 per maund. Fever continues.
	Jhenida ...	0·80	
	Magurah ...	Nil	
	Narail ...	2·66	
	Bongong ...	0·45	
10	Moorshedabad, „ 31 „	Nil	Weather—clear and getting cooler daily. *Amun* in the *Barh* promises well, although it does now require a little more rain. *Kalai* doing very well; other *rubbee* crops being sown. Indigo is being sown. Public health fairly good. Common rice 13 to 18 seers per rupee.
Rajshahye Div. 11	Dinagepore, Oct. 30 „	0·03	Weather—fair and seasonable. *Amun* crop good. Rice 17 seers per rupee on the average
12	Rajshahye, „ 31 „	Nil	Weather—seasonable. Recent rain has benefited *amun* paddy and other crops. Prospects continue fair, though more rain is still wanted in parts. Lands are being prepared for mustard and other cold-weather crops. Price of rice somewhat improving Fever general.
	Nattore ...	0·70	
	Nowgong ..	0·80	
13	Rungpore „ 31 „	Nil	Weather—seasonable. Prospects of *amun* and other standing crops good. *Kalai* being harvested. Sowing of mustard has commenced. Fever and bowel-complaints still prevalent at head-quarters.
	Gaibanda ...	3·03	
	Kurigram ..	0·45	
	Nilphamari ...	Nil	
14	Bogra, „ 31 „	Nil	Weather—getting cold. A rather severe shock of earthquake on 25th instant. State and prospects of crops continue to be very satisfactory. Public health fair.
15	Pubna, „ 31 „	Nil	Cold weather setting in. Prospects of crops continue good. Fever prevalent about Serajgunge.
	Serajgunge ..	0·27	
16	Darjeeling, „ 31 „	0·02	Weather—cloudy and raw. Prospects of crops good. Public health good.
17	Julpigoree, „ 31 „	Nil	Weather—fair and seasonable; getting cooler daily. Late rice crop everywhere satisfactory. Jute and *kalai* flourishing. Cultivation of land for cold-weather crops progressing. Public health good.
	Eastern Districts.		
Dacca Division. 18	Dacca, Oct. 31 '85	Nil	Weather—seasonable. Harvesting of *ashini* paddy going on. Prospects of crops good. Lands being prepared for winter crops. Fever and measles reported from parts of the Munshigunge sub-division.

		Chandpore ...	2·00	inundation, is magnificent. Public health unusually good.
	25	Chittagong Hill „ 27 „	0·23	Weather—cloudy and sunny with foggy mornings. Harvesting of *joom* paddy
		Tracts.		nearly over. Sugarcane and cotton doing well. Lands being prepared for mustard
		Hill Tipperah, „ 28 „	1·45	Weather—getting cold. Prospects of *aman* paddy good. Cotton being harvested. Pulses being sown. Public health good.
BEHAR.				
Patna Divn.	26	Patna, Oct. 31 '85	Nil	Weather—clear; mornings and evenings cool. Cold weather has set in. Paddy on high lands suffering from want of rain. Rain also needed for *rubbee* sowings. Sporadic cases of fever reported, but on the whole health of the district good.
	27	Gya, „ 31 „	Nil	Temperature still high for this time of the year. Rain urgently needed for rice crops and *rubbee* sowings. Much injury has already been done to rice crops. Health fair. Prices show a slight improvement.
	28	Shahabad, „ 31 „	Nil	Weather—hot in day, but cool at night. Prospects of paddy crop promising except in Sasseram and Bhabuah where rain is wanted. *Rubbee* sowings in progress. Cholera and fever still prevalent.
	29	Durbhunga, „ 31 „	Nil	Weather—getting cold. Prospects of rice crop continue favourable, but rain is urgently required to secure a good outturn. *Rubbee* sowings going on. Tobacco still being planted. Prices falling. A few cases of cholera reported from Madhubani.
	30	Mozufferpore, „ 31 „	Nil	Weather—fine. Sowing of *rubbee* crops continues. Prospects of *aghani* rice very good. Public health moderate.
	31	Saran, „ 31 „	Nil	Weather—seasonable. Standing crops are looking well. *Rubbee* sowings going on; early sowings have germinated well. Sporadic cases of fever still reported, but on the whole general health good.
	32	Chumparun „ 31 „	Nil	Weather—seasonable. Standing crops looking well. *Rubbee* sowings commenced. Prices of food-grains have fallen slightly. Some cases of cholera and fever still reported from the interior.
Bhaugulpur Divn.	33	Monghyr, Oct. 31 '85	Nil	Weather—fine and clear; temperature falling. Prospects of low land paddy continue good. *Rubbee* sowings progressing. Public health good
	34	Bhaugulpore, „ 31 „	Nil	Weather—very fine, clear and cold. Prospects of *rubbee* crops very good. Rice in low lands very good, but in high lands not so good. Cholera bad in north. Prices steady.
	35	Purneah „ 31 „	Nil	Weather—seasonable. Rice crop doing well. Sowing of peas and gram continues. New early rice selling at 20 seers per rupee. Public health continues good all over the district except in parts of the Arrareah sub-division, which have been affected by cholera and fever.
	36	Maldah „ 31 „	Nil	Weather—cool, dry, and fine. Prospects of winter rice good, but a little rain is wanted. Other standing crops, viz. *kalai*, mustard, &c., doing well. Coarse rice 15 to 20 seers per rupee. Public health good.
	37	Sonthal Pergns. „ 31 „	Nil	Weather—fine, clear, cold, and seasonable. Prospects of rice harvest splendid
		Rajmehal ...	0·07	everywhere. *Rubbee* prospects also very good.
		Pakour ...	0·20	
ORISSA.				
Orissa Divn	38	Cuttack Oct. 30 '85	1·0	Weather—clear and a little cold at night. Early *sarad* rice flowering. Late *sarad* in ear. Plants touched by the sea-wave are likely to be destroyed. A kind of crawling insects have appeared in some parts of the Jajpur and Kendrapara sub-divisions, and are destroying *sarad* and *rubbee* crops Price of rice unchanged. Public health generally good, except a few cases of cholera in the Jajpur sub-division.
	39	Pooree, „ 29	0·47	Weather—seasonable. Prospects of *sarad* crops are fair except in the tracts
		Khoorda „	1·24	bordering the Chilka, where relief works are going on owing to loss of crops from drought. Late *sarad* is in ear. *Laghu sarad* is being harvested. Lands are being ploughed for the *rubbee* crops. Common rice selling at an average of 17 seers 12 chittacks per rupee in the Sudder sub-division, and 15 seers 12 chittacks in the Khoorda sub-division. Cholera reported from a few places.
	40	Balasore, „ 30 „	1·32	Weather—seasonable. More or less rain all over the district, which is beneficial to the progress of the crops. State of *sarad* crops exceptionally good. A few cases of cholera reported from Dhamnagar Chakla. Public health generally good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh. Oct. 30 '85	0·37	Weather—bright and clear. Prospects continue good. Late rain has greatly benefited rice and other crops. Cases of cholera continue to be reported, otherwise general health good.
42	Lohardugga. „ 31 „	Nil	Weather—seasonable. Prospects of winter rice continue favourable. *Rubbee* being sown, but in some places rain is wanted for ploughing. Prices steady. Cholera reported from thana Lohardugga, and fever from the Palamow sub-division.
43	Singbhoom, „ 30 „	1·22	Weather—clear, bright, and cool. Prospects of crops continue good. Price of rice lower. Sporadic cases of cholera in thana Chukerdhurpur, and one fatal case in Chyebassa. Cattle-disease reported from thana Seraikela.
44	Manbhoom, „ 31 „	Nil	Weather—fine and cool. Prospects of cold-weather crops continue excellent.
	Govindpore ...	0·46	Public health good.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

Calcutta, *the 2nd November* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 30TH OF OCTOBER 1885.

At the close of the previous week the weather over the whole of South Bengal and Orissa was in a slightly disturbed condition. This was owing to the advance over the west coast of the Bay of a diffused depression, which gave very heavy rain along certain parts of the west coast, and the disturbance spreading out in a northerly direction gave clouded skies, increased humidity and temperature and light rain over the whole of South Bengal and Orissa. On the Friday these conditions were slowly and gradually disappearing, but they continued to exist in a feeble form for the first two or three days of the present week. During this period, however, the southerly winds which were still blowing over a large part of the province were being gradually driven back by a dry westerly and north-westerly wind current, and in their gradual retreat the southerly winds gave rise to a few local, but in some cases rather heavy, showers, particularly at the stations near the coast line. By the 27th and 28th these dry winds had become fairly well established, and they continued to blow, becoming more northerly as the week advanced, up till the 30th. On the 29th and 30th heavy rain commenced to fall at the southern stations on the west coast, and this appeared to be the setting in of the Madras rains, for all the stations from Masulipatam down to Galle received amounts of rain varying from about three up to five inches on these two days. The indraught towards the coast accompanying this rainfall increased the steadiness and to a certain extent the strength of the northerly current in Bengal, and at the end of the week the conditions were clearly those of the north-east monsoon or cold weather; the sky had cleared rapidly, and had become almost cloudless, humidity had decreased with great rapidity, and temperature had fallen by many degrees. So rapid was the fall of the night temperatures that at two or three stations the differences between two consecutive nights was nearly 10°, and the average nightly reduction of temperature at the majority of stations during the last three or four days of the week was about 2° or 3°.

On the first day of the week rainfall was general in Orissa and East Bengal, and for the first two or three days showers continued to occur in the same districts, and also in South and North Bengal. Temperature, humidity, and cloud proportion were also high during this period over a large portion of the province, and thus the first half of the week was a complete contrast in every respect to that of the second half of the week.

The changes of pressure have been small and variable throughout the week, and the variations from the normal, though rather irregular at neighbouring stations, are unimportant. Thus at Cuttack there is a slight, but distinct, excess pressure amounting to 0·02″, while at Saugor Island and Calcutta pressure is distinctly below the normal. Generally speaking, pressure has been slightly below the normal, or normal over the whole of Behar, and West and South-West Bengal, while there has been a distinct excess pressure at the eastern stations and in Orissa. The average variation from normal pressure over the whole province has been an excess of only 0·002″, so that it has been almost absolutely normal.

As stated above, the temperature for the first half of the week was decidedly high, while in the second half it experienced a very rapid fall. For the whole week the average temperature of the province has been above the normal by rather less than 1°, but the excess temperature has been mainly confined to Chutia Nagpur, South Behar, Orissa and East Bengal. In South-West Bengal temperature has been practically normal, and in North Behar it has been distinctly below it. The decrease of temperature which has taken place in the week has been principally in the night temperatures, and thus the mean minimum temperature for the whole week for the districts of North and South Behar is nearly 8° lower than during the previous week; in South-West and North Bengal the fall has averaged about 6°, while in Orissa and Chutia Nagpur the fall has averaged nearly 4° during the week.

The rainfall for the week has been practically confined to Orissa and East Bengal. South-West Bengal and North Bengal, except for a few local showers, have been rainless, and North and South Behar and Chutia Nagpur report absolutely no rain. In Orissa, which has received the largest amount, and where the rain has been fairly general, the average fall is only 0·63 inch. The normal fall for the week is 1·61 inches, so that the actual amount received is little more than a third of the normal. In East Bengal the average fall has been only equal to 0·22 inch, but the fall has not been evenly distributed, and the largest and most general rain has been received in the Chittagong and Tipperah districts, while other districts have been almost rainless. In South-West Bengal, as above stated, only local falls occurred, and these were principally in the Midnapore and 24-Pergunnahs districts.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 30th of October 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 18th May 1885.

The total fall from 1st January to 31st October 1885		65·77
The average fall of the corresponding period for 24 years, S. G.'s Office		64·47

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≡ fog, ⌓ dew, p passing temporary showers.

ALEXANDER PEDLER,

For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 2nd November 1885.

MEMORANDA.

THE birth and death returns of the principal Municipalities in Bengal, for the week ending 10th October 1885, present the following results :—

1. That births and deaths were registered in these Municipalities in the proportions per 1,000 of population of 27·9 and 37·4, respectively, as opposed to 27·1 and 40 per 1,000, respectively, in the preceding week ending 3rd October, indicating a falling off in the registration of deaths

2. That these events were returned in the highest proportions from the following Municipalities :—

Births.

	Ratio per mille.
Naraingunge	62·1
Utterpara	47·2
Gya	44·4
Patna	39·9
Serampore	37·3
Chittagong	35 2
Burdwan	33·6
Bhagulpore	33 5
Durbhanga	31·5
Chupra	31·2

Deaths.

	Ratio per mille.
Gya	77·2
Bhagulpore	54·2
Patna	53·2
Utterpara	47·2
Monghyr	43·4
Jessore	42·8
Suburbs of Calcutta	39 7
Durbhanga	37·7
Hughli	37 6
Chupra	37·1
Purneah	34·6
Puri	33·6
Naraingunge	33·1
Mozufferpore	31·6

3. That, as compared with the results of the preceding week, the mortality from cholera had diminished sensibly, and the casualties from the rest of the death-causes excepting injury, exhibited no marked differences, *vide* figures in the subjoined table :—

	Ratio per *mille* during the weeks ending—	
	10th October 1885.	3rd October 1885.
Cholera	2·0	3·5
Small-pox	·1	·03
Fever	17·5	18·2
Bowel-complaints	6·7	7·0
Injury	·5	·5
Other causes	10·5	10 7

4. That the highest death-rates from cholera, fever and the maladies classed under the head of "other causes" were returned from the following Municipalities, the rest of the diseases not proving noticeably fatal anywhere :—

Cholera.

	Ratio per mille.
Gya	10·9
Mozufferpore ...	7·3
Monghyr	4·5

Fever.

	Ratio per mille.
Jessore	42·8
Gya	38·2
Bhagulpore ...	29·8
Patna	28·2
Purneah	27·7
Hughli	24·2
Monghyr	23 5
Beauleah	21·0

Other Causes

	Ratio per mille.
Utterpara	37·8
Puri	18·9
Gya	17·7
Midnapore	15·5
Dacca	14 9
Suburbs of Calcutta ...	13·4
Patna	13 3
Chupra	12·7
Serampore	11 8
Durbhanga ...	11·0

5. That the mortality of the week, distributed under the heads of *Sex*, *Class* and *Age*, stands as indicated below :—

According to Sex.

	Ratio per mille.
Males	37 8
Females	36 8
Ratio of male deaths to every 100 female deaths	116

According to Class.

	Ratio per mille.
Christians	8·7
Hindus	39·7
Mahomedans ...	33·0
Other classes ...	36·4

According to Age.

	Ratio per mille.
Under 1 year ...	334 1
1 and under 5 years ...	62·6
5 „ „ 10 „ ...	23·0
10 „ „ 15 „ ...	17 6
15 „ „ 20 „ ...	23 5
20 „ „ 30 „ ...	19 0
30 „ „ 40 „ ...	21·6
40 „ „ 50 „ ...	29·5
50 „ „ 60 „ ...	41 0
60 years and upwards ...	78·2

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*

The 2nd November 1885. *Sanitary Commissioner for Bengal.*

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Ages," the ratios under which have been omitted, inasmuch as the census of the Europeans, above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorised form of age classification.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,
The 2nd November 1885.

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*

MEMORANDA.

THE table appended to this memoranda furnishes the following particulars in connection with the registration of births and deaths in the principal Municipalities in Bengal during the week ending 17th October 1885.

1. That the mean birth and death-rates stood at 23·4 and 33·8 per 1,000 of population, respectively, in opposition to 27·9 and 37·4 per 1,000, respectively, during the preceding week ending 10th October, indicating a noticeable diminution in the registration of both events.

2. That the following Municipalities furnished the highest proportions of births and deaths :—

Births.

	Ratio per *mille.*
Comillah	50·1
Purneah	48·5
Durbhanga	37·8
Chittagong	37·6
Gya	34·9
Mozufferpore	32·8

Deaths.

	Ratio per *mille.*
Purneah	62·3
Gya	60·8
Jessore	55·1
Patna	54·1
Puri	52·5
Bhagulpore	48·9
Beauleah	42·0
Suburbs of Calcutta	39·3
Mozufferpore	32·8
Monghyr	32·5

3. That the mortality from the principal diseases exhibited below, contrasted with the death-rates from the same causes in the preceding week, stands as follows :—

	Ratio per *mille* during the weeks ending—	
	17th October 1885.	10th October 1885.
Cholera	1·3	2·0
Small-pox	·03	·1
Fever	17·0	17·5
Bowel-complaints	6·0	6·7
Injury	·5	·5
Other causes	8·8	10·5

The above figures indicate that there was a diminution of mortality from every death-cause, excepting injury, notably from the maladies recorded under the head of "Other causes."

4. That of the above-named diseases, while cholera proved noticeably fatal only in the Gya town, viz., at the rate of 6·1 per 1,000 of population, and the casualties from small-pox and injury were nowhere conspicuously large, fever, bowel-complaints, and "other causes" proved most fatal to life in the following Municipalities :—

Fever.

	Ratio per *mille.*
Purneah	52·0
Beauleah	39·4
Gya	34·9
Jessore	30·6
Bhagulpore	29·0
Patna	28·2
Ranaghat	24·0
Mozufferpore ...	23·1
Monghyr	21·7
Puri	21·0

Bowel-complaints.

	Ratio per *mille.*
Patna	12·0
Suburbs of Calcutta ...	11·0

Other causes.

	Ratio per *mille.*
Puri	29·4
Gya	14·3
Durbhanga ...	12·6
Patna	12·0
Suburbs of Calcutta ...	11·8
Bhagulpore ...	10·9
Chupra	10·7

5. That the death-rates in relation to *Sex*, *Class* and *Age*, stands as follows :—

According to Sex.

	Ratio per *mille.*
Males	36·8
Females	31·5
Ratio of male deaths to every 100 female deaths ...	129

According to Class.

	Ratio per *mille.*
Christians	39·1
Hindus	35·6
Mahomedans ...	29·5
Other classes ...	72·8

According to Age.

	Ratio per *mille.*
Under 1 year ...	260·7
1 and under 5 years ...	55·5
5 „ 10 „ ...	24·6
10 „ 15 „ ...	16·3
15 „ 20 „ ...	25·1
20 „ 30 „ ...	16·9
30 „ 40 „ ...	21·9
40 „ 50 „ ...	19·5
50 „ 60 „ ...	30·0
60 years and upwards ...	98·7

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

The 2nd November 1885.

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending 17th October 1885.

Mr. Charles Little, B.A., who has been appointed by Her Majesty's Secretary of State for India to be a member of the Bengal Educational Service, is appointed to be a Professor in the Presidency College, with effect from the date on which he joined his appointment.

MEDICAL.—*The 9th November* 1885.—The services of Apothecary G. H. Campbell, House Surgeon, Dacca Mitford Hospital, are placed temporarily at the disposal of the Government of India in the Home Department

The services of Apothecary J. Davis, attached to the College Hospital, Calcutta, are replaced at the disposal of the Government of India, in the Home Department.

Assistant Surgeon Neem Chand Gupta, Deputy Superintendent of Vaccination, Metropolitan Circle, is allowed leave for three months, under section 128, chapter X of the Civil Leave Code with effect from such date as he may avail himself of it.

The following notifications are republished from the *Assam Gazette* :—

No. 55.—*The 29th October* 1885.—Mr. J. Kelleher, on return from privilege leave, resumed charge of the office of District and Sessions Judge of Sylhet and Sessions Judge of Cachar from Mr. J. Posford in the afternoon of the 13th October 1885.

No. 56.—Mr. G. Godfrey made over charge of the current duties of the treasury and office of Deputy Commissioner, Lakhimpur, to Mr. R. Lea, Extra Assistant Commissioner, and availed himself of privilege leave in the forenoon of the 4th October 1885.

No. 57.—Mr. G. A. Patten, Assistant Superintendent of Police, Cachar, reported his return to duty from privilege leave in the forenoon of the 26th October 1885.

No. 58.—Mr. W. B. Maxwell, District Superintendent of Police, Kamrup, reported his return to duty from privilege leave in the forenoon of the 12th October 1885.

No. 59.—Mr. A. J. Primrose, Assistant Commissioner, reported his return from furlough at Bombay on the 28th September 1885, and received charge of the Mangaldai subdivision in the forenoon of the 12th October 1885.

No. 60.—Baboo Harasundar Chakravarti, Munsif of Karimganj, reported his departure on privilege leave in the afternoon of the 6th October 1885.

F. B. PEACOCK,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 5th November 1885.—With reference to paragraph 5 of the Resolution dated the 12th June 1885, it is hereby notified that the number of appointments to be competed for at the examination of candidates for admission into the Subordinate Executive Service to be held in January next will be ten.

F. B. PEACOCK,
Chief Secy. to the Govt. of Bengal.

NOTICE.

The 6th November 1885.—The following draft of Rules, which it is proposed to issue under sections 21, 50 (clause 1) and 51 (clause 1) of Act VI of 1884, is published for general information. These rules will be taken into consideration on the expiry of a month from the date of their first publication in the *Calcutta Gazette*; and the Lieutenant-Governor will receive and give due attention to any objections or suggestions which may be made by any person within that period.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal

UNDER the powers conferred upon him by section 21 of Act VI of 1884 (the Inland Steam-vessels Act), and, with the sanction of the Governor-General in Council, the Lieutenant-Governor has been pleased to make the following rules for the survey of Inland Steam-vessels:—

Time and place of survey.

1. Surveys shall be made at the Ports of Calcutta, Chittagong, Patna, Cuttack, Goalundo, Kooshtea, Dehree, Khoolna, and at such other places, as may, from time to time, be declared by the Local Government to be places of survey upon due notice or application from the owner, on any day in the year, with the exception of Sundays and Government holidays, by the Surveyor or Surveyors appointed under the Act. The declarations of surveyors will be made and certificates of survey will be granted in the annexed forms on the payment of fees specified in the second Schedule annexed to the Act.

Surveyors' duties.

2. The Surveyors will be guided by the rules hereunto annexed in making their survey. In cases where two Surveyors are employed, the Engineer-Surveyor will survey the engines, boilers, and all the machinery required to be surveyed under the Act. The Ship-wright Surveyor will inspect the hull, equipments, and passenger accommodation; measure and determine the number of passengers the vessel is fit to carry, and see that the certificates of the master, mates, and engineers are such as is required by the Act; also that the lights and fog signals are in accordance with the regulations for the prevention of collisions at sea.

Notice of survey to be given.

3. Owners of steam-vessels requiring survey are requested to give the Surveyor at least three days' notice in writing when a survey is required, and are warned that, should such notice fail to be given, the Surveyor is not responsible for any delay or inconvenience which may occur in consequence.

Particulars to be given in notice.

4. This notice (which is to be preserved by the Surveyor) must state explicitly the name of the steamer to be surveyed, and the time when, and place at which, she will be ready for inspection.

Surveyors to attend at appointed time.

5. In order to prevent inconvenience and delay to the owners, the Surveyors are to be careful to be in attendance at the appointed time and place. Should they be unable to attend as required, notice should be given to the owners to that effect.

Survey if deferred.

6. Should a steamer not be ready for inspection at the time arranged, the Surveyors may make such arrangements for the subsequent survey as may be convenient to the owner or his agent. All expenses arising out of this postponement will be charged against the owner when the certificate is issued.

SURVEYORS' DECLARATIONS.

Surveyors' declarations.

7. The Surveyor's declaration under section 9 of the Act shall be made in the form hereunto annexed. The particulars required to be given in the declaration for a certificate of survey are the following, which are treated of under separate heads:—

(1) That the hull of the vessel is sufficient for the service intended, and in good condition.

(2) That the boats, life-buoys, lights, signals, compasses, and shelter for deck passengers, and the certificates of the master, engineer or engineers, engine-driver or engine-drivers, are such and in such condition as required by these rules.

(3) The time (if less than 12 months) for which the said hull and equipments will be sufficient.

(4) The limits (if any) beyond which, as regards the hull and equipments, the vessel is, in the Surveyor's judgment, not fit to ply.

(5) The number of passengers (if any) which the ship is, in the Surveyor's judgment, fit to carry, distinguishing if necessary between the respective numbers to be carried on deck and in the cabins and in different parts of the deck and cabins: such numbers to be subject to such conditions and variations according to the time of the year, the nature of the voyage, the cargo carried, and other circumstances as the case requires.

The declaration of the Surveyor as to the boilers and machinery is to contain a statement of the following particulars:—

(1) That the machinery of the vessel is sufficient for the service intended, and is in good condition.

(2) The time (12 months or less) for which such machinery will be sufficient.

(3) That the safety valves and fire hose are such and in such condition as are required by these rules.

(4) The limits of the weight to be placed on the safety valves.

(5) The limits (if any) beyond which, as regards the machinery, the vessel is, in the Surveyor's judgment, not fit to ply.

When a Surveyor is, from any reason whatever, unable to complete his declaration, an incomplete declaration should be sent to those who applied for survey as soon as possible, stating in it the reasons for not being able to fill up all the particulars under the various headings. He must take care to obliterate all the items in this declaration that he is unable to certify to as being in accordance with the Acts and regulations.

Surveyors may go on board inland steam vessels.

8. Surveyors may go on board any vessel at any reasonable time for the purpose of inspecting either the certificates of the master, or engineer, or the vessel, the machinery, the boats, other equipments, or for any other purpose rendered necessary by the Act; and the owners, masters, and engineers of inland steam vessels are required by the Act to give to the Surveyors, on being requested so to do, all such information and assistance within their power as may be requisite for the purpose of making the returns required by the Act. In the performance of

NOTICE.

The 6th November 1885.—The following draft of Rules, which it is proposed to issue under section 29 of Act VI of 1884 and section 36 of Act VII of 1884, is published for general information. These rules will be taken into consideration on the expiry of a month from the date of their first publication in the *Calcutta Gazette*; and the Lieutenant-Governor will receive and give due attention to any objections or suggestions which may be made by any person within that period.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

Rules for the examination of, and grant of Certificates to, Masters of Inland Steam Vessels under section 29, *Act VI of* 1884.

1. Candidates for certificates as first class Masters of Inland Steam vessels must be not less than twenty-one years of age and must have served either three years at sea and three years as Mate of a river steamer or Master of a flat, or six years as Mate of a river steamer or Master of a river flat.

2. Every such Candidate shall apply for permission to appear for examination in a printed form* to be filled up by him and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the Candidate has complied with the conditions of Rule 66 above, and that he is of sober habits and of good character. Each Candidate shall forward with his application a fee of Rs. 16, which will not be returned in case of failure.

* Copies will be supplied to intending Candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted Candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any Candidate who is not accepted shall be returned to him.

4. The examination of Candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of Pilots, assisted by two persons selected in each case by the Port Officer, holding certificates as first class Masters of Inland Steam Vessels, duly in force under these rules. But the Port Officer may at any time convene a Special Committee for the examination of Candidates under these rules.

5. Before proceeding to examine any Candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any Candidate failing to satisfy completely the usual tests for colour-blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each Candidate apart, and *viva voce*, in each and all of the following subjects:—

(1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.

(2).—The sets of the tides within the said limits.

(3).—The names of all points in the river within the said limits.

(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.

(5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.

(6).—The marks for fair channels or hauling in to reaches where such exist.

(7).—The marks for the limits of sands where such exist.

(8).—The rules of the road.

(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.

(10).—The Tide Table.

(11).—The rules of the Port of Calcutta including the prescribed Storm Signals.

(12).—The provisions of Act VI of 1884, and the rules framed under it.

7. If the Candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules

8. Every certificate of competency shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate and the other shall be kept and recorded by the Port Office.

9. No Candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

10. A candidate for a certificate as second class Master of an Inland Steam vessel must produce satisfactory certificates of sobriety and intelligence, and that he has served four years as mate of a small steam vessel or helmsman of a large steam vessel, and shall be examined by the examining body defined in rule 69 *viva voce* as to his knowledge in the following subjects:—Colours, rule of the road and lights, management of small river steamers, rules of the Port of Calcutta and storm signals.

11. A fee of Rs. 6 will be charged, which will not be returned in case of failure.

By the Honourable the Lieutenant-Governor of Bengal.

Government of Bengal.

Certificate of Competency

AS

FIRST CLASS MASTER OF AN INLAND STEAM VESSEL UNDER ACT VI OF 1884.

To

Mr. _____

Whereas it has been reported to me that you have been found, after examination, duly qualified to fulfil the duties of First-class Master of an Inland Steam Vessel under Act VI of 1884, I do hereby grant you this CERTIFICATE OF COMPETENCY *as such First-class Master.*

Given under my Hand and Seal,

By order of the Government of Bengal,

Port Officer, Calcutta.

This _____ day of _____ 18 ____.

Registered at the Office of the Port Officer.

Ceiling to be removed as Surveyor thinks necessary.

20. For examining the internal parts of the vessel, they should have parts of the ceiling removed, in order that they may ascertain the condition of the hull; they should also carefully examine the cement to ascertain its condition, and where they find it cracked or doubtful, they should extend their examination, and cause such a portion of the cement to be removed as may, in their judgment, be necessary to enable them to form a correct opinion as to the state of the vessel covered by the cement. The roses for the deck pumps, also those for the bilge pumps, should be taken out of the bilges and cleaned, and the sluices and cocks on the bulkheads inspected and put in good working order.

Examination of vessel in engine-room, coal bunkers, &c.

21. The Surveyors should examine very particularly the plating, stringers, frames, floors, &c., in the engine-room, boiler space, and coal bunkers, the bunkers of course being empty.

Entries in book.

22. The date of the last outside inspection of the bottom is to be entered in the declaration, as it is from that date that the docking time is to count. If the hull is not passed at all, or not passed for the maximum time (12 months), the fact should be noted in the declaration for the vessel. The repairs which have been executed from time to time should be recorded in the office book.

BOATS AND LIFE-BUOYS.

Dimensions of boats.

23. It will be the duty of the Surveyor to take care that all steam vessels are provided with the boats required by these rules, both as to number and cubic contents, and to see that they are efficient and in good order and ready for service, subject to the rules contained in these instructions.

Surveyors are not to insist upon the precise lengths, breadths, and depths inserted in the table, but are to approve of any efficient boats of sufficient strength, the cubic contents of which are respectively equal to, or greater than, the cubic contents of the boats specified in the table.

Rule for ascertaining the capacity of boats.

To ascertain the cubic capacity of a boat, measure the length and breadth outside and the depth inside. Multiply them together and by ·6: the product is the capacity of the boat in cubic feet.

Requisites for use in boats.

24. The Surveyors should see that in all boats the full complement of oars, including steering oar and two spare oars at least, are provided (in large boats more than two spare oars ought to be provided); that each boat has two plugs for each plughole, attached with lanyards and chains, and one set and a half of thole pins or crutches attached to the boat by sound lanyards; a bailer, a rudder and tiller, or yoke and yoke lines; painter of sufficient length, and a boat hook, the rudder and bailer to be attached to the boat by sufficiently long lanyards, and kept ready for use.

BOAT SCALE.

Tons.	Tons.	Cubic capacity.
Vessels of 100 and under 200		one boat of 120 ft.
„ of 200 and upwards		two boats of 600 „

Life-buoys, standard of.

25. As regards life-buoys. No life-buoy stuffed with rushes or with cork shavings or other shavings, or granulated cork, or any loose material should be passed. All cork life-buoys should be built of solid cork and fitted with life-lines and loops securely seized to the life-buoy, and none should be passed that will not float for 24 hours in water with 32 lb. of iron suspended from them. If life-buoys are not made of solid cork, then any other strong life-buoy of an approved pattern

may be passed that is capable of floating in the water for 24 hours with 40 lb. of iron suspended from it. No contrivance is to be passed as a life-buoy that requires inflation before use. Life-buoys with lines attached should be secured by a toggle and becket, or any other similar method, so that they can be quickly released; they must not be lashed nor seized to the rail or any other part of the vessel but must be kept so as to be ready for use at a moment's notice in case of an emergency.

Steam-launches must carry two life-buoys: vessels other than steam-launches and carrying passengers should carry life-buoys in the ratio of three for every 100 passengers carried; the maximum number need not exceed 12.

Deck pumps to be fitted.

26. There must be for each compartment a pump of sufficient size which can be worked from the upper deck. A rose or perforated box of sufficient size should be fitted at the end of the suction pipe of each pump, and means provided for clearing the end of the suction pipe. A trunk-way leading from the upper deck to the suction of each pump, large enough for a man to go down to the end of the suction pipe, is the best arrangement for this purpose. If portable pumps only are supplied, there must be a trunk-way left in each hatchway leading to the bottom of each compartment.

Deck pumps, when not worked by machinery, should have handles at least long enough for two men to work at them.

Helm indicators.

27. In passing a helm indicator, the Surveyor should ascertain by actual trial that whenever the pointer moves to the word "port" on the dial or plate, wherever that word may be, it shows that the helm is ported, and, whenever the pointer points to the word "starboard," wherever that word may be, it means that the helm is starboarded.

Meaning of port helm.

28. In the foregoing directions, it is assumed that "port helm" means that the helm is so moved as to turn the ship's head to the right, and "starboard helm" means that the helm is so moved as to turn the ship's head to the left.

The man at the helm should be so placed in steamers that frequent crowded harbours or rivers that he has a clear look-out ahead.

Leads and lines.

29. Inland steam vessels plying to places beyond thirty miles from Port of Survey must have on board two hand lead-lines of 25 fathoms each with leads of at least 7 lb. in weight each.

Anchors, chains, cables, hawsers, warps, &c.

30. Surveyors must be very careful to see that each steam-vessel they survey is provided with chain cables and anchors duly certified under the Chain Cable Acts. When the stream and kedge anchors exceed 168 lb. in weight, they also must be tested in accordance with the same Acts. The Surveyors must also see that the chain cables and anchors on board are sufficient for the service and in good condition. The chain cables must be removed from the chain lockers at least once in 12 months, cleaned if necessary, and the pins knocked out of the shackles. The shackle pins should be secured by small pins of hard wood. The spare anchors should not be stowed below, but kept where they will be ready in case they are required. Proper hawsers and warps must also be supplied.

Compass to be fitted

31. Inland steam-vessels plying to places beyond thirty miles from Port of Survey shall be supplied with a compass properly fixed and adjusted.

Rocket lockers.

32. The locker for keeping the rockets, blue lights, &c., should not be air-tight, but should have sufficient

small safe openings to allow of the escape of any moisture generated: by this means the rockets, blue lights, &c., can be kept for a long period.

Fire hose.

33. Vessels of 100 tons and upwards must be fitted with a steam fire pump; vessels of 200 tons and upwards must be supplied with a portable fire-engine in addition to the steam pump, suitable hose, and conductors, to be fitted; and in length sufficient to reach any part of the vessel. At least one fire-bucket to be carried for each of the crew. The fire-hoses should be connected stretched, to judge of their length, and thoroughly examined at every survey, and at least once a year (and at any other time that the Surveyor thinks it necessary) tested with the conductor in its place, by pumping water through them by the main or donkey engines at full speed. A proper conductor and metal bend or goose neck forms part of its equipment, and must be provided.

Deck to be caulked and have proper hatches, &c.

34. All decks and floors upon which passengers are carried must be caulked and properly secured. Sufficient light and ventilation must be provided. Proper and sufficient means of ingress and egress must be fitted.

Measurement for passengers.

35. In steamers making short daily runs, the clear space on the main deck, below the main deck or cabin and the bridge deck may be measured. The divisors being for the different decks as follows:—

Main deck	...	4·5 sq. ft. for each adult.
Below main deck or in cabin	...	9 „ „ „
Bridge deck	...	9 „ „ „

If the bridge deck be a continuous deck fore and aft and forms a permanent part of the structure of the vessel, and the vessel be sufficiently stable, it may be measured as the upper deck, in which case the decks below will be measured as below main decks at nine square feet for each adult.

For vessels making long voyages inland, and carrying coolies under the Inland Emigration Act, then the divisor will be nine square feet for each adult.

The upper or bridge deck is in no case to be measured, unless there be fitted a roof or sufficient protection from the sun, such as jaffery roof or awnings, that can be carried in all weathers.

Lights and fog signals

36. All inland steam-vessels must be supplied with lights and fog signals in accordance with the rules for sea-going steam-ships. Small steam-launches may carry lights of a reduced size, but the Surveyor must satisfy himself as to their efficiency. A steam-whistle and a bell is be supplied in every case. In small steamers the mechanical fog horn may be dispensed with.

BOILERS AND SUPERHEATERS.

Board of Trade test certificates

37. In dealing with boilers that have been made in the United Kingdom, the Surveyor should accept the certificate of the Board of Trade as to pressure to be granted, provided the boilers have been made under the Board's inspection during construction and a test certificate granted by the Board of Trade is produced. In cases where no supervision or inspection has been made during construction the Surveyor should add the factor Y in the rule 44, and such other of the factors as may under the circumstances of the case appear necessary.

The Surveyor to fix pressure on safety valves.

38. The Surveyor is required by the Act to fix the limits of weight to be placed on the safety valves of inland steam-vessels. The Surveyor having himself fixed the limits of the weight is then required to declare that in his judgment the boiler and machinery are

sufficient for the service intended, and in good condition, and that they will be sufficient for twelve months or such other period as he may, in his judgment, determine. For his guidance the following directions are given.

Working pressure to be fixed by calculation.

39. The Surveyor should fix the working pressure for boilers by a series of calculations of the strength of the various parts and according to the workmanship and material. The Surveyors should therefore receive and report on any plans of boilers intended for inland steam-vessels that may be submitted in due course with the form of application and fees. They are not to report on any tracing or plan that is not accompanied by that form, or when they have reason to believe that the boilers, when finished, are not intended to be placed on board steamers that will require survey certificates. When the Surveyor has received plans and tracings of new boilers, or of alterations of boilers, and has approved of them, he will of course be careful in making his examinations from time to time to see that they are followed in construction. When he has not had the plans submitted, but is called in to survey a boiler, he will of course measure the parts, note the details of construction, and, if necessary, bore the plates to ascertain their thickness, &c., before he gives his declaration.

The Surveyor cannot declare a boiler to be safe unless he is fully informed as to its construction, material, and workmanship. He should therefore be very careful how he ventures to give a declaration for a boiler that he is not called in to survey until after it is completed and fixed in the ship.

Respecting stays.

40. In the case of new boilers the Surveyors may allow a stress not exceeding 7,000lb. per square inch of net section on solid iron screwed stays and supporting flat surfaces, but the stress should not exceed 5,000lb. when the stays have been welded or worked in the fire.

The areas of diagonal stays are found in the following way:—Find the area of a direct stay needed to support the surface; multiply this area by the length of the diagonal stay, and divide the product by the length of a line drawn at right angles to the surface supported to the end of the diagonal stay; the quotient will be the area of the diagonal stay required.

When gusset stays are used, their area should be in excess of that found in the above way.

Girders for flat surfaces.

41. When the tops of combustion boxes or other parts of a boiler are supported by solid rectangular girders, the following formula should be used for finding the working pressure to be allowed on the girders, assuming that they are not subjected to a greater temperature than the ordinary heat of steam; and in the case of combustion chambers, that the ends are fitted to the edges of the tube plate and the back plate of the combustion box:—

$$\frac{C \times d^2 \times T}{(W-P)\,D \times L}$$ Working pressure.

W = Width of combustion box in inches.
P = Pitch of supporting bolts in inches.
D = Distance between the girders from centre to centre in inches.
L = Length of girder in feet.
d = Depth of girder in inches.
T = Thickness of girder in inches.
C = 500 when the girder is fitted with one supporting bolt.
C = 750 when the girder is fitted with two or three supporting bolts.

C = 850 when the girder is fitted with four supporting bolts.

The working pressure for the supporting bolts and for the plate between them should be determined by the rule for ordinary stays.

42. The pressure on plates forming flat surfaces is found by the following formula :— Flat surfaces of boilers.

$$\frac{C \times (T+1)^*}{S-6} = \text{Working pressure.}$$

T = Thickness of the plate in sixteenths of an inch.
S = Surface supported in square inches.
C = Constant according to the following circumstances.

C = 100 when the plates are not exposed to the impact of heat or flame, and the stays are fitted with nuts and washers, the latter being at least three times the diameter of the stay and two-thirds the thickness of the plates they cover.*

C = 90 when the plates are not exposed to the impact of heat or flame, and the stays are fitted with nuts only.

C = 60 when the plates are exposed to the impact of heat or flame, and steam in contact with the plates, and the stays fitted with nuts and washers, the latter being at least three times the diameter of the stay and two-thirds the thickness of the plate they cover.

C = 54 when the plates are exposed to the impact of heat or flame, and steam in contact with the plate, and the stays fitted with nuts only.

C = 80 when the plates are exposed to the impact of heat or flame, with water in contact with the plates, and the stays screwed into the plate and fitted with nuts.

C = 60 when the plates are exposed to the impact of heat or flame, with water in contact with the plate, and the stays screwed into the plate, having the ends riveted over to form a substantial head.

C = 36 when the plates are exposed to the impact of heat or flame, and steam in contact with the plates, with the stays screwed into the plate, and having the ends riveted over to form a substantial head.

When the riveted ends of screwed stays are much worn, or when the nuts are burned, the constants should be reduced; but the Surveyor must act according to the circumstances that present themselves at the time of survey; and it is expected that in cases where the riveted ends of screwed stays in the combustion boxes and furnaces are found in this state it will be often necessary to reduce the constant 60 to about 36.

The Surveyors should not in any case allow a greater compressive stress on the tube plates than is obtained by the following formula :— Compressive stress on tube plates.

$$\frac{(D-d) \times 15000}{W \times D} = \text{Working pressure.}$$

D = least horizontal distance between centres of tubes in inches.

d = inside diameter of ordinary tubes in inches.

T = thickness of tube plate in inches.

* If the diameter of riveted washers be at least ⅓rds the pitch of the stays, and the thickness not less than the plates they cover, the constant may be increased to 150.

When doubling plates are fitted of the same thickness as the plates they cover, and not less in width than ⅓rds of the pitch of the stays, the constant may be increased to 160.

When doubling plates cover the whole of the flat surface, the case should be submitted for the consideration of the Board.

W = extreme width of combustion box in inches from front of tube plate to back of fire box, or distance between combustion box tube plates when boiler is double ended and the box common to the furnaces at both ends.

Wet-bottomed boilers.

43. The Surveyors should take care that wet-bottomed boilers, the outside of the bottom of which cannot be seen, are lifted for inspection at least once in every four years, or oftener if the Surveyor considers it necessary. It will often be found necessary long before this to reduce the pressure, unless the boilers are lifted from their seats for the latter to judge of their efficiency. If the owners in any special case have any good reasons for not wishing to lift them when the Surveyor requires it, the Surveyor should submit the whole case to the officer authorised to grant certificates of survey. The Surveyor must recollect that he is not to certify as sufficient any boiler respecting which he cannot thoroughly satisfy himself. The Surveyor should record in the hydraulic test book the dates on which wet-bottomed boilers are inspected when lifted, and whether the boilers were out of the ship when examined, and if out of the ship where they were examined. Boilers which have been lifted should in all cases be subjected to the hydraulic test before they are re-set.

Cylindrical oilers.

44. When cylindrical boilers are made of the best material with all the rivet holes drilled in place and all the seams fitted with double butt straps, each of at least $\frac{3}{8}$ the thickness of the plates they cover, and all the seams at least double riveted with rivets having an allowance of not more than 75 per cent. over the single shear, and provided that the boilers have been open to inspection during the whole period of construction, then five may be used as a factor of safety. The tensile strength of the iron is to be taken as equal to 47,000lb. per square inch with the grain, and 40,000lb. across the grain. But when the above conditions are not complied with, the additions in the following scale must be added to the factor 5, according to the circumstances of each case:—

A†	·15	To be added when all the holes are fair and good in the longitudinal seams, but drilled out of place after bending.
B†	·3	To be added when all the holes are fair and good in the longitudinal seams, but drilled out of place before bending.
C	3	To be added when all the holes are fair and good in the longitudinal seams, but punched after bending instead of drilled.
D	·5	To be added when all the holes are fair and good in the longitudinal seams, but punched before bending.
E*	·75	To be added when all the holes are not fair and good in the longitudinal seams.
F	·1	To be added if the holes are all fair and good in the circumferential seams, but drilled out of place after bending.
G†	·15	To be added if the holes are fair and good in the circumferential seams, but drilled before bending.
H	·15	To be added if the holes are fair and good in the circumferential seams, but punched after bending.

I†	·2	To be added if the holes are fair and good in the circumferential seams, but punched before bending.
J*	·2	To be added if the holes are not fair and good in the circumferential seams.
K	·2	To be added if double butt straps are not fitted to the longitudinal seams, and the said seams are lap and double riveted.
L	·1	To be added if double butt straps are not fitted to the longitudinal seam, and the said seams are lap and treble riveted.
M	·3	To be added if only single butt straps are fitted to the longitudinal seams, and the said seams are double riveted.
N	·15	To be added if only single butt straps are fitted to the longitudinal seams, and the said seams are treble riveted.
O	1·	To be added when any description of joint in the longitudinal seams is single riveted.
P	·1	To be added if the circumferential seams are fitted with single butt straps and are double riveted.
Q	·2	To be added if the circumferential seams are fitted with single butt straps and are single riveted.
R	·1	To be added if the circumferential seams are fitted with double butt straps and are single riveted.
S††	·1	To be added if the circumferential seams are lap joints and are double riveted.
T	·2	To be added if the circumferential seams are lap joints and are single riveted.
U	·25	To be added when the circumferential seams are lap and the streaks of plates are not entirely under or over.
V‡	·3	To be added when the boiler is of such a length as to fire from both ends, or is of unusual length, such as flue boilers, and the circumferential seams are fitted as described opposite P, R, and S, but of course when the circumferential seams are as described opposite Q and T, V ·3 will become V ·4.
W	·4	To be added if the seams are not properly crossed.
X	·4	To be added when the iron is in any way doubtful, and the Surveyor is not satisfied that it is of the best quality.
Y†††	1·65	To be added if the boiler is not open to inspection during the whole period of its construction.

Where marked * the allowance may be increased still further if the workmanship or material is very doubtful or very unsatisfactory.

† When the holes are to be rimered or bored out in place the case should be specially considered as to the reduction or omission of A, B, G, and I.

‡ When boilers are comparatively short the case should be specially considered as to the omission of V as heretofore.

†† When the circumferential seams are lapped and treble-riveted the case should be specially considered.

††† When surveying boilers that have not been open to inspection during construction, the case should be specially considered as to the factors to be used.

The strength of the joints is found by the following method :—

$$\frac{(\text{Pitch} - \text{Diameter of rivets}) \times 100}{\text{Pitch}} = \left\{ \begin{array}{l} \text{Percentage of strength of plate at joint as compared with the solid plate.} \end{array} \right.$$

$$\frac{(\text{Area of rivets} \times \text{No. of rows of rivets}) \times 100}{\text{Pitch} \times \text{thickness of plate}} = \left\{ \begin{array}{l} \text{Percentage of strength of rivets as compared with the solid plate.*} \end{array} \right.$$

Then take iron as equal to 47,000lb. per square inch, and use the smaller of the two percentages as the strength of the joint, and adopt the factor of safety as found from the preceding scale—

(47,000 × percentage of strength of joint) × twice the thickness of the plate in inches.

Inside diameter of the boiler in inches × factor of safety = { Pressure to be allowed per square inch on the safety valves

In the case of zig-zag riveting, the strength through the plate diagonally between the rivets is equal to that horizontally between the rivets, when diagonal pitch = $\frac{8}{10}$ horizontal pitch + $\frac{1}{10}$ diameter of rivet.

Plates that are drilled in place must be taken apart and the burr taken off, and the holes slightly countersunk from the outsides.

Butt straps.

Butt straps must be cut from plates and not from bars, and must be of as good a quality as the shell plates, and for the longitudinal seams must be cut across the fibre. The rivet holes may be punched or drilled when the plates are punched or drilled out of place, but when drilled in place, must be taken apart and the burr taken off and slightly countersunk from the outside.

When single b utt straps are used and the rivet holes in them punched they must be $\frac{1}{8}$th thicker than the plates they cover.

* If the rivets are exposed to double shear, multiply the percentage as found by 75.

The diameter of the rivets must not be less than the thickness of the plates of which the shell is made; but it will be found when the plates are thin, or when lap joints or single butt straps are adopted, that the diameter of the rivets should be in excess of the thickness of the plates.

Dished ends must be stayed as flat surfaces; but when they are theoretically equal to the pressure needed, when considered as portions of spheres, the stays, when solid, may have a stress of 14,000lb. per square inch of net section, but the stress should not exceed 10,000lb. when the stays have been welded or worked in the fire.

Truely hemispherical ends subjected to internal pressure may be allowed double the pressure that is suitable for cylinder of the same diameter and thickness.

All man-holes and openings must be stiffened with compensating rings of at least the same effective sectional area as the plates cut out, and in no case should the plate rings be less in thickness than the plates to which they are attached. The openings in the shells of cylindrical boilers should have their shorter axes placed longitudinally. It is very desirable that the compensating rings round openings in flat surfaces be made of L or T iron. Cast iron doors are not to be passed.

The neutral part of boiler shells under steam domes must be efficiently stiffened and stayed, as serious accidents have arisen from the want of such precautions. The boilers must be tested by hydraulic pressure to twice the working pressure in the presence and to the satisfaction of the Surveyors.

45. Circular furnaces with the longitudinal joints welded or made with a butt strap:— Circular furnaces.

$$\frac{90{,}000 \times \text{the square of the thickness of the plate in inches.}}{(\text{Length in feet} + 1) \times \text{diameter in inches.}}$$

= working pressure per square inch, provided it does not exceed that found by the following formula:—

$$\frac{8000 \times \text{thickness in inches}}{\text{Diameter in inches}} = \left\{ \begin{array}{l} \text{Working pressure} \\ \text{per square inch.} \end{array} \right.$$

The second formula limits the crushing stress on the material to 4,000lb. per square inch.

The length is to be measured between the rings if the furnace is made with rings.

If the longitudinal joints instead of being butted are lap jointed in the ordinary way, then 70,000 is to be used instead of 90,000, excepting only where the lap is bevelled and so made as to give the flues the form of a *true* circle, when 80,000 may be used.

When the material or the workmanship is not of the best quality, the constants given above must be reduced, that is to say, the 90,000 will become 80,000; the 80,000 will become 70,000; the 70,000 will become 60,000; and when neither the material nor the workmanship are of the best quality, such constants will require to be further reduced, according to circumstances and the judgment of the Surveyor, as in the case of old boilers. One of the conditions of best workmanship is that the joints are either double riveted with single butt straps, or single riveted with double butt straps, and the holes drilled after the bending is done and when in place, and after-

wards taken apart, the burr on the holes taken off, and the holes slightly countersunk from the outside.*

The working pressure for corrugated furnaces, practically circular and machine-made, provided the plane parts at the ends do not exceed six inches in length, and the plates are not less than $\frac{7}{16}$ inch thick, should not be greater than found by the following formula:—

$$\frac{9000 \times \text{thickness in inches}}{\text{mean diameter in inches}} = \left\{ \begin{array}{l} \text{Working pressure per} \\ \text{square inch.} \end{array} \right.$$

When the furnaces are riveted in two or more lengths the case should be submitted for consideration, as it may be necessary to make a deduction.

Cylindrical superheaters.

46. The strength of the joints of cylindrical superheaters and the factor of safety are found in a similar manner as for cylindrical boilers and steam receivers, but instead of using 47,000lb. as the tensile strength of iron 30,000lb. is adopted, unless where the heat or flame impinges at, or nearly at, right angles to the plate; then 22,400lb. is substituted.

When a superheater is constructed with a tube subject to external pressure, the working pressure should be ascertained by the rules given for circular furnaces, but the constants should be reduced as 30 to 47.

In all cases the internal steam pipes should be so fitted that the steam in flowing to them will pass over all the plates exposed to the impact of heat or flame.

Superheaters should, as regards survey, be deemed to be the *most important parts* of the boilers, and must be inspected *inside and outside*; those that cannot be entered on account of their size or arrangement must have a sufficient number of doors through which a thorough inspection of the whole of the interior can be made.

Special attention should be paid to the survey of superheaters, as, with high pressure, the plates may become dangerously weak, and not give any sound to indicate their state when tested with a hammer; the plates should therefore be occasionally drilled.

Before commencing the survey, it is prudent to question the Engineer Officers as to the tendency of boilers to flame. If flaming is a frequent occurrence, extra care must be taken in the survey, and in fixing the pressure to be allowed as the tensile strength of the plate, when heated, is often reduced to about four tons per square inch. Drain pipes must in all cases be fitted to superheaters, in which a collection of water in the bottom is possible.

---

* The following examples will serve to shew the application of the constants for the different cases that may arise:—

Furnaces with butt joints and drilled rivet holes.	90,000	when the longitudinal seams are welded.
	80,000	where the longitudinal seams are double riveted and fitted with single butt straps.
	80,000	where the longitudinal seams are single riveted and fitted with single butt straps.
	80,000	where the longitudinal seams are single riveted and fitted with double butt straps.
Furnaces with butt joints and punched rivet holes	85,000	where the longitudinal seams are double riveted and fitted with single butt straps.
	75,000	where the longitudinal seams are single riveted and fitted with single butt straps.
	85,000	where the longitudinal seams are single riveted and fitted with double butt straps.
Furnaces with lapped joints and drilled rivet holes.	80,000	where the longitudinal seams are double riveted and bevelled.
	75,000	where the longitudinal seams are double riveted and not bevelled.
	70,000	where the longitudinal seams are single riveted and bevelled.
	65,000	where the longitudinal seams are single riveted and not bevelled.
Furnaces with lapped joints and punched rivet holes.	75,000	where the longitudinal seams are double riveted and bevelled.
	70,000	where the longitudinal seams are double riveted and not bevelled.
	65,000	where the longitudinal seams are single riveted and bevelled
	60,000	where the longitudinal seams are single riveted and not bevelled.

In the case of upright fire boxes of donkey or similar boilers, 10 per cent. should be deducted from the constant given above, applicable to the respective classes of work.

Safety valve for superheaters.

47. Superheaters that can be shut off from the main boilers must be fitted with parliamentary safety valve of sufficient size, but the least size passed should be 3 inches diameter.

The flat ends of all boilers, as far as the steam space extends, and the ends of superheaters, should be fitted with shield, or baffle-plates, where exposed to the hot gases in the uptake; as all plates subjected to the direct impact of heat or flame are liable to get injured unless covered with water.

STEEL BOILERS.

48. As there is up to the present time a certain amount of uncertainty about the quality of steel no allowances can be given for steel over iron unless the plates, &c., have been tested and the conditions, as laid down in the following rules, be carried out. In cases where the boilers have been made in the United Kingdom, the Surveyors should accept the test certificate of the Board of Trade, if made under Board of Trade's supervision.

Owners cannot expect a Surveyor to give the full allowances for a steel boiler unless an opportunity has been afforded him of seeing that the material and workmanship are such as to warrant him in making such allowances.

49. The following should guide the Surveyors when the general quality of the steel has been found suitable for marine boilers.

Maker's test.

The steel-makers or boiler-makers should test one or more strips cut from each plate for tensile strength and elongation, and stamp both results on a part of the plate, where they can be easily seen when the boiler is constructed.

Surveyor's tests.

The Surveyor is not obliged to witness the foregoing tests, although it is very desirable that he should, when his other duties will allow him to do so, but he should, however, select at least one in four of these plates, either at the steel works or the boiler-maker's works, and witness the testing of at least one strip cut from each selected plate.

Rivet tests.

A few rivets of each size should be selected, and should be turned and tested for tensile stress. The tensile stress should be from 28 tons to 32 tons per square inch, with a contraction of area of about 60 per cent.

Tensile and bending tests.

If for the plates from which the Surveyor selects the above proportions a greater stress is wished than is allowed for iron, tests for tensile stress and elongation should be made, and those for which no reduction of thickness is asked may be tested for resistance to bending if preferred.

Test strips

The breadth of tests trips for tensile stress should be about two inches, and the elongation, taken in a length of ten inches, should be about 25 per cent., and not less than 20 per cent. The test strips must be carefully prepared and measured, and they should be cut from the plate by a planing or shaping machine.

Bending tests.

The bending tests for plates *not* exposed to flame should be made with strips in their normal condition; but strips cut from furnaces, combustion boxes, &c., should be heated to a cherry red, then plunged into water of about 80°, and kept there until of the same temperature as the water, and then bent. The bending strips should not be less than two inches broad and 10 inches long, and they should be bent until they break, or until the sides are parallel at the distance from each other of not less than (3) three times the thickness of plate.

Tensile stress, &c. The tensile stress of the plates *not* exposed to flame should be about 28 tons, and should not exceed 32 tons per square inch of section and 28 tons should be the stress used in the calculations for cylindrical shells if the plate comply with all the conditions as stated herein; but when the minimum tensile stress of shell plates exceeds 28 tons, and allowance is wished for the excess, the case should be specially submitted for the consideration of Government. The tensile stress of furnace flanging and combustion box plates should range from 26 tons to 30 tons per square inch.

Annealing. All plates that are punched, flanged, or locally heated must be carefully annealed after being so treated.

Perforating and annealing. The rivet holes in the furnaces and longitudinal seams of cylindrical shells should be *drilled*; but if it is wished to punch them, and afterwards bore or anneal the plates in a proper furnace, the proposed method of the punching and boring or annealing should be submitted for consideration before being done; but all punched holes should be made after bending.

In all cases where assent has been given for plates to be punched after bending and then annealed, the makers should stamp the plates with the words "punched after bending and then annealed," and in all cases where assent has been given for punching and afterwards boring plates, the words "punched and then bored" should be stamped on the plates.

Stress on stays. Bars for stays should be tested. Solid steel screwed stays which have not been welded or otherwise worked after heating may be allowed a working stress of 9,000lb per square inch of net section, provided the tensile stress is from 28 to 32 tons per square inch, and the elongation in 10 inches about 25 per cent. and not less than 20 per cent. Steel stays which have been welded or worked in the fire have been found to be unreliable, therefore they should not be passed.

Constants for flat surfaces. If the flanging plates and those exposed to flame comply with the foregoing conditions, the constant in the rules for iron boilers may be increased as follows:—

The constants for flat surfaces when they are supported by stays screwed into the plate and riveted 10 per cent.

The constants for flat surfaces when they are supported by stays screwed into the plate and nutted, or when the stays are nutted in the steam space, 25 per cent. This is also applicable to the constants for flat surfaces stiffened by riveted washers or doubling strips and supported by nutted stays.

The constants for combustion box girders 10 per cent.

Furnaces, plane and corrugated. The furnace constants about 10 per cent. when plane. When new corrugated and machine-made, and practically true circles, the working pressure is found by the following formula, provided that the plane parts at the ends do not exceed 6 inches in length, and the plates are not less than $\frac{5}{16}$ inch thick:—

$\frac{12500 \times T}{D}$ = working pressure.

T = thickness in inches.

D = mean diameter in inches.

(If the furnace is riveted in two or more lengths, the case should be submitted for consideration.)

Compressive stress on tube plates. A greater compressive stress should not be allowed on tube plates that than found by the following formula:—

$\frac{(D-d)\ T \times 20000}{W \times D}$ = working pressure.

D = least horizontal distances between centres of tubes in inches.

d = inside diameter of tubes in inches.

T = thickness of tube plate in inches.

W=extreme width of combustion box in inches from front of tube plate to back of fire box, or distance between combustion box tube plates when boiler is double-ended and the box common to the furnaces at both ends.

Plate and rivet section.

The rivet section, if of iron, in the longitudinal seams of cylindrical shells, where lapped and at least double riveted, should not be less than $\frac{1}{7}$ times the net plate section; but if steel rivets are used, their section should be at least $\frac{1}{13}$ of the net section of the plate, if the tensile stress of the rivets is not less than 28 tons and not more than 32 tons per square inch. Therefore in calculating the working pressure the percentage strength of the rivets may be found in the usual way by the foregoing rules, but in the case of iron rivets, the percentage found should be divided by $\frac{1}{7}$, and in the case of steel rivets by $\frac{1}{13}$, the result being the percentages required. If the percentage strength of the rivets by calculation is less than the calculated percentage strength of the plate, calculate the working pressure by both percentages. When using the percentage strength of the plate, use the nominal factor of safety suitable for the method of construction, as by the rules for iron boilers; but when using the percentage strength of rivets, use 5 as the factor of safety. The less of the two pressures so found is the working pressure to be allowed for the cylindrical portion of the shell.

Local heating to be avoided.

Local heating of the plates should be avoided, as many plates have failed from having been so treated.

Welding, &c.

Steel plates which have been welded should not be passed if subjected to a tensile stress, and those welded and subject to a compressive stress should be efficiently annealed.

In other respects the boilers should comply with the rules for iron boilers.

If the tests are to be made at the steel works, the boiler-makers should inform the Surveyors in their district when and where they will be made, so that the Surveyor from the nearest district to the steel works may be instructed to attend to them. The Surveyor should have due notice two or three days when the plates, &c., will be ready for the test pieces to be cut from them. (Surveyors should report all cases of failures of steel plates, &c., which may come to their knowledge).

Steel for superheaters &c.

When steel is used in superheaters, or in the uptakes of boilers, the parts where the flame impinges at or nearly at right angles to the plate must be protected with baffle plates; but in all cases steel should be discouraged for this purpose.

This applies to the unshielded uptakes of all boilers, including ordinary vertical donkey boilers.

Makers of steel

50. When the steel is not to be made by any of the following makers, the case will receive the special consideration of the Government, and this should be specially noted by the Surveyors:—

Messrs. Beardmore.
" J. Brown & Co.
" C. Cammell & Co.
Mr. D. Colville.
The Landore Steel Company.
The Leeds Forge Company.
The Steel Company of Scotland.
The Weardale Iron and Coal Company.
The West Cumberland Iron and Steel Company.

Boiler, tracings, &c.

51. Difficulty has been experienced with regard to the survey of steel boilers, owing to the fact that some makers were not aware, at the time the boilers

were commenced, that a survey certificate would be necessary, and the makers have therefore omitted to submit tracings until the boilers have been nearly completed. Tracings of boilers may therefore be received for examination upon payment of the usual fee of Rs. 50, and the Surveyors may proceed as far as witnessing the hydraulic test before any further instalment of the survey fee is paid Engineers and boiler-makers should be advised of this arrangement.

BOILERS, GENERAL.

Donkey boilers. 52. Donkey boilers that are in any way attached to, or connected with, the main boilers, or with the machinery used for propelling the vessel, must be surveyed and be fitted the same way as the main boilers, and have a water and steam gauge, and all other fittings complete, and, as regards safety valves, must comply with the same regulations as the main boilers.

Stop valves. 53. No boiler or steam chamber is to be so constructed, fitted, or arranged so that the escape of steam from it through the safety valve required by these rules can be wholly or partially intercepted by the action of any other valve.

A stop valve must always be fitted between the boiler and the steam pipe, and, where two or more boilers are connected with a steam receiver or superheater, between each boiler and the superheater or steam receiver. The object of this is obvious, viz. to avoid the failure of all the boilers through the failure of one. The necks of stop valves should be as short as practicable.

Gauges, &c. 54. Each boiler must be fitted with a glass water-gauge, at least two test cocks, and steam-gauge; that is to say, each boiler must be fitted with all fittings as complete as if there were only one boiler. Boilers that fire both ends, and those of unusual width, must have water-gauges and test cocks at each end or side, as the case may be. When a steamer has more than one boiler, and these boilers are fitted with stop valves each boiler must be treated as a separate one, and have all the requisite fittings.

Boilers to be tested when too small to enter. 55. When the boilers are not large enough for the Surveyors to get into, they should see them tested by hydraulic pressure at every annual survey at least The hydraulic test should also be applied at every intermediate survey if the Surveyor considers it necessary. In the case of old boilers the Surveyors must use their own judgment as to the necessary pressure to be applied. This is in no way to interfere with the instructions to test all new boilers to double their working pressure, nor with the proper internal examination of all boilers that are large enough for the Surveyors to get into.

Whenever it is only stays that prevent getting in he may order their removal, and he must see them properly replaced before granting his declaration.

Surveyors not to go into hot boilers. 56. If the boiler is too hot for the Surveyor to examine the inside efficiently, and with safety and convenience, he should decline to examine the boiler, and absolutely refuse to grant a declaration, until he can make an efficient internal examination.

Strength of boilers to be ascertained, and working pressure fixed by calculation. 57. Before testing a boiler, the Surveyor should examine it, take the necessary measurements, and calculate what the working pressure should be in accordance with the regulations, and only test to double the working pressure; if the test is not satisfactory the defects must be made good, and the boiler re-tested.

This instruction applies to superheaters and steam chests as well as to boilers

The Surveyor who grants the declaration must examine the boilers thoroughly, and will be held responsible for the pressure allowed.

Hydraulic test.

58. Surveyors should see all new boilers, and boilers that have been taken out of the ship for a thorough repair, tested by hydraulic pressure up to at least double the working pressure that will be allowed previous to the boilers being placed in the vessel, to test the workmanship, &c.; but the working pressure is to be determined by the strength of stays, thickness of plates, and strength of riveting, &c., and not by the hydraulic test.

The hydraulic test should in no case exceed twice the calculated working pressure of the boiler, and it is never to be applied until the boiler has been examined in accordance with paragraph 57 and until the strength has been calculated from the necessary measurements taken from the boiler itself.

When the boilers are in the vessel the Surveyor may, at any time he thinks it necessary, before he gives a declaration, have them tested by hydraulic pressure to satisfy himself as to any doubtful part, or of places not easy of access, care being taken in the case of old boilers not to overstrain them; but the test must always exceed the working pressure.

Surveyors should pay particular attention to the examination and testing of steam pipes.

The hydraulic test should be applied to the boilers of all steamers that have not previously had a survey certificate before a declaration is granted for them.

The amount of the hydraulic pressure test and the date on which it was applied to the boilers should be inserted in the Surveyor's declaration and recorded in the office boiler book.

Cast iron in boilers and steam pipes.

59. In all boilers in which the Surveyors find that cast iron is employed in such a manner as to be subject to the pressure of steam or water, great care must be taken. Cast iron must not be used for stays, and Surveyors should also discourage the use of cast iron for chocks and saddles for boilers. Particular attention should be paid to the chocking of boilers, more especially when they are fired athwartships.

Pressure fixed by one Surveyor not to be increased by another.

60. A pressure once allowed on the boiler of an inland steam-vessel is not to be increased unless, in cases where a Surveyor is of opinion that an increased pressure may with safety be allowed, he has communicated with the Surveyor who last surveyed the vessel; and on learning the reasons why the existing pressure was formerly allowed, the Surveyor is of opinion that it may be increased.

60A. Before granting a declaration or certificate of survey for a steam-vessel where the boilers and machinery are in charge of a native driver, the surveyor should require the production of a certificate either from the Superintending Engineer or from some respectable engineering firm to the effect that the pressure gauges on the boiler or boilers have been overhauled and adjusted and are in proper order.

SAFETY VALVES.

Provisions of the Act as regards safety valves.

61. Every inland steam vessel shall be provided with a safety valve upon each boiler, so constructed as to be out of the control of the Engineer when the steam is up, and if such valve is in addition to the ordinary valve, it shall be so constructed as to have an area not less, and a pressure not greater, than the area of and pressure on that valve.

The Surveyors are instructed that in all *new boilers*, and whenever *alterations can be easily made*, the valve chest should be placed directly on the boiler; and the neck, or part between the chest and the flange which is bolted on to the boiler, should be as short as possible and be cast in one with the chest.

The Surveyors should note that it is not intended by this instruction that vessels with old boilers which have been previously passed with such an arrangement should be detained for the alterations to be carried out.

Of course in any case in which a Surveyor is of opinion that it is positively dangerous to have a length of pipe between the boilers and the safety valve chest, it is his duty at once to insist on the requisite alterations being made before granting a declaration.

If any person places an undue weight on the safety valve of *any* steam ship, or increases such weight beyond the limits fixed by the Engineer-Surveyor, he shall, in addition to any other liabilities he may incur by so doing incur a penalty not exceeding one thousand rupees.

The Engineer-Surveyor shall declare, amongst other things, the limits of the weight to be placed on the safety valves; that the safety valves are such, and in such condition as required by these rules, and that the machinery is sufficient for the service for the time he fixes, and is in good condition for that time.

Area of safety valves.

62. The area of Government safety valves, or (when there is more than one) the combined area of the Government safety valves should be not less per square foot of fire grate surface than that given in the following table opposite the boiler pressure intended, provided the valve is not less than three inches in diameter, or where there are two valves the diameter is not less than two inches for each valve.

When, however, the valves are of the common description, and are made in accordance with the tables, it will be necessary to fit them with springs having great elasticity, or to provide other means to keep the accumulation within moderate limits.

If there is only one safety valve on a main boiler, the Surveyor should not grant a declaration without first referring the case to Government for special instructions.

In the case of small boilers, such as launch boilers, if it is wished to fit valves smaller than three inches diameter, the case should be submitted for the consideration of Government.

Safety valve areas.

Boiler pressure.	Area of valve per square foot of fire-grate.	Boiler pressure.	Area of valve per square foot of fire-grate.	Boiler pressure.	Area of valve per square foot of fire-grate.

63. The Surveyor in his examination of the machinery and boilers is particularly to direct his attention to the safety valves, and whenever he considers it necessary, he is to satisfy himself as to the pressure on the boiler by actual trial. Examination of safety valve

The Surveyor is to fix the limits of the weights to be placed on the safety valves, and the responsibility of not issuing a declaration before he is fully satisfied on the point is very grave. The law places on the Surveyors the responsibility of "declaring" that the boilers are in his judgment sufficient with the weights he states.

The Surveyor is to examine the whole of the valves, weights, and springs at every survey.

64. When the Surveyor has determined the amount of pressure, he is to see the valves weighted accordingly, and the weights or springs fixed in such a manner as to preclude the possibility of their shifting or in any way increasing the pressure. The limits of the weight on the valves is to be inserted in the declaration, and should it at any time come to a Surveyor's knowledge that the weights or the loading of the valve have been shifted, or otherwise altered, or that the Surveyor see valves weighted.

valve has been in any way interfered with, so as to increase the pressure, he is at once to report the facts to Government.

Spring safety-valves.

65. If the following conditions are complied with, the Surveyor need raise no question as to the substitution of spring loaded valves for dead weighted valves:—

(1) That at least two separate valves are fitted to each boiler, except in the case of donkey or other small boilers, in which the grate surface does not exceed 14 square feet, in which case a single safety valve may be passed, provided it is not less than three inches in diameter.

(2) That the valves are of the proper size.

(3) That the spring and valve be so cased in that it cannot be tampered with.

(4) That provision be made to prevent the valve flying off in case of the spring breaking.

(5) That the requisite safety valve area is cased in the usual manner of Government valves.

(6) That screw lifting gear be provided to ease all the valves as by paragraph .

(7) That the size of the steel of which the spring is made is to be found by the following formula:—

$$\sqrt[3]{\frac{s \times D}{c}} = d.$$

s=the load on the spring in lb.

D=the diameter of the spring (from centre the centre of wire) in inches.

d=the diameter or side of square of the wire in inches.

c=8,000 for round steel.

c=11,000 for square steel.

(8) That the springs be protected from the steam and impurities issuing from the valves.

(9) That when valves are loaded by direct springs, that the compressing screw abuts against a metal stop or washer, when the load sanctioned by the Surveyor is on the valve.

In no case is the Surveyor to give a declartion for a spring loaded valve, unless he has examined it and is acquainted with the details of its construction, and unless he has tried it under full steam and full firing for at least 20 minutes with the feed-water and stop valve shut off. If the accumulation of pressure exceeds 10 per cent. of the loaded pressure, he should not give his declaration.

Owners, masters, and Engineers to see that valves are kept in proper order.

66. It is clearly the duty of the masters and engineers of vessels to see, in the intervals between the surveys, that the Government safety valve or valves, as well as the other safety valves and the rest of the machinery, are in proper working order. There is no provision in the Inland Steam-vessels Act, exempting the owner of any vessel, on the ground that she has been surveyed, from any liability, civil or criminal, to which he would otherwise be subject. The Government safety valve is to be out of the control of the engineers when the steam is up; this enactment, far from implying that he is not to have access to it, and to see to its working at proper intervals when the vessel is in port, rather implies the contrary; and the master should take care that the engineer has access to it for that purpose. A substantial lock, that cannot be easily tampered with, and as far as possible weather-proof, should be used for locking up the safety-valve boxes.

All tests for pressure and accumulation are to be made with proper gauges.

67. In witnessing the hydraulic tests of boilers, &c., and in witnessing all safety valve tests for accumulation of pressure, the Surveyors are to use the pressure gauges supplied to them for the purpose.

MACHINERY, &c.

What machinery is to be surveyed.

68. The machinery to be surveyed comprises the engines and boilers used for propelling the vessel, and all the machinery connected therewith. The boilers of donkey engines are to be surveyed with the boilers and machinery of the vessel, when they are in any way connected with them.

When to be taken to pieces for examination.

69. Surveyors should, before granting declarations for any period exceeding six months, be careful when examining the machinery—(1) to have the upper brasses of all bearings taken off; (2) the shaft turned round and carefully examined; (3) the cylinder covers and junk rings lifted for examination of the pistons and cylinders; (4) the slide covers or bonnets removed for examination of the slides, and if necessary, the slides taken out; (5) the air and circulating pump covers lifted for examination of the pump buckets and valves; (6) the covers of all feed and bilge pump valves removed for the examination of the valves; (7) all discharge valves and sea-cocks taken out for examination; (8) the propeller shaft to be drawn when necessary, and it and the screw to be examined, and in all cases in which the shaft is drawn, it is to be seen again after the screw is secured in its place; (9) the bridges and fire bars to be removed to permit of a thorough examination of the boilers and furnaces; (10) all cocks and valves on the boilers to be taken out and examined.

When a Surveyor has seen the machinery of a new steamer in the shop before it was put together, and is satisfied with it, it will not be necessary to have it again opened up on board the ship on the first survey for examination, unless in the Surveyor's judgment it is necessary after the vessel has been tried under steam.

It will rest with owners to determine whether or not they will have a certificate for any period exceeding six months; but if they do so determine, then the above instructions are to be complied with before a declaration is granted.

The above instructions are also to apply at least once a year to the survey of all inland steam vessels, whatever may be the period for which the declarations are given. The examination of sea cocks and outside connections can be made when the vessel is in dry dock or beached.

After the examination of the parts has been made as above, the machinery must, when the Surveyors consider it necessary, be tried under steam at full pressure.
